DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Arches National Monument
Moab, Utah

January 27, 1932

Memoandum

To: General Superintendent

From: Superintendent, Arches

Subject: Monthly Narrative Report for the month of January, 1932,
Arches National Monument

WATER: The stormy weather which started in November is still with us, bringing 7 inches of snow on January 7 & 8 and several light snow and rain storms since. Four nights of below zero temperatures occurred, the lowest being 3 degrees below. The entire month has been an exceptionally cold one.

TRAFFIC: Only 31 cars carrying 101 people entered the area, which is a decrease of 324 percent from the same period last year. We blame it on the cold, stormy weather, for during January 1931 only .52 inches of precipitation was recorded at Moab as compared to the 1.54 inches for January 1932.

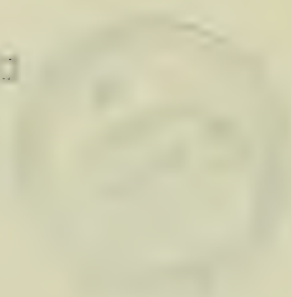

INTERPRETIVE SERVICE: Five parties were contacted at Headquarters and none in the monument. Eighty-three visitors registered and apparently viewed the Wayside Exhibit. We estimate that the same number used the Cowdrey Trail.

SIGNS: The new Headquarters Entrance sign was placed and is certainly an improvement over the old one. The State Highway Dept. has not yet installed the one-mile warning signs and directional sign at the junction of US-160 and State Route-33; however they have promised to have them in before spring. Maintenance man Linbourn is now working on a Masonite lettering set which will speed up the sign project and also give us uniform letters.

ROADS: Running dangerously low on funds we have limited road maintenance to snow removal and repair of washouts; however the monument roads are all in good shape. It has been necessary to close State Route-33 three times during the month, because of washouts and heavy snow.

REHABILITATION PROJECTS: Foul weather and a shortage of personnel have brought the rehabilitation projects to a standstill. In quarters #1 the painting and refinishing of the floors was postponed until after the middle of February, when Ranger Fortington will return from White Sands and I will be able to take annual leave which will enable me to remove my family from the house until at least the floors are finished.

Mr. [Name] [Address]
[City] [State] [Zip]

Dear Mr. [Name]:

I am very pleased to hear from you and to learn that you are interested in the National Park Service. We are always looking for people who are interested in the natural and cultural resources of our country.

You may wish to consider a career in the National Park Service. We offer a variety of positions, from ranger to administrative staff. We also offer excellent benefits and a chance to work in some of the most beautiful areas of the country.

If you are interested in learning more about the National Park Service, please write to me at the address above. I will be happy to provide you with more information and to answer any questions you may have.

Sincerely,
[Signature]

REMARKS: Ranger Fortington, on January 5, left for White Sands National Monument where he will spend about a month assisting with the construction of their new restrooms.

General: Maintenance and Fishburn has just finished the construction of a grass rack, a structure badly needed here for many years. He has also remodeled our tool room giving everything a place and putting it in its place.

Time: 10:00 AM - 12:00 PM

Subject: Ranger Fortington's report on his trip to White Sands National Monument

James E. Wilson
Superintendent

During his trip to White Sands National Monument, Ranger Fortington has observed the excellent work being done by the staff of the monument. He has also observed the excellent work being done by the staff of the monument. He has also observed the excellent work being done by the staff of the monument.

NATIONAL PARK SERVICE
AZTEC INDIAN NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 January 1962

Memorandum

To: General Superintendent
From: Superintendent Aztec Ruins
Subject: Report 1ml, Superintendent's Monthly Narrative

WEATHER: Everything Mother Nature could do in the way of winter weather she has done. Passes to the north blocked for days with snow and slides after each storm, much snow, sleet and some rain with raw cold winds have combined to make this a memorable January in the minds of even the old timers.

MAINTENANCE: We have spent considerable time and effort in snow removal from the roofs of the covered rooms and have attempted to remedy appearing leaks.

INTERPRETIVE SERVICES: There were 331 visitors in 98 parties shown thru the museum, of these 207 in 40 parties were conducted thru the ruins.

DECREASE IN TRAVEL: There has been an approximate decrease of 61% from travel a year ago with 331 visitors in 98 cars from 19 states and Canada. We feel the drop is due to the extreme winter, with main travel routes closed much of the month.

Museum Activities: We have been quite active in replacing signs in our Museum cases and photographing case contents. Some of the displays have been rearranged for better visibility.

BIRD AND OBSERVATION: Another first for this area in our bird life is a result of the heavy winter weather which has apparently forced some of the high, Alpine country birds to lower levels in search of food. A very large ^{mixed} flight of ^{and Brown Coppel} ^{rosy} Finches was observed near the monument. This finch (*Leucosticte australis*) normally lives at and above timber line, in this locality at about 10 thousand feet, so their appearance here was quite unusual.

VISITORS: Gordon Vivian and Roland Richert have been in to photograph ruins stabilization work which was completed during the past summer.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

January 20, 1952

Memorandum

To: General Superintendent
From: Superintendent, Bandelier
Subject: Narrative Report for January, 1952

Weather

The weather during January was considerably colder than in December with temperatures ranging from 1 degree above zero on the 4th of January to 59 on the 19th. After the 10th of the month temperatures did not go below 15 degrees.

A total of 1.40 inches of moisture was received but much of this came in the form of rain on the 13th and 14th. Since the ground was frozen most of this ran off and did little good. However, the snow is piling up at higher elevations and an adequate water supply seems assured for this spring.

Special Activities

The Superintendent made a trip to Albuquerque to confer with the concessioner and proposed sub-concessioner in order to work out a satisfactory agreement between them.

The State Highway Department advised us that the request for Federal funds money to be used to complete the unpaved section of the approach road has cleared the Bureau of Public Roads office and has been sent to Washington for approval.

Maintenance

The carving was completed on the large entrance sign to make a double-faced sign out of it since it is to be installed at a new location.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELLER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

One bedroom in residence 2 and three bedrooms in residence 4 were repainted during the month.

Work was started to repaint the bathrooms in the lodge cabins and two of them were completed.

The kitchen sink in residence 1 was taken out and re-installed in a more satisfactory and sanitary manner.

Road and Trails

The approach road was graded three times during the month, once to remove snow and twice to repair damage by rain. It is now smooth and in good condition.

Some work was necessary on the ruins trail to repair places that washed out during a heavy shower.

The Atomic Energy Commission plans to construct an additional one and one-half miles of the approach road from 1A-33 to the bottom of Ancho canyon. The survey for this construction was started this month.

Concessions

The new 100 gallon electric water heater for the lodge kitchen was received and the old gas heaters removed.

The sub-concession agreement for the operation of the dining room is nearly ready to be submitted to approval. The points on which there was disagreement have been reconciled and the final draft will be prepared by Mrs. E. C. Frey in the near future.

Interpretive Service

A survey was made of the nature trail to determine the additional plants that it will be desirable to transplant along it. Information was also secured for some of the signs that are needed along the nature trail and the trail side exhibit at Rainbow House.

A total of 378 visitors were conducted on 41 tours of the ruins.

Ranger Turney accomplished quite a bit of work on the herbarium and fact file. Common names were assigned to specimens collected in 1948 by Lloya Hurley, and two sets of reference cards were prepared listing the common and scientific names.

Travel

For the first time in three months travel showed an increase over the corresponding period last year. There were 1013 visitors as compared with 890 for January 1951.

Ranger Service

Supervisory Ranger Keefe was away for three weeks on military and annual leave to attend a naval reserve training school in administration at New Orleans.

Building Fire Protection

A quarterly inspection of fire hazards in all buildings was completed the first of the month and the report on the annual inspection of fire hazards was prepared and submitted.

Personnel

Laborer Augustine Pino, an Indian from La. Pueblo, was selected as "Fiscala Teniente", one of the four major positions in the pueblo and will serve for a one year term. He is required to remain in the pueblo during this period.

Miscellaneous

When we tend to get discouraged due to lack of funds with which to accomplish the things that we know that our areas need, or other pressing problems, we should read "Steve Father of the National Parks". We are sure that an awareness of the early problems of the National Park Service, and of the enthusiasm, energy, and ingenuity with which Father and others solved them, will make ours seem less difficult. Reading this inspiring book has given us a deeper sense of pride in the National Park Service and it is wholeheartedly recommended to anyone who has not read it.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Canyon de Chelly National Monument
Chinle, Arizona.

January 26, 1952

Memorandum

To: General Superintendent
From: Superintendent, Canyon de Chelly
Subject: Monthly Narrative Report for January, 1952

Weather: We've been hit with about everything in the form of rain, snow, sleet, hail, and blizzard conditions. Snow reached a depth of six inches in the monument. In the intervals between storms temperatures dropped to 8 below zero and seldom reached above freezing. 1.62 inches of precipitation fell during the month.

Visitor Travel: There were no visitors to this area this month and for very good reasons.

Roads: All approach roads impassable except the Canado-Window Rock Highway - even that was closed part of the time. Due to snow and frozen ground conditions no work was done on the monument roads.

Administration: Ranger Morris departed on January 5 for White Sands National Monument, on temporary assignment, where he will assist in the construction of two comfort stations. One trip was made to Gallup to obtain a load of propane gas.

Maintenance: General straightening up and improving the appearance of the headquarters area. All exterior woodwork of buildings was given a heavy coating of linseed oil. Work has been started on a 2' wide x 4' high x 100' long stone retaining and flood water diversion wall on the west side of the Adm. building. When completed this will not only serve a very useful purpose, but will add materially to the appearance of the headquarters area. This work will continue as time permits.

Rehabilitation Project: Due to constant subfreezing temperatures work on the exterior plastering of the Superintendent's residence was held to a minimum. However, with any sort of a decent break in the weather this job will be completed without delay and completion reports will be submitted probably sometime in February.

Capulin Mountain NATIONAL MONUMENT

Capulin New Mexico,

January 28, 1952, 19

Memorandum

To: General The General Superintendent
Southwestern National Monuments
National Park Service
Santa Fe New Mexico,
From: Homer J. Farr, Acting Superintendent
Subject: Monthly Narrative Report,

VISITORS Just about six hundred visitors this month, bringing the total to four thousand fifty for the travel year to date and the total for the fiscal year to date to twenty thousand five hundred fifty,

Weather; about six inches of snow fell on the first of the month and only slight traces since that day. Three partly cloudy days during the month, considerable ice most of the days and extra heavy southwest winds for about ten days at intervals,

Flora and Fauna; I would say that our flora is not doing too well. I note some the pinon trees are dying at the top, indicates lack of moisture, while I note that the weather bureau gave us fourteen inches of precipitation during 51, I also noted this was very spotty, and it is believed that this monument did not receive more than ten, while fifteen miles southwest of us I believe the rainfall more than 25, for the lakes filled with water and are still full,

Roads and Trails; The road has been graded three times this month but was in poor condition part of the time, the dry weather and highwinds necessitated constant rock picking from the road, nothing has been done to the trails this month,

Special Visitors; None that has come to my attention,
Information pamphlets;

Two hundred fifty pamphlets have been mailed and handed out this month, I now have on hand two hundred, plus, a shipment just arrived in the mail but I have not had time to count/ them as yet will try to get the count in next report,

Very Respectfully,

Homer J. Farr
Acting Supt.

CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

January 25, 1952

Memorandum

To: General Superintendent, SWNM

From: Superintendent, Casa Grande

Subject: Monthly Narrative Report for January, 1952.

General: The big talk this month has been the increase water storage on all the local reservoirs and the improved outlook for water on the San Carlos irrigation project. The San Carlos Reservoir, which has for the past few years been nearly without water, has collected some 100,000 acre feet of water; the reservoirs north of here along the Salt River have done much better. There are two points of view about the recent rains -- the weather bureau believes that the drouth, now in its tenth year, has been broken -- the bureau of conservation seems to think that there has been an easing up, but that the general conditions are still those of a drouth. Whosoever is right we don't know, but the desert looks good, and if the annual flowers come out this spring as well as the grasses have this winter, then we should have a good year for wild flowers and cactus blossoms.

Weather: The weather has suffered from a chronic condition of clouds. Some have brought a slight amount of precipitation; mostly they just chill things and let it go at that. The sunny days have been wonderful; the precipitation, in this area, has been no trouble; the frost has been mild.

RECEIVED THE FIRST OF JULY 1911

Travel: "On the good days they drive to Nogales, on the bad days they stop and visit the Casa Grande." That's the way the travel seems to go, with it nearly as busy on the unpleasant days as on the nice days. The increase trend in our travel that has been apparent all through the present travel year continued this month with an increase of 1,491 visitors or about 28% over the same month last year.

	1952	1951
Visitors during January	6,703	5,212
Increase	1,491	
Visitors for Travel Year	18,740	13,518
Increase	5,222	
Servicemen during January	59	19

Interpretive Service: During the month, some 6,703 people visited the monument; of that number, 4,025 took the tour to the ruins in 226 groups; each tour lasted, on an average, 57.6 minutes. Another 2,609 visitors stopped long enough to look through the museum. (About 75% of our runaround travel or 2,009 people stopped at the museum.)

Visitors of Note and Special Groups:

- January 2 -- 20 members of the Dayton University football squad, Dayton, Ohio. (The vanquished from the Salad Bowl game in Phoenix.)
- January 12 -- Superintendent Sam King and family from Saguaro National Monument, Arizona.
- January 20 -- 15 Boy Scouts of Troop 43, Phoenix, Arizona.
- January 24 -- 168 pupils of the 4th grade, North School, Coolidge, Arizona.
- Chief Ranger and Mrs. J. Barton Herschler, Rocky Mountain National Park, Colorado.

Administration and Protection: During the month we received eleven requests for information which were promptly answered.

The Adamsville site received its usual inspection and everything appeared to be in good order.

During the month we had some illness on the Monument; Ranger Clancy was put to bed for a day with a severe cold, and Maintenance man Mack was off for a day with liver trouble. Earlier in the month Mr. Mack had injured his heel stepping from a ladder, however everything seems to be all right at the present time.

[illegible]

Year	Rate	Notes
1971	100%	100% of the total population
1972	100%	100% of the total population
1973	100%	100% of the total population
1974	100%	100% of the total population
1975	100%	100% of the total population

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United States regarding the activities of the Committee for the Liberation of the People of the South (CLPS) in the United States. The Commission is therefore unable to determine whether the CLPS is a genuine organization or a front organization for the purpose of subverting the Government of the United States.

We received notification of the acceptance of the bid for the pipe to be used in the construction of our pending pipe line.

Maintenance: Maintenanceman Mack has been busy shaping up the drainage for the primary road and grading the secondary roads. In areas where the vegetation had thinned out along the primary road, he transplanted some young bushes. The shoulders of the road were built up and are in good shape for the coming year.

Summary:

To: General Superintendent

From: Maintenance, Southwestern Bell Telephone Company

Subject: Report of Maintenance on the Southwestern Bell Telephone Company during the month of January 1934

**A. T. Bicknell
Superintendent**

General:

This report is being written to the General Superintendent of the Southwestern Bell Telephone Company. It will try to describe the work of the maintenance department during the month of January 1934. The report will also try to describe the work of the maintenance department during the month of January 1934. The report will also try to describe the work of the maintenance department during the month of January 1934.

Summary:

A total of 120 miles of line was worked during the month of January 1934. A total of 120 miles of line was worked during the month of January 1934. A total of 120 miles of line was worked during the month of January 1934.

Maintenance:

A total of 120 miles of line was worked during the month of January 1934. A total of 120 miles of line was worked during the month of January 1934. A total of 120 miles of line was worked during the month of January 1934.

Notes:

A total of 120 miles of line was worked during the month of January 1934. A total of 120 miles of line was worked during the month of January 1934. A total of 120 miles of line was worked during the month of January 1934.

For all the emphasis put on individual freedom of
speech and religion, the government still is one of the most
authoritarian in the world.

Chaco Canyon National Monument
Bloomfield, New Mexico

January 23, 1952

Memorandum

To: General Superintendent

From: Superintendent, Chaco Canyon National Monument

Subject: Report of Activities at Chaco Canyon National Monument during the month of January 1952

General

This report is being written a day early since tomorrow Ranger Elmore will try to navigate the sea of sand extending about five miles south of the Bloomfield-Cuba road. Since January 12th this road has been practically impassable to any motor vehicle except four-wheel drive or to those vehicles driven out on the frozen road in the morning and brought back if and when the sand freezes in the evening.

Weather

A total of 3.37 inches of snow has fallen during the report month, bringing a total of .19 of an inch of moisture. Additional rainfall totaled .49 of an inch. The coldest temperature was minus five (-5) degrees F. on January 10, and the maximum of 50° on December 30 and January 23.

Administration

A trip was made to Farmington and Aztec on January 15 to circulate invitations to bid on rehabilitation at the Superintendent's residence. Some interest was indicated and invitations were left with six prospects. The location of all tools and equipment on inventory was checked.

Patrol

On January 20 a trip was made to Shabik'oshchee Village where everything was found to be in good order.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Special Agent in Charge
Washington, D. C.

January 11, 1932

Memorandum

To: General Superintendent

From: Superintendent, Grand Canyon National Monument

Subject: Report of activities at Grand Canyon National Monument
during the month of January 1932

General

This report is being submitted to the National Park Service
as required by the Department of the Interior. It contains a
summary of the activities at the Grand Canyon National Monument
during the month of January 1932. The report is divided into
two parts: (1) a summary of the activities at the monument
and (2) a summary of the activities at the Grand Canyon
National Monument.

Summary

A total of 1,075 persons entered the Grand Canyon National
Monument during the month of January 1932. This includes
visitors, employees, and others. The total number of
visitors was 1,075. The total number of employees was 10.
The total number of other persons was 10.

Activities

A large number of persons entered the Grand Canyon National
Monument during the month of January 1932. This includes
visitors, employees, and others. The total number of
visitors was 1,075. The total number of employees was 10.
The total number of other persons was 10.

Index

In January 1932 a large number of persons entered the
Grand Canyon National Monument. This includes visitors,
employees, and others. The total number of visitors was
1,075. The total number of employees was 10. The total
number of other persons was 10.

Scrap Drive

A barrel has been designated for scrap metal and is rapidly being filled.

New Construction

Thirty-five lengths of 2" pipe were hauled from Durango, Colorado on the dump truck because the stake truck is inoperative. The load was hard to hold on the dump truck and had to be reloaded with a wrecker in Aztec. The pipe has not been installed because of ice and snow in the trench.

No work was done at the new residences between Christmas and New Years and since January 1 the men have been able to negotiate the muddy roads only a few days. The roof sheathing and felt are on one residence. Most of the plumbing except the sewer system is complete and the floor furnaces installed in both residences. Plaster board is now being installed in one residence.

Maintenance

The 10 K.W.H. plant and two 3 K.W.H. Onan plants were taken to Durango for repairs after they refused to start. The 10 K.W.H. plant ran only a few hours after it was brought back. One Onan is working good and the other is still out for repairs.

Pipe and plumbing parts have been removed from an inaccessible room and are now stored in a room used for welding.

A pressure relief valve was installed at the well in the water system for the new residences and a union fitted into the exhaust line for the engine there.

A water trap was installed in the exhaust line for the engine at the University Well. The line from this well is frozen. Several man-hours were spent unsuccessfully trying to thaw it and repeated attempts to pump have been fruitless.

A faulty oil heater in the Superintendent's residence has given considerable trouble. On one occasion the stove was dismantled and all oil lines cleaned without much improvement.

A Bennett oil pump was repaired and installed on a barrel.

Electric wires were restrung to Elmore's and Richert's quarters and they are now being supplied with electricity.

A report on the work of the committee on the subject of the

 (1914-1915)

New mud-snow tires were installed on both pickups.

Automotive Equipment

The Chevrolet dump truck and the Dodge pickup were taken out for repairs. After driving in the dump truck several miles in compound or low gear on the return trip, it has a loud knock in the motor and needs a major overhaul.

Interpretive Services

Travel has practically ceased on account of the road conditions, however, a total of 2 tours were made by three hasty people who managed to reach the Canyon by some manner or means. These tours lasted an average of nearly 53 minutes in spite of the cold and mud. Three short talks were given to 5 persons, lasting an average of 28 minutes (the talks, not the persons).

Travel

Travel dropped off to about one-quarter of last years. Reason: mud and cold. A total of 18 people reached the monument in five cars, but only 5 of these availed themselves of any services and only three went on the conducted tour.

Wildlife

On January 14, Gordon Vivian and Roland Richert discovered a plateau wild cat (bobcat) between their respective quarters. All monument personnel turned out to observe the creature which fell into a deep room in Pueblo Benito. Here flashlight pictures were taken and that night the cat left on the ladder used to get his picture. (See picture attached).

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chiricahua National Monument
Dos Cabezas, Arizona

January 26, 1952

Memorandum

To: General Superintendent
From: Superintendent; Chiricahua
Subject: Superintendent's Narrative Report

Weather. The weather was a big improvement over December. Several warm rains fell but none of the storms slowed travel down for more than a day or two.

Inspections. Engineer George Smith was at Chiricahua the afternoon of January 14 and the morning of January 15 for an inspection of the road and to lay plans for the closing of the monument highway.

Approaches to monument. All approach roads are in fairly good condition except the road over the mountain from Pecos and Portal. This road is nearly impassable and visitors are being advised to avoid it.

Interpretive Service. 1054 visitors were contacted in the museum. No other interpretive activities with the visitors developed.

Museum Activities and Exhibits. Rocks were collected to be shipped to Washington for our museum exhibits. Some of these were taken to the University of Arizona for identification.

Increase in Travel. 1233 visitors came to Chiricahua this month. This compares with 621 for January of last year. We needed just 9 more to make it twice last January travel, but as it we will have to round it off at 99%. This made up for the loss in December and gives us a lead of 18% over last years travel to date.

The campground and guest ranch use, reflected in extra visitor days is running more than double that of last year. 604 extra visitor days were recorded as compared with 282 for this time last year. These extra visitor days are divided about evenly between the campground and the guest ranches.

Report 121

NATIONAL PARK SERVICE

El Morro National Monument

El Morro, New Mexico

January 27, 1932

Memorandum

To: General Superintendent

From: Superintendent, El Morro

Subject: Monthly Narrative Report

This month, there were 12 visitors to the Monument. Even this number is surprising in view of the weather conditions for the last thirty days. They came in 14 automobiles. 10 of these people took a trip around the Rock in 6 parties. 7 listened to an orientation talk in 3 parties. Two of the visitors went over the top of the Rock.

Since last report, we have had 3.10 inches of moisture. Lots of rain and snow! The pool, though far from being full, has a good deal more water in it. The coldest was 10 degrees and the warmest was 31 degrees Fahrenheit.

Because of the wet weather, the approach roads have been in poor shape for most of the period -- from the visitor standpoint. The County road grader has been in to blade our roads so they are in good shape.

The big news this month is that the State Highway Department has let the contract and the contractor is fast at work building more approach road. This latest stretch is between Grants and San Rafael.

Again, this month, a goodly part of the time was spent shoveling snow off the paths. The trail is just as long as it was last month when it comes to shoveling snow, but we are happy to have the moisture for it is doing the country good and the snow shovel is still much better than a regular shovel for the job!

Some jobs which had been waiting a good while were accomplished this month. We discharged and charged all fire extinguishers except one which goes to survey. The superstructure over the water chlorinating tank was entirely rebuilt and covered with slate roofing. The floor in the generator house was painted a dark grey and the walls were partially painted (we ran out of paint and haven't been to town for more)! A good many stumps

were repainted. Also, each fire tool gained last year received a stripe of red paint around it.

The light plants have been operating very nicely all month. The technician came by, as usual, but both plants were in good operating order.

The radio seems to be on the blink. For the past few days we have been hearing Wm. & F. all right, but have been unable to contact them.

Gran Quivira National Monument,
Gran Quivira, New Mexico

January 25, 1952

Memorandum

To: General Superintendent

From: Superintendent, Gran Quivira

Subject: Monthly Narrative Report for January 1952

Weather. We had some snow and some exceedingly cold weather the first two weeks of this report period. Precipitation totalled .53 of an inch and minimum temperatures were below freezing all month. Temperatures relaxed somewhat the latter part of the month but high winds took over making it seem colder than it actually was.

Inspections. General Superintendent John Davis and Architect Kenneth Saunders inspected the area on January 3.

Approach Roads. Both approach roads into the monument were in fair shape in spite of blowing sand and snow. The Mountainair road was bladed twice and most of the monument's visitors used this route.

Fire Protection. Fire supplies and equipment were received and installed. Extinguishers were refilled and worn out equipment was removed from racks.

Maintenance. Temporary flooring was installed in one section of the equipment shed and this was converted into storage space for miscellaneous objects.

Minor repairs were made to the tool room and materials were removed and restacked.

Road culverts were cleaned out and the road leveled with the road drag.

Several loads of rubble were removed from the church and walls of the viva were patched.

General Publicity. The PROGRESSIVE of Estancia published the monument's travel figures in their January, 1952 edition.

Travel. We can report a 45 percent increase in

travel for January over that of last year. One hundred and forty seven persons in forty three cars were recorded. The Mountaineer Chamber of Commerce estimates a ten percent decrease in tourist travel the last three months, and justifiably blames poor weather conditions both locally and nation wide for this decrease.

Interpretive Services. Guide service was extended to 73 persons in 23 parties who spent on the average of 23 minutes making the tour through the ruins. 106 persons were contacted and 112 visited the museum. The self guiding trail trip was taken by 74 people in 20 parties.

To: General, Department of the Interior

From: Superintendent

Subject: Superintendent's Narrative Report for January, 1933

General Comments

While the report is for January the two travel days in the month of 1933 January are two different seasons. A "normal" amount of snow on the top of the mountains has kept the roads and trails closed most of the month and consequently very few people have been able to visit the ruins.

Most of the visitors have been from the local vicinity. The sixteenth anniversary of the founding of the park was celebrated on January 15.

Special Activities

On January 14 I went to the ruins to see the new road which has been built. A number of visitors were present and saw the ruins. The condition of the ruins is very good and the new road is very good. I returned to the ruins and saw the new road.

I went to the ruins to see the new road which has been built. A number of visitors were present and saw the ruins. The condition of the ruins is very good and the new road is very good. I returned to the ruins and saw the new road.

Views

The Interpretive and General Information Section of the Department of the Interior has received and has been very helpful in the past. I visited the ruins on January 14. The new road is very good and the condition of the ruins is very good.

GREAT SAND DUNES NATIONAL MONUMENT
Alamosa, Colorado

January 25, 1952

Memorandum

To: General Superintendent

From: Superintendent

Subject: Superintendent's Narrative Report for January, 1952

Weather Conditions

Rain occurred in January for the first time in the history of this country on two different occasions. A tremendous amount of snow on the San Juan Mountains has kept Wolf Creek and Cumbres Passes closed most of the month but unusually warm weather has kept the valley relatively open.

0.99 inch of moisture fell during the report period. The minimum temperature was -5 on January 4 and the maximum was 41 on January 13.

Special Activities

On January 14 I went to Santa Fe to pick up the 500 gallon propane tank. A number of matters were discussed in your office including revision of the Development Outline and installation of the bulk gas system. I returned to the Great Sand Dunes on January 16.

I was fortunate to be able to attend a meeting in Alamosa at which Dr. Vincent Shaeffer outlined the progress to-date in the production of artificial precipitation. Dr. Shaeffer has been responsible for most of the work done in this field by the General Electric Company.

Plans

The Introduction and General Information Sections of the Development Outline were revised and left in rough form at your office when I visited there January 15. The Part Operation Prospectus is partly finished.

General Publicity

A very nice picture of the Great Sand Dunes taken from just

1. The first of these is the fact that the system is not a simple one. It is a complex system, and the results of the analysis are not always straightforward. The system is a complex one, and the results of the analysis are not always straightforward.

On January 14, 1964, I was in the office of the Director of the FBI, Washington, D.C., and I was present at a meeting of the Joint Chiefs of Staff, the Joint Committee on Defense Education, and the Joint Committee on Defense Research. I was also present at a meeting of the Joint Committee on Defense Education and the Joint Committee on Defense Research. I was also present at a meeting of the Joint Committee on Defense Education and the Joint Committee on Defense Research.

I was fortunate to be able to obtain a number of the following

[illegible]

north of the parking area by David de Harport appeared in the February issue of Desert Magazine.

Maintenance and Rehabilitation

May surprises never end! Now we know why the high adobe wall was built along the north side of the yard. Razing of the stuccoed eyesore preparatory to erection of a much shorter concrete block one brought to light that it was used to hide the electrical conduit from the house to the checking station. Now I will have to devise some other method of concealment. The entire wall was torn down and hauled away.

The plans for the bulk gas system were completed by Engineer Richardson but final approval has not yet been received. The 500 gallon tank was hauled from Santa Fe but cannot be installed until the frost goes out. Approved fittings and shutoff valves cannot be found in Alamosa so I will go to Pueblo next week to see if they can be secured there.

Advantage was taken of the wet frozen conditions on the Upper Medano and four loads of wood were hauled from the slash area on George White's place. This pine is much superior as firewood than the fir we have been using.

The entrance road was graded once. Four loads of gravel and dirt were placed on the road to the parking area.

Approach Road

The moisture received during the month has improved the condition of the approach road even though it wasn't graded during that time.

Interpretive Service

The drawings for the new easel display for the parking area were finished and I picked them up when in Santa Fe. These are beautifully done and will be a valuable contribution to the interpretive program.

The 17 black and white negatives I developed here last month were sent to the Region Three Office for prints. These were mounted on cards and returned to us last week for our photo file.

Research and Observation

Plant specimens of 102 different species were forwarded to the University of Colorado Museum for identification. 27 of these have already been returned, the specimens are catalogued and put in genus folders, and about a fourth of them are now mounted.

The monument bibliography was brought up-to-date and the new additions typed up and sent your office.

Decrease in Travel

Snowy wet weather cut travel almost half from 208 last year to 106 this January. We are not concerned, though, as the promise of a wet year augurs bumper travel for the summer.

Visitors

Technician Richard Pillmore of the Colorado State Game and Fish Department was here again this month checking on range conditions and deer movements.

Ranger Service

Trespass cows bothered us until the 10th when the Medano Ranch began feeding their cattle to keep them at home. No trouble has been experienced since that date.

Personnel

I was on annual leave until January 2. Mr. Taylor worked 12 days during the month.

Montezuma Castle National Monument
Camp Verde, Arizona

January 27, 1952

Memorandum

To: General Superintendent
From: Superintendent, Montezuma Castle
Subject: Monthly Narrative Report, January 1952

General: Floods this month have caused some damage to the area. During the night of December 31, Beaver Creek went on the rampage as a result of warm rains on snow in the higher elevations. High water completely covered the area below the Castle, reaching the top of the new benches. No damage was done to the benches and model shelter, but the gravelled area beneath the benches was badly washed as was the new trail leading to the seating arrangement. The lower Sycamore trail was also badly washed out in sections and part of the new bitumuls job torn up. Water flowed over the campground at a height of four feet, washing away most of the top soil and four tables. Fences were taken out in this section.

Repairs to the Sycamore trail were just completed and dirt hauled for filling in the campground when the second flood occurred on January 18. This flood again inundated the campground and washed out sections of the lower Sycamore trail, but did not reach the model or the new trail leading to it. At this time repairs have been made to the trails and they are again in use. About half of the new dirt at the campground was lost.

No bad damage was done at the Well, although Beaver Creek was observed to be flowing 12 feet above normal level at the well outlet. Some of the modern irrigation ditch was however partially undermined.

Weather: As you can gather from the above, it has been wet. It has also been cold and cloudy most of the month. A total of 1.37 inches of rain was recorded, and temperatures ranged from 19 to 61 degrees. Snow has been observed in the surrounding mountains most of the month.

Travel: Travel this month has been poor. Only 706 people in 200 cars were counted at the Castle, and 303 people in 88 cars were registered at the Well. This makes a total of 1014 visitors to the area as compared to 1698 people for January of last year. This decrease no doubt can be attributed to bad weather throughout the vicinity.

The Government of the United States of America, hereinafter referred to as the Government, has the honor to acknowledge the receipt of the letter of the Government of the Republic of the Philippines, dated January 18, 1941, in which the Government of the Philippines requested the Government of the United States of America to take such action as might be deemed appropriate to protect the interests of the United States of America in the Philippines.

1944

It was also noted that the water in the pond was very muddy and the water level was very low. The water was also very warm and the water was very shallow. The water was also very muddy and the water level was very low. The water was also very warm and the water was very shallow.

Texas: Texas has been one of the most important states in the country. It is the only state that has a large area of land that is not under water. It is the only state that has a large area of land that is not under water. It is the only state that has a large area of land that is not under water.

Interpretation: The Castle museum remained open throughout the month and was seen by 700 visitors. Most contacts were made in the museum. Only about 200 people walked the Sycamore trail because of repairs being made. At the Well, 64 visitors saw the museum and 308 hiked the Loop trail.

Inspections: On January 13, Messrs. Cornell, Bennett and J. Miller from Regional Office visited the area for the purpose of inspecting new construction and flood damage.

On January 23, Mr. Donald Lee of the Washington Office and Mr. A. M. Koehler of Region Three paid an informal visit to the area.

Construction & Maintenance: Considerable maintenance work was accomplished this month. Floors in the museum were varnished and waxed, and the walls washed down. A bedroom in Residence No. One was painted as was the bathroom in Residence No. Two.

Part of the boundary fence which was damaged by the floods was repaired. However, the water gaps which were taken out completely will not be put up again until late spring or until after the snow has melted in the mountains.

The model shelter was placed on foundation and finishing touches applied. This job will soon be considered complete.

Installation of the chlorinator was completed and Completion Reports submitted.

Numerous new signs were laid out and several constructed. Three new ones were installed at the Castle and others routed for the Well area. Several signs are to replace the existing ones in order to have a uniform sign layout for the entire area. Jimmy Brewer has graciously made available his router for this work.

Roads & Trails: Following the flood, the new entrance trail was realigned in places and completely repaired. This trail is now complete with exception of bitumuls which will be applied when warm weather arrives.

Several loads of gravel were hauled for the Sycamore trail and applied to the washed out sections.

At present, work is progressing on a new section of trail located just beneath Castle A. This section will make it possible to eliminate some of the unsightly and dangerous rock steps which are now in use. This change was discussed with both Mr. Miller and Mr. Onstott upon their visits here.

Page 3:

Wildlife: One beaver was observed in the irrigation ditch just below the well outlet. Since there are very few trees inside the well crater and we want to keep these trees, the beaver was persuaded to leave the ditch and go back into the creek.

SECRET

JOHN O. COOK

Navajo National Monument
Tonalea, Arizona

January 26, 1962

Memorandum

To: General Superintendent

From: Superintendent, Navajo

Subject: Narrative Report for January, 1962

Travel: This is the second month with no travel to report. We have had our share of Navajo neighbors stepping in for coffee and to get warm, but they do not display any particular interest in the "Anasazi".

Weather: We have had snow on the ground throughout the month, 24 inches at one time and a few drifts 4 feet deep. The total precipitation for the report period is 2.51 inches. The extremes in temperature were a high of 45' and a low of 8'.

Roads: The approaches to Navajo are not too good. The Kayenta road has been a horrible sea of mud since Thanksgiving. Several rather bad washouts have occurred. When this road is frozen it is rough, and if not frozen it is extremely slick. The more popular approach via Tuba City is much better. There has been a sufficient amount of moisture at the lower elevations to allow the Indian Service to blade the road to a nice finish. The remainder of the road is very deep mud or slick, with ice and snow. The low spots have filled with water and in some places are over 2 feet deep.

The roads appear to be more badly washed from the melting snows of this winter than from the heaviest rain of last summer.

General: Vehicular, road and light plant maintenance have been the prime objectives this month. The pickup has stalled from time to time and is again on the "not running" list. The jeep starter became filled with water which froze and had to be cleaned, and the radiator started leaking and had to be repaired. The valves on the generator for the water system were sticking; they also were repaired. One Kehler light plant, for quarters use, was tared. The other Kehler is not in service now due to a defective mag. The necessary parts have been ordered.

We are not getting much service from our radio due to the low voltage output of our generator. We have been trying to locate a voltmeter that can be used to regulate the voltage.

UNITED STATES
DEPARTMENT OF THE INTERIOR

Monthly Narrative Report for
January, 1952
(Continued)

Many tons of snow have been pushed, shoveled, swept, and otherwise moved to allow one to get around in the area. It is impossible to get any vehicle to the water pump generator, and there are several places where the snow has drifted 3 or more feet deep on the foot trail. One partial solution to clearing the snow on the steepest section of the pump house trail was to make a large snow ball and roll it down the slope. This helped a lot, but unfortunately the ball did not follow the path too closely.

Personnel: The Superintendent has taken some annual leave this month and spent it at home watching the snow fall and entertaining his grandson.

Weather:

The last week of December and the first two weeks of January continued cloudy and generally cool for this area. The last week of the report period has turned up to the sunny and beautiful weather that I remember as being typical of the fall on this island. John A. Aubushon, Superintendent, has been here for the month and is in the line of January and the last of December on December 27.

General:

Through the month there was only a slight increase with clouds and no strong particularly strong over a good amount. In the past, the weather has been very noticeable by the length of the sailing line in front of the single pole, very long and very short. There was a change in the weather which was noticeable of several kinds in the weather which was very good. They are still a change in the weather in general and the weather in particular and the change of all of the weather conditions in the area.

General:

Engineer Bailey and his assistant arrived January 18 to survey the proposed road and about topography on the proposed transportation and housing area. Later in the month was also finally of spirit that in the survey which was in progress according to plan.

Superintendent Superintendent, January 21 through 22 in the morning, after the morning and administrative duties for the area.

They found it was a very good one, and they were very much interested in it. They found it was a very good one, and they were very much interested in it. They found it was a very good one, and they were very much interested in it.

NATIONAL PARK SERVICE

Organ Pipe Cactus National Monument
P. O. Box 38, Ajo, Arizona

January 25, 1952

Memorandum

To: The General Superintendent
From: Superintendent Organ Pipe Cactus National Monument
Subject: Monthly Narrative Report, 1ml for January 1952

Weather

The last week of December and the first two weeks of January continued cloudy and unusually cool for this area. The last week of the report period has warmed up to the sunny and beautiful weather that is more typical of southern Arizona. Rain fell on five different days for a total of .91 inch. This should help produce the expected outstanding display of spring flowers. Low for the month was 29 on the 10th of January and the high of 78 occurred on December 27.

Travel

Through travel showed only a slight increase while visitor use and camping particularly showed over a 100% increase. As in the past, the camping increase is very noticeable by the length of the waiting line in front of the single hole, very temporary type toilet. These same toilets were very temporary when constructed of scrap and termite eaten lumber several years ago. They are still a disgrace to the Monument in general and the Service in particular and the subject of 99% of all verbal complaints on the area.

General

Engineer Bradley and Aid Jenkins arrived January 16 to survey the campground road and shoot topography on the proposed headquarters and housing area. Laborer J. C. Smith was hired locally to assist them in the survey which seems to be progressing according to plan.

Superintendent Supernaugh spent January 21 through 23 in the Regional Office on grazing and other administrative problems for the area.

The first part of the report is a general statement of the work done during the year. It is followed by a detailed account of the work done in each of the four divisions. The report concludes with a summary of the work done and a statement of the results.

1. The first of these is the fact that the Government has not been able to secure the necessary funds to carry out its policy. This is due to the fact that the Government has not been able to secure the necessary funds to carry out its policy.

11. The following information was obtained from the records of the Department of the Interior, Bureau of Land Management, regarding the land owned by the United States in the State of Nevada:

It is the official policy of the United States to support the people of Cuba in their struggle for national independence and social justice.

UNITED STATES

DEPARTMENT OF THE INTERIOR

Maintenance & Construction

The 40 mile loop drive and all headquarters area roads were bladed during the month and are in excellent condition. Some brush trimming and hand labor on large rocks will be necessary this month to put the sides of the drive in first class shape again.

The gasoline stand-by light plant and the Ford coupe pickup both had stuck valves again this month which required additional extensive repairs. In both cases the valves were gummed up from the poor grade of gasoline that is supplied by the Mc Nutt Refineries. Some of the valves were frozen so tight that they pulled the pressed guides from the block. Their gasoline, under the heat conditions in the engine, makes an outstanding grade of varnish and makes us wonder if they aren't in the wrong business.

Research

Collaborator Ezell has spent most of this report period on analysis of the specimens taken from the various archeological sites. He is scheduled to begin a new project in February on the Pima Group and the way things look our project will be left with further work for the future.

Accidents

A spike buck, white tail deer, was hit and killed on the highway north of headquarters on the 15th. The hit and run driver is unknown and the deer was found to late to save the meat.

A late model Pontiac, owned by Antonio Bustamante of Ajo, Arizona, was rolled several times after leaving the highway 9 miles north of headquarters on January 17. The driver was evidently asleep or drunk judging from road conditions and skid marks. We do not as yet have a full report of the accident from the sheriff.

Numerous accidents hap ened just north of the monument killing people and cattle. The difference of just a few miles saved us from the more serious accidents of the Ajo-Sonoyta Highway this month.

William R. Supernaugh
Superintendent

Introduction

The purpose of this study is to determine the effect of the various factors which enter into the production of the human mind. It is a study of the mind as it is, not as it should be. It is a study of the mind as it is, not as it should be. It is a study of the mind as it is, not as it should be.

NATIONAL PARK SERVICE
Saguaro National Monument
Tucson, Arizona

January 20, 1935

Memorandum

To: General Superintendent
From: Superintendent, Saguaro
Subject: Monthly Narrative Report, January 1935

General

January proved to be a banner month at Saguaro. Travel was extremely heavy throughout the month despite a number of days of inclement weather. A new all time monthly high was set for travel and the total was well above that of last February which was the previous high month. The record for daily travel was broken on January 20th when 838 persons visited the area.

Precipitation continued at regular intervals throughout the month. Amounts were generally light but were sufficient to keep the desert quite lush. It appears that the long drought in Southern Arizona has finally ended and we are now embarking on a cycle of wet years.

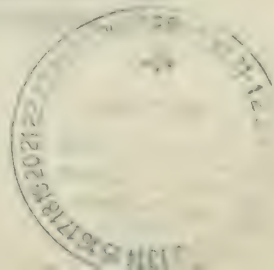

Special Activities

On January 13 work commenced on Residence No. 12. Director Merittus Arthur J. Gray and the Superintendent broke the ground for construction.

Final payment was received the same day for the Allison and Freeman properties. Mr. and Mrs. Clifford L. Freeman were present with their check in a short ceremony at monument headquarters. Mrs. Marjorie L. Allison could not be present because of illness.

Assistant Regional Director Cornell, Regional Architect Bennett, and Landscape Architect J. Miller inspected the area on January 14. Various problems concerning the residence construction were discussed with Messrs. Williams and one of the resident construction men.

- Saguaro National Monument -

Highway Engineer George Smith of the Region Three Office conducted an inspection of monument roads. He was accompanied over the loop road by Laborer-Leader W. H. Hensberry. Mr. Smith gave us some important pointers on a real maintenance problem of the Saguaro Forest Loop road.

Regional Forester Wilson and Mr. Wm. S. Gill of the Division of Forest Pathology visited the area on January 14 in connection with the mortality studies in the Saguaro Forest.

Status of Private Land

The transfer of title on Sections 1 and 13, the Presman and William properties, was approved by the Attorney General's Office. Title is now vested in the United States and these lands are officially a part of Saguaro National Monument.

The deed and certificate of title on the Carrow property were mailed to the Berlin office on January 14.

Surveys

Engineers Bradley and Jenkins surveyed the new entrance road from the west boundary to the new residence area and on to the Saguaro Forest Loop road. They also ran a boundary line survey on the corner of Carrow's old property.

General Publicity

A feature article on Saguaro National Monument appeared in the January 6 issue of the Arizona Daily Star. Some excellent photographs of the monument were included.

Maintenance

More fill was added to the Saguaro Forest Loop road during the month. Progress was retarded somewhat by breakdowns of equipment. The transmission casing on the front-end loader cracked and consequently this piece of equipment was out of operation for most of the month. A new clutch had to be installed in the Allison motor. Even with these difficulties some 115 yards of tread material were added to the road.

The backhoe loader on the loop road was repaired during the month.

New Construction

Construction on Residence No. 13 was started on January 13. The foundation ditch was dug, forms set, reinforcing material placed, and concrete poured.

Several construction problems were ironed out in discussion between Regional Architect Bennett, Landscape Architect Miller and the contractors.

The new entrance road from the West boundary and the access road to the new residence area were graded out during the latter part of the month.

Approaches to Park Area

All approach roads were blessed by the Pima County Highway Department during the month. Recent rains and heavy usage have caused a few chur-holes to appear.

Cooperating Government Agencies

General Services Administration requested that we vacate our office in the Federal Building in Tucson in line with new space conservation measures. Our effects were removed on January 3.

Interpretive Services

A total of 3,333 persons in 1,101 parties were afforded interpretive service at monument headquarters. This amounted to a total of 200 hours for an average of 11 minutes per party.

The additional material for the second printing of the Cactus Forest Trail guide booklet was assembled and mailed to you along with additional photographs of some of the more common wildlife of the area.

Observations

Observations during the month include one Weasoon near Nogrand Ranger Station. Several Arizona Gray Foxes continue to visit the Ranger Station nightly. At least three have become so tame that photos can be secured with little difficulty.

Increase in Travel

A total of 7,014 persons visited Saguaro National Monument in January. This is a new all-time high record which bested last month's totals by 4,500 visitors and the January 1961 total by 2,038 persons.

Ranger Service

The total male complement at Aguero was raised by one January 16 when Mark Owen Verhey was born to Ranger and Mrs. Benjamin Verhey. Mark weighed only 3 1/2 pounds at birth but is doing nicely at present.

Grading

The annual grading report was compiled and sent to the Region Three Office.

Insects and Tree Diseases

Regional Forester Carlson and Mr. Lake E. Gill made further investigations concerning the stem rot mortality studies in the Saguaro Cactus.

Accidents

Supervisory Ranger Forrest W. Benson was kicked on the left leg by a mule while leading the pack string. He sustained a severe bone bruise and infection which after treatment healed nicely. An X-ray revealed that no bones were broken.

Personnel

Altamar E. Salinas entered on duty as Laborer, January 3, 1954.

Leo W. Barinova entered on duty as Laborer January 11 and was terminated January 15. Mr. Barinova worked with the surveying crew during their stay at Aguero.

8)

Obituary

Mrs. Hilios A. King, mother of Superintendent A. King, died early on January 7, in Manning, California.

Miscellany

A great many inquiries regarding Saguaro National Monument were answered through the mails this month. This seems to be an indication of the ever-increasing interest in the Southwest and its flora and fauna.

NATIONAL PARK SERVICE
Walnut Canyon National Monument
Flagstaff, Arizona

January 25, 1952

Memorandum

To: The General Superintendent

From: Superintendent, Walnut Canyon

Subject: Monthly Narrative Report of Activities at Walnut Canyon
National Monument during the month of January, 1952.

Weather Conditions

The heavy snows and unseasonable rains during the month brought a total of 6.45 inches of moisture. If as usual, this had all been in the form of snow it would compare with the year of 1949 and would have measured perhaps five feet in depth. Our heaviest snow of 14 inches did not last long after it began raining. Runoff has been comparatively heavy with upper lake Mary above the level of the old dam and the lower lake increasing in storage. Roads in Oak Creek canyon were damaged by high water. The lowest temperature noted was -6 degrees on January 2.

Administration

Superintendent Guillet returned from annual leave and assumed active duties on January 2. Time has been spent in general administrative duties and generally going over the different phases of the Monument's operation. Mr. Platt Cline, Editor of the "Daily Sun" in Flagstaff has been extremely cooperative in helping me get acquainted with many of the prominent people.

Maintenance

The unseasonal rains have softened the ground and considerable time and effort was expended in repair to our telephone line due to poles being weakened. Snow and mud prevented much effective outside work other than shovelling snow. Repairs were made to the Government Pickup.

Roads

The county Grader made one trip to headquarters and pushed most of the snow from our entrance road. The approaches have been passable but hazardous during most of the month due to mud. The grader was stuck on two occasions.

N.P.S. Visitors

Architects N. Saunders and Harold Marsh on January 16th.

Travel

Travel dropped off considerably during the month due to weather and road conditions. There were 143 persons in 43 cars compared to 204 in 1951.

Interpretive Activities

While snow discouraged many from taking the trail, interpretive talks were given 108 people in 36 groups. Contact time totaled six hours and 15 minutes.

Research and Observation

A flock of around 80 wild Turkeys have been observed almost every day around headquarters. Deer have been observed often. Chipmunks and Abert Squirrels were seen during the latter part of the period.

Visitors - 1273

Visitors - 3347

GENERAL:

January has been a very pleasant month compared to December. With the exception of a little wind, the weather has been excellent with a high of 75 on December 30 and a low of 3 on December 21, no rain fell during this period.

With our nice weather and the extremely bad weather up north, this January falls in line with most of the preceding months in setting new travel records for White Sands.

PUBLICITY:

We still have our weekly broadcast over the local radio station regarding general items of interest concerning the monument. One of the El Paso papers reported that the Government was building a hotel in the sands - apparently some pleading reporter saw the Comfort Stations being built out in the sands.

COMFORT STATIONS:

The comfort stations are progressing much more rapidly after the shutdown over the holidays. We are thankful to have the help of two very good men from other areas helping on this project: Rangers Earl Worthington of Arches and Bob Morris of Canyon De Chelly. We certainly appreciate their conscientious assistance on this job, on several nights they had to work until after 10:00, along with Gene Hall, because of the Redi-mix cement trucks being behind schedule at a critical time. Another week, Bob, Earl and Gene worked straight through Saturday and Sunday to be ready for the crowds when they come to work on Monday.

We have also hired a local carpenter and have the same two laborers that we had before Christmas, so with a crew this size, the progress is much more noticeable, in spite of fighting the water most of the time (the water table is only two feet down) and blowing sand. We were fortunate, however, in not having any rocket firings from the Proving Grounds as we have to pull everyone in from the sands when they fire, stopping the work out there for several hours at a time. Several trips were made to El Paso in connection with this project.

Joe Sheppard has been busy cutting down the two hills just beyond the pavement in preparation for the extension to the black top. He has also finished most of the ground leveling in the sewer field.

MAINTENANCE:

With Ray Eixey helping out on the comfort stations whenever possible and the long Holiday weekends, no large maintenance projects have been attempted. Minor repairs and water hauling have kept him busy most of the period. The public rest rooms at headquarters are still giving us trouble even though this is our off season and unless we check and fix the toilets 2 or 3 times a day, we loose all of our water. With the heavy travel over the Holidays and on weekends the cleanup has taken a considerable amount of time.

RANGER SERVICE:

About 3:00 one morning Superintendent Paris had to go out in the sands and pull a tourist out that had gotten stuck in the sand.

INCREASE OR DECREASE IN TRAVEL:

As mentioned earlier in this report, this January period closed with more visitors than ever before in a like month. The 9939 visitors this month was a gain of 238 people over last January and the Travel Year to date shows a gain of 1,589 people.

PUBLIC SERVICES:

Our concessioner showed a gain in gross sales of 3.4% for the year 1951. The profit of the company, however, showed a larger gain as the Manager, Ward Charles, cut down the number of employees and worked more days himself.

VISITORS:

Mr. John Davis,	Region Three
Mr. Kenneth Saunders	Region Three
Mr. Jack Diehl	Region Three
Mr. Gordon Frazier	Member of Parliament, Canada, and Scully

Grazing:

The only grazing permit remaining at White Sands was renewed, the Sam and Tom Fairchilds permit giving them watering rights at the Dog Canyon property. All grazing on the monument proper has been canceled by the Army as we are, of course, right in the middle of their rocket range.

1. The first thing I noticed when I stepped out of the plane was the cold. It was a sharp contrast to the warm, humid air of the tropics. I had heard that the weather in the mountains was unpredictable, but I didn't realize it would be so cold. I wrapped my coat around myself and shivered. The air was crisp and clean, a welcome change from the sticky heat of the lowlands. I took a deep breath, savoring the fresh mountain air. The view from the plane was breathtaking. Below me, a vast expanse of green valleys and rolling hills stretched out towards the horizon. The mountains in the distance were shrouded in a light mist, giving them a mystical appearance. I felt a sense of awe and wonder as I looked down at the landscape below. It was a beautiful sight, and I knew that I was in for a truly unforgettable experience. The pilot announced that we would be landing in a small town called "El Valle." I looked out the window and saw a cluster of white buildings nestled in a valley. The town appeared peaceful and quiet, a far cry from the bustling cities I had visited before. I felt a sense of anticipation as I prepared to disembark. I knew that this was the start of my journey into the heart of the mountains, and I was excited to see what adventures awaited me. The plane touched down, and I stepped out onto the tarmac. The cold air hit me again, but this time I didn't mind. I was here, in the mountains, and I was ready to explore. I took a few steps forward, feeling the ground beneath my feet. It was a soft, powdery surface, and I knew that it was made of volcanic ash. I had heard that the mountains were volcanic, but I didn't realize it would be so close. I looked up at the sky and saw a few wispy clouds. The sun was shining brightly, and the overall atmosphere was one of tranquility and peace. I felt a sense of calm wash over me, and I knew that I was exactly where I needed to be. The pilot thanked me for flying with them, and I waved goodbye as the plane took off. I turned and walked towards the town, feeling a sense of adventure and excitement. I was ready to face whatever challenges lay ahead, and I was confident that I would have a great time. The town of El Valle was a small, charming place. The buildings were made of white plaster and had red-tiled roofs. The streets were narrow and paved with cobblestones. The air was filled with the scent of coffee and chocolate, and I knew that I was in for a delicious meal. I walked through the town, taking in the sights and sounds. I saw a few people walking around, and they all looked friendly and welcoming. I felt a sense of belonging, and I knew that I had found a special place. I stopped at a small cafe and ordered a cup of coffee. The coffee was delicious, and I sipped it slowly, enjoying the taste. I looked out the window and saw the mountains in the distance. They were still shrouded in mist, but I knew that I was close to the top. I felt a sense of accomplishment and pride, and I knew that I had made it. I was in the mountains, and I was ready to explore. I turned and walked back towards the town, feeling a sense of peace and tranquility. I was exactly where I needed to be, and I was ready to face whatever challenges lay ahead. I was confident that I would have a great time, and I knew that this was the start of my journey into the heart of the mountains. I was ready to explore, and I was excited to see what adventures awaited me. The town of El Valle was a small, charming place. The buildings were made of white plaster and had red-tiled roofs. Tonto National Monument
Roosevelt, Arizona

January 30, 1952

Memorandum

To: The General Superintendent, Southwestern National Monuments
From: Superintendent, Tonto
Subject: Narrative Report, 1ml, January, 1952

Weather. Rain on December 29, 30, 31, January 7, 18, and 25, for a total of about 4 inches. Heavy runoff has Roosevelt Lake at its highest level since 1943. First part of the month was clear and cold, but the last week has been quite warm and very pleasant.

Visitors. There were visitors this month from Germany, Venezuela, Canada, Palestine, France and Alaska.

The annual Dons club Trek hit the place on January 6, bringing the day's total to about 600 persons, a record Sunday here.

Travel. A total of 2443 visitors for the month compares with 2458 for January last year. Rainy weather, running arroyos and bad roads cut down the travel somewhat. The last week of fine weather smoked out the multitudes, with 407 people in on Sunday January 27, for another record, as no special tours were involved. Since most of these visitors arrived during about 5 hours of the afternoon, an average of one car every 3 minutes was maintained.

Inspections. Assistant Regional Director Cernelli, Regional Architect Bennett, and Engineer Miller inspected the current road and water system construction, and looked at possible sites for the proposed comfort station, on January 17. Engineer George Smith was in, on January 19. On January 29, Regional Director Tillotson, Associate Regional Director Patraw, and Mr. John Biggs of the Land & Recreational Planning Division, stopped in for a look at the area.

Personnel Actions. Mr. Paul G. Bass was hired as truck driver on January 19.

Construction: Considerable progress was made on entrance road, residential and utility area, and water system projects. Re-inforcing steel for the concrete water tank arrived.

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Tumacacori National Monument
Tumacacori, Arizona

January 27, 1952

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tumacacori

Subject: Superintendent's Monthly Narrative Report for January, 1952

Weather: Rainfall for the month was 1.69", far above the .836" January average of the past 14 years. Temperatures have been moderate, with a maximum of 79 on December 27, a minimum of 19 on January 4. This winter has been marked by an exceptionally high percentage of cloudy days. There is much Arizona optimism concerning the excellent rains which have hit most of the state, and it is pretty generally felt we are emerging from the drought cycle.

Visitor Travel: This month: 5,537 persons, in 1,562 motor vehicles.
Highest previous January : 4,065 persons, in 1948.
Percent Increase - - - - : 36.2 %
Last 12 months - - - - - : 44,194 visitors.
Previous 12 months - - - : 30,552 "
Percent Increase - - - - : 44.6 %

Visitors: Among those present were:

12/26/51 - Jim Blakely, of the staff of Desert Botanical Gardens, near Tempe, Arizona.

12/27/51 - Donald Page, former director, Western Museum Laboratories of the National Park Service.

12/29/51 - Mr. and Mrs. H. F. Decethly, of Anchorage, Alaska. They spent a year living in Mt. McKinley National Park.

1/17/52 - Major General and Mrs. R. W. Bliss (Retired) U.S. Army.

1/21/52 - Mr. and Mrs. F. C. Kaufman, of Lehman Caves National Monument.

1/23/52 - District Ranger and Mrs. Forrest Benson, Saguaro National monument, and "Pop" Frost, long a Park Service enthusiast and part-time helper at Saguaro National Monument.

Inspections: 12/30/51 - Administrative Officer Luis A. Gastelum, Region Three Office.

1/16/52 - Assistant Regional Director Harvey Cornell, Regional Architect Lyle Bennett, and Regional Landscape Architect Jerry Miller.

1980, 76 years old

ДЛЯ ПОДАРОКОВ И ПОДАРОКОВ - ПОДАРОКОВ ПОДАРОКОВ

1971

Maintenance: Repair and replacement parts for our pumping system were ordered. Thorough cleanup was done along the highway opposite the entrance to the parking area, in the parking area, and in grounds along the mission trail. Much pruning and fertilizing was done. Weeds from the cleanup found their way to our compost pit. More manure was hauled in. Repairs were made to a highway sign which had been run into. The pump house and paint shed were thoroughly cleaned. A roof leak on residence No. 1 was fixed. East lobby doors were weather stripped.

Museum and Education: Our new multiplex display rack was installed in the lobby, and Ranger Henson has prepared several exhibits for it, and is working on additional exhibits as time allows.

Fluorescent lights have been ordered, to replace the inefficient and expensive old style lights now used in the museum.

Publicity: The January issue of Desert Magazine has an article on Tumacacori, as well as a book review on "Tumacacori's Yesterdays".

Saguaroland, the bulletin of Desert Botanical Gardens (Tempe, Arizona) features Tumacacori in its current issue.

We continue to receive excellent local press coverage for our monthly travel data.

Personnel: January 2, 1952 - Rothwell P. Broyles entered on duty as winter seasonal ranger. He comes with several seasons of Park Service experience, and a wife who is a daughter of the Service - Phyllis Freeland Broyles.

On this same day Orville W. Deubler entered on duty as maintenance man.

Superintendent Jackson was on sick list for 39 hours, with the props knocked out from under him by a widely spread virus ailment similar to "flu".

Research: Ranger Henson has made a small study collection of bat species found at Tumacacori. Most of this collection was made during the period when the mission church was being equipped with glass windows and screens to keep the bats out, when the creatures were in an unsettled condition. He devoted many evenings to studying specimens, skinning them and preparing dry mounts for the monument study collection.

Not long ago Ranger Henson sent an interesting bat to Park Naturalist R.G. Prasil, of Carlsbad Caverns National Park, for identification. Mr. Prasil informed him it was *Choeronycteris mexicana*, an identification which was verified by C.C. Sanborn of the Chicago Museum of Natural History. Sanborn told him this was the fourth record of this species of Leaf-nosed bat in the United States.

While on a recent visit to Tumacacori, Mr. Prasil checked identifications of the other bats in the study collection. We have, in

... I was tired. The other boys were waiting around.

1. The first step in the process of identifying a problem is to define the problem. This involves identifying the symptoms of the problem and determining the scope of the problem. Once the problem has been defined, the next step is to identify the causes of the problem. This involves identifying the factors that are contributing to the problem and determining the underlying causes. Once the causes have been identified, the next step is to develop a plan of action. This involves identifying the steps that need to be taken to solve the problem and determining the resources that will be needed to implement the plan. Once a plan of action has been developed, the next step is to implement the plan. This involves carrying out the steps that have been identified in the plan and monitoring the progress of the implementation. Finally, the last step in the process is to evaluate the results of the implementation. This involves determining whether the problem has been solved and whether the resources have been used effectively.

and necessary for the success of the project. The project is a small-scale pilot study and the results will be used to inform the design of a larger study. The project is a small-scale pilot study and the results will be used to inform the design of a larger study. The project is a small-scale pilot study and the results will be used to inform the design of a larger study.

[illegible]

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

UNITED STATES
DEPARTMENT OF THE INTERIOR

addition to the above named bat, the California Leaf-nosed Bat - *Macrotus californicus* Baird; Cave Bat - *Myotis velifer velifer*; Little Cave Bat - *Myotis californicus californicus*; Pallid Lump-nosed Bat - *Corynorhinus rafinesque pallescens*; Desert Pallid Bat - *Antrozous pallious pallious*; and the Mexican Free-tail - *Tadarida mexicana*. All but the Little Cave Bat were caught in the old mission church before completion of the bat-proofing.

If we have bats in the belfry, we at least have bats of distinction!

General: On January 20 we had 447 visitors, which was the biggest day the present superintendent has ever seen here, and undoubtedly exceeds any other day in the history of the monument, with exception of the occasion when the museum building was dedicated. This crowd represented no special groups or tours, but simply the tourist trend as it naturally fell on that day.

For two trained men, working closely as a team, to satisfactorily handle this crowd (to the satisfaction of everybody, as nearly as we could determine) was a routine thing. But without adequate planning when this museum building was built, adequate control measures over entrances and exits, adequate scheduling of guided trips and adherence to timing, and complete understanding of what was expected of each, the day could have been a mess. As it was, there were no complaints, no unauthorized prowling of mission grounds or buildings, and there were many expressions of appreciation by interested mission visitors.

With the monument adequately staffed now (one superintendent, one permanent ranger, one permanent maintenance man, and one seasonal ranger) we enter what will undoubtedly be the middle of the biggest travel ~~xxx~~ period in the area's history. We lose our seasonal ranger at the end of April. After that - - - if travel continues its trend of the past year - - - we look forward with great curiosity to the question of ^{how} much the human vocal cords can take on the two days of each week when each man will be the only person on guide duty.

Earl Jackson

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
TUBACOOT NATIONAL MONUMENT
CLARKVILLE, ARIZONA

January 29, 1952

Memorandum

To: General Superintendent, Southwestern National Monuments
From: Superintendent, Tubacoot National Monument
Subject: Report 1st January 1952

There follows a narrative report of activities in this area.

WATTE

Weather, which kept tourists away, continued to harass most of the month. The following quote from the Verde Independent indicates the violent nature of the weather:

"It took the services of two experienced Colorado bootmen to restore electric power service to the Middle Verde area after the Verde river went big time.... Electric current was restored at 3 a.m..... It had been off 48 hours, or from the time three poles and the transmission line had been washed away...."

The flood waters were caused by a combination of heavy rains and melting snows on the watershed.

DISCUSSION

The Tubacoot Trail alterations and the proposed water well locations were discussed by Messrs Cornell, Miller and Bennett on the fourteenth.

MAINTENANCE AND REPAIRS

Wall cracks in the museum and in the combination office and furnace room were caulked and replastered.

Walls and ceiling of the combination office and furnace room were repainted with leftover, tan, casein paint.

Office cabinets and bookcases were painted pale green. The sink drainboards in the office, the typing table, and the office light fixtures were given two coats of tile red deck enamel.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Badly broken up cement in the office floor was patched with compound and polished down with a carborundum stone.

Once again the rusty old boiler pipe salvaged from the Clarkdale smelter and installed years ago as the Tuzigoot water line has sprung a series of leaks. The leaks were finally located, dug out, and repaired, but not before the monthly water bill had mounted to eightynine dollars! The plumber who furnished the repair clamps estimated there are two thousand such clamps now in use on the less than two miles of water line. On request, the utility company has reduced pressure in the line in an effort to make it last awhile longer.

Two roadside signs were routed, painted and assembled ready for installation.

Mountains of gale-blown thistle were burned from the trails and rooms on the twenty-second.

(The heavy rains which reduced the number of visitors to the area, enabled us to perform all of the above tasks on Force account.)

NEW CONSTRUCTION

A post card and photo pack display rack was built of plywood and decorative h th and attractively painted red and green. The rack displays the cards in a normal, horizontal position (instead of vertical as did the wire rack it replaced). Also displayed are the contents of the photo pack. The ten views are permanently mounted to eliminate the necessity of opening each packet.

A two-shelf pedestal was built and was installed under the three, sectional bookcases in the office. The pedestal unit, in addition to giving added shelf space, provides a mop board for the bookcase.

The Jo Mora, Cowboy and Indian cartes were framed for display in the museum.

ROADS AND TRAILS

Rock slides were cleared from the approach road on the fourteenth.

The county grader bladed the approach road on the fifteenth.

Rain trails were cleaned of rain washed debris on the twentysecond.

Journal of the American Academy of Child and Adolescent Psychiatry

EDUCATIVE SERVICE

In the evening of January eleventh Ranger Max Maxson gave a talk to faculty and students at the Verde Valley High School, five miles east of Sedona, Arizona. On request the talk was given on: early man in the Southwest; Tuzigoot occupation; and the Hopi, modern descendants of the Tuzigoot people. The talk, which was illustrated with fifty-five colored slides, was heard by fifty-nine students and eighteen faculty. Fifty-five students and two faculty members visited the monument the next day.

TRAVEL

676 visitors entered the area in 256 cars. This shows a more than fifty percent increase over the travel figures of last month, but a 24.9 percent decrease from January 1951. There were three uniformed members of the armed forces.

623 people in 185 parties visited the museum.

519 in 240 parties visited the ruin.

Of the total visitors, 63 in 29 parties entered early, late, or at noon and signed the out-door register where the Tuzigoot Trail Guide and two-fold leaflets are available.

100% of our 8-12, 1-5 visitors were contacted.

VISITORS

National Park Service

Archaeologist Roland Richert and his wife Edna (from Chaco Canyon National Monument) made a New Year's visit to the monument.

Superintendent Cook of Montezuma Castle National Monument on the seventh.

Ranger Art White of Montezuma Castle on the ninth.

Messrs. Cornell, J. Miller, and Bennett on the fourteenth.

Ranger Bill Ballard with his wife Jean and their children, from Hopatki National Monument on the twenty-first and twenty-second.

Mr. Donald E. Lee, Fairfax, Virginia; Chief of Concessions, and

Mr. A. E. Kochler, Santa Fe, New Mexico; Assistant Chief of Con-
cessions, on the twenty-third.

Other Agency and Reportworthy

Mr. William ^{Scu} from Rainbow Lodge on December twenty-six and seven.

Mr. W. S. Haglund, U. S. Department of Interior, Fish and Wild-
life Service, Leadville, Colorado on the fourth.

Mr. C. W. Munnell and family, Soil Conservation Service, Anti,
Utah on the fifth.

LOCAL ITEMS

The following is a quote from the Verde Independent:

All Phelps Dodge mining operations at Jerome will end in March,
Harrison W. Lavender was quoted as having declared in a Phoenix
interview Monday.

Lavender is vice president and general manager of the company.

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Wupatki National Monument
Flagstaff, Arizona

Jan. 27, 1952

Memorandum

To: General Superintendent
From: Superintendent, Wupatki
Subject: Monthly Narrative Report, Wupatki and Sunset Crater National Monuments.

Weather:

The weather the first part of the month has been very unsettled with snow flurries and rain. Precipitation totaled .79 inches. Maximum for the month was 56 degrees on Jan 12 with a minimum of 12 degrees on the 4th. The past week has been quite mild with the nights above freezing. The road to Sunset Crater is still snowed in.

The Little Colorado River was a raging torrent going past this area on January 20. It was running about 100 yards wide with high waves and full of debris.

Inspections:

Architect Kenneth Saunders and Harold Marsh visited the area on Jan. 16 and went over our maintenance work.

Roads and Trails:

The roads are getting in pretty good shape. The Citadel Hill was worked over this month. One side was built up about a foot with heavy cinders and then covered with clay to level off the road. This also covered up a lot of large lava rocks that made the hill quite rough. The road up Doney was covered with clay and graded. Work is now going on in completing the grading to highway 89.

Interpretive Services:

At Wupatki 40 people in 17 parties were contacted for an average time of 17 minutes per party.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Washington, D. C.

The National Park Service is pleased to announce the opening of the new exhibit, "The Great Plains," in the main hall of the National Museum. The exhibit is a masterpiece of art and science, and is a must-see for all visitors. It features a large map of the Great Plains, a model of a bison, and a display of the various plants and animals that live in the region. The exhibit is a true masterpiece of art and science, and is a must-see for all visitors.

Travel

Travel is a must for all visitors to the National Museum. The museum is located in the heart of the city, and is easily accessible by public transportation. There are many hotels and restaurants in the area, and a wide variety of shops and services. The museum is a true treasure, and is a must-see for all visitors.

There are many ways to travel to the National Museum. You can take a taxi, or you can walk. The museum is located in the heart of the city, and is easily accessible by public transportation.

the year.

Personnel

The National Park Service is pleased to announce the appointment of Mr. John D. Smith as the new Director of the Service. Mr. Smith has a long and distinguished career in the Service, and is a true leader. He will be responsible for the day-to-day operations of the Service, and will be a key figure in the future of the Service.

During the year - 1911

During the year - 1912

Respectfully,
John D. Smith

TOTALS	54,440	202,590	49,996	186,667	Gain-month 9% Gain-year 9%

(See reverse for notations, comments, etc.)

Despite heavy decreases in travel to some of our northern areas, due to extremely bad weather and impassable roads, our total travel figures show a gain this month over the corresponding period last year and also for the travel year to date. In both instances this increase is 3%. Big increases in visitation to some of the southern areas — 99% at Charleston, 53% at Tusasport, and 41% at Baguara — are largely responsible for putting us back in the "gain" column for January.

REMARKS: _____

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE.
 Please read them carefully.

NAME _____
 TITLE _____

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
 "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
 "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
 "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.
 TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REMARKS: _____

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
 "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
 "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
 "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.
 TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

 "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
 "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR MIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.
 TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

Total travel exceeded any other cost in the history of the area.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.

"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.

"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
 "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
 "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
 "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

TITLE

REMARKS: (Please note below any factors influencing interpretive service, such as:
Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE
SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.

"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.

"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

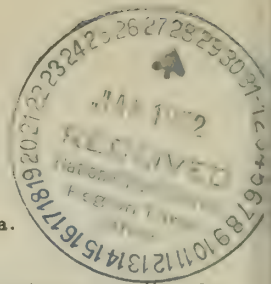

COLUMN 2 Indicates the total attendance of visitors at each class of tip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NATIONAL PARK SERVICE
Arches National Monument
Moab, Utah

February 26, 1952

Memorandum

To: General Superintendent

From: Superintendent, Arches

Subject: Monthly Narrative Report for the Month of February, 1952,
Arches National Monument

WEATHER: Three snowstorms occurred during this month of cloudy, cold and windy weather.

TRAVEL: Weather conditions have held our travel down to a minimum. Only 65 cars entered the area carrying 190 people from 12 different states, Alaska, and Canada.

INTERPRETIVE SERVICE: Twenty-six parties were contacted at headquarters, where we had to advise about a third of them not to try to enter the area. No contacts were made in the monument.

ROADS: Only washout repair has been done on our roads, because of the lack of funds; however they are all in very good condition. Route 63 our approach road was completely closed twice during the month by floods down the Courthouse Wash. Last week the State Highway Department bladed this road and it is now in very good shape.

SIGNS: Maintenance man Winbourn has the job of replacing all of our road & trail signs about 50% complete. By the end of March we hope to have this project completed and will then have a uniform sign system.

REHABILITATION PROJECTS: With the continued foul weather and plenty of other work to do we have not started the roof job on quarters #1-1. The Bohler Bros. have not yet been able to start the painting and floor finishing job on quarters #1-1. The Warehouse-Shop-office building and quarters #1-2 have been given two coats of paint and a fair job of camouflaging both these buildings resulted. The fence around quarters #1-1 was also given a coat of paint and repaired. Fertilizer was hauled for the planting at the Utility area and the trees will be set out this week.

Personnel: Ranger Worthington returned from a month's temporary duty at White Sands National Monument and since his return a great deal of work on the rehabilitation jobs has been done. The story that Rangers are not supposed to do manual labor, we take with a grain of sand.

AZTEC MONUMENT
AZTEC, NEW MEXICO

24 February 1952

Memorandum

To: General Superintendent
From: Superintendent Aztec Ruins
Subject: Report lml, Superintendent's Monthly Narrative

WEATHER: With a general tempering of winter weather our travel has climbed back to the plus side of the ledger. We have had a few light snow storms and some sleet and rain. The sub-zero weather has gone and now we are looking forward to the winds and dust of March.

MAINTENANCE: The unusual severity of our winter weather has kept us busy with the roofs of the ruins structures. A portion of one ancient roof collapsed, but with proper attention it is believed can be stabilized.

The entire top section of one room of the ruins south wall that was stabilized this past summer fell apart as a result of freezing. This will be stabilized again as soon as weather permits.

INTERPRETIVE SERVICE: There were 657 visitors in 219 cars from 26 states, Canada and France who visited the museum. Of these, 365 in 83 parties were conducted thru the ruins.

INCREASE IN TRAFFIC: There was an approximate 15% increase over February last year which itself was 44% above the previous Feb.

WILDLIFE OBSERVATION: Unusually large numbers of Cassin's purple finch (*carpodacus cassinii*) have been noticed on the monument this month. Altho we have numerous golden eagles in this section of the country, we have for the first time in over 7 years of observation identified the rather rare bald eagle (*haliaeetus leucocephalus*). This particular observation was made just over the Colorado line, about 12 miles north of the monument. It is quite a thrill to see this large bird with a wing span of 6 to 7 feet sailing overhead at close distance. The American merganser (*ergus americanus*) in frequent numbers has for the first time been recorded for this area.

VISITORS: Edwin E. Olson, E.C.C. of Dudley Pictures Corporation Santa Monica, California made pictures of the ruins on Feb 3, for inclusion in a future revision of "Britannica". Dr. and Mrs. G. F. McCraw US Public Health Service stationed at San Faeble visited 24th.

NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

February 29, 1932

Memorandum

To: General Superintendent

From: Superintendent, Bandelier

Subject: Narrative Report for February, 1932

Weather

The month of February was very dry with only .15 inches of moisture being received. Temperatures ranged from a high of 61 degrees on the 9th to a low of 7 degrees on the 23rd, with the average maximum about 50 and the average minimum temperature about 30 degrees.

Special Activities

The Superintendent attended a meeting of the Los Alamos County Commissioners, Bureau of Public Roads, and State Highway Department at Los Alamos on February 1, to discuss future road construction and maintenance plans. It was mentioned during the meeting that a request has been made to the Washington Office of the Bureau of Public Roads for Federal funds money with which to construct approximately 4.5 miles of the unpaved portion of the approach road. The BPR is to construct an additional 1.7 miles this spring.

A Civil Defense meeting was held February 26 for all employees and their families, to complete the discussion of the civil defense plan. The plan will now be mimeographed for distribution.

Draft outlines were completed for the introduction, general information, and operation prospects of the development outline of the master plan.

Mr. J. M. Smith

Washington, D. C.

Dear Sir:

Enclosed

are two copies of a report on the progress of the work done during the past season. The report is in two parts, one dealing with the general work and the other with the special work done on the monument. The report is in the form of a letter to the Secretary of the Interior, and is accompanied by a number of photographs and maps.

Very respectfully,
J. M. Smith

The report is in the form of a letter to the Secretary of the Interior, and is accompanied by a number of photographs and maps. The report is in the form of a letter to the Secretary of the Interior, and is accompanied by a number of photographs and maps. The report is in the form of a letter to the Secretary of the Interior, and is accompanied by a number of photographs and maps. The report is in the form of a letter to the Secretary of the Interior, and is accompanied by a number of photographs and maps.

I am, Sir, very respectfully,
Your obedient servant,
J. M. Smith

Very respectfully,
J. M. Smith

Restorative plans are being worked out with the Chamber of Commerce for a "Show Me" day to be held about the middle of May. The plans would include not only Bandelier, but all places of interest in the Northern Rio Grande valley.

Ins. actions

Jerry Miller and Charles Carter inspected the parking area enlargement and assisted with determining the grade and drainage.

Maintenance

The painting of the bathroom walls in all of the Lodge cabins was completed this month.

New construction

Approximately 40 percent of the curbing for the parking area enlargement was dry laid. Frozen ground slowed up this work to some extent and with warmer weather in prospect it will move along faster.

Approach Road

The approach road was graded early in the month and remained in good condition, although it dried out to the point that it was dusty.

Donations

The original painting, by Paul Coze, of a scene in Cave Cave that was used in an archeological series for Arizona Highways was donated to the Monument by the South-eastern Monuments Association. It was hung in the museum lobby where it is not only decorative but it gives visitors a good idea of some of the activities of the Pueblo Indians who formerly occupied Trijales Canyon.

Interpretive Service

A total of 447 visitors were conducted on 28 tours of the ruins during February and 1464 visited the museum.

Ranger Jack Turney gave a talk on "National Park Service Areas in the Southwest" to 40 members of the Canyon School 4P on February 13. The program included a 20 minute film on the four corners area.

THE LAND OFFICE HAS THE HONOUR TO ACKNOWLEDGE THE RECEIPT OF THE REPORT OF THE COMMISSIONER OF THE GENERAL LAND OFFICE FOR THE YEAR 1888, AND TO THANK HIM FOR THE INFORMATION CONTAINED THEREIN.

The work of classifying the herbarium collection was completed and it is now in systematic order. 83 specimens collected by Lloyd Burley in 1948 were assigned number which brings the total to 555. Cards were prepared for the generic and common names files.

Travel

Travel continued to exceed that of last year with 1494 visitors compared to 1328 last February.

Visitors

Visitors this month included:

Jerry Gruitch, Director of Research, American Car and Foundry Co. - New York.

Messrs. Curran and Turner, Bureau of Public Roads, Denver, Colorado.

Insect and Tree Diseases

Bids were sent out by the Regional Forester for airplane spraying for insect control in Trijoles Canyon this spring.

Canyon de Chelly National Monument
Chinle, Arizona.

February 26, 1952

Memorandum

To: General Superintendent
From: Superintendent, Canyon de Chelly
Subject: Monthly Narrative Report for February, 1952

Visitor Travel: 68 people in 24 cars this month, or about 15% over the same month last year. Even had two overnight camping parties. This is surprising considering the unusually cold and disagreeable weather we have had.

Weather: Very cold and windy. High-low temperatures ranged from 9 to 49 with every night dropping far below the freezing point. Although, only .23 of an inch of precipitation intermittent snow flurries fell much of the month.

Roads: All approach roads from the south are in good condition due to recent bladings. However, from the north they are poor and travel is not recommended. Concentrated work has been started on the monument road to White-House and Spider Rock overlooks and another 15 or 20 days will put all in good shape. Heavy wood hauling by Navajo Indians, during the wet winter months, did considerable damage - especially in the upper regions.

Administration: Ranger Morris, who left on January 5 for White Sands National Monument, is still on duty at that area assisting in the construction of comfort stations and other work. A trip was made to Fort Defiance, Arizona, and Fort Wingate, New Mexico, in connection with identifications of headstones at the old post cemeteries. A complete report of findings was submitted.

Rehabilitation Project: The reroofing and exterior plastering of the Superintendent's residence was completed on February 20 and final completion reports submitted. The reroofing involved an area of 1,180 Sq. Ft. 2000 pounds of insulation was used followed by necessary wood and metal flashing and layers of roofing felt, asphalt paper, and roof coating. 3,400 Sq. Ft. of exterior covering was removed from the Sup'ts residence, two garages, tool house, and office (all one building unit.) One inch mesh wire was securely nailed to all walls. This netting was covered with three layers of cement plaster with a final cement coloring added. This is a job well done, and will eliminate annual repair and patching jobs.

over the same old year. They feel that the only way to get out of this is to get out of the country. They feel that the only way to get out of this is to get out of the country. They feel that the only way to get out of this is to get out of the country.

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The process of urbanization is the movement of people from rural areas to urban areas. This is done for a variety of reasons, including the search for better living conditions, the desire for education, and the need for employment. The process of urbanization has led to the growth of large cities and the decline of small towns. This has had a significant impact on the way we live and work. The second of these factors is the fact that the majority of the population of the United States is now living in the South and West. This is a result of the process of migration, which has been going on since the beginning of the 20th century. The process of migration is the movement of people from one part of the country to another. This is done for a variety of reasons, including the search for better living conditions, the desire for education, and the need for employment. The process of migration has led to the growth of the South and West and the decline of the Midwest. This has had a significant impact on the way we live and work. The third of these factors is the fact that the majority of the population of the United States is now living in the Northeast. This is a result of the process of migration, which has been going on since the beginning of the 20th century. The process of migration is the movement of people from one part of the country to another. This is done for a variety of reasons, including the search for better living conditions, the desire for education, and the need for employment. The process of migration has led to the growth of the Northeast and the decline of the South and West. This has had a significant impact on the way we live and work.

At this time, the Commission is in the process of reviewing the results of the study and will report to the President and the Congress. The Commission will also be holding public hearings on the study's findings and recommendations.

1. The first of these is the fact that the majority of the population of the United States is of European descent. This is a fact which has been recognized by the government and the people of the United States for many years. It is a fact which has been recognized by the government and the people of the United States for many years. It is a fact which has been recognized by the government and the people of the United States for many years.

Canyon de Chelly National Monument
Chinle, Arizona.

Maintenance: Due to damp grounds considerable maintenance and fill work was done on the monument roads. New drainage ditches were made around the monument headquarters area and old ones cleaned out.

Also, completed during the month was a new 2' wide x 4' high x 100' long stone retaining and flood water diversion wall. Located along the west side of the headquarters building this not only improves the appearance of the area but serves a very useful purpose as well.

The clutch-assembly on the road grader burned-out. New parts were obtained and installed and it is now in good working order. Also, two new cutting blades were installed to replace the old worn-out ones.

General: There has been a moderate flow of water in the canyons for the past 86 days. Just enough to prevent travel, but not enough to damage work done on soil & moisture projects. In fact it has helped materially.

Everett W. Bright
Superintendent

REPORT OF THE
COMMISSIONER OF THE
LAND OFFICE

RECEIVED: MAY 10 1900
DEPT. OF THE INTERIOR
WASHINGTON, D. C.

Memorandum

To: The General Superintendent
Southwestern National Monuments
National Park Service
Santa Fe, New Mexico

From: Homer J. Farr, Acting Superintendent

Subject: Monthly Narrative Report

Visitors: There have been four hundred and fifty visitors to the Monument during the month of February, making a total of four thousand five hundred for the travel year and twenty one thousand for the fiscal year to date.

Weather: Several light snows have fallen during the month, with some very strong winds. Temperatures have remained moderate for this time of the year with the exception of a short spell of zero weather the last part of the month. About 12 in. of snow and 1 1/2 in. precipitation during the month.

Flora and Fauna: Shrubs, trees and other flora could use more moisture, but the condition is not too bad. Wildlife in the area continues to flourish as usual.

Roads and Trails: The road up on the Monument has been closed for nearly two weeks, due to snow drifts, but is open now. Nothing has been done to the trails during the month.

Special Visitors: No special visitors to my knowledge.

Information Pamphlets: About one hundred information pamphlets have been mailed and handed out during the month, leaving about two hundred on hand, not counting the new shipment, which, as yet has not been unpacked.

Very respectfully,

Homer J. Farr, Acting Superintendent.

February 25, 1952

Memorandum

To: General Superintendent, SWNM

From: Superintendent, Casa Grande

Subject: Monthly Narrative Report for February, 1952.

General: There are signs of spring everywhere!!! The first of the early wild flowers are along the roads and under the trees and bushes. People are making the annual homage to Picacho Peaks to see the first of the California poppies. The Chicago "Cubs" and the New York "Giants" have arrived, and already the exhibition game tickets are going on sale. Sure signs of spring... baseball and flowers.

A Coolidge department store, Cohen's Popular Department Store, has had a mural painted across the front of its new store. Part of the mural is the Casa Grande, touched-up and looking as it might have appeared some 600 years ago.

On the 1st of February, we were visited by Mr. Tillotson and Mr. Patraw. They had an overnight stop in Coolidge, and we hope that everything was satisfactory to their critical eye.

Weather: The condition has been cold nights and warm days. There has been enough frost for the citrus farmers along the Salt River to have their "smudge pots" burning. All-in-all, the days have been sunny and pleasant.

REPORT 1-10-68 HAS BEEN 20 SPECIALTY

February 30 --	General Foreman Harry Brownlee, Vice National Park; Chief Foreman J. Bennett, Administration Foreman John
February 20 --	50 members of the "Wood Ranger" Protective Club, Phenix, Arizona.
February 19 --	Wardens and Mrs. Richard Bates, Lake Mead National Park, Arizona.
February 18 --	Regional Wildlife of the Park and Game Bureau, Department of Agriculture; all from the Arizona Division.
February 17 --	12 members of the Arizona Archaeological and Historical Society.
February 16 --	Mr. Tifferson and Mr. Patrick, National Office, Garden
January 31 --	Mr. M. Saunders, National Office, Santa Fe, New Mexico.
January 27 --	Swagby's visitors from 23 states, Greenland, Japan, South Africa, and Canada.
January 26 --	19 Browns from Troop 2, Coolidge, Arizona.

MoKee, and Equipment Operator Hicks, all from Grand Canyon National Park.

February 23 -- Mr. and Mrs. Harry Boatright, Southwestern National Monuments, Santa Fe, New Mexico.

Mr. and Mrs. Richard Panzer, Lake Mead Recreational Area.

Administration and Protection: During the month we have been involved with trying to make arrangements for the right-of-way for the water system extension. All persons concerned were contacted, and because of the heavy travel, most of these contacts had to be made on my days off.

We received 16 requests for information which were promptly filled.

We made the routine inspection of the Adamsville site, and it appeared to be in good order.

Maintenance: Mr. Mack, our Maintenceman, has been repairing the walls in the utility area, and painting and cleaning up the utility area, and he pruned the overhanging bushes along our primary road. Since this has been such a good month for travel, Mr. Mack has been kept busy walking behind the public picking up after them.

Wildflowers: The Evening Primrose, the Apricot Mallow, and the California Poppies are just beginning to bloom. The Evening Primrose began blooming two weeks ago.

NATIONAL PARK SERVICE

Chaco Canyon National Monument
Bloomfield, New Mexico

February 25, 1952

Memorandum

To: General Superintendent

From: Superintendent, Chaco Canyon

Subject: Report of Activities at Chaco Canyon National Monument during the month of February, 1952.

Weather The weather has continued cold and blustery. Several days of strong winds again moved the famous Chaco sand pile across the north approach road. The maximum temperature of 50° was reached on February 9th. The minimum of 10° above zero was reached on the 20th. There was a total of 1½ inches of snow with a total of .16 inch of precipitation which included some rain. The biggest snow occurred on the 10th with 1 inch. The other half inch of snow came on the 24th. Four other days brought traces of snow usually accompanied by high, cold winds. On the 18th of the month the snowstorm was preceded by a duststorm and on the 27th of January the Canyon awoke to discover itself fogged in.

Administration Numbers were assigned to the three water wells on the monument. The furthest well up the Canyon was called Well No. 1. The well near the Superintendent's residence is No. 2 and the well near the Mobile Unit headquarters is No. 3. This will facilitate reference to the wells and keeping records on them.

An over-night trip was made to Durango, Colorado on February 18 to get various pieces of equipment repaired.

A survey crew of two from the Gulf Oil Company has been mapping the location of various geological formations in this area including those on the monument.

Travel Travel has picked up considerably since last report month with a total of 65 persons reaching the monument in 23 cars. One more car and one more person reached the monument this month than did a year ago, but the car count for the year is down 41 cars and 175 persons. A total of only 12 persons have taken advantage of our overnight campground this travel year as compared to 45 a year ago. All this decrease can be blamed on the bad weather accompanied by nearly impassable roads.

deep and the walls are very high. The views
are very fine and the trip was very pleasant.

Interpretive Services Mainly on account of the cold weather, only 42 of the 65 persons reaching the monument took advantage of the conducted trips which lasted an average of 58.5 minutes. Forth-six persons were given orientation talks for an average of 16.6 minutes per talk.

Patrol On January 27 a trip was made to Escavada Trading Post with return by Pueblo Pintado. A sizable ruin on the banks of the Escavada Wash was visited by accident when we were lost in Sargent's sheep pasture. We did not reach Pueblo Pintado until almost dark and did not stop.

On January 29 a total of 43 horses were driven off the monument. This was done on foot and proved to be a slow and difficult process. On January 30, six horses, one of them hobbled, were found on the monument near the north gate. These were being driven out when Roy Newton, a neighboring Navajo, came for them. Seven more horses were found on the way back to Headquarters and these were driven out the gate in the South Gap. Word was passed out to neighboring Navajos that any horses found on the monument will be driven up the canyon and put out the east gate onto Ed. Sargent's land where, according to rumor, they will be shot. There are now noticeably less horses on the monument, but a few remain.

Pueblo Pintado was visited on February 16 when several pictures were taken. Gordon Vivian was on this trip and directed us down a dim road in the bottom of the Chaco where in two places we had to build more road before we could get by. We stopped to photograph the nearest known pine trees about 19 miles up the canyon.

Equipment Operation and Maintenance Faulty operation of the 10 KWH electric plant was finally traced to a burned out relay. This was rebuilt in Durango and the plant now runs satisfactorily.

Water in the gasoline has caused considerable difficulty. After the Ford pick-up was parked on a hill, water filling the sediment bulb froze and sprung the gasket so a tank full of gasoline leaked out.

A gas tank support was made for an Onan electric plant moved up to the new quarters for the contractor's use. This plant failed to operate their ceramic tile cutter and cutting was done at the Superintendent's residence with electricity from the 10 KWH plant.

On February 7 the first water was pumped into the 10,000 gallon tank for the new residences. The pint-sized engine selected for this job failed after using one tank of gasoline -about one quart- and would not start again. The 7 inch drive pulley on this engine has been replaced with a smaller pulley and another attempt will be made to use the engine.

Plasterers at the new quarters ran out of water while the engine would not run and the engine from Well No. 2 was borrowed. This engine was too large to fit the pump but was wired on with bailing wire and pumping resumed.

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The process of urbanization is the movement of people from rural areas to urban areas. This is a result of the fact that urban areas offer more opportunities for employment and education than rural areas do. The process of urbanization has led to the growth of large cities and the decline of small towns and villages. This has had a significant impact on the way of life in the United States. The majority of the population now lives in urban areas, and this has led to a number of changes in the way of life. For example, the majority of the population now lives in large cities, and this has led to a number of changes in the way of life. The majority of the population now lives in large cities, and this has led to a number of changes in the way of life. The majority of the population now lives in large cities, and this has led to a number of changes in the way of life.

The starter and radiator from the stake bed truck were taken to Durango for repair.

The carburetor and starter were removed from the Allis-Chalmers tractor. These were repaired but the ring gear on the tractor is worn out so the starter will not work.

A total of 48 man-hours has been spent working on light plants. One of the Onans now has something wrong with the ignition system and needs some new parts.

New Construction Seven more lengths of 2 inch pipe were hauled from Durango and on February 6 a crew of three Indians was hired to complete laying the 850 feet of supply lines for the new residences. This pipe has now been laid and the trench backfilled except the spur lines for each residence where backfilling and final connections are to be done.

The roof on Residence No. 6 is complete and on Residence No. 7 the last layer of roof is to be applied. Plastering and the laying of oak flooring in both residences is complete and interior finishing is in progress.

Rehabilitation A contract for the rehabilitation of the Superintendent's residence has been awarded to Garland Neal of Durango, Colorado. Mr. Neal met with Mr. Saunders on February 21 when they discussed what is to be included in the rehabilitation work.

Roads The north approach road was very muddy early in the report month and remained badly rutted after the mud dried up. Part of the month the crossing over the sand dunes was practically impassable and several vehicles were stuck there. On February 19 Ranger Elmore assisted Gordon Vivian and crew in placing some shale over the worst part and a day or two later the County added to the shale plating and graded the road to our north boundary.

Accidents On February 8 Joe Cly received a fractured thumb while assisting in laying the water line at the new residences. Mr. Cly was taken to Crownpoint Hospital where X-ray pictures were taken and his hand placed in a cast.

February 25, 1952

Memorandum

To: General Superintendent
From: Superintendent, Chiricahua
Subject: Monthly Narrative Report

Weather Conditions. One rain and a number of raw cold windy days slowed travel down some during the month, but all around the weather was about normal for February.

Special Activities. One trip was made to Bisbee to contact a contractor in regard to the road oiling job at Chiricahua. Two trips were made to Chiricahua by Contractor Gilbert, and various possibilities were looked over with him. The Superintendent, Operator Marble and Engineer Moran made a trip to Saguaro on February 19 to watch the trail tractor perform. Aside from being broken down during considerable of our stay, it seemed like a very good piece of equipment.

Inspections. Engineer Moran was met at the Douglas Airport on February 18 and we went over the proposed road oiling project. On February 19 he accompanied us to Saguaro for the above demonstration.

Approaches to Monument. All approach roads are in reasonably good condition. The road over the mountain from Highway 80, via Portal has been open all month.

Interpretive Service. 1764 visitors in 495 parties were contacted in the museum. A brief showing of Arizona National Park and Monument slides was worked in at the end of another slide showing at the Silver Spur Guest Ranch. It was necessary to refuse conducted tours to a soldier group, a boy scout group, and another group of visitors due to the superintendent being on duty alone.

Southwestern Monuments Association sales hit a new high this month with a total of \$207.65.

State & Local
Government

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
El Morro National Monument
El Morro, New Mexico

February 26, 1952

Memorandum

To: General Superintendent
From: Superintendent, El Morro
Subject: Monthly Narrative Report

There were 109 visitors compared to 101 last year this period. They came in 38 automobiles. 82 of these people took a trip around the Rock in 28 parties. Three persons went over the top of the Rock in one party, and 31 persons received an orientation talk in 10 parties.

The weather has been cold and wet for nearly the entire month. The coolest was 2 degrees below and the warmest was 57 degrees above zero Fahrenheit. Several days were spent shoveling snow off the trails. Because of the moisture this winter, the immediate country is in much better shape than a year ago. The pool has many a ten-toe sand pit from being full, but has much more water than last winter. Maybe we won't have to ration water this summer!

Due to the moisture of the past sixty days, the approach roads have not been in the best of condition. The County grader bladed the Monument road and it is in good shape.

The light plant technician called this month, but both plants were in good working order. However, since then, one has ceased to function. We will be waiting for him next time he comes by.

Last month, the radio was out of commission. The radio technician came by, took part of the radio away with him and returned it, repaired, next day. The radio has been operating satisfactorily since then.

Our perennial job, rehabilitating signs, was continued this month. We took up one sign that had 24 bullet holes! Judging from the holes, all but one of the Nimrods were pretty poor shots.

A good many small and odd jobs were accomplished. Most of the library books were catalogued. More information was gained about some of

DEPARTMENT OF THE INTERIOR

Re: Visitors during winter.

Two visitors in January.

These visitors were of the type which is usually met with in the Grand Canyon. They were accompanied by a guide and a pack animal. The weather was very cold and the trail was very difficult to follow. The visitors were very interested in the cliff dwellings.

There are a number of places in the Grand Canyon where the cliff dwellings are located. These are usually in the form of small caves or niches in the rock.

The weather is usually very cold in the Grand Canyon during the winter months. The trail is very difficult to follow and the weather is very bad.

Very little snow in the high country during the winter months. The weather is usually very cold and the trail is very difficult to follow.

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Gran Quivira National Monument
Gran Quivira, New Mexico

February 25, 1952

Memorandum

To: General Superintendent

From: Superintendent, Gran Quivira

Subject: Monthly Narrative Report for February 1952

Weather. Quite a variance this month. There were several reasonably warm days but winter is still with us. Two light snow falls, amounting to 2.5 inches, were received and precipitation from these totalled .53 of an inch. Heavy inds predominated most of the month with a terrific dust storm on the 2nd. The months minimum temperature of 1 degree was recorded February 24 and the maximum of 63 degrees on the 9th.

Approach Roads. The State Maintainer graded the road in from Mountainair on two occasions, consequently this approach was in good condition. The Carrizozo approach from the South was in fair shape most of the month. Two visitors reported using the South approach from Bingham and spent some three hours traversing 40 miles. This route very seldom receives any maintenance and we discourage visitors from using it.

Maintenance. Most of the Superintendent's free time this month was spent on odd jobs around the area. The biggest of these was the stacking of used lumber which has been accumulating in piles here for the last ten years. Some miscellaneous painting was accomplished and the road received four man days work with the drag, rake and shovel.

Minor repairs were made on the telephone line on two occasions to keep it in operating condition. It was necessary to replace one pole that had rotted away at the base, and examination of others indicate that we can expect more of this same trouble before the year is out.

Personnel. The Superintendent was on annual leave for 10 days this month.

Museum. A small glass case was repaired and placed in the office-exhibit room to accomodate part of the monument library.

Artifacts on display were removed and the interior of the cases cleaned.

Travel. There was a 58 percent increase in travel this month over that of a year ago. 193 people in 61 cars entered the area. Most of this travel was received during the week ends.

Interpretive Services. The Superintendent and Janitor Kite contacted 185 visitors this month. 122 persons in 33 parties were guided through the ruins for an average of 42 minutes per party. 71 persons used the self guiding trail, and 180 went through the museum.

MEMORANDUM

To: General Superintendent

From: Superintendent

Subject: Superintendent's Narrative Report for February, 1931

Weather Conditions

February weather was just about enough to permit travel and house work activities but not bad enough to set any records. It was relatively dry with only 2.05 inches of precipitation recorded. The maximum temperature was 44 degrees on February 27. The minimum was 23 degrees on February 22. High wind was experienced on several occasions.

General

The all time in the San Luis Valley recorded low in snow on several new companies started office space in Alamosa and will eventually spread have been working just south and west of the monument. The situation is now beginning to show some of the aspects of a promising future.

Special Activities

The trip was made to Pueblo at my own expense for the purpose to find the old and approved planning and select for the talk program system. Little success was had as the Region Three office is hoping to move shortly from the headquarters.

Plans

The Park Operations Department portion of the Development Outline was revised and submitted to your office in rough draft.

Sanitation and Maintenance

The sanitary work was completed in the 1931 year. The toilet, and the water system is finally complete and will

NATIONAL PARK SERVICE

GREAT SAND DUNES NATIONAL MONUMENT

Alamosa, Colorado

February 24, 1952

Memorandum

To: General Superintendent

From: Superintendent

Subject: Superintendent's Narrative Report for February, 1952

Weather Conditions

February weather was just nasty enough to restrict travel and hinder work activities but not bad enough to set any records. It was relatively dry with only 0.05 inches of precipitation recorded. The maximum temperature was 44 degrees on February 10; the minimum was -5 degrees on February 20. High wind was experienced on several occasions.

General

The oil boom in the San Luis Valley received new impetus as several new companies rented office space in Alamosa and oil exploration crews have been working just south and west of the monument. The situation is now beginning to assume some of the aspects of a promotion scheme.

Special Activities

One trip was made to Pueblo at my own expense in an attempt to find UL and AGA approved fittings and valves for the bulk propane system. Little success was had so the Region Three Office is buying them directly from the manufacturer.

Plans

The Park Operation Prospectus portion of the Development Outline was written and submitted to your office in rough draft.

Maintenance and Rehabilitation

The asphalt cove base was installed in the front room, front hall, and the second bedroom to finally complete that job.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

WATER RESOURCES DIVISION
WASHINGTON, D. C.

February 11, 1958

Memorandum

To: Chief, Hydrology Division

From: Hydrologist

Subject: Hydrology Division's Hydrologic Report No. 1000, 1957

Summary

Hydrology Division's 1957 report shows that water supply in the Pacific Northwest is adequate for the present but will be inadequate in the future. It was estimated that only 11.5% of the available water supply will be available for use in the future. The available water supply is estimated to be 11.5% of the available water supply. The available water supply is estimated to be 11.5% of the available water supply.

Details

The 1957 report is the first in a series of reports on the water supply in the Pacific Northwest. It was prepared by the Hydrology Division of the National Park Service. The report shows that water supply in the Pacific Northwest is adequate for the present but will be inadequate in the future. It was estimated that only 11.5% of the available water supply will be available for use in the future. The available water supply is estimated to be 11.5% of the available water supply.

Recommendations

One of the main reasons for the shortage of water in the Pacific Northwest is the lack of adequate storage facilities. It is recommended that the National Park Service should develop a program to build storage facilities in the Pacific Northwest. This program should be developed in cooperation with the Federal Government and the States of the Pacific Northwest.

Plan

The Hydrology Division's Hydrologic Report No. 1000, 1957, is being distributed to the following:

Hydrology Division, National Park Service

The Hydrology Division's Hydrologic Report No. 1000, 1957, is being distributed to the following:

Considerable time was devoted to working up dead logs into two foot bridges for the Montville Nature Trail. The material is in place ready to be put up as soon as the frost goes out. At the same time logs were flattened on top to make rough seats for the campfire circle at the Mosca Creek Picnic Ground.

The plans for the bulk propane gas system were returned by the Washington Office for revision before approval would be granted. Mr. Richardson has completed the revision which has been returned to Washington. Materials are all on hand now except for the fences, fire extinguisher, a few of the smaller fittings and valves, and the paint and signs.

A wood-working bench built during the month will save a great deal of time on construction of the easel display, radio cabinet, register stand, signs, and similar projects for this next month.

Two more loads of wood were hauled down from the George White place. This makes enough wood on hand for at least two more winters.

The monument road was graded once and snow was plowed from the road along Mosca Creek.

Approach Road

Alamosa County bladed the road once and it is in fair shape.

Concessioner

Mr. A. W. Graves, the saddle-horse concessioner changed his mind about not returning next summer and has requested an expanded permit to authorize the use of a horse-drawn vehicle in addition to the saddle horses. His request was forwarded with my comments.

Interpretive Service

One talk was given outside the area during the month. This was given to 15 members of the Half-century Club in Alamosa on February 20. The subject was "Flowers of the Arizona Desert" illustrated with 35 mm. slides.

Research and Observation

The monument photograph file was brought up-to-date. A great deal of work was devoted to the rest of the fact file, also.

The second group of plant specimens of 75 different species was returned by the University of Colorado Museum with identifications. No further work has been accomplished, however, toward cataloguing and mounting them.

Considerable time was consumed in searching up lead lines into the two buildings for the possible source of lead. The material in the glass nearby is as good as the lead glass used. In the same time line were flattened on top in some cases for the complete circle at the known lead glass source.

The plans for the lead process has been very prepared by the Washington Office for material before material would be received. Mr. Robinson has completed the material which has been received. Materials are all on hand and ready for the process. The Washington Office at the smaller facilities and values, and the glass and signs.

A good-looking sample being given the work will show a great deal of time in construction of the small display, which is being registered, stored, and similar projects for this next month.

Two more leads in wood were carried from the house. Right place. This makes enough wood on hand for at least two more visitors.

The amount of wood was carried from the house and was placed from the wood along house front.

Investment Fund

Investment Company listed the fund was set up in this house.

Investment

Mr. A. J. Taylor, the Washington representative charged the stock about the investment fund and had requested it. He is in the process of setting up the fund and has a number of shares in the fund. The fund is being set up by the Washington Office.

Investment Fund

The fund was given under the name of the fund. The fund was given to the Washington Office in January 1941. The fund was given to the Washington Office in January 1941. The fund was given to the Washington Office in January 1941.

Investment and Investment

The fund was given to the Washington Office in January 1941. The fund was given to the Washington Office in January 1941. The fund was given to the Washington Office in January 1941.

The fund was given to the Washington Office in January 1941. The fund was given to the Washington Office in January 1941. The fund was given to the Washington Office in January 1941.

Decrease in Travel

Protection

A brief and general fire plan for the Great Sand Dunes was written and submitted for comment.

(SIGNED)

Glen T. Bean
Superintendent

Interpretation: The family reunion which was held 4/10-11/59 during the month was attended by 1,000 people. - From the children were mentioned as the most with which we attended on Sunday 4/11/59. Most during the week. The program itself was enjoyed by 1,000 people. In the fall, 1959 people visited the museum and the family reunion itself.

On February 18, Carl Hansen stopped by his former boss' work
at 1420 1st Street and told:

In February 14, 1961, the Hong Kong Government paid a dividend of 10%.

On January 22, Forest Service personnel at this area will go through the Mountain Trail. Forest LPA reports that on March 16, 1966, Forest Ranger and his assistant in work after 22 years with the agency.

Construction & Maintenance: Following receipt of a letter
from the City of New York, the State is aware of the existing pro-
gram and has completed the plan, land and management IDI's construction
the operating field and the public program, and completed the
construction of the program by the State and the City of New York.

Continued on Page 2

This study was prepared pursuant to the request of the Joint Committee on the Administration of the Government of the District of Columbia, and is intended to provide information on the subject of the District of Columbia's financial management system.

Findings

The study indicates that the District of Columbia's financial management system is in need of significant improvement. The system is currently operating on a cash basis, which is not consistent with the principles of sound financial management. It is recommended that the District of Columbia adopt a system of accrual accounting, which would provide a more accurate picture of the District's financial position.

Montezuma Castle National Monument
Camp Verde, Arizona

February 26, 1952

Memorandum

To: General Superintendent
From: Superintendent, Montezuma Castle
Subject: Monthly Narrative Report, February 1952

Weather: It has been cold and dry this month. Only .29 inches of rain was recorded, and all of that fell during the night of February 10. Minimum temperatures registered below freezing throughout the month, while maximum readings averaged in the high 50's.

Travel: Although slow the first part of the month, it has picked up considerably the last few days. 1255 people in 407 cars visited the Castle and 784 people in 251 cars went to the Well. This makes a total of 2019 visitors to the area as compared to 1882 for February of last year. Greatest increase in travel was at the Well.

Interpretation: The Castle museum which was fully attended during the month was visited by 1200 people. About 350 visitors were contacted at the model site which was attended on Sundays and part time during the week. The Sycamore Trail was enjoyed by 1,000 people. At the Well, 268 people visited the museum and 700 hiked the Loop Trail.

Visitors: Superintendent Brewer spent February 12 in the area photographing artifacts for the Jackson Excavation Report which is to be published soon.

On February 15, Carl Alleman stopped by to inspect trail work at both the Castle and Well.

On February 16, Don Watson from Mesa Verde paid the area a visit.

On February 23, Forest Service personnel of this area held at picnic at Montezuma Well. About 125 people met to honor Mr. Henry Summerfield who is retiring in March after 33 years with the service.

Construction & Maintenance: Following receipt of a pruning saw from Big Bend, clearing of the vista in front of the seating arrangement was completed. Also, dead and dangerous limbs overhanging the Sycamore Trail and the public campground were removed. The cottonwoods in the campground at the Well were also pruned.

Repairs to the public campground, severely damaged by January floods, were completed during the month. Forty yards of fill material was purchased and a tractor with blade attachment hired to spread it. Fences in this area were also repaired.

The unsightly and dangerous steps in the Castle "A" section of the Sycamore Trail were removed.

The existing trail down into Montezuma Well was landscaped this month. Sixty yards of dirt and native stone were used in accomplishing this work.

Wildlife: A bobcat was observed on the front porch of the residence at the Well on the night of February 10. Also, many Robins and Meadow Larks have been noticed this month.

 Department of Justice

Navajo National Monument
Tonaless, Arizona

February 25, 1952

Memorandum

To: General Superintendent
From: Superintendent, Navajo
Subject: Monthly Narrative Report, 1ml, February, 1952

Travel and Interpretation: For the first time in two months we had visitors. There were 8 people traveling in three cars who visited the area. Betatakin Ruin was viewed by all from the canyon rim after trudging through at least 10 inches of snow over nearly two miles of trail. One trip was made to Keet Seel Ruin.

Weather: We have had one day when the temperature went to 51 degrees for a monthly high, 6 degrees was the minimum. The precipitation has amounted to nearly one half inch during this report period.

General: A new, heavier and longer work bench was constructed and put in use in the utility-tool shed. Tools, supplies and equipment were rearranged for greater convenience and neater appearance. Two overhead racks were built.

Additional electrical wiring was added to the ranger hogan.

Two War Surplus tents were received and will provide us with some good canvas for covering loads, etc.. There were also, some very nice manila ropes included.

The fencing purchased for the butane tank installation was picked up in Flagstaff and is ready to be placed in use as soon as the present 500 gallon tank is replaced.

The furnace chimney was given its monthly clean out. One day was spent hauling coal.

The bathroom walls in the superintendent's residence were washed.

Publicity: THE WESTWOOD HILLS PRESS, Los Angeles, California, gave us some fine publicity in two issues of their paper, carrying a long article and pictures concerning a trip to Keet Seel made by Mr. Frank McNitt, the editor.

Museum Planning: Pipeline, one of our local Navajo men, has been helping us locate some items for the proposed ethnological exhibit. We have seen some very nice things but have not yet obtained any for use at the Monument, the problem of finance rearing its ugly head. We have inspected two complete hunting sets, including bows, arrow, and quivers made of lion skin, old style "medicine" pouches, old fashioned "sqaw dresses" and so forth. One of our neighbors has

SAVAGE NATIONAL MONUMENT
TERRACE, WYOMING

February 11, 1932

Dear Sir:

Enclosed for you are two copies of the report of the
Terra Cotta Survey, 1931.

Very truly yours,
J. H. Rusk

General and Introductory The first thing in the report
is the history of the monument. It is a very interesting
story. The monument was established in 1906 by the
President. It was the first national monument established
for the purpose of preserving the prehistoric ruins of
the ancient Indians.

Location The monument is located in the northwestern
corner of the State of Wyoming. It is about 10 miles
from the town of Torrington. The monument is about
10 miles long and 5 miles wide.

Geology The geology of the monument is very interesting.
It is a very old country. The rocks are of the
Cretaceous and Tertiary periods. The rocks are of the
same kind as those found in the other parts of the
State.

Archaeology The archaeology of the monument is very
interesting. There are many ruins of the ancient
Indians. There are also many ruins of the ancient
Europeans.

The Ruins The ruins of the monument are very
interesting. There are many ruins of the ancient
Indians. There are also many ruins of the ancient
Europeans.

The Ruins The ruins of the monument are very
interesting. There are many ruins of the ancient
Indians. There are also many ruins of the ancient
Europeans.

Excavations The excavations of the monument are
very interesting. There are many ruins of the ancient
Indians. There are also many ruins of the ancient
Europeans.

Excavations The excavations of the monument are
very interesting. There are many ruins of the ancient
Indians. There are also many ruins of the ancient
Europeans.

one of the brass buckets that were issued to the Navajos upon their return from Bosque Redondo in 1868. The owner of this bucket has not yet seen fit to part with it.

Personnel: Former Seasonal Ranger Hubert Laughter has returned to the Monument. Mr. Laughter will work as laborer when not employed as our season ranger. We are in receipt of several very highly complimentary letters concerning Hubert and are happy to have him back.

Weather

While the weather has been nice for the most part, the high of wind weather is being experienced. The high wind from the north is blowing the clouds away from the monument, and the sun is shining brightly. The temperature is 80° at the monument and 85° at the lake. The wind is 10° at the lake.

John A. Aubuchon
Superintendent

Forest Activities

Deposits were made in the residential area and the deposits were made with the following amounts: \$100.00 for the first deposit, \$100.00 for the second deposit, and \$100.00 for the third deposit.

Deposits were made in the residential area and the deposits were made with the following amounts: \$100.00 for the first deposit, \$100.00 for the second deposit, and \$100.00 for the third deposit.

NATIONAL PARK SERVICE

Organ Pipe Cactus National Monument
Ajo, Arizona

February 25, 1962

Memorandum

To: General Superintendent

From: Superintendent

Subject: Monthly Narrative Report, 1st for February 1962

Weather

While the weather has been nice for the most part, a few days of cool weather were experienced during the month with light frost in the mornings. No rain fell at headquarters but the western section of the monument did receive moisture. High temperature recording for the period was 80° on the 1st and the low was 28° on the 16th.

Special Activities

Topographic survey in the residential area and the campground road survey were completed with Engineers Bradley and Jenkins returning to the Regional Office February 20.

Landscape Architect Alleman spent February 12 and 13 on campground inspection and masterplan work in the area.

New Construction

The central gas system bulk tank was received and installation of the system was initiated.

Labor crews are now hired and all projects will be underway during the month.

Other Government Agencies

The Coast and Geodetic Survey is setting bench marks and running levels over the area. While no elevations are being stamped on the bench marks we are informed that this information will be available when the survey is complete.

Interpretive Service

With the increase in visitor travel and use of the campground all personnel have been busy with interpretive

activities during the report period.

Although seven talks and slide shows were given we find we have reached the limit of attendance in our small headquarters building where the shows must be held on the still cool evenings. Attendance of over forty at a show requires that a good many must stand and some of these must stand outdoors.

Research and Observation

Due to other commitments Collaborator Szell was forced to cease the archaeological survey of the area and return to Tucson. All artifact materials were taken to Tucson to the laboratory for final study and report.

Archaeologist Schroeder was with us the 15th and 16th to discuss various aspects of the survey to date.

Travel

Travel has increased regularly throughout the month, with a considerable increase in camping. A large proportion of our visitors are taking the loop drive and spending more time in the area.

Ranger Service

One of the campers was lost for several hours on Feb. 3rd. We were notified about dark and were able to track him. He had taken an opposite direction to that in which he had come, on his return to his car and walked about 14 miles before we caught up with him.

After walking several hours he came to the old Milton Mine which is currently being worked, thought he had found a barrel of water and got, instead, a mouthful of diesel fuel; then to make it complete and top it off he made a walking stick from Mexican Jumping Bean, the sap of which is toxic and which he got into his eyes so that he was nearly blind for about two days. While everything finally worked out satisfactorily he had considerable trouble living it all down among the other campers.

Personnel

Ranger Steele received a promotion and transfer to Supervisory Ranger, Saguaro National Monument and departed for his new assignment February 24. Along with the Steeles go our wishes for the best of luck, and success in their new home.

Jack Williams will be employed temporarily until a permanent replacement can be found.

William R. Supernaugh
Superintendent

1. The first step in the process of identifying a problem is to determine the nature of the problem. This involves a thorough understanding of the situation and the factors that are contributing to the problem. Once the nature of the problem is understood, the next step is to identify the causes of the problem. This involves a detailed analysis of the situation and the factors that are contributing to the problem. Once the causes of the problem are identified, the next step is to develop a plan of action. This involves determining the steps that need to be taken to solve the problem and the resources that will be required to implement the plan. Once a plan of action has been developed, the next step is to implement the plan. This involves carrying out the steps that have been identified in the plan of action. Finally, the last step in the process is to evaluate the results of the plan. This involves determining whether the plan has been successful in solving the problem and whether any further action is required.

2000

It is a common mistake to think that the only way to protect the environment is to ban all development. In fact, the best way to protect the environment is to manage development wisely. This means finding ways to use land and resources that do not harm the environment. For example, we can build houses and businesses in areas that are not important for wildlife or plants. We can also use resources like water and energy more carefully. By managing development wisely, we can protect the environment and still have the things we need to live.

Abstract

1. The above information was obtained from a confidential source who has provided reliable information in the past.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Saguaro National Monument

Tucson, Arizona

February 21, 1958

Memorandum

To: General Superintendent

From: Superintendent, Saguaro

Subject: Monthly Narrative Report, February 1958

General

New and ever-higher travel records have become so commonplace at Saguaro National Monument during the last few months that no one cares to estimate what each day will bring forth. February set a new all-time monthly record by a large margin and January 27 and February 3 produced all-time high daily records of 1,003 and 1,007 respectively. All we can say is that travel is terrific with no prospects for decline in the near future.

The month was generally dry. A few light rain showers occurred on February 9 and 10 but a general decline of precipitation was noted. The snow pack in the Pinalon is practically non-existent. Temperatures were chilly on several days but in general the weather was pleasant throughout the month.

The soil contains enough moisture to produce an above average display of wildflowers. At this writing many of the brittle bush, bladderpod, yellow, Jewel Flower, Penstemon, and California poppy are in blossom. No buds on any cactus plants have yet been observed.

Special Activities

Regional Director Tillotson and Assistant Regional Director Petray inspected the area on February 8.

Demonstration of a Grader-Tractor-Compressor Unit was held at Saguaro Ranger Station on February 11 and 12. Personnel from Grand Canyon, Lion, Chiricahua, and the Region Three Office were present for the demonstration.

Firearm Engineer Brown inspected monument roads on February 20.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Status Of Private Lands

The deed, certificate of title, and other supporting papers on the Chamber of Commerce property were forwarded to the Regional Office on February 16. This completes transfer of all private lands under option to the United States. Final opinion on the Garwood and Chamber of Commerce property is still forthcoming from the Attorney General's Office.

Mr. Paul Cutter of the Bureau of Land Management conducted an appraisal of the State lands within the Monument in connection with the proposed land exchange.

General Publicity

Two excellent photographs of Saguaro, donated by Marvin Frost, appeared in the Tucson Chamber of Commerce Rodeo Edition.

Mr. Mason Sutherland, a staff writer for the National Geographic Magazine, toured the area on February 14. Mr. Sutherland is preparing an article for the "Geographic" on Tucson and its surrounding attractions.

Maintenance

Much time was spent in repainting, repairing, and renovating signs and markers on the Cactus Forest Looproad. This work will be continued in ensuing months.

Brush and debris along the new residence area and entrance roads was cut and removed.

No further tread material was added to the Cactus Looproad because of a breakdown in the front-end loader.

A new pit toilet was dug and the rest rooms were moved on to the new pit. The pit was reinforced with a concrete collar to prevent caving in.

New Construction

Construction of residence no. 12 lagged somewhat during January. Architect Saunders inspected the progress on February 1 and discussed several matters with the contractor. At present the walls are complete, the bonding beam and rough plumbing installed, and the floor poured. The contractor states that he will not stay with the job until completion.

Approaches To Park Area

The Pima County Highway Department conducted a traffic count at the Monument entrance and on the Spanish Trail approach road. We hope this is an indicator of progress toward paving of the latter road. The count has come at an opportune time when heavy travel is being experienced.

Legislation

The Arizona State Senate put off passage of Governor Pyle's Ground Water Code and appropriated \$100,000 for further study on the matter. Uncontrolled pumping of groundwater will exist in the State of Arizona for at least another year.

Interpretative Services

A total of 5,150 persons in 1,482 parties were afforded interpretative services at monument headquarters. This amounted to a total of 260 hours for an average of 10 minutes per party.

Research and Observation

A number of specimens of native wildflowers were collected for use in our "Layman's Herbarium". These specimens will be mounted as soon as they are pressed sufficiently. We were rather fortunate to have such a good flowering spring for this collecting. Some biennials such as the Jewel Flower, (*Streptanthus arizonicus*), have not been observed in recent years.

Observations for the month included a group of eleven Coyotes on the Looproad and one Desert Bobcat.

The first Say's Phoebe was observed February 13, the first Crested Flycatcher February 14, and a White-wing Dove was heard on February 17.

Several California Poppies are blossoming near headquarters and the first Blue Yucca Blossom was noted February 19.

Increase in Travel

A total of 9,510 persons visited Saguaro National Monument in February. This is a new all-time high record which bettered last month's total by 2,496 persons and the February 1961 total by 3,610 persons.

Visitors

- Jan. 26 - Robert Howley, retired Treasurer, University of Massachusetts.
- Feb. 1 - Architect Kenneth Saunders, Region Three Office, Santa Fe, N.M.
" 5 - Regional Director W.M. Tillotson, Santa Fe, N.M.
Asst. Regional Director P.P. Patras, Santa Fe, N.M.
" 8 - Capt. L.D. Wilde and family, former U. S. Ranger, Davis-Monthan AFB, Tucson, Arizona.
" 9 - Roger Morris, Asst. Supervisor, Coronado National Forest Tucson, Arizona.
" 7 - Mr. Paul Cutter, Bureau of Land Management, Albuquerque, N.M.
" 12 - Ella Calliver, former school teacher at Grand Canyon National Park.
" 14 - Asst. Regional Director H. J. Sorrelli and family, Santa Fe, N.M.
Dr. A. R. Douglass, University of Arizona.
Mr. Ray Herbert, Western Days Photographers, Tucson, Ariz.
Mr. Mason Cutherland, staff writer, National Geographic Magazine, Washington, D.C.
" 19 - John H. McKee, Grand Canyon National Park.
Otis Vicks, Grand Canyon National Park.
Lawrence A. Scheier, Grand Canyon National Park.
W. E. Brockmeier, Zion National Park.
Capt. Claire Cook, Chiricahua National Monument.
Maintenance man Jesse Marble, Chiricahua National Mon.
Highway Engineer Thomas Moran, Region Three Office, Santa Fe, New Mexico.
" 20 - Mr. and Mrs. Ralph L. Griswold, Pittsburgh Pa., Mr. Griswold is Chairman of the National and State Park and Forest Committee of the Society of Landscape Architects.
" 21 - Mr. Don Watson, Naturalist, Mesa Verde National Park.

Ranger Service

Forrest M. Benson Jr. transferred to Hot Springs National Park as Chief Ranger effective February 12. We wish Forrest all of the best on his new assignment.

Philip Welles entered on duty as Temporary Park Ranger on Feb. 1. Ranger Grover L. Steele of Organ Pipe Cactus National Monument entered on duty as Supervisory Ranger on February 22. A hearty welcome to both Phil and Earl from the staff at Saguaro.

Police Protection

New cloth signs were installed along the boundaries in preparation for Javeline hunting season. Signs were posted at various points along the county road in newly acquired Section 2, the former Fresco property.

DEPARTMENT OF THE INTERIOR

Southwestern Monuments Association

Total sales of publications for the month of February amounted to \$255.90. Included in this total were 1605 guide leaflets which were sold during the month. This is also a new record for Aguero.

Personnel

Laborer Baltasar (Ben) Salinas was ill for a week with a bad case of flu. He has recovered completely at this time.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tonto National Monument
Roosevelt, Arizona

February 26, 1952

Memorandum

To: General Superintendent, Southwestern National Monuments
From: Superintendent, Tonto National Monument
Subject: Narrative Report, Incl, February 1952

Weather. Rain on February 9 & 10, about 1 inch. Warm most of the month, cold and windy during the last week.

Visitors. Mr. G. E. Topliff, Canton, South Dakota, 93 years old, who climbed to the cliff dwelling. This rivals John Smith of Carlsbad Caverns fame.

Supervisor Jack Lillevig of Tonto National Forest, and party.
Naturalist & Mrs. Burns, Lake Mead.

Mr. & Mrs. J. L. Lee, former coach at Notre Dame.

Mr. Art Wahl, Mesa Chamber of Commerce, in to arrange for cavalcade to visit Tonto on March 16.

Mr. & Mrs. Harry B. Boatright, Santa Fe, New Mexico.

Inspections. General Superintendent Davis, Architect Saunders, and Mrs. Davis & Mrs. Saunders were in briefly, during a recent trip to Wila Pueblo. Engineer Conn returned on February 25 to inspect the construction projects and outline further details.

Travel. The all-time record here was exceeded by about 25% when 5002 visitors came in during February. This is an increase of about 66% over February last year. This was normal travel, not aided by special tour groups. Travel exceeded 450 on several Sundays, and over 200 per day on many week days. 2426 persons visited the cliff dwelling, or nearly as many as the total visitors for January. The increase occurred despite construction on the entrance road.

Construction. Considerable progress was made on the construction projects. A lot of time and work has been required from the regular staff, for supervision, record keeping, procurement of supplies, and actual work on the projects. This during the heaviest travel month we ever had. Naturally, interpretation and all but the most urgent fiscal work, have suffered, though a lot of personal time has been contributed.

Dear Sir:

General Superintendent, National Forest, Washington, D.C.

Department of the Interior, National Forest

Subject: National Forest, Washington, D.C.

Reference is made to your letter of January 14, 1932, and to the fact that you are still in the field.

Very truly yours,
J. Edgar Hoover, Director, Federal Bureau of Investigation

Enclosed for the National Forest, Washington, D.C., are two copies of a letterhead memorandum dated and captioned as above. The memorandum is being furnished to you for your information and for the information of the National Forest, Washington, D.C.

Very truly yours,
J. Edgar Hoover, Director, Federal Bureau of Investigation

Enclosed for the National Forest, Washington, D.C., are two copies of a letterhead memorandum dated and captioned as above. The memorandum is being furnished to you for your information and for the information of the National Forest, Washington, D.C.

Very truly yours,
J. Edgar Hoover, Director, Federal Bureau of Investigation

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Vandalism. The increase in number of visitors brought in some of the undesirable element, naturally, and on January 27 a big cholla cactus along the ruins trail was set afire, presumably by three young punks from Phoenix, who were not apprehended. Just lucky it was not a saguaro cactus. On Sunday February 17, some nature lover stole the fishhook cactus from beside the trail marker. Could be sure what kind of cactus they were getting, that way. As over 400 people came in during about a 6 hour period on each of those days, we just could not watch all of them.

Interpretation. As an attendant condition upon the increase in visitation, we have noted a considerable proportion of visitors who have little interest in archaeology or biology, but merely want a quick look at the cliff dwelling, with as little information as possible.

This month a saturation point has often been reached, where it became impossible to give enough attention to each group to dispel the basic ignorance with which so many of them enter the area. Traffic duty and information to arriving visitors takes so much time on many days as to render museum talks impossible, and museum interpretation is limited to the dry taxonomic displays available here. A completely different approach is indicated for the near future, which will be thoroughly discussed in the Master Plan Development Outline, if I ever get time to write it.

Service to the Public. On busy weekdays, visitors are now standing in line for the outdoor toilets. This is standard procedure on Sundays.

General. Archaeologist Wenger took the pictures showing visitor use of the parking area, and comparison of typical days with special days, and mounted them for this report.

Systematic recapping of the pickup tires is being done, with some replacements necessary.

Charles C. Sharp
Superintendent

1. The first step in the process of identifying a potential threat is to determine the nature of the threat. This can be done by reviewing the threat's history, its current status, and its potential impact. Once the nature of the threat is understood, the next step is to identify the threat's source. This can be done by reviewing the threat's communications, its activities, and its relationships. Once the source of the threat is identified, the next step is to determine the threat's intent. This can be done by reviewing the threat's statements, its actions, and its relationships. Once the intent of the threat is understood, the next step is to determine the threat's capability. This can be done by reviewing the threat's resources, its personnel, and its equipment. Once the capability of the threat is understood, the next step is to determine the threat's vulnerability. This can be done by reviewing the threat's weaknesses, its dependencies, and its limitations. Once the vulnerability of the threat is understood, the next step is to determine the threat's response. This can be done by reviewing the threat's reactions, its actions, and its relationships. Once the response of the threat is understood, the next step is to determine the threat's impact. This can be done by reviewing the threat's effects, its consequences, and its relationships. Once the impact of the threat is understood, the next step is to determine the threat's status. This can be done by reviewing the threat's current status, its future status, and its potential status. Once the status of the threat is understood, the next step is to determine the threat's priority. This can be done by reviewing the threat's importance, its urgency, and its relevance. Once the priority of the threat is understood, the next step is to determine the threat's action. This can be done by reviewing the threat's plans, its actions, and its relationships. Once the action of the threat is understood, the next step is to determine the threat's outcome. This can be done by reviewing the threat's results, its consequences, and its relationships. Once the outcome of the threat is understood, the next step is to determine the threat's feedback. This can be done by reviewing the threat's reactions, its actions, and its relationships. Once the feedback of the threat is understood, the next step is to determine the threat's status. This can be done by reviewing the threat's current status, its future status, and its potential status. Once the status of the threat is understood, the next step is to determine the threat's priority. This can be done by reviewing the threat's importance, its urgency, and its relevance. Once the priority of the threat is understood, the next step is to determine the threat's action. This can be done by reviewing the threat's plans, its actions, and its relationships. Once the action of the threat is understood, the next step is to determine the threat's outcome. This can be done by reviewing the threat's results, its consequences, and its relationships. Once the outcome of the threat is understood, the next step is to determine the threat's feedback. This can be done by reviewing the threat's reactions, its actions, and its relationships.

It is the policy of the FBI to keep records of all persons who are arrested and charged with a crime. This is done for the purpose of maintaining a record of criminal activity and for the purpose of identifying persons who are involved in criminal activity. This is done for the purpose of maintaining a record of criminal activity and for the purpose of identifying persons who are involved in criminal activity.

Tumacacori National Monument
Tumacacori, Arizona

February 25, 1952

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tumacacori

Subject: Superintendent's Monthly Narrative Report for February, 1952

Weather: Quite dry, with a zero reading, although traces of precipitation on January 25, February 9, and February 10. Rainfall has been this low only three times in the past 14 years at this season. Temperatures dropped to a low of 17 on February 15. High for the period was 76 degrees on January 31.

Visitor Travel: This month: 7,484 persons, in 2,146 motor vehicles.
Highest previous February : 6,007 persons, in 1951.
Percent Increase - - - - : 24.58.
Last 12 months - - - - : 45,671 visitors.
Previous 12 months - - - : 32,364 visitors.
Percent Increase - - - - : 41.11.

Thus has closed by far the biggest travel month in the history of this national monument.

Visitors: Among those present were:
1/29/52 - State Senator and Mrs. E. J. Flanagan, Washington.
2/2/52 -- Archaeologist Sallie Brewer, of the Region Three Office, and Bertha P. Dutton, Curator of the Museum of New Mexico.
2/3/52 -- Assistant Superintendent (Retired) and Mrs. Tom Parker, Crater Lake National Park.
2/7/52 -- Assistant Superintendent and Mrs. Lon Garrison and Daughter, Grand Canyon National Park.
2/12/52 - Mrs. Harvey Cornell and children.
2/15/52 - Assistant Regional Director Harvey Cornell.
2/16/52 - The Peoria, Arizona, High School Spanish Class.

Inspections: 2/1/52 - Architect Kenneth A. Saunders, Region Three Office.

2/2/52 - Regional Director M. R. Tillotson and Assistant Regional Director Preston P. Patraw.

Maintenance: Fluorescent lights, to replace filament lights in the museum, arrived, and installation is almost complete. New cylinder and drop pipe and plunger rod for our water pump arrived, but not installed yet. Krupp and Krupp, Nogales plumbers who installed two blow-out type toilets in the public rest rooms here two years ago, made, without charge,

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Washington, D.C. 20540

February 22, 1952

Memorandum

To: Assistant Secretary, Department of the Interior

From: Superintendent, National Park Service

Subject: Departmental Policy Regarding the National Park Service

Reference is made to the letterhead memorandum dated January 22, 1952, from the Assistant Secretary to the Superintendent, National Park Service, regarding the Departmental Policy Regarding the National Park Service. The Departmental Policy Regarding the National Park Service is hereby approved and directed to be carried out by the Superintendent, National Park Service.

Enclosed for the Superintendent, National Park Service, are two copies of the Departmental Policy Regarding the National Park Service, one of which is to be retained in the files of the Superintendent, National Park Service. The Superintendent, National Park Service, is directed to carry out the Departmental Policy Regarding the National Park Service.

Very truly yours,
Director, National Park Service

Enclosure: Departmental Policy Regarding the National Park Service

Enclosure: Departmental Policy Regarding the National Park Service

repairs necessary to improve efficiency of these installations. An electrician was obtained to repair a defective re-set switch box for our water system, and to combine two electrical circuits for one of the museum exhibit rooms into one. Separation of the original single circuit into two had been necessary several years ago because of overload, but with fluorescent lights in now, the overload was eliminated.

Extensive cleanup of last summer's weeds was accomplished on grounds. Winter manuring of plants was completed. Thinning and cultivating of Jasmynes which were not brightening up the way they should, was done. It was the first time we have ever seen them thinned, and the task was a time consuming one to do right. More pruning was done to finish up patio garden pruning for the winter. Much cultivation of soil around most of the plants (a task neglected for several years) was accomplished. Some shelves were installed in the utility space between the rest rooms. A trellis was installed for Clematis vines which grow wild north of the museum building against its wall. Some transplants of young plants were made, poppy seeds planted west of the museum entrance, and seedlings for early Spring blooming were started in the cold frame. Balky garage doors were repaired and made more easily useable. Inside faces of most of the museum case fronts were cleaned.

Museum and Education: Very little progress can be reported. We have been so busy serving the public and doing strictly routine duties that improvements in display and technique have been quite limited. Some photos were obtained from Headquarters for use in setting up part of the natural history section on our multiplex display rack, and other photos have been ordered. Some fact file work has been done, and some work has been done on revamping text for our patio garden guide leaflets.

Ranger Henson made a suggestion, regarding the almost irresistible tendency of visitors to the old church to want to poke at and scratch the crumbly old walls. He suggested we set a typical adobe brick on a small table just outside the view room, on the way to the mission church, so that visitor parties could be encouraged to pick at it and scratch it and otherwise mutilate it to their hearts' content, to reduce compulsion to test the church walls. We have tried the method for over a week now, and find it is highly successful. We point at the table before we start out for the church, and mention that the welfare of the old building is much better achieved if we reserve our testing and sampling of its texture to handling the sample brick on the table. Usually, this type of comment brings broad grins to all the faces, and it almost completely stops the itchy-finger tendency in the church!

Personnel: Save for one hour of sick leave during the month, we have all been on the job all the time, and as busy as beavers. Since, with our goldfish bowl office, it sometimes takes a day to write a single one-page memorandum, it is impossible to do much office work in the daytime that requires thought. Hence, thought-consuming paper work must be done at night. One can have no continuity of thought at a desk when he must jump up every 50 seconds to serve the people for whom this monument was established.

UNITED STATES
DEPARTMENT OF THE INTERIOR

General: During the month the superintendent worked up an estimate on number and location of wiring changes needed, so that the Regional Office technicians can get out a uniform estimate form for bids on re-wiring residences No. 1 and 2. He also devoted some time to Master Plan text revision.

A nocturnal staff conference was held on the 20th. For the first time we tried using the first part of the evening for the usual strictly employee exchange of ideas, questions, and advice, and used the latter part of the evening as a joint session with our wives. Wives, notified ahead of time, of course, were expected to be equipped with all the ideas they could think of which might help improve the appearance or functioning of this monument. We found the method was highly satisfactory.

The monument seems to be ticking along in good order.

STATUS

Emergency fall on the driveway and building and fire-
hosing of roof fall on Stage 1. Earl Jackson
advises of the situation. The road is closed, and the
road will be open, but full of the smoke and dusting as caused by
similar failures in the North Valley.

REMARKS AND COMMENTS

The furnace blower was pulled down and repaired in the
evening. The blower housing is inside the door and the pull-down
position allows the air to be pulled out of the room.

Later in the evening there were problems with the
main electric and the stove. The stove was pulled out of the
circuit.

The metal filing cabinet was dismantled on the driveway
in the front of the building and the contents filed.

Four more were required to repair the damage to the
back entrance gate to the monument. Some equipment was
used to pull it. It has to be removed, dismantled and pulled in the
direction.

A new window had to be installed in the living room
and water and the gas lines were pulled on the old one.

1. The first of these is the fact that the number of persons who are employed in the service of the Government is increasing at a rapid rate. This is due to the fact that the Government is expanding its activities in many fields, and is therefore requiring more personnel to carry out its work.

For the first time in the history of the world, the
the world's people are being taught to love and
and when the first of the world's people are
which, they, now, know, is that, it is, the
be taught that all the world's people are
which, the world's people are, now, being
called to the world's people.

$$g_{\alpha\beta} = \frac{1}{2}(\delta_{\alpha\beta} + \frac{1}{2}(\delta_{\alpha\beta} - \delta_{\alpha\beta}) + \frac{1}{2}(\delta_{\alpha\beta} - \delta_{\alpha\beta})) = \frac{1}{2}(\delta_{\alpha\beta} + \delta_{\alpha\beta}) = \delta_{\alpha\beta}$$

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA

February 25, 1952

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tuzigoot National Monument

Subject: Report 1ml February 1952

There follows a narrative report of activities in this area.

WEATHER

Heavy rains fell on the eleventh and twelfth and five inches of snow fell on Mingus Mountain, bringing grass growing moisture to the watershed. The rest of the month, aside from one brief cold snap, was full of the warmth and sunshine so sought by winter visitors to the Verde Valley.

MAINTENANCE AND GENERAL WORK

The furnace blower was pulled down and serviced on the seventh. The blower bearing is inside the duct and the pulley wheel prohibits access to the oil cup unless the wheel is removed.

Holes in the office floor were patched and given several coats of lion oil on the sixth. The floor was painted tan on the eighth.

The metal filing cabinet was disassembled on the eleventh so its front could be straightened and its bearings oiled.

Four hours were required to repair collision damage to the back entrance gate to the monument. Some neighbors smashed into the gate. It had to be removed, straightened and welded on the sixteenth.

A new strainer had to be installed in the kitchen sink. Bad water and time had taken their toll on the old one.

WILSONVILLE

Heavy rains fell on the plateau and foothills and river
valleys at some time in the winter. The heavy rains
resulted in the destruction of the vegetation. The
first cold snap, was felt at the same time and resulted in
the destruction of the vegetation.

WILSONVILLE AND CLATSOP

The Clatsop River was frozen and covered in the
winter. The frozen river is inside the foot and the
protection across in the all the winter.

There is the river that were frozen and the
state of the all on the river. The river was frozen in the
winter.

The river which was frozen in the winter
in the winter was frozen in the winter.

The river was frozen in the winter. The river

winter.

The river was frozen in the winter. The river
was frozen in the winter. The river was frozen in the
winter.

Improvements

Ten Arizona Cypress trees were planted in the museum area. These small trees were placed to break up the cold prison appearance of the building. The trees were donated by the Superintendent. They are native to the vicinity.

ROADS AND TRAILS

The two mile entrance road was bladed on the twenty-eighth of January and remains in good condition.

Two, two-post, single face road signs were installed, one on each outskirt of Clarkdale, on February fourth.

Mr. Carl Alleman laid out the new ruins trail on the fifteenth. It was decided to use a short flight of stairs instead of a long, conspicuous ramp to gain access to the citadel room.

OBSERVATIONS

On the sixteenth three Ardea herodias treganzai (great blue herons) were noticed working on their nests in the cottonwood trees located in the tailings pond just west of the ruins.

The appearance of Querquedula cyanoptera or cinemonteal on Peck's Lake was first noted this year on February third.

Mating calls and activities of Lophortyx gambeli (Gamble's quail) were heard throughout the month.

The first mosquito of the year was seen at Tuzigoot on February twenty-fifth....hope its large size was not an indication of bigger and better mosquitos this year!

TRAVEL

1007 visitors in 358 cars entered the area. This is an increase of 47 % over the travel figures of last month. The increase is due both to the fine weather and the beginning of the travel season.

1 uniformed member of the armed forces visited the monument.

774 people in 301 parties visited the museum. A large percentage of these people come back into the museum again after visiting the ruin.

971 people in 343 parties visited the ruin.

131 visitors in 53 parties registered at the outside register during hours when the museum was closed.

100% of our 8-12, 1-5 visitors were contacted.

VISITORS

National Park Service

Archeologist Lloyd Pierson and family from Montezuma Castle National Monument on January twenty-seventh.

Mr. Leland Abel, previously from Chaco Canyon National Monument and Mesa Verde National Park, and presently a graduate student at the University of New Mexico, on January thirty-first.

Superintendent Cook, Montezuma Castle on the first.

Mr. M. J. McPherson, roads and trails foreman from Grand Canyon National Park on the second.

Mr. and Mrs. Carl W. Alleman from Region three headquarters on the fifteenth.

Mr. and Mrs. Richard Burns, Naturalist at Lake Mead on the twentieth.

Reportworthy

Dr. and Mrs. Colton and grandchildren, plus Miss Kathern Bartlett, Museum of Northern Arizona, on the second.

Other Agency

Mr. and Mrs. Paul E. Atkinson, Department of Commerce, Weather Bureau, Prescott, Arizona.

Mr. Luman W. Shotwell, Retired Department of the Interior, Del Mar, California on the eleventh.

PERSONNEL

Superintendent and Mrs. Brewer are vacationing in Alamos, Sonora, Mexico. Superintendent Brewer went on annual leave status on February seventeenth and is to resume duty status on March 3, 1952.

His people in the morning visited the ruins.

The children in the garden and the people
visited during the day when the sun was warm.

W. G. W. W. W.

W. G. W. W. W.

These new roadside directional signs were put up at Clarkdale on February 4, 1962.

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona

February 25, 1952

Memorandum

To: General Superintendent

From: Superintendent, Walnut Canyon

Subject: Monthly Narrative Report - February 1952

Weather

A total of .85 inches of moisture in the form of snow and rain during the month brought the years total to 7.3 inches. At present we have only scattered patches of snow remaining on the ground. Roads were passable but difficult most of the month. The county grader was broken down and a drag was used rather ineffectually to knock off the high centers. The approaches are in fair condition at the present.

Administration

An inventory and location check ~~was made~~ of all fire tools was made. A patrol was made of the east boundary to check on wood hauling. One wood hauler was apprehended before he could get to work and was warned of our regulations.

Superintendent Guillet was appointed a member of the board of Directors of the newly organized ~~KEEP~~ ARIZONA GREEN Association and attended the first meeting at the Westward Ho Hotel in Phoenix on February 15. This organization is devoted to educating the public in fire prevention and is its sole reason for being.

Inspections

Archeologist Al. Schroeder .

Maintenance

A complete check was made of the telephone line and repairs were made where needed. All fire tools were repaired, handles oiled with linseed oil. The new water meter was installed. Roads were dragged and ice and snow removed from trails. The standards for the pipe railing along the trail were received and this project will be resumed as soon as weather permits.

Interpretive Service

Thirty seven and one-half hours was spent in contact time. 132 groups totalling 349 people were contacted. Some time was spent in going over the proposed nature trail along the rim and in preparing trailside signs.

Visitors

Travel for the month totaled 389 visitors. These represented 32 states and Washington D.C. There were also visitors from Alaska, Canada, Japan, France, and Denmark. This represents a considerable decrease for the corresponding month last year. Cold weather and poor road conditions are probably responsible.

N.P.S. Visitors

Naturalist Burns and wife from Lake Mead, Mr. and Mrs. Cecil Hanner, Grand Canyon. Superintendent Fred Brueck, Wupatki, and Don Watson from Mesa Verde.

Wildlife Observation

Wild Turkey and deer are observed frequently around the headquarters area as are Abert squirrels and Chipmunks.

Meredith M. Guillet
Superintendent

REPORT ON THE PROGRESS OF THE WORK OF THE COMMISSION

WHITE SANDS

Box 231, Alamogordo, New Mexico

February 29 62

Memorandum

To: General Superintendent, SWM

From: Superintendent, White Sands

Subject: Superintendents Monthly Narrative, Report No. 141

February Travel, 1962

Travel Year to Date

Visitors - 8929; Cars - 2449

Visitors - 46,238; Cars - 11,783

Armed Forces

Visitors - 1,171

4,813

GENERAL:

February, while quite a month as far as weather is concerned, did not exceed last February in visitors even though we do show an increase in the number of cars. Of course the big increase in Armed Forces visitation is due to the ruling that all Armed Forces are admitted free of charge. Our Travel Year still shows an increase so we are not lagging behind. Considerable increase was noted in the concession sales in spite of our decrease in the monthly visitors. Weather has been good and bad. The overall weather has been nice but we had two or three winds that were as bad as nearly any we have record of.

SPECIAL ACTIVITIES:

Nearly all special activities have centered around our work projects. Several trips on materials, supplies, quotations etc. were made to both El Paso and of course Alamogordo. No inspections of the monument were made.

GENERAL PUBLICITY:

Recent broadcasts of White Sands News, newspaper articles on our activities and play day plays in several south eastern papers have given us all the publicity we could desire.

COMPLAINTS:

No complaints were received in this office on any phase of our activity.

MAINTENANCE AND NEW CONSTRUCTION:

Comfort stations still take up most of our activity and we lost both of our Ranger helpers, Earl of Arches and Bob of de Chelly. Earl left early in the month after giving us some fine service, Bob is still with us but leaves the 29th. Both of these boys gave us a lot of help and we are proud of both of them. It gives us a lot of confidence to meet and know the boys from other areas. The comfort stations are on their last lap and arrangements are being made for the final touches in both buildings. A trip to El Paso will secure floor tile, paint, toilet stalls etc.

Some little work has been done on our sewer repairs with the digging of the pit for the new septic tank. All of our six inch pipe for our new water main has been received and is stored at the monument. Considerable work has been done on our entrance road with a front end loader and truck widening our approach to the roads. A little tough luck has been encountered in that some gears went out on our p-12 blade and some trouble is being experienced in getting parts. It is a terrible time to have our blade down, especially needing it as we do to assist in the extra road work and too with our digger out on loan. Much work will be done soon on this road, Joe has already several thousand sq. yds. of dirt windrowed for this project.

PUBLIC SERVICES:

White Sands Service Company shows a gain in gross sales in spite of our loss in travel. Less people in more cars and I guess the larger numbers in the family mean less money for souvenirs.

INTERPRETIVE SERVICE:

This part of our program is suffering more than any other. We are attempting to assist wherever possible on our work programs and one man away on leave makes the office nearly a one man job for the month and the service we would like to give in our museum and interpretation was lacking.

INCREASE OR DECREASE IN LEVEL:

Our decrease was so small that it made little difference as far as service goes. Sundays were large and on the 22nd it was necessary for two of us to check as well as several man hours donated by Bob Spris.

RAILROAD SERVICE:

Kemper Can Davis and family were on annual leave visiting their parents in Iowa. The Superintendent has attempted to do the clerical work, purchasing etc. and from the number of letters on purchase orders, I have not done so good. Labor and materials are a problem even at best ~~1/11/54~~ and some of our experiences have been in error as well as delayed due to circumstances often times beyond our control.

Flagstaff, Arizona

ACCIDENTS:

While after the date this report is due, we were called on an accident 5 miles south of our entrance where a three car collision resulted in the death of a small child and serious injury to the grandfather. Others involved were not seriously hurt.

Several Forest Rangers

WOUNDS:

Jack Diehl, Region III
Kenny Saunders, Region III

Both of these boys were in on our projects and we sure appreciate their help.

INSECTS AND TREE DISEASES:

In cleaning up our grounds Ray noticed all of our Staghorn Cholla had a white growth which in some instances is killing the plant. We have written for advice on this matter. It seems to be general since Ray tells us in getting some plants to transplant, he noticed the same thing several miles from headquarters.

So we leave a busy month to turn to one promising to be even more eventful and giving promise of more work.

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Wupatki National Monument
Flagstaff, Arizona

Feb. 28, 1952

Memorandum

To: General Superintendent
From: Superintendent, Wupatki
Subject: Monthly Narrative Report, Wupatki and Sunset Crater National Monuments.

Weather:

The weather this month took a turn for the better and warmed up quite a bit. The minimum temperature was 15 degrees on Feb. 26 with a maximum of 63 on the 27th. Precipitation only totaled .42 inches.

Travel: Sunset Crater National Monument is still snowed in from all directions. There is still from 2 to 3 feet of snow on north slopes.

Special Activities:

Superintendent Brueck and Ranger Bullard made an inspection trip over the area from Black Falls to Crack-in-Rock area. The main purpose was to get better acquainted with the area and see what was going on among the Navajos. A few section corners were located but any section markers were few and far between over that area.

On February 13 a trip was made into Sunset Crater National Monument. We got within 2 miles of the area by jeep and then walked the rest of the way. The trailer quarters was in good shape as was everything else. There was little snow right at the parking area but the road on both sides had up to 5 feet on it.

The night of February 25 a tourist went past our road closed blockade and became stuck in the snow. He had gone far enough on top of the snow to get well off the road and then suddenly dropped down. It took until 11 P.M. to get him out of the hole and back to solid road again.

Maintenance:

Maintenance work consisted of mostly painting this month. The office was painted, all the guide signs around the ruin trail at Wupatki were repainted, the dry toilet at Wupatki ruin was painted. The north portion of the office roof was repaired. The old water line to the drinking fountain was replaced with 120 feet of new pipe. More work was done on

Enclosure:

Investigation of Grand Canyon National Monument is now under way. The investigation is now under way. The investigation is now under way.

the bulk propane system this month, the balance of the stone wall was completed and the framework of the chain link fence was erected on 3 sides.

A good portion of our time was spent trying to keep equipment running, especially the Onan light plants at Heiser. The one has now been running for a full week which is something of a record compared to the trouble we have had over the winter.

Roads and Trails:

The entire 14 miles from Highway 89 to Wupatki was bladed and also another 6 mile stretch from Heiser towards Sunset Crater.

Interpretive Services:

At Wupatki 203 people in 77 parties were contacted for an average time of 20 minutes per party

The Southwestern Monuments Association had our last years, Arizona Highway's bound as well as a small technical book of 68 pages.

Travel:

Travel started out slowly but the last week end made up for bad days and we ended up the month with 131 cars and 330 people. This was just 2 cars and 17 people under February last year.

There was no travel into Sunset Crater this month.

Research and Observation:

Ranger Bullard observed a Goshawk at Heiser this month. According to our files this is the first recorded since 1934.

Twelve Antelope were observed on the Monument near the highway this month as well as two near the Earth Cracks.

Local Items:

Mrs. William C. Bullard Jr. broke her ankle while skiing at the Arizona Snow bowl in Flagstaff this month. She is now hobbling around on a walking cast.

Superintendent Brueck had his right arm in a cast due to some trouble with the elbow.

The CO Bar Cattle Company is drilling a new well just north-east of the Citadel. So far they are down a little over 100 feet but do not expect to hit water until they get at a minimum of 1000 feet down. That is about the depth of the other well.

The days of the old west are still around us. Mr. Oliver Alsap of Flagstaff was arrested for killing cattle. The cattle were killed on the monument lands and belonged to the CO Bar Cattle Company. Six hides were found and the butchering was done in the area between the Citadel and Earth Cracks.

the first program for this kind of work. The purpose of the program was to provide the Government of the United States with a means of obtaining information on the activities of the Government of the United States in the field of international relations. The program was to be carried out by the United States Government and the Government of the United States.

...and what you're doing is just to be sure you're not

1. The first group of people who are interested in the study of the history of the United States are the people who are interested in the history of the United States.

1950-1951, 1952-1953, 1954-1955, 1956-1957, 1958-1959, 1960-1961, 1962-1963, 1964-1965, 1966-1967, 1968-1969, 1970-1971, 1972-1973, 1974-1975, 1976-1977, 1978-1979, 1980-1981, 1982-1983, 1984-1985, 1986-1987, 1988-1989, 1990-1991, 1992-1993, 1994-1995, 1996-1997, 1998-1999, 2000-2001, 2002-2003, 2004-2005, 2006-2007, 2008-2009, 2010-2011, 2012-2013, 2014-2015, 2016-2017, 2018-2019, 2020-2021, 2022-2023, 2024-2025, 2026-2027, 2028-2029, 2030-2031, 2032-2033, 2034-2035, 2036-2037, 2038-2039, 2040-2041, 2042-2043, 2044-2045, 2046-2047, 2048-2049, 2050-2051, 2052-2053, 2054-2055, 2056-2057, 2058-2059, 2060-2061, 2062-2063, 2064-2065, 2066-2067, 2068-2069, 2070-2071, 2072-2073, 2074-2075, 2076-2077, 2078-2079, 2080-2081, 2082-2083, 2084-2085, 2086-2087, 2088-2089, 2090-2091, 2092-2093, 2094-2095, 2096-2097, 2098-2099, 2100-2101, 2102-2103, 2104-2105, 2106-2107, 2108-2109, 2110-2111, 2112-2113, 2114-2115, 2116-2117, 2118-2119, 2120-2121, 2122-2123, 2124-2125, 2126-2127, 2128-2129, 2130-2131, 2132-2133, 2134-2135, 2136-2137, 2138-2139, 2140-2141, 2142-2143, 2144-2145, 2146-2147, 2148-2149, 2150-2151, 2152-2153, 2154-2155, 2156-2157, 2158-2159, 2160-2161, 2162-2163, 2164-2165, 2166-2167, 2168-2169, 2170-2171, 2172-2173, 2174-2175, 2176-2177, 2178-2179, 2180-2181, 2182-2183, 2184-2185, 2186-2187, 2188-2189, 2190-2191, 2192-2193, 2194-2195, 2196-2197, 2198-2199, 2200-2201, 2202-2203, 2204-2205, 2206-2207, 2208-2209, 2210-2211, 2212-2213, 2214-2215, 2216-2217, 2218-2219, 2220-2221, 2222-2223, 2224-2225, 2226-2227, 2228-2229, 2230-2231, 2232-2233, 2234-2235, 2236-2237, 2238-2239, 2240-2241, 2242-2243, 2244-2245, 2246-2247, 2248-2249, 2250-2251, 2252-2253, 2254-2255, 2256-2257, 2258-2259, 2260-2261, 2262-2263, 2264-2265, 2266-2267, 2268-2269, 2270-2271, 2272-2273, 2274-2275, 2276-2277, 2278-2279, 2280-2281, 2282-2283, 2284-2285, 2286-2287, 2288-2289, 2290-2291, 2292-2293, 2294-2295, 2296-2297, 2298-2299, 2300-2301, 2302-2303, 2304-2305, 2306-2307, 2308-2309, 2310-2311, 2312-2313, 2314-2315, 2316-2317, 2318-2319, 2320-2321, 2322-2323, 2324-2325, 2326-2327, 2328-2329, 2330-2331, 2332-2333, 2334-2335, 2336-2337, 2338-2339, 2340-2341, 2342-2343, 2344-2345, 2346-2347, 2348-2349, 2350-2351, 2352-2353, 2354-2355, 2356-2357, 2358-2359, 2360-2361, 2362-2363, 2364-2365, 2366-2367, 2368-2369, 2370-2371, 2372-2373, 2374-2375, 2376-2377, 2378-2379, 2380-2381, 2382-2383, 2384-2385, 2386-2387, 2388-2389, 2390-2391, 2392-2393, 2394-2395, 2396-2397, 2398-2399, 2400-2401, 2402-2403, 2404-2405, 2406-2407, 2408-2409, 2410-2411, 2412-2413, 2414-2415, 2416-2417, 2418-2419, 2420-2421, 2422-2423, 2424-2425, 2426-2427, 2428-2429, 2430-2431, 2432-2433, 2434-2435, 2436-2437, 2438-2439, 2440-2441, 2442-2443, 2444-2445, 2446-2447, 2448-2449, 2450-2451, 2452-2453, 2454-2455, 2456-2457, 2458-2459, 2460-2461, 2462-2463, 2464-2465, 2466-2467, 2468-2469, 2470-2471, 2472-2473, 2474-2475, 2476-2477, 2478-2479, 2480-2481, 2482-2483, 2484-2485, 2486-2487, 2488-2489, 2490-2491, 2492-2493, 2494-2495, 2496-2497, 2498-2499, 2500-2501, 2502-2503, 2504-2505, 2506-2507, 2508-2509, 2510-2511, 2512-2513, 2514-2515, 2516-2517, 2518-2519, 2520-2521, 2522-2523, 2524-2525, 2526-2527, 2528-2529, 2530-2531, 2532-2533, 2534-2535, 2536-2537, 2538-2539, 2540-2541, 2542-2543, 2544-2545, 2546-2547, 2548-2549, 2550-2551, 2552-2553, 2554-2555, 2556-2557, 2558-2559, 2560-2561, 2562-2563, 2564-2565, 2566-2567, 2568-2569, 2570-2571, 2572-2573, 2574-2575, 2576-2577, 2578-2579, 2580-2581, 2582-2583, 2584-2585, 2586-2587, 2588-2589, 2590-2591, 2592-2593, 2594-2595, 2596-2597, 2598-2599, 2600-2601, 2602-2603, 2604-2605, 2606-2607, 2608-2609, 2610-2611, 2612-2613, 2614-2615, 2616-2617, 2618-2619, 2620-2621, 2622-2623, 2624-2625, 2626-2627, 2628-2629, 2630-2631, 2632-2633, 2634-2635, 2636-2637, 2638-2639, 2640-2641, 2642-2643, 2644-2645, 2646-2647, 2648-2649, 2650-2651, 2652-2653, 2654-2655, 2656-2657, 2658-2659, 2660-2661, 2662-2663, 2664-2665, 2666-2667, 2668-2669, 2670-2671, 2672-2673, 2674-2675, 2676-2677, 2678-2679, 2680-2681, 2682-2683, 2684-2685, 2686-2687, 2688-2689, 2690-2691, 2692-2693, 26

It is worth noting that the *Journal of the American Medical Association* (JAMA) has been a leading voice in the medical profession's opposition to the use of the word "dyslexia" in the context of reading difficulties. In a 1971 editorial, JAMA stated that the term "dyslexia" was "a misnomer" and that "the word 'dyslexia' is not a medical term and should not be used in the medical literature."

* 2 visitors to this area in January (See reverse for notations, comments, etc.)

Gain over February, 1951.....13,338 or 23%
 Gain for travel year to date.....29,313 or 12%

The areas showing losses over February 1951 were Great Sand Dunes, Sunset Crater, Natural Canyon, White Sands, and Chaparral. With the exception of White Sands, all of these areas are in the northern portion of the State's area where extremely bad weather prevailed most of the month. Southern areas are breaking all visitor records, with Tonto 71% above a year ago, Saguro, AZ, Chiricahua, etc. Other southern areas also reported gains, but not quite as large as those of the mountains mentioned.

Please read them carefully.

NAME
TITLE

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE
SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.
TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, MOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

NAME A. T. Bicknell
 TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

NAME Homer F. Hastings
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.
TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

NAME

Ray B. Rinnebach

TITLE

Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as:
"Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.)

Superintendent absent from area for two weeks.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.
"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.
"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION: is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME Glenn T. Bean
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.

"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.

"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE WILL RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. IN COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3). SL

Please read them carefully.

NAME John O. Cook
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE
SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL ARTISTS.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

NAME Samuel A. King

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as:
Museum closed for repairs", "closed for season", "naturalist on sick leave", etc.
Total travel for the month exceeded any month in the history of the
National Monument. It is noted also that as travel increases, the amount of
time spent with visitors is less than formerly.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE. Please read them carefully.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.

"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.

"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

REMARKS: Area closed by snow since Dec. 5, 1952.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.

"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.

"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

NAME

TITLE

SP. Ranger
Archaeologist

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

NAME Meredith M. Guillet

TITLE Superintendent

REMARKS: (Please note below any factors influencing interpretive service, such as:
museum closed for repairs", "closed for season", "naturalist on sick leave", etc.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

Fill in Only Those Blocks That Apply

EXPLANATION OF TERMS USED

"INTERPRETIVE" Personnel are Naturalists or Ranger Naturalists, Historians, and Historical aides.

"ADMINISTRATIVE" are Custodians, Superintendents, etc., called on to assist with interpretation.

"OTHER" are Rangers, Clerical Personnel, and the like who may be called in to help interpret the area.

CONDUCTED TRIPS: Trips conducted by N.P.S. personnel in the field or through ruins, to Historic structures, or other features of the area.

TALKS: Regularly scheduled talks within Service areas presented either by Service Personnel or by outside speakers under Service sponsorship. Not to include any talks made as part of a conducted trip or other interpretive device.

ATTENDED INTERPRETIVE STATIONS: Actual count of persons using the station (Library, contact station, exhibit rooms, study collections, etc.), count being made by Service personnel in attendance. Checking stations or offices dispensing INFORMATION rather than interpretive service should not be considered as attended interpretive stations.

INFORMATION is factual matter relative to physical developments, physical facilities, geographic locations, rules and regulations of the area, and the utilization of these facilities by the public. It includes data on routes and roads, Hotel accommodations, bus and train schedules, and similar matters outside of the area regarding which visitors inquire.

INTERPRETATION is an accurate explanation of the manifestations of Natural History and Human History found within the area.

UNATTENDED INTERPRETIVE DEVICES: Under this heading should be estimated as accurately as possible all visitors using exhibits-in-place, orientation stations, and overlooks, wayside shelters housing interpretive devices, trailside exhibits, self-guiding nature trails and auto caravan routes, and the like at which Service Personnel is not on duty. Historical areas will find in many cases that this section of the form does not apply.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: This includes all interpretive activities performed or provided by Service personnel outside the area. Number of replies in response to written requests for interpretive data should be indicated.

INSTRUCTIONS FOR FILLING IN THE FORM

COLUMN 1 Records the number of trips conducted during the month, the number of talks made, and the number of interpretive stations and devices open to the public. The number of days the stations and devices were available may be indicated under "REMARKS".

COLUMN 2 Indicates the total attendance of visitors at each class of trip, talk, station, or device. Please total each column in all blocks.

COLUMN 3 Shows the AVERAGE amount of time of each class of Service, or the average time spent by visitors in using each interpretive device. Some study of visitor habits must be made with periodic checking at occasional intervals.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA are included on this form as a matter of record only. They should not be included in the totals in the lower right-hand corner of the form.

TOTALS: A summary of interpretive services furnished visitors within the area is provided for in the lower right-hand corner. Total Attendance shows the actual number of visitors who took advantage of the various interpretive services offered. Since each visitor may use several different interpretive devices, this attendance may record a total considerably in excess of the visitors registered in the area during the same period. For comparison, the total number of visitors to the area during the month should be shown.

THIS REPORT DUE: From all National Park Service areas providing any interpretive services. Send two copies to the Regional Director who will forward one to the Director. One copy should be retained by the superintendent or custodian of the area in which the report originates. Coordinating superintendents also should be provided with a copy. Date due in accordance with instructions in Administrative Manual, Vol. 15, Chapters 8 (Report 8m3) and 9 (Report 9m3).

NAME DAN E. DAVIS
TITLE Park Designer.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKEING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REMARKS: After giving a short talk to visitors at ruin overlook they take the self guide booklet and make the trip around the ruin by themselves. This averages about 35 minutes a month when travel was slow many times we took people completely around the ruin and spent more time with them.

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE.

Please read them carefully.

NAME

TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICE TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Arches National Monument
Knox, Utah

March 25, 1952

Memorandum

To: General Superintendent

From: Superintendent, Arches

Subject: Monthly Narrative Report for the month of March, 1952,
Arches National Monument

WEATHER: Ice, snow, wind, and cloudy, cold days made up our weather picture for the month.

TRAVEL: We are amazed at the number of people who braved the snow choked highways to get into the area. Seventy-four cars, carrying 226 people, entered the area. We note a decrease of 484 percent from the same period last year; however Easter Sunday last year came within the March report period and accounted for 980 visitors for the single day.

INTERPRETIVE SERVICE: At headquarters 19 parties were contacted and only one in the monument. The register at the Daysid Exhibit showed 138 visitors and we estimate that the same number used the Cove Nature Trail.

ROADS: With additional funds for equipment operation, Maintenanceman Minbourn took advantage of the moisture in the ground by ditching and blading all our roads. He was also able to raise the grade on stretches which had become below grade. It isn't often we have enough moisture to do this type of work. Within a week all roads should be in excellent condition.

SIGNS: With the lettering on a completely new set of road and trail signs finished by Maintenanceman Minbourn, Ranger Worthington has taken on the job of routing and painting them.

REHABILITATION PROJECTS: Sixty trees were planted to form a screen for the utility area and a home-made watering system devised out of old CCC water pipe. Sufficient fertilizer was hauled and spread for the tree planting and lawns at both quarters. Flagstone to complete the walks at quarters #1 and edge the lawn at quarters #1-1 was hauled and laid. We are still waiting for the weather to moderate before tackling the roof repair job on quarters #1-1, and for the Mohler Bros. to do the job on quarters #1.

AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 March 1952

Memorandum

To: General Superintendent

From: Superintendent Aztec Ruins

Subject: Report 141, Superintendent's Monthly Narrative

WEATHER: The first day of Spring brot us the coldest day since Jan 10 with a low of 2 above zero. It has been a blustery month with high winds, dust storms with occasional sleet and snow.

MAINTENANCE: Frozen drains in the north wall of the ruins have been cleaned out and we are preparing to do away with the smaller ones which do not function.

INTERPRETIVE SERVICE: Visitors have been a little discouraged in taking ruins trips because of the cold weather, but we have conducted 90 parties with 464 visitors thru the ruins and 782 visitors in 197 parties were shown the museum.

INCREASE IN TRAVEL: Travel has increased approximately 2% this month over March of last year. There have been 782 visitors in 219 cars from 33 states, D.C. and Canada, this month.

Research and Observation: The Wilson Snipe (*Capella delicata*) who is supposed to be rather a solitary individual has been found near the Monument in flocks of as many as 32. This is another "first" for this area and we hope the birds will remain in this area for their nesting. With March have come the Phoebe's and we usually have 2 or 3 pairs nesting in the ruins. The blue birds have also come with Spring, but have moved on to higher altitudes, at this writing.

VISITORS: Don Watson and Joan Pinkley were in March 6 to see the rearranged museum, to visit on a guided trip and to inspect the unexcavated East Ruins.

Charles G Young, Supt Maintenance Towns, and Mobile Equipment, Indian Service, Albuquerque, N.M. visited 3/23.

John Davis and Art Gilmore were in on an inspection trip March 22.

Subject: Narrative Report for March, 1952

Weather

March weather displayed a lot of the lion variety and little of the lamb. Low-normal temperatures, high winds, cloudy skies, and snow flurries combined to give us only a few days during the month which looked inviting to visitors.

The high temperature reading of 66 degrees on the 10th was accompanied by high winds. The low minimum reading of 9 degrees occurred on the 2nd. Precipitation totaled .01 inches, contributed by several light snows.

Special Activities

Evening in-service training sessions this spring, for all permanent personnel, were held with a variety of subjects. Procedures involved in accident investigation were discussed at one meeting. The reports of typing and stenographic work and its effect on interpretation were considered at the second meeting. An interesting film, obtained by Mr. Kervick, Mr. Kervick, showed interactive in telephone repair and maintenance. Another film showed the importance of proper conduct and appearance for personnel, especially when in uniform. The third meeting was held on the 10th and was held on the 10th.

At another meeting the Superintendent reviewed the National Park Service's "Steve" book of the National Park Service. This is a National Park Service book for all NPS personnel and is found in the book.

Very
Dear Sir:
I have the honor to acknowledge the receipt of your letter of the 21st inst. in relation to the proposed extension of the monument. The same has been forwarded to the proper authorities for their consideration. I am sorry that I cannot give you a more definite answer at this time, but I am sure that you will understand the necessity of this delay. I will be glad to advise you again as soon as a final decision has been reached.

I am, Sir, very respectfully,
Yours very truly,
W. A. Rorer, Chief of the National Park Service

Maintenance

Necessary interior plaster repairs and painting of the Lodge cabins were completed so that the concessioner can ready the facilities for the coming season.

The floors and walls of the campground comfort station were repainted and this facility put in good condition to be ready for operation as soon as the weather warms enough.

A shelter was constructed for the propane gas tanks at the location selected by Messrs. Richardson and Carter, which provides isolation of the tanks from occupied buildings. Funds are not now available to fence the structure, but this will be done as soon as new materials can be procured.

Repair on the powder magazine was completed to bring it up to standard. This consisted of replacing some rafters and roof sheeting with heavier planking in order to support the load of dirt covering the roof.

New Construction

The dry-laying of the curbing on the parking lot extension project was completed this month. The work has been delayed somewhat because the front-end loader promised us by the Highway Department has not been available so far. It is anticipated that the loader will be available some time in April. This will speed up the removal of excess dirt, some of which has been done by hand.

Approach Road

It was necessary to remove snow from the approach road during the early part of the month, but it generally has been in good condition.

Interpretive Service

A total of 479 visitors were conducted on 60 tours of the ruins during March.

The Selectro-slide projector and tape recorder were received and a try-out on a temporary basis is being made until a more adequate selection of slides can be obtained. The few visitors who have seen it have expressed considerable interest in the device, and it promises to be very effective as an added source of interpretive information.

A thorough cleaning was given the museum cases where needed.

9. The [redacted] has been identified as a [redacted] and is currently active in the [redacted] area.

Travel

General unsettled weather during the month reduced travel under that of last year with 1316 visitors compared to 1861 last year.

Visitors

Bertna Dutton of the Museum of New Mexico in Santa Fe visited the area on March 8. Also on the same day Mrs. Laich and Mr. and Mrs. Jensen of the Region Three Office visited us.

Forest Fire Pre-suppression

The Superintendent and Supervisory Ranger attended a meeting at Los Alamos to review the cooperative fire control agreement between this area, the Atomic Energy Commission, Santa Fe National Forest, and the U. S. Indian Service.

Supervisory Ranger Keefe was selected to attend the Regional Fire Control Training Conference being held at Santa Fe March 24-28.

A one-day preseason review of local fire problems was held for all Monument personnel on March 18. Fire packs were inspected and repacked where necessary. All fire tools were inspected and put in good condition.

Miscellaneous

The group being taken on the ruins tour had paused at the big Kiva to allow some late joiners to catch up with the party. There were a few moments of silence then a small boy piped up- "What are we waiting here for daddy? There isn't any water in it."

CANYON DE CHELLY NATIONAL MONUMENT
CHINLE, ARIZONA

March 26, 1952

Memorandum

To: General Superintendent
From: Superintendent, Canyon de Chelly
Subject: Monthly Narrative Report for March, 1952

Visitor Travel: A brief lull between storms permitted 72 people in 25 cars to enter the monument. This is a considerable drop compared with 210 visitors for March of last year. Adverse weather conditions held all travel to a minimum.

Weather: Unusually cold and windy. Subfreezing temperatures prevailed throughout the month with one snow storm right after the other.

Roads: Approach roads are passable but some are in poor condition. The Saw Mill road is completely blocked due to heavy snows. All previous filling and surfacing work done on the monument roads this year has almost been nullified due to late seasonal precipitation and increased wood hauling by Navajos. All are in poor shape. Work will start again as soon as weather and ground conditions permit.

Trails: Earth and rock completely blocked the White House trail at three separate places. Slides were caused by wet ground conditions. These have been cleared and good passage is now possible.

Administration: Ranger Morris returned on March 2 from White Sands National Monument where he has been assisting, for the past two months, in the construction of two comfort stations. One trip was made to Gallup to obtain a load of propane gas, and material for the construction of a new informational sign to be placed in front of the administration building.

Maintenance: The hydraulic system on the road grader broke down during the month. Temporary repairs were made and will work until new parts ordered are received.

About 150 native Russian-olive and Chinese-elm trees were brought in and set out in the vicinity of monument headquarters. These plantings will serve not only as a soil erosion control, but will provide much needed landscaping.

A new public drinking fountain head was installed in front of the Adm. building. This replaces the old obsolete one made last year.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Canyon de Chelly National Monument
Chinle, Arizona.

Con't. from page 1-

General: Water flow in the canyon has now increased from moderate to heavy. Travel into the canyons by motor vehicle is impossible and this condition will probably exist for the next 30 days.

Law enforcement in the Chinle area should now be handled in a more efficient manner. Two permanent Navajo policemen from the Window Rock Office are now stationed at Chinle. High prosperity resulting in heavier drinking among the Navajos made this move necessary.

On the 15th of this month the under-signed was elected President of the National Federation of Federal Employees, Local No. 468, Chinle, Arizona. Since several different divisions of the Bureau of Indian Affairs are located in this area the membership is quite large.

Everett W. Bright
Superintendent

REPORT ON THE PROGRESS OF THE
RESEARCH, 1934-1935

1934-1935

The first part of the report deals with the progress of the research during the year 1934-1935. It is divided into two main sections: the first section deals with the progress of the research in the field of the history of the language, and the second section deals with the progress of the research in the field of the history of the literature.

The second part of the report deals with the progress of the research during the year 1935-1936. It is divided into two main sections: the first section deals with the progress of the research in the field of the history of the language, and the second section deals with the progress of the research in the field of the history of the literature.

The third part of the report deals with the progress of the research during the year 1936-1937. It is divided into two main sections: the first section deals with the progress of the research in the field of the history of the language, and the second section deals with the progress of the research in the field of the history of the literature.

Memorandum

To: The General Superintendent
Southwestern National Monuments
National Park Service
Santa Fe, New Mexico

From: Homer J. Farr, Acting Superintendent

Subject: Monthly Narrative Report

Visitors: There were about four hundred and fifty visitors during the month of March, making a total of four thousand nine hundred and fifty for the travel year and twenty one thousand four hundred and fifty for the fiscal year.

Weather: We have had about eight light snows during the month, with about 12 inches of snowfall. Weather has been generally cold and cloudy during most of March, with lots of strong wind.

Flora and Fauna: The light snows throughout the month have aided greatly to the prospect for a good year for all vegetation. Deer and other animals in the area are doing as well as usual.

Roads and Trails: The roads have been kept open all during the month with the exception of about two days, during a snow storm that drifted the snow in places. No work has been done on the trails this month.

Special Visitors: To my knowledge no special visitors have been in the area.

Information Pamphlets: About two hundred information pamphlets have been distributed during the month, many of these by mail through requests received from various places. The old supply has been depleted, and the new shipment not unpacked and counted as yet.

Very respectfully,

Homer J. Farr,
Acting Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

March 25, 1952

Memorandum

To: General Superintendent, SWNM
From: Superintendent, Casa Grande
Subject: Monthly Narrative Report for March, 1952.

General: Officially spring is here. The cotton farmers are pushing along, doing their first watering and planting; the barley is a foot high and the first cutting of alfalfa is not too far off. The land is all ready and if the weather warms up things will really start to roll. The water stored behind Coolidge Dam is at 165,000 acre feet, the highest it has been in eleven years. The optimism of spring is revealed in the Arizona State Employment Service New Letter, from which we quote, in part.

Now that the Supreme Court has set aside its ruling on underground water, the prospect of a record year in employment and crop production is virtually assured. Thousands and thousands of new acres of land are being cleared for planting, and land that has lain idle for years is again being put into cultivation. King Cotton, the basis of our economy, will account for approximately 265,000 acres. With this increase in agriculture, southern Pinal County should experience one of its best years financially. New building will expand, and retail sales will again surpass those of one year ago.

Weather: The weather has been poor for an Arizona spring. For three successive Sundays it rained; most of the days have been windy and cold. The warm days, the few there were, were pleasant and nasty thoughts of summer came to mind, but that was a passing fancy.

NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COCHISE, ARIZONA

March 24, 1914

Memorandum

To: General Superintendent, NM

From: Superintendent, Casa Grande

Subject: Annual Report for 1913

During the past year, the Casa Grande National Monument has been under the supervision of the General Superintendent, NM. The monument is situated in the Pinal County, Arizona, and is one of the most interesting and important prehistoric ruins in the Southwest. The monument is a large, multi-story adobe structure, built by the Hohokam people, who lived in this area from about 300 to 1000 A.D. The monument is now in a state of ruin, but the foundations and some of the walls are still standing. The monument is surrounded by a low wall, and there is a small building on the site, which is used as a guard house. The monument is open to the public, and it is a popular place for sightseeing. The monument is also a good place for scientific study, and it is hoped that some day it will be completely restored.

The first part of the report deals with the general condition of the monument. It is found that the monument is in a state of ruin, but the foundations and some of the walls are still standing. The monument is surrounded by a low wall, and there is a small building on the site, which is used as a guard house. The monument is open to the public, and it is a popular place for sightseeing. The monument is also a good place for scientific study, and it is hoped that some day it will be completely restored.

| 1913 | 1914 |
| 1913 | 1914 |
| 1913 | 1914 |

Travel: The general increase in travel through this travel year continued this month, though at a much slower rate than the other months. Our heavy Sunday travel was limited on three of the Sundays with rain; the rain was not heavy, but a drizzle that lasted most of the day. However the daily travel continued to be heavy and we do show a slight increase over the same month last year.

| | | |
|--------------------------|--------|--------|
| | 1952 | 1951 |
| Visitors during March | 5,149 | 4,759 |
| Increase | 390 | |
| Visitors for Travel year | 31,052 | 24,491 |
| Increase | 6,561 | |
| Servicemen during March | 36 | 14 |

Interpretive Service: A total of 5,149 visitors stopped at the area this month; of these visitors, 2897 took the tour through the ruins in 195 groups, with each tour lasting on an average of 56.9 minutes. Of the remaining visitors 1576 stayed long enough to see the museum.

Visitors of Note and Special Groups:

March 1, 1952-- Girl Scout Troop for Chandler, Arizona.
 March 5 " -- Dr. Emil Haury and eight students from the U of Arizona, and a photographer for Western Ways.
 March 12 " 11 Cub Scouts, Den 3, Pack 35 Coolidge, Ariz.
 March 14 " Mrs. Homer Hastings, wife of Superintendent Hastings, stopped for a very brief visit.
 March 16 " Paul and Elsie Spangle, Ranger, Walnut Canyon.
 March 17 " Dr. C. Schuster and William Coxson, Dallas, Texas dropped in the photograph the Labyrinth.
 March 22 " 15 Boy Scouts from Troop 153, Mesa, Arizona.
 March 24 " Ranger & Mrs. Chas Budge, Badlands National Mon.

Administration and Protection: We received 11 requests for information which were answered promptly.

The Adamsville Site received the usual visit and everything was found to be in good condition.

During the month we were able to get the use permit from Pinal County for part of our water extension system, and the authorization to cross Pima Lateral canal from the Indian Service. We are still working on getting the easement across the Moore land; when we have that easement, we will have the complete right of way for the water system extension.

Travel: The general increase in travel during the year is shown by the fact that the number of visitors during the year was 1,100, compared with 800 in the previous year. The increase in travel is due to the fact that the weather was very good during the year, and the roads were in good condition. The increase in travel is also due to the fact that the prices of travel were very low during the year, and the quality of the service was very good.

| Visitors during March | 1931 | 1932 |
|--------------------------|-------|------|
| Visitors for Travel Year | 1,100 | 800 |
| Services during March | 14 | 20 |

Investigative Services: A total of 1,100 investigations were conducted during the year, compared with 800 in the previous year. The increase in investigations is due to the fact that the number of cases was very high during the year, and the quality of the service was very good. The increase in investigations is also due to the fact that the prices of investigations were very low during the year, and the quality of the service was very good.

Visitors of the Special Service

| March 27 | 1,100 | 800 |
| March 28 | 1,100 | 800 |
| March 29 | 1,100 | 800 |
| March 30 | 1,100 | 800 |

Administrative and Financial: The administrative and financial services were very good during the year, and the quality of the service was very good. The increase in administrative and financial services is due to the fact that the number of cases was very high during the year, and the quality of the service was very good. The increase in administrative and financial services is also due to the fact that the prices of administrative and financial services were very low during the year, and the quality of the service was very good.

The extension is very important in as much as the new water code law was not passed by the legislature so that most farming expansion is being tied to new deep wells, some of these going down to 1800 feet. This year's precipitation certainly will not improve the underground water problem, though in some areas small springs are showing signs of life again, there apparently can not be any satisfactory solution until the general extent of the remaining water resources is known and the use of that water limited to the replenishing rate.

Maintenance: Mr. Mack has been busy during the month repairing the wall plaster in utility area. Along the primary road, he has been cutting out dead brush. In the headquarters area he has been trimming the mistletoe from the trees. The high winds and dust storms have more than doubled the cleanup work.

Publicity: March 5, Dr. Haury, from the University of Arizona, brought eight students from Tucson to be photographed in the setting of the Casa Grande for an article which will appear in the National Geographic magazine.

Wildflowers: The list of blooming annuals reads like a page from Nat Dodge's Flowers of the Southwestern Deserts. The evening primrose, the apricot mallow, the California poppies, the desert marigold, the lupine, and the scorpine weed are just a few of those blooming. The squaw bush has been blooming for some time. The creosote bush are getting a few yellow blossoms. The buds on the ocotillo are making their appearance. As yet there are no cactus blossoms but a couple weeks of warm weather will take care of that.

A. T. Bicknell
Superintendent

The expansion is very important in that it is the only water and
law was not passed by the legislature as last year.
expansion is being tried in new territory, and of course
now is that time. This year's production certainly will not
improve the water and water situation, though in some cases
small quantities are showing signs of life again, there apparently
can not be any satisfactory solution until the general extent of
the remaining water resources is known and the use of that water
limited to the reproductive rate.

Reclamation: Mr. Mack has been busy during the winter
preparing the well known in Arizona, along the Colorado
River, he has been cutting and land prices. In the meantime
when he has been trying to maintain from the river. The high
winds and dust storms have now been behind the clouds.

Reclamation: James B. Dr. Henry, from the University
of Arizona, is now in the country from Tucson to the
border of the Colorado River. He has a plan which
will appear in the National Geographic Magazine.

Wildlife: The list of birds and mammals in the
a page from the Journal of the Smithsonian Institution.
The even of prices, the species which, the latter is
the latest arrival, the birds, and the mammals which are
a few of those birds. The new birds are from Arizona, the
time. The species are now a few yellow birds, the
birds on the coast are making their appearance. As yet there
are no other birds and a couple weeks of more weather will
take care of that.

L. V. Brown
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chaco Canyon National Monument
Bloomfield, New Mexico

March 26, 1952

Memorandum

To: General Superintendent

From: Superintendent, Chaco Canyon

Subject: Report of Activities at Chaco Canyon National Monument
during the month of March, 1952.

Weather The weather has continued to be cold and almost continuously windy with several days of snow or snow flurries. The minimum temperature of 7° was reached on February 25 with no minimum reaching higher than 30°. The maximum temperature was 65° on March 16 with a low maximum of 38° on March 3rd and 4th. A total of .21 inches of moisture was received, coming on March 1, 2, 5, and 11. One and one-half inches of snow fell on the 2nd, one-half inch on the 5th, and one-half inch on the 11th.

Administration The entrance signs were altered to indicate that the guide fee was again thirty cents. This was done with a movable marker since we have been advised that the fee ~~was~~ be readjusted to twenty-five cents.

The Superintendent was on annual leave March 4 through March 10 while the dirtiest part of the quarters rehabilitation work was being done.

Travel Travel has continued to increase over a year ago. Eighty-eight persons reached the monument in 33 cars, an increase of three persons and 5 cars over a year ago. However the count for the travel year is down 36 cars and 172 persons.

Interpretation The weather has continued to be very cold, and as a consequence, only 50 of the 88 persons reaching the monument took advantage of the ruins trip and only 74 of these were contacted in the museum, the other 14 signing the register while the superintendent or ranger were out of the office or signed after hours. The conducted trips lasted only 45 minutes as compared to the usual 60 minute trip. Seventy-four persons were given orientation talks for an average of 16 minutes each.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

REPORT OF THE COMMISSIONER OF THE GENERAL LAND OFFICE
FOR THE YEAR 1891

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The process of urbanization is the movement of people from rural areas to urban areas. This is done for a variety of reasons, including the search for better living conditions, the desire for education, and the need for employment. The process of urbanization has led to the growth of large cities and the decline of small towns. This has had a significant impact on the way we live and work.

1. The water was allowed to settle for 24 hours before use. The water was then filtered through a 0.45 micron filter. The water was then distilled in a vacuum distillation apparatus. The water was then stored in a clean, dry container until used.

The Government was in a difficult position in 1945 and the British were in a position to help it.

(over) There has continued to increase over a long time. It has been found that the amount of water used in the city of New York is increasing at the rate of about one percent per year.

[illegible]

Interpretation continued One hundred ninety-two prints of pictures from the G. H. Pepper collection have been added to our photo files. The pictures, mainly of ethnological interest, are of subjects off the monument and many were taken in Acoma or Zuni Pueblos. The prints were made by Gordon Vivian and mounting on file cards was done on time contributed by the Elmore.

Patrol The west boundary fence was patrolled from where it joins the canyon on the north side to where it again intersects the canyon on that side. Four places were found where the fence had been cut and patched and at one place stock was coming in under the fence. On this patrol trip return was made by pick-up down Mocking Bird Canyon.

On March 17 seven horses were driven out the gate in the South Gap and on March 18 two horses and a burro were driven out the east gate in the bottom of the canyon. Horses may be seen almost daily on the monument and driving them out on foot is a slow process.

A herd of 39 sheep and eight goats was found on the monument on March 22. These were driven to Headquarters and from there with the help of Gordon Vivian and Roland Richert, they were driven out the gate in the South Gap. About dark members of Fred Yazzie's family came for their sheep and agreed to see that there was no more trespass.

Rehabilitation This work has occupied a good part of the month. Most of the Superintendent's household goods were moved into the garage on March 2, but due to stormy weather, the rehabilitation work did not start until March 5. The ceilings in all rooms were torn down and replaced with insulation and gypsum board. A floor furnace was installed and fireplaces in both bedrooms were removed and the wall repaired. Overhead lights will be installed in each room and some new electrical outlets provided. New linoleum was placed on the floor of the kitchen and the back porch and new front and back doors provided. A new clothes closet was made by Ranger Elmore in space once occupied by the fireplaces. New cabinets and a sink have been installed in the kitchen and are complete except for making final connections and painting. The refrigerator was moved from the back porch into the kitchen and the hot water tank moved to a new location on the porch. This work was done by the Superintendent and Ranger because it was not part of the contract.

Soil and Moisture Work On March 10 Ranger Elmore made an over-night trip to Barnallie to get 15000 rooted willows to be planted for stream bank protection along the Chaco wash. On March 18 a crew of four Navajos was put to work planting the willows. Regional Soil Conservationist Paul Balch was here March 18 through March 21 to assist with the S & MC work.

Roads and Trails The entrance road was bladed to the north boundary and partially worked to the south boundary. This work was interrupted when the tractor broke down.

There is a large number of persons who are interested in the work of the Commission, and who are willing to contribute to the work in various ways. The Commission is very grateful to all those who have helped it in the past, and it hopes to receive more help in the future.

1. The first of these is the fact that the majority of the population of the United States is of European descent. This is a fact which has been recognized by the government and the people of the United States for many years. It is a fact which has been recognized by the government and the people of the United States for many years.

On March 17, 1968, the following information was received from the
Miami Office regarding the activities of the Miami office and the
activities in the vicinity of the Miami office. The Miami office
is the largest and most active office in the United States.

1. The first of these was the fact that the Government had been unable to obtain the necessary funds to carry out its policy of non-interference in the internal affairs of the country. This was due to the fact that the Government had been unable to obtain the necessary funds to carry out its policy of non-interference in the internal affairs of the country.

[illegible][illegible][illegible]

Supplies and Equipment The stove removed from the back bedroom of the Superintendent's residence was set up in the office and connected to a fuel barrel outside.

Considerable time was spent nursing light plants. The magneto assembly from one plant was removed and taken to Gallup for checking the condenser. The switch box for another plant is faulty and will be replaced. A fuel guage was improvised on the tank for this plant.

The left rear spring on dump truck I-13844 was removed and a new center bolt installed.

The light plant being used by the contractor at the new quarters was transferred from the stake bed truck to the dump truck so the stake truck could be used for a trip to Bernallio. Then we didn't use it because the Wupatki truck was transferred here for the trip.

On March 18 water from well No. 2 near the Superintendent's residence was pumped for the first time since my transfer to Chaco in mid December. Previously the line was frozen or otherwise obstructed.

Inspections Architect Kenneth Saunders was here on March 11 to check on the rehabilitation work and work on the new residences.

Between March 18 and 21 Regional Soil Conservationist Paul Balch examined all previous S & MC work on the monument and assisted in getting the willow planting started. All 26 revetments in the Canyon were inspected and most of the planting along the wash was checked on foot.

General Superintendent John M. Davis and Assistant Administrative Officer Arthur Gilmore visited the monument on March 21. Mr. Davis made a general inspection and Mr. Gilmore audited the records concerning ticket sales. They both visited the new residences for the first time and left the monument by way of Galleo Canyon where it is planned the new entrance road will be run.

Newsworthy Visitors "Colonel" and Mrs. A. P. Springstead and party were monument visitors on March 16. Mr. Springstead once ran the trading post in Canco Canyon.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chiricahua National Monument
Dos Cabezas, Arizona

March 26, 1952

Memorandum

To: General Superintendent

From: Superintendent, Chiricahua

Subject: Superintendent's Narrative Report

Weather: This is by far the wettest March of the thirteen on record at Chiricahua. To date 3.10 inches of moisture have fallen. The nearest March record to this was in 1941 when there was a total of 1.76 inches for the month. Most of this moisture was in the form of snow which practically stopped our travel. Operator Marble has bladed at least four snows off of the road in order to keep it open to Nassai Point. Usually our spring dry season starts before this date, but it seems late in arriving this year.

The wet weather has started a nice stream of water flowing down rhyolite past the administration building. Bonita Canyon is also running a nice stream.

Inspections. General Superintendent Davis and Assistant Administrative Officer Gilmore made a brief stop at Chiricahua on March 14 and later contacted Superintendent Coker in Douglas. Engineer George Smith was here from March 10 to 12 making arrangements for the oiling of the monument road. Naturalists Cooke and Anderson were here March 17 to 19 and did some very good work on the Nassai Point Nature trail. In addition to being outstanding naturalists we found them to be very good on the pick and shovel part of the nature trail.

Complaints. One complaint was received from a lady who damaged her car by straddleing the dirt ridge left by the grader. No street address was given in her letter but it was answered and returned due to incomplete address. This breaks an eight year record of no written complaints for Chiricahua. Bigger and better signs are being planned as a result.

Maintenance. A laborer has been helping Operator Marble for the past month or more and they are making some on the road and trail work in spite of the rock falls caused by the wet weather.

UNITED STATES
DEPARTMENT OF THE INTERIOR

Approaches to Monument. The road over the mountain from Rodeo, New Mexico has been closed most of the month, and it is not thought it will be open for another week or two. All other approach roads are in fair condition.

Interpretive Service. Three conducted tours were made by the Superintendent with a total of 34 visitors and 5 hours time. 866 visitors were contacted in the museum in 272 parties. 8 visitors used the self guided nature trail at Headquarters before we started moving it to Massai Point.

Travel. At times the storms practically stopped travel to Chiricahua so we took quite a loss this month compared with March of 1951. Our months total was 1017 as compared with 1575 of a year ago in March. This makes a loss of 28% for the month. The travel year to date is 7373 which still leaves us 703 or 11% ahead of this time last year.

Ranger Service. Ranger Albert Henson transferred from Tumacacori to Chiricahua on March 24. The arrival of Mr. Henson and family was very welcome. We now hope to catch up on some of the ranger and superintendent work. Mr. Henson plans on leaving for the training conference in Santa Fe March 29.

Clair V. Cooke

Clair V. Cooke
Superintendent

Proposed in Summary. The road over the mountain from Boston
and service has been raised to the level, and it is not intended to
will be open for another week or two. All other proposed roads are in
this condition.

Administrative Service. These proposed roads were made to the
Department with a view to the delivery of the roads. The
plans were submitted to the Bureau in the summer of 1907. A visit was made
the next spring to the field of the proposed roads and a report was made
it is based on.

Notes. It is to be noted that the proposed roads are
proposed to be made with a view to the delivery of the roads. The
plans were submitted to the Bureau in the summer of 1907. A visit was made
the next spring to the field of the proposed roads and a report was made
it is based on.

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
El Morro National Monument
El Morro, New Mexico

March 26, 1932

Memorandum

To: General Superintendent
From: Superintendent, El Morro
Subject: Monthly Narrative Report

There were only 103 visitors this month who came in 29 automobiles. 10 of these visitors took a trip around the rock in 11 parties, 7 of them went over the top of the rock, and 12 of these people listened to an orientation talk in 9 parties.

The coldest this month was 31 degrees above and the warmest was 67 degrees Fahrenheit. There was 1.52 inches moisture, but it seems as though we spent half of the month shoveling snow and chopping ice off of the trails. We did spend a good many days at it.

Because of the moisture, which was pretty well spread out over the month, the approach roads have not been in the best of shape. This, with the construction at the Grants end of the road, has deterred many visitors. The County Grader came in and graded our roads, so they have been in good shape.

The construction of the approach road between Grants and San Rafael is progressing rapidly. We were over it last week and they are putting down the gravel. When warm weather comes, if ever, it is expected that they will oil it. Completed, it should increase our visitor tally next summer.

The RRA has been promising to extend their lines to El Morro ever since this superintendent has been here. First one thing and then another have prevented it. Recently, all local approval has been secured to extend the lines, the contractor has agreed to do the work and it now rests with the Washington Office. All concerned out here state that it is now or never, and they expect it now. The superintendent has had his waking hopes revived so many times that he is inclined to believe that this is a last year before all our hopes expire!

Next down to the gravel, we have the new road, and get tentative permission to use the only local gravel supply for our road. The gravel pit is on Indian

BUREAU OF LAND MANAGEMENT

land. Also, from a man in Albuquerque, received written permission to use the cinders, 12 miles in another direction, and lava rock.

The inside walls, door and window of the generator house received two coats of paint. Sign painting was continued.

One evening, it was snowing hard, the WHP informed the superintendent that the sink would not drain. "Nothing to it", explained the superintendent, "Clean the grease trap - just takes a minute". He didn't finish the job until hours and hours later, after using a long fish tape, cleaning part of the sewer line, etc., and in the meanwhile fighting the snow storm when outside!

Because of the grip that winter has on us, and he has not relinquished it for one day for the past six weeks, we have had to haul another load of coal this last month.

The water lines were cleared into the rest room, the room polished up and the floors refinished in the rest room and office. Valves were replaced where necessary for we have only one rest room for both men and women and it receives hard usage.

Some trail work has been accomplished, but we have been held back on this project by the cold weather. Next month should see us well along on the project.

NATIONAL PARK SERVICE

Gila Cliff Dwellings NATIONAL MONUMENT

Box 872, Silver City, New Mexico.

March 31, 1955. 19

MONTHLY REPORT

No visitors during month.

Snow and rain have continued during this month, making the road into the Wilderness Area impassable; and the river is at present very high.

I have spent the last three days working on the road from the forks of the Gila to the head of Copera, so we could get out with this report, and bring in groceries.

GREAT SAND DUNES NATIONAL MONUMENT
Alamosa, Colorado

March 26, 1952

Memorandum

To: General Superintendent
From: Superintendent, Great Sand Dunes
Subject: Superintendent's Narrative Report for March, 1952

Weather Conditions

Windy, cold, and snowy weather restricted travel to 60% of that of last year and only 27% of the visitation for March, 1950. High winds were recorded on 14 days and at least a trace of snow fell on 9 different days although the total precipitation was only 0.29 inch. Atmospheric conditions hindered radio communication with Santa Fe although transmission to and from southern Arizona stations was feasible at all times.

The minimum temperature recorded was -6 on March 22 and the maximum was 54 on March 16.

General Publicity

One of the black and white pictures we took last fall of the Great Sand Dunes was used by Adams State College in the pamphlet advertising the summer session of school.

Maintenance and Rehabilitation

Correction of the situation which Gene Mott considered to be our worst fire hazard was made by installation of a new U. C. Little manual type oil burner in the furnace. The new burner, put in place correctly with refractory hearth cement, makes a decided improvement in operation of the furnace.

Small maintenance jobs accomplished during the month included construction of a lock top for Mosca Spring, a top for the drainage outlet on the Mosca Creek Campground water system, and a workbench in the garage.

Nine new signs were carved during the month. They will be painted and erected in April.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
WASHINGTON, D. C. 20090

June 10, 1964

Mr. J. Edgar Hoover, Director, Federal Bureau of Investigation, Washington, D. C.

Dear Sir: This letter is in response to your letter of June 8, 1964.

Enclosed for you are two copies of a letterhead memorandum.

Very truly yours,

Very truly yours,
The enclosed letterhead memorandum is being furnished to you for your information and for the information of the Bureau. It contains information regarding the activities of the National Park Service in the field of law enforcement. It is requested that you keep this information confidential and not discuss it with anyone outside the Bureau.

The National Park Service is a part of the Department of the Interior. It is responsible for the management and protection of the national parks and other public lands.

Sincerely yours,

One of the main duties of the National Park Service is to protect the natural resources of the United States. This includes the protection of the national parks and other public lands.

Very truly yours,

Enclosed for you are two copies of a letterhead memorandum. It contains information regarding the activities of the National Park Service in the field of law enforcement. It is requested that you keep this information confidential and not discuss it with anyone outside the Bureau.

The National Park Service is a part of the Department of the Interior. It is responsible for the management and protection of the national parks and other public lands.

Very truly yours,
The enclosed letterhead memorandum is being furnished to you for your information and for the information of the Bureau. It contains information regarding the activities of the National Park Service in the field of law enforcement. It is requested that you keep this information confidential and not discuss it with anyone outside the Bureau.

The plans for the bulk propane system have not yet been approved by the Director.

Approach Road

Wind has played havoc with the approach road from Highway 17 and it is in very poor shape. The monument section of the road is in the best shape I've ever seen it, however.

Concessioner

The request from Mr. A. W. Graves, the saddle-horse concessioner, for an expanded permit was denied by the Regional Director so saddle horses will not be available this summer. This eliminates a marginal operation depending on out-of-monument activities for its profit. The situation could have easily developed into an undesirable one.

Co-operating Government Agencies

The Utah Co-operative Wildlife Research Unit of the Fish and Wildlife Service asked me to participate as a co-operator in reporting bird activities of this area to the National Audubon Society.

Interpretive Service

The easel display for the drawings done in your office was constructed and installed at the Mosca Creek Parking Area. This display is a valuable contribution to our interpretive program.

The numbered markers for the Montville Nature Trail were made during the month and are ready for placement as soon as the frost goes out. The register stand is partly completed. The rough draft of the leaflet for the trail was reviewed and returned with additions to the naturalists for mimeographing. Les Arnberger did a superb job in writing the text for the leaflet.

Research and Observation

The group of 18 species of plants collected in 1950 and sent to the National Museum for identification were finally returned to us this month and have been recorded in the fact file. Mrs. Bean and I spent our evenings this month mounting these and the specimens received earlier from the University of Colorado Museum. An inventory this morning showed that our herbarium efforts have culminated in 132 mounted specimens of 101 different species of plants.

Decrease in Travel

Windy and cold weather restricted travel to only 197 visitors which is 60% of that of March 1951. There wasn't even one nice weekend during the entire month.

1. The first step in the process of identifying a problem is to define the problem. This involves identifying the symptoms of the problem and determining the scope of the problem. Once the problem has been defined, the next step is to identify the causes of the problem. This involves identifying the factors that are contributing to the problem and determining the underlying causes. Once the causes have been identified, the next step is to develop a plan of action. This involves identifying the steps that need to be taken to solve the problem and determining the resources that will be needed to implement the plan. Once a plan of action has been developed, the next step is to implement the plan. This involves carrying out the steps that have been identified in the plan and monitoring the progress of the implementation. Finally, the last step in the process is to evaluate the results of the implementation. This involves determining whether the problem has been solved and whether the resources have been used effectively.

Special Winter Life savings, especially in southern, proved
tended to turn a definite loss. Only 100% growth in 1955 was obtained
the Pacific, while 175 percent in 1956 was made in the East. This added
a total of 100% children in the area and in a limited duration from
last Monday, 1955-1956.

Interpretation: The Seattle ground was fully eroded during the North Hill was used by 1000 people. The Willington has been closed since April 14, and after the April 14 was visited by 100 people.

In March 19, Senator Florence gave a special bill on Southern education to John Stanford Dean California Institute of Technology.

Representatives of the Board of Directors and the American Medical Association met for the purpose of discussing administrative and financial matters with the representatives.

Exhibitory. Numerous Postle National Museum are featured by pictures and study in the Photo Issues of Smithsonian Collection which is published by the Society of American Scientists, Tucson, Arizona.

Continued in Continuation of Statement of Plaintiff's Exhibit in Form
 of the U. S. District Court, 1954 has received approval of the
 above and same is being submitted to the court.

¹¹ The statement for the new purchase at the Hill was corrected and signed by "Jill" and he has advised the Hill President Bill Smith.

Montezuma Castle National Monument
Camp Verde, Arizona

March 25, 1952

Memorandum

To: General Superintendent

From: Superintendent, Montezuma Castle

Subject: Monthly Narrative Report, March 1952

Weather: This has been a cold, wet month. Rain fell on nine days throughout this report period for a total of 1.98 inches. Maximum temperatures averaged in the 50's, and minimum temperatures dropped as low as 16 degrees. Snow in the surrounding mountains is still plainly visible from the Valley.

Travel: Winter like weather, especially on weekends, caused travel to take a definite drop. Only 1021 people in 333 cars visited the Castle, while 379 persons in 117 cars went to the Well. This makes a total of 1400 visitors to the area and is a decided decrease from last March's 3043 visitors.

Interpretation: The Castle museum was fully attended during the month and was seen by 1000 people. The Well museum has been closed since March 17, but prior to that date it was visited by 178 people.

On March 19, Ranger Pierson gave a special talk on southwest archeology to fifty students from California Institute of Technology.

Inspections: On March 18, Mr. Davis and Mr. Gilmore visited the area for the purpose of discussing administrative and fiscal matters with the superintendent.

Publicity: Montezuma Castle National Monument was featured by pictures and story in the March issue of Saguaro Land Bulletin which is published by the Desert Botanical Garden, Tempe, Arizona.

Construction & Maintenance: A flagpole was installed in front of the museum at Montezuma Well. This has improved appearance of the place and tends to attract attention to the area.

The standards for the new guardrail at the Well were received and installed. Railings are to be attached to the standards this week.

The entrance road to the Well was graded while the earth was damp enough to work.

1991-1992

Summary: This has been a very wet month. This will be
 also the heaviest rain yet for a total of 11.5 inches.
 The temperature averaged at 50° F. and the wind was
 light to moderate. There is no record of any
 other weather in the area.

General: Under this heading, especially on weekends, many
leaves on take a definite form. Only two people in the area visited
the Center, while 275 members in 15 days were in the Hall. This makes
a total of 100 visitors to the area and 14 a typical day-week. The
last night's visit was...

Page 2:

Master Plan: The Park Operation Prospectus section of the Master Plan Development Outline for this area was prepared and submitted to headquarters for editing.

Accidents: On March 19, David Johnstone, 21 year old student from California Tech. suffered a broken leg (right femur) when he fell from a limestone ledge near Castle "A". He was attempting to make his way along a section of cliff where no sign of a trail exists when his feet slipped out from under him causing him to fall some thirty feet. He was treated locally for shock and rushed to the Cottonwood hospital by ambulance where he is recovering satisfactorily.

* Montezuma Castle *

Western Plains The first expedition was made in the
 spring of 1891. The purpose of this was to explore and collect
 and to determine the extent of the

Indians On March 18, David Johnston, 21 years old state
 and from California, was sent on a party (with Johnston) to
 fall from a mountain ridge near "Little" Lake. He was attempting to make
 his way along a narrow ridge of about 100 feet wide when
 he fell about 100 feet. His condition was very serious
 and he was taken to the hospital and died on the following
 day. He was buried near the hospital.

March 27, 1962

Memorandum

To: General Superintendent

From: Superintendent, Navajo

Subject: Narrative Report for March 1962

Travel: There were two persons who visited Navajo this month. This represents a tremendous drop in comparison to the 86 persons during March 1961.

Weather: There was only one day from February 25 through March 26 when no precipitation whatsoever was recorded. Most days only a trace of moisture was recorded but none the less we have had about all the rain, snow and hail we want for awhile. The weather temperatures have ranged from a high of 51° to a low of 6° with a total precipitation of 1.38 inches and 7 inches of snow remains on the ground.

Roads: Chains have been necessary to travel the road between Shonto and the Monument. However, the roads beyond Shonto leading to Highway 89 were in very good condition. Much of the loose sandy fill on our roads is being washed away by the melting snow water. The road to the water pump generator is still blocked by snow drifts and the road to Sage Point is not yet open. The little Gallion Model 402 grader is not machine enough to plow the deep drifts that remain in some places.

General: This month was devoted to doing a job long needed. The house was painted on the inside from stem to stern except for a portion of the bathroom. The plasterboard walls in the new addition look quite well. A tremendous amount of plaster patching and crack filling was necessary in the older part of the house. The actual painting time was far less than the amount of time required to prepare the walls. This was especially true concerning the new walls and woodwork.

Several pieces of office furniture were reassembled and painted.

March 17, 1934

Mr. Tolson

Dear Sir:

Reference is made to your letter of March 14, 1934.

The following information is being furnished to you:

On March 14, 1934, the Bureau received information from the Chicago Office that a certain individual had been observed at the Chicago Office on March 13, 1934.

It was stated that this individual was seen in the Chicago Office at approximately 10:30 a.m. on March 13, 1934. The individual was described as being of medium build, with dark hair, and wearing a dark suit and tie. It was further stated that the individual was seen in the Chicago Office at approximately 10:30 a.m. on March 13, 1934.

It was further stated that the individual was seen in the Chicago Office at approximately 10:30 a.m. on March 13, 1934. The individual was described as being of medium build, with dark hair, and wearing a dark suit and tie. It was further stated that the individual was seen in the Chicago Office at approximately 10:30 a.m. on March 13, 1934.

It was further stated that the individual was seen in the Chicago Office at approximately 10:30 a.m. on March 13, 1934. The individual was described as being of medium build, with dark hair, and wearing a dark suit and tie. It was further stated that the individual was seen in the Chicago Office at approximately 10:30 a.m. on March 13, 1934.

Very respectfully,
Special Agent in Charge

Enclosure

DEPARTMENT OF THE INTERIOR

NATIONAL BUREAU OF SURVEY

REPORT OF THE SURVEY

A furnace oil-burner clearing device has been regularly used to clear the furnace flue and the furnace itself has been given regular cleaning yet we had another flue fire. The fire happened about noon time and was quickly gotten under control with no damage.

This prolonged winter has made our coal consumption increase by about 5 tons over last year's needs and accordingly one more load of coal was hauled.

The heating element in the hot water heater was torn down, cleaned and put in working condition.

We are answering an average of 5 requests for information per mail day. One letter wanted a full description of Navajo dress, past and present. Another asked us to plan a 10 day trip through the Indian country.

One trip to Flagstaff and Walnut Canyon was made for supplies and equipment.

Observations: A poor misguided chipmunk, the first seen this season, made a rather tentative inspection of the weather conditions on March 7th. It is assumed that he took a dim view of all the snow and returned to his nest since he has not been seen since.

John A. Ambuchon
Superintendent

Field notes were made March 2, 7, and 10. Everything will be written up and placed in the report for the year.

General Summary:

An article on the survey of the site and the height of the monument is being written for the report.

Plans for the survey are being prepared for the year on the Indian right of way.

Work Accomplished:

Installation of the tele. line system is now well completed and will be finished in the coming week.

Work on the site was held up waiting a radio-gram. The Bureau of Animal Industry has been asked to send by a loan of one of the birds for the purpose of the survey. The birds will be sent by air mail.

1. The purpose of this study was to determine the effect of the use of the word "and" on the comprehension of a sentence. The study was conducted with 100 subjects, 50 males and 50 females, who were given a series of 10 sentences to read. Each sentence contained the word "and" in a different position. The subjects were asked to read each sentence and to indicate whether they understood the meaning of the sentence. The results of the study showed that the use of the word "and" in a sentence had a significant effect on the comprehension of the sentence. The subjects who read sentences with the word "and" in the first position had a higher comprehension score than the subjects who read sentences with the word "and" in the second position. The subjects who read sentences with the word "and" in the third position had a higher comprehension score than the subjects who read sentences with the word "and" in the fourth position. The subjects who read sentences with the word "and" in the fifth position had a higher comprehension score than the subjects who read sentences with the word "and" in the sixth position. The subjects who read sentences with the word "and" in the seventh position had a higher comprehension score than the subjects who read sentences with the word "and" in the eighth position. The subjects who read sentences with the word "and" in the ninth position had a higher comprehension score than the subjects who read sentences with the word "and" in the tenth position. The results of the study suggest that the use of the word "and" in a sentence can affect the comprehension of the sentence. Therefore, it is recommended that the word "and" be used in a sentence in a position that will maximize the comprehension of the sentence.

The meeting element in the last meeting was last time, and was in working condition.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Organ Pipe Cactus National Monument

Ajo, Arizona

March 26, 1952

Memorandum

To: General Superintendent
From: Superintendent
Subject: Monthly Narrative Report, lml for March 1952

Weather

Continued rain and cool weather has been the main topic in this section. A total of 2.66 inches of rain fell during the month which is almost as much as we get some years. A record 1.06 inches fell on March 9th. The ground is now as near soaked as it ever gets in the desert. Cold nights have retarded the flowers so we have not yet reached our flowering peak. Maximum temperature for the month was 72° with a low of 30°.

Inspections

Paul Balch spent March 6, 7, and 8th inspecting soil and moisture work and planning on future needs for the area.

General Publicity

An article on the area by Harold and Lucile Weight is carried in Natural History for ~~April~~ MARCH.

Flower forecasts are being broadcast for the area on the Friday night Richfield News.

New Construction

Installation of the bulk gas system is about 90% completed and will be finished in the coming week.

Campground work has been held up awaiting a bulldozer. The Bureau of Animal Industry dozer was delayed en-route by a breakdown of the truck transporting it. If it arrives work will be started right away.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
WATER RESOURCES DIVISION
WASHINGTON, D. C.

June 11, 1954

Memorandum

TO: Regional Director, Denver

FROM: District Engineer, Denver

SUBJECT: Flood Control, 1st 1/2 miles

Reference

Enclosed for the Denver District Engineer are two copies of a report on the results of a study of the flood control problem in the 1st 1/2 miles of the South Platte River. The study was conducted by the Denver District Engineer and the Denver District Engineer's Office. The report contains a description of the problem, a list of the flood control measures that have been taken, and a list of the flood control measures that are recommended. The report also contains a list of the flood control measures that are being considered for the future.

Enclosure

Very truly yours,
District Engineer, Denver

General Manager

In addition to the above, a copy of the report is being furnished to the Denver District Engineer's Office for their information.

Very truly yours,
District Engineer, Denver

The report also contains a list of the flood control measures that are being considered for the future.

Very truly yours,
District Engineer, Denver

Interpretive Service

Interpretive contacts fell off during the month due to the cold windy days and rain. Several days were not inductive to natural history trail hikes because of the miserable weather.

Three slide shows were presented to 91 people.

Museum Exhibit

A Papago basket and pottery material display was prepared and given by Mrs. Goldie Richmond (the former Mrs. Tracy of Tracy's Trading Post) a trader on the Papago Reservation. Much valuable information was given by her and with this exhibit we can now give more accurate interpretation on the Papagos.

Research and Observation

An insect case was received this month and a specimen collection was started.

Other observations on bird and wildlife were kept current.

Police Protection

A rifle was taken from one of the prospectors during the month and later returned when he left the area. A few days later we had a report from one of the partners in the mine that he and another fellow had been run off by this man with another gun. The culprit managed to evade us and leave the area, and we are now awaiting his return.

Archaeological Survey

Six complete pottery vessels were discovered in a small cave in the Cement Tank area. Evidence indicates it was a Papago pitahaya gathering or equipment cache. However, the pottery is of varied types. The pots were brought to headquarters for study and storage. Further exploration of the cave and area should be made by Collaborator Ezell.

William R. Supernauth
Superintendent

Organ Pipe Cactus National Monument (2)

1. The first step in the process of identifying a problem is to define the problem. This involves identifying the symptoms of the problem and determining the scope of the problem. Once the problem has been defined, the next step is to identify the causes of the problem. This involves identifying the factors that are contributing to the problem and determining the underlying causes. Once the causes have been identified, the next step is to develop a plan of action. This involves identifying the steps that need to be taken to solve the problem and determining the resources that will be needed to implement the plan. Finally, the last step in the process is to implement the plan and monitor the results. This involves putting the plan into action and tracking the progress of the solution. Once the problem has been solved, the final step is to evaluate the results and determine if the solution was effective. This involves comparing the results of the solution to the original problem and determining if the problem has been solved. If the problem has not been solved, the process may need to be repeated.

On 11/11/1964, the following information was received from the Bureau of the Census:

FIELD NO. 100000

1. The above information was obtained from a review of the files of the Federal Bureau of Investigation, Department of Justice, and the files of the Federal Bureau of Investigation, Department of Justice, and the files of the Federal Bureau of Investigation, Department of Justice.

THE UNIVERSITY OF CHICAGO

... ..

There were 1000 copies of this book printed.

1994-1995

1. This was taken from one of the photographs
during the search and taken between 1945 and 1946.
A few days later we had a letter from the
in the same line as the other and the
of this was not answered. The subject was
on and from the other, and we are now working on the subject.

1900-1901

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

March 23, 1942

Memorandum

To: General Superintendent
From: Superintendent, Saguaro National Monument
Subject: Monthly Narrative Report, March 1942

General

Stormy conditions during March were not actually conducive to record travel as inclement weather prevailed on many occasions and new precipitation records were established. As a result of the record breaking rains many wildflowers made their appearance starting about March 1. The display is outstanding and considered equal to the 1941 season. Cholla (Yucca elata) is in profusion over the entire Tucson area, with desert-palm (Washingtonia robusta) also plentiful. Because of the wildflower display, Saguaro received considerable publicity through various media, with the result that travel for the month showed a good increase over the same month last year. A new record for a single day was established on Mar. 23, when 1,209 people visited Saguaro.

The several storms during the month piled up some 3 feet of snow in the higher portions of the Rincons. High streams were running at record time and the Rincon Creek on the road to Maricopa Center Station was impassable to passenger cars for several days.

Special Activities

Architect Sanders inspected the residence construction on March 4 and 5.

Raymond was presented to Mr. and Mrs. Nelson Harwood for their property in Saguaro National Monument. This concludes acquisition of the important private land within the monument boundary.

General Superintendent Davis and Assistant Administrative Officer Gilmore paid a whirlwind visit to Saguaro on March 12. Mr. Gilmore inspected and corrected our accounts.

Mr. Paul Welch, soil conservationist from the Tucson Water Office, spent two days going over soil conservation and erosion control matters. He turned the subject over to Mr. Gilmore to gather information for a Soil Conservation project at Saguaro.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Mr. R. L. Hodge and his family visited the park on a field trip and conferred with the Superintendent on matters pertaining to the interpretive program. They also edited a coordinating article to be published in "The Vie del Sur", an Italian magazine.

Status of Private Funds

Another has arisen regarding the transfer of funds to the Aguero water supply system. It is not known whether the Service has authority to expend funds outside the park boundaries for construction. An opinion may be required by the Solicitor General to settle this matter.

General Publicity

The extraordinary wildflower display has attracted attention of the public in several communication media. The Wickfield Reformer broadcasts wildflower prospects for the month every Friday at 10:30 P.M. An article regarding wildflowers appeared in the March 19 issue of The Arizona Daily Star. Mention of Aguero and Green Pipe was made in an article regarding desert flowers in the March 9 issue of the New York Times.

Mr. Raymond Carlson, editor of Arizona Wildways, called for information on the wildflower blossoms and prospective blooming dates for the various species of desert.

The superintendent was requested to contribute an article on Aguero National Monument to the Italian magazine "The Vie del Sur". The article is at present in the tentative stage. Most of photos of the area will be included.

Intensities

The irrigation pump was installed at Aguero water station. It will fill the four water storage tank in about one day which is a decided improvement over our former pumping system.

Continental light tent was transferred from Green Pipe to aid our filtering Green plants. We will use the Continental tent regularly with two Green as stand-by.

A coral spring-cleaning was performed at Aguero water station. The coral was cleaned, sewage lines cleared, inside of bunkhouse painted, and other numerous small projects were accomplished.

The motor water pump was re-aligned and the pump is back in operation. An excellent job of re-aligning was performed.

and the tires appear to be brand new.

We received permission to abandon the telephone line from Grand to Arizona Ranger station. We will still retain the ground circuit to the forested area. The Mountain States Telephone and Telegraph Co. recently raised rates and abandonment of the line will bring about a saving of some \$100.00 per year. The line was always a source of trouble to the Supervisory Ranger who is responsible for its maintenance.

New Construction

Excellent progress was made on the construction of building No. 19 in March. Architect Saunders was pleased with the general appearance of the job. At this writing, the exterior of the house is being painted and the metal lath and sheetrock has been installed ready for plastering. Remaining work consists of cabinet work, heating and cooling plants installed, floors laid, and interior painting. The job is about 70% complete.

The final shipments of pine from Arizona Company were received. We now have on hand the total amount of 2,000 ft.

Approaches to Park Area

The Grand County graders have worked all approach roads at various times during the month. The county rangers during March have had approaches quite rough at times.

Cooperative Government Agencies

A representative from the U.S. Geological Survey recorded the depth of the Chamber of Commerce well. Log of the well showed 167.12 feet to water level.

Acquisitions

A good quantity of condemned surplus property was acquired from Davis-Monthan Air Force Base. This included various cases, oil drums, paint remover, and insecticide.

Interpretive Services

A total of 4,198 visitors were afforded interpretive service at headquarters. This amounted to a total of 242 hours for an average of 10 minutes per party.

A number of desert plants were collected for use in the Laramie's herbarium. A total of ten specimens have been prepared.

The U.S. Forest Service provided a slide from the "Wormer Hitchcock Tree", a Ponderosa Pine which grew in the Catalina Mountains, and was claimed by some to be the largest tree in Arizona. A life size graph was prepared and exhibited on the slide to give visitors some idea of the vegetation in the forested portion of the monument.

Observations

Plants-Feb. 26, First buds appear on Yucca, Prickly Pear, and Teddy Bear Cactus.

Mar. 10, Four apparently healthy Saguaro cacti uprooted by high winds.

Animals-Mar. 1, One bobcat along east boundary, 2 Javelines on looproad.

" 2, 4 Javelines 1 mile south of Headquarters.

" 10, 4 pronghorn, 1 porcupine and one fish-tailed cat at Madrona N.S.

" 19, 8 white-tailed deer in foothills of Tanque Verde Mountains (3 bucks), 12 Javelines near Javelina Den.

Birds -Mar. 2, Cactus Wren catches three birds just west of Office.

" 7, One Hummingbird at Headquarters, one Colorado Falcon west of monument.

Increase in Travel

A total of 6,939 persons visited Saguaro National Monument in March. This is a decrease of 2,571 visitors from last month but an increase of 1,686 persons over the corresponding month one year ago.

Visitors

Feb. 26, Miss Mary Jane Truman, President Truman's sister, Oranville, Missouri.

Mar. 2, Dr. George Avery, Director, Brooklyn Botanical Garden, Brooklyn, N.Y.

" 3, Mr. and Mrs. Art Metzger, Grand Canyon National Park.

" 4, Architect Kenneth Saunders, Region Three, Santa Fe, N.M.

" 6, Former Director and Mrs. A.E. Dummeray, Tucson, Arizona.

" 14, Paul Balch, Soil Conservationist, Region Three, Santa Fe, N.M.

" 15, Dean Guerin, retired Dean of College of Arts and Sciences, University of Arizona.

" 15, Messrs. John Davis and Arthur Gilmore, Region Three, Santa Fe, N.M.

" 15, Ranger and Mrs. Paul Spangle, Walnut Canyon Nat. Mon.

" 15, Professor Emeritus and Mrs. J.W. Bradshaw, Univ. of Michigan, Ann Arbor, Mich.

" 15, Mr. George Malloch, former Chief Justice of Supreme Court of the Philippine Islands, Philippines, Manila.

- Mar. 19, Architect Kenneth Saunders, Section Three, Fort Huachuca, N.M.
" 20, The Hundred children from the Kinder Garden, Navajo
Warthen Air Force Base, Tucson, Arizona.
" 21, Naturalists Dodge and Amherster, Section Three, Fort Huachuca, N.M.

Ranger Service

Supervisory Ranger Steele has gotten settled in his new assignment at Pedrona Ranger Station and would like to know where else can a man get paid for the things he naturally likes to do and get to live in and around beauty like that of a National Park Service area.

Police Protection

A few parties of Revolver hunters were contacted near the park boundary and informed of Service regulations. Boundary patrols were made daily throughout March and no violations were discovered.

Forest Fire Control

The snows of March have accumulated to a good depth in the forested area of the monument. We are in hopes that this added moisture will tend to lessen the fire danger later on in the Spring.

NATIONAL PARK SERVICE

Monte National Monument

Roosevelt, Arizona

March 31, 1933

Memorandum

To: The General Superintendent, Montezuma National Monument

From: Superintendent, Montezuma

Subject: Narrative report, 11, March, 1933

Weather. Mostly rain. During the night a total of 3.31 of rain fell. Still the size of hailstones of the first., heavy and stormy at the teeth, which melted as it fell, and on the morning of the 17th, about 2 inches of wet snow on the ground. The rest of the night was cold, and windy during the last week of the month.

April. Travel dropped from the record of heavy rain, and only 1.11 in the month ended 300 for any one day. Due to the rain, the Apache trail was sometimes closed by floods in the arroyos crossing the highway. The visitors began to listen to the weather forecasts, and watch of local weather conditions closely. Archibald let out on the trail copies of a short accompanying this report, which graphically portrays the correlation between local conditions and travel here.

Inspections: Engineer J. E. Owen from Lake Mead was in the area to supervise the construction of a dam from February 28 to 31st.

General Superintendent Davis and Assistant Superintendent Gilmore were in, on March 18th.

Arrivals. George C. Bell, truck driver, and his father-in-law were in the area February 28th.

Archibald let out on the trail March 21st, Feb. 21st.

Visitors: Mr. & Mrs. Arthur G. Sawyer, parents of Archibald let out, still let. Mrs. Sawyer stayed a few days.

James and Joseph Smith, well-known Phoenix residents and friends of the National Service, and G.

Professor E. W. Robert A. Whiting, professor of Biology at the University of Minnesota, March 10.

Mrs. Owen let out, from the Montezuma National Monument, March 14.

Mr. & Mrs. J. E. Owen, about 1000, and his father-in-law,

March 14th, visited the area, March 14, 1933.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

WILSON
WASHINGTON, D.C.

June 14, 1918

Dear Sir:

The National Park Service, Department of the Interior, has the honor to acknowledge the receipt of your letter of June 10, 1918, regarding the proposed establishment of a National Monument in the State of California.

Very respectfully,
Sincerely,
Very truly yours,

Director, National Park Service, Department of the Interior, Washington, D.C.

Enclosed for the National Park Service are two copies of a report of the California State Survey, dated June 10, 1918, regarding the proposed establishment of a National Monument in the State of California. The report contains a description of the proposed monument, a map showing its location, and a list of the persons who have been interested in its establishment.

The report also contains a list of the persons who have been interested in its establishment, and a list of the persons who have been interested in its establishment. The report also contains a list of the persons who have been interested in its establishment, and a list of the persons who have been interested in its establishment.

Very truly yours,
Director, National Park Service, Department of the Interior, Washington, D.C.

Enclosed for the National Park Service are two copies of a report of the California State Survey, dated June 10, 1918, regarding the proposed establishment of a National Monument in the State of California.

The report also contains a list of the persons who have been interested in its establishment, and a list of the persons who have been interested in its establishment. The report also contains a list of the persons who have been interested in its establishment, and a list of the persons who have been interested in its establishment.

Visitor Cont. One State Senator, who would not give his name. We suspect he was playing hooky from an over-long congressional session in Phoenix.

One strip-tease artist, who recently achieved local prominence by being arrested in Phoenix for performance beyond the call of duty. Not in working costume, as it was rather cold here.

Foreign Visitors. Canada 58, Finland, Switzerland, England, Germany 4; Australia 2, Territory of Alaska 4.

Roads and Trails. Archeologist Lenger cleaned all drainage ditches on the ruins trail, and removed about 2 yards of rock which fell just below the ruins after the snowfall of March 17.

Construction. Water System. The new 10,000 gallon storage tank was poured, early in the month, and outer forms removed after about a week. Inside forms were to be left for 30 days while the concrete seasoned. Inertol Paint was ordered for the inside, and is on hand now. A ditch from the junction box to the tank was dug and some 250 feet of 2 $\frac{1}{2}$ inch pipe laid, all that was on hand at that time. The full amount of 1 $\frac{1}{2}$ inch pipe has been received from Crane Company. 357 feet of 2 $\frac{1}{2}$ inch pipe was ordered locally and delivered. This is to complete the line from the junction box to the storage tank. Since the crew is now reduced to 2 men, who are now occupied with the entrance road, progress on the water system halted.

Entrance road: The bulldozer and front end loader were moved to the gravel hard 1 $\frac{1}{2}$ miles from the Monument entrance, and Operator Mc Cartty racked up big piles of surfacing material. This is a gravel mixed with clay in good proportions to pack well, a natural mix.

Hauling started on March 19, with the Tonto truck and 2 hired 5 yard trucks, one of which broke down on the 20th, and has not been out again. It is almost impossible to find trucks available at present, so the job continued with just two trucks since then. As usual, the loader broke down, and required another welding job, and lost 2 $\frac{1}{2}$ days.

Over half of the road is now surfaced, most of it spread and laid out by the State Highway Operator Sanders on March 29th and 31st.

Two days were spent by Superintendent Sharp in a search for a loader while ours was being repaired. A small tractor was found, brought out, found to be inadequate and returned promptly.

Construction is just what General Sherman said war is!

General. The appliance shelter at the trailer was completed most by Archeologist Lenger, so hot water and refrigeration is now available at the trailer quarters for the first time, after about 8 months occupation.

The new Jervel refrigerator was installed in the superintendents quarters, but still requires some adjustments.

Ranger Viklund built a new informational sign for the museum, which can quickly be set to give the time of the next trip.

[illegible]

General. Ranger Viklund and Truck Driver Paul Buss tried to return the Grand Canyon truck via Payson on March 11, but were forced to return back, as the roads were blocked by snow above Pine, and running arroyos at the lower elevations.

On March 18th-19th, Superintendent Sharp and Paul Buss returned the truck.

Research. Archeologist Venger received his permit to collect flowers for the herbarium, and has started this project.

Professor Robert Phillips, University of Minnesota, complimented the monument on the interpreted trail to the ruins, and also identified some of the new flowers that are appearing after the heavy rains. We find the "Flowers" book by Mrs. Patraw and Mr. Dodge, and Arizona Flora by Kearney and Feebles, very helpful in identification.

Wildlife. Mr. Venger observed six javelinas on a ridge west of the ruins. Several sightings were made, of birds tentatively identified as Gilded Flickers. Naturalist Dick Burns of Lake Mead spotted these during his visit here awhile ago.

Flora. The past few days of warm weather have brought out the best wildflower display of many years, with many species in bloom. The month of April should continue excellent displays.

Charles C. Sharp

MARCH 1952 TRAVEL TONTO NAT'L. MON.
2479 VISITORS

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

March 26, 1952

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tumacacori

Subject: Superintendent's Monthly Narrative Report for March, 1952

Weather: Quite wet, with 2.08" of precipitation, which is the highest March rainfall on record here. Highest previous March, in 13 years of record for this district, was 1.04", in 1944. Average March rainfall for past 13 years previous was .41". Snow fell on the 2nd and 9th, with $1\frac{1}{2}$ " on the ground on the latter morning.

Temperatures were low for March, with a Maximum of 73 on the 15th, a minimum of 18 on the 22nd. The month had a great deal of cold, cloudy, windy weather, and was great for ducks, but not very good for tourists. The Santa Cruz River ran for several days.

Cattle ranges have benefitted enormously from the bountiful rains. Hillsides of this district are lavishly coated with wild flowers, presenting the most beautiful Spring floral display in many years.

Visitor Travel: This month: 4,574 persons, in 1,329 motor vehicles.
Highest previous March - : 5,488 persons, in 1951.

Percent decrease - - - - : 16.6.

Last 12 months - - - - : 44,757 visitors.

Previous 12 months - - - : 34,345 visitors.

Percent increase - - - - : 30.3.

For the first time in many months, travel dropped from a record high for the month to position of second high. There are probably two reasons for this: The month was exceptionally cold and stormy, even for March; and rough detours through much of a nine mile stretch of highway reconstruction underway in both directions on our one approach, may have caused some visitors to forego a visit to Nogales, or to be somewhat frantic and hurried when they did come by Tumacacori.

Visitors: Among those present were:

2/26/52 - Mrs. Dixon Freeland, of Grand Teton National Park.
- Senator and Mrs. Dan Llamon, Fairbanks, Alaska.

2/28/52 - Sup't. and Mrs. Jimmie Brewer, Tuzigoot N. Mon't.

3/1/52 - Maintenance Foreman and Mrs. Bob Kraninberg,

Grand Teton National Park.

3/8/52 - Ranger Gilbert R. Wenger, Tonto National Monument.

3/14/52 - Archaeologist and Mrs. Paul F. Spangle, Walnut Canyon National Monument.

3/19/52 - Supervisory Ranger and Mrs. Earle Steele, Saguaro National Monument.

- District Anthropologist Alfred F. Whiting, for the

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The population of the United States has increased from about 100 million in 1900 to over 200 million in 1950, and this increase has been largely due to the growth of the urban population. The urban population has increased from about 50 million in 1900 to over 150 million in 1950, and this increase has been largely due to the growth of the urban population. The urban population has increased from about 50 million in 1900 to over 150 million in 1950, and this increase has been largely due to the growth of the urban population.

10. The following information was obtained from the records of the Department of the Interior, Bureau of Land Management, regarding the land owned by the United States in the State of Nevada:

Eastern Carolines, U. S. Trust Territories of the Pacific.

3/23/52 - Ranger and Mrs. Charles A. Budge, Badlands National Monument, South Dakota.

3/24/52 - Wayne Bryant, Jr. Pk. Naturalist, Yosemite National Park, and Ben Lindner, of the Yosemite National Park accounting staff.

Tumacacori National Monument, as can be seen from the list above, is attracting a great many vacationing National Park Service Employees. It is gratifying that so many of our fellow Service men and their wives are being drawn to see this famous historic area. While here, of course, they also go southward to visit the secondary attraction of the Mexican Border and sometimes the fishing port of Guaymas, only 278 miles away.

Inspections: 3/15/52 - General Superintendent John Davis and Assistant Administrative Officer Art Gilmore.

Maintenance: Our pump was pulled by Maintenance man Deubler and Ranger Henson, and the drop pipe, plunger rod, and double-acting cylinder replaced by completely new stock. The task of installing fluorescent lights in the museum was completed. A cement floor was put in the incinerator, to keep careless wild animals from getting in and scattering papers all over the monument. One of the picnic tables was re-made, with a new top. Repairs were made to road signs. Office windows were weather stripped. Part of the garage roof covering blew off, and was repaired, and the entire surface given a hot coat of tar. Completion of pruning on tamarisk trees was effected. All dead wood growth was cut from mesquites in cemetery. Russian Thistle, which is taking the monument, was given a good deal of attention with a hoe. Some white Irises and variegated Columbines were planted in the patio garden.

Museum and Education: Text and lettering of Case 24 "The Monument" in the museum, was revised. Ranger Henson did most of the work on this revision. Henson also finished, by burning a lot of midnight oil, a beautiful job of preparing the study collection of bat skins, skulls and mandibles for permanent storage and easy access for study.

Our 2 x 2 Kodachrome slides, previously stored in slide boxes, have always required a lot of sorting and squinting and some swearing, in order to select the particular slides desired when giving a talk. At Ranger Broyles' suggestion we have altered some old 3" x 4" size slide racks in an old rack to fit 2 x 2" slides, and now have all our slides so that a moment's glance the desired ones can be selected.

A number of additional plant specimens have been pressed, for use in our embryonic monument herbarium.

Three lectures on Snakes were given this month by the superintendent. Two of these were to different sections of the Nogales High School biology class, and the third was an evening lecture in the museum lobby. The talks were well attended, and conservation was stressed.

London, Ontario, 2. 11. 1901

UNITED STATES
DEPARTMENT OF THE INTERIOR

An evening slide showing was made by Bob Kraninberg, of Grand Teton National Park. This was just a talk for Park Service staff here, but was one that was very educational to us. Bob showed us a lengthy series of superlative kodachrome slides of Grand Teton National Park.

Corrections were made on the 2-fold information leaflet for Tumacacori, pending reprinting.

Acts of God: Violent wind and rain on March 1 peeled off part of the fragile painted plaster veneer on the facade of the mission church above the entrance arch. Sizable parts of plaster also fell from top of the two-story wall remnants on the east side of the cemetery.

Personnel: Ranger Albert G. Hanson transferred from Tumacacori to Chiricahua National Monument, effective on March 24. We will miss the Hensons. They are good people, and he is a mighty fine Park Service man.

Superintendent Jackson was knocked flat by an ~~mt~~ epidemic virus for three days.

General: The "Introduction" portion of the Master Plan has been completely revised and re-written, and was submitted to headquarters during the month.

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
BUREAU OF NATIONAL MONUMENTS
CLARKDALE, ARIZONA

March 25, 1952

Memorandum

To: General Superintendent, Southwestern National Monuments
From: Superintendent, Tuzigoot National Monument
Subject: Report 1st, March 1952

The following is a narrative report of activities in this area.

GENERAL

Ranger Maxson spent considerable time bringing the fact file and photographic file up to date.

WATER

Three inches of snow fell on March second, draping the monument ruins and the shrubbery with more snow than has been seen here since 1948. The rest of the month has been very cold and windy --typical of March weather here. Neighboring ranchers tell us their fruit trees have been badly damaged by late frost for the last two years.

SPECIAL ACTIVITIES

On March seventeenth Ranger Maxson gave a talk on peyote before the Verde Valley Garden Club. (Peyote is a small cactus used in religious rites of the Native American Church, a Christian Indian organization.) The program was given in the home of Herbert Young, officer of the Clarkdale smelter, and was heard by twenty-five members of the club.

Accounts of the talk were published in the Verde Valley Independent newspaper, and were newscast by radio in Flagstaff the following day.

INSTRUCTIONS

General Superintendent, John M. Davis, and Administrative

UNITED STATES

Officer, Arthur Gilmore made an administrative inspection on March seventeenth and eighteenth.

MAINTENANCE AND GENERAL WORK

The office bookcases and cabinets were painted with bright, safety green to match the furnace (which is also located in the office).

Ten hours were spent repairing defective brass fittings on the furnace oil-feed lines.

ROADS AND TRAILS

Stones, bottles, and trash were removed from the entrance road.

MUSEUM ACTIVITIES AND EXHIBITS

Mr. and Mrs. Brooks Sheperd, visitors from Vermont, responded to the Superintendent's enthusiasm for the installation of a habitat group in the north room of the museum, by contributing twenty-five unsolicited dollars.

A large adult, redtailed hawk (Buteo borealis calurus) was found dead on the entrance road just outside the monument. Inspection showed that the bird had been shot by a small caliber bullet. Because decoy had already started a study skin was not made of the bird. Its feathers were saved as gifts to Hopi Indian friends who value this bird highly and look on it as a little brother to the eagle.

A rock wren (Salpinctes obsoletus obsoletus) was found dead in the garage where it had apparently flown into the window.

A Pied-Billed Grebe (Podilymbus podiceps podiceps) was found dead on the entrance road on March nineteenth. It had evidently been struck by a car. Maintenance man Wetherill volunteered to make a study skin of the bird on his own time. It will be added to the monument collection.

TRAVEL

943 people in 332 parties visited the monument. This is a decrease of 6% from the travel figures of last month.

3 of the visitors wore uniforms of the armed forces.

874 visitors in 308 groups entered the museum.

918 people in 323 parties visited the ruin.

THESE ARE THE RESULTS OF THE INVESTIGATION INTO THE
MATTERS OF THE ABOVE NAMED CASES.

CONCLUSIONS AND RECOMMENDATIONS

The above findings and evidence are hereby set forth

NEW CONSTRUCTION

A new shadow-board for tools was made and installed in the storage room behind the office.

The following is a brief log on our new well project:

3/17/52 Mr. Riley Lee set up his well rig and started making hole at 3:00 PM. Drill samples are being taken every ten feet for analysis by Dr. Colton of the Museum of Northern Arizona. They will be used to help plot the underground stratigraphy of the state.

Work ceased at the 20' level.

3/18/52 Work progressing smoothly.

3/19/52 Sand pocket found at 115' level--slight caving in.

3/20/52 128' level reached by 4:30 PM.

3/21/52 At 9:00 AM, when work began, 38' of water stood in the hole (water level was at the 90' level).

3/22/52 Sand caused cave-ins. Three hours of drilling produced 4' of hole. It was necessary to case the hole. During the afternoon 141' of steel casing were inserted.

3/25/52 A clay layer was hit at the 183' level. This bed of clay proved to be 43' deep. At the 226' level a thin bed of limestone was encountered--then more clay. Drilling continues through the clay.

John Dewey

Librarian

UNITED STATES

DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

March 25, 1952

Memorandum

To: General Superintendent

From: Superintendent, Walnut Canyon National Monument,
Flagstaff, Arizona

Subject: Monthly Narrative Report - March 1952

Weather

One of the heaviest snowfalls on record fell during the month and brought the total amount of moisture to 3.20 inches. Roads were closed in most of the rural areas and the Schools in Flagstaff were closed for two days. Cold and cloudy days have prevailed thruout the period.

Administration

Ranger Paul F. Spangle entered on annual leave March 13 and will return March 28. The week of heavy snow with no visitors enabled us to work on our files and records and get generally caught up on many things. Superintendent Guillet took two days of leave, March 6-7.

Maintenance

Keeping our roads and trails open and shovelling snow was almost a steady routine. The resuming of the trail repair job was necessarily postponed and the workmen were used on other projects until it was obvious that it would not be possible to start the project. The painting of the garage was completed. The heavy snow broke some of the rafters in the storage shed making it necessary to strengthen and repair this structure. Ice and snow was removed from the Island trail. Camp tables were repaired and painted. A general cleaning and straightening up of the tool shed was completed.

Travel

There were 368 visitors representing 27 states and four foreign countries namely, France, Germany, Brazil and Canada. This is an increase over March of 1951 and is surprising when our roads were practically impassable much of the period. No visitors were in from March 11 to 16.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

May 27, 1933

Washington

General Superintendent

To:

Superintendent, United States National Monument,
Elkton, Delaware

From:

Subject: Wildlife Management Report - 1932-1933

Dear Sir:

The 1932-1933 season was a record fall for the park. The weather was ideal, the birds were in the best of health, and the game was in the best of health. The season was a record for the park. The weather was ideal, the birds were in the best of health, and the game was in the best of health. The season was a record for the park.

Very truly yours,

George F. R. Smith, Superintendent, United States National Monument, Elkton, Delaware. The season was a record for the park. The weather was ideal, the birds were in the best of health, and the game was in the best of health. The season was a record for the park.

Respectfully,

During the season the birds were in the best of health. The weather was ideal, the birds were in the best of health, and the game was in the best of health. The season was a record for the park. The weather was ideal, the birds were in the best of health, and the game was in the best of health. The season was a record for the park.

Sincerely,

There was a record for the park. The weather was ideal, the birds were in the best of health, and the game was in the best of health. The season was a record for the park. The weather was ideal, the birds were in the best of health, and the game was in the best of health. The season was a record for the park.

N.P.S. Visitors

- February 25 - Superintendent Brueck and Maintenance man Bean from Wupatki to pick up Tank and Radio Converter.
March 3 * Archeologists Vivian and Richert, Chaco Canyon
March 4 - Superintendent and Mrs. Homer F. Hastings, Chaco Canyon.
March 10 - Ranger and Mrs Evan Byrd, Mesa Verde National Park
March 20 - General Superintendent John M. Davis and Art Gilmore. Santa Fe
March 21 - Superintendent John A. Aubuchon, Navajo National Monument.
March 23 - Personnel Clerk Cecil Hanner and Family, Grand Canyon.

Interpretive Service

A total of 26½ hours was spent in visitor contact work. In spite of the heavy snows the Island trail was kept open most of the time and a large percentage of the visitors were able to make the tour.

Wildlife Observation

The Skunks in the area became somewhat of a nuisance. There was one "Near miss" when the superintendents wife inadvertently dumped some trash on one that had become imprisoned in the garbage can. The flock of 17 wild turkeys continues to be seen frequently around headquarters. The tracks of a medium sized Mountain Lion were observed in the road.

Accidents

The wife of Ranger Spangle almost amputated her finger with a sharp kitchen knife on March 7th and was taken to Flagstaff for treatment.

General

During the heavy snow storm of March 11, the school bus on which the Superintendents daughter was riding became marooned on old highway 66. It finally reached Flagstaff around 2:00 P.M. Our phone line was not working so the local Radio station broadcast a notice after each program that my daughter was safe in Flagstaff with friends.

Visitors - 6,032

CHIEF:

A slight increase over March, 1951 makes this one of those biggest yet like months. Ten thousand seven hundred eighty two cars constitute our travel. Several bad wind storms have had their influence on traffic and on a couple of occasions even our main road was closed for a time.

PLANTING:

No off current inspections were made. In attempt to work in close harmony with Supervisor of Construction, Ott and the several project under his supervision. One is certainly pleasant to work with and we will miss him and Martha both when the time comes for them to move on to another area.

PUBLICITY:

As usual, our entire PR section are carrying articles both in the press and on the radio regarding our annual Play Day. Some of the local groups go so far as to predict 10 to 12 thousand people for Play Day. Frankly, we hope not, but we will do our best with any number.

COMPLAINTS:

No complaints have been received in this office at any phase of our activity.

THE SECRETARY OF THE ARMY
WASHINGTON, D. C.
JAN 22, 1900
SIR:
I have the honor to acknowledge the receipt of your letter of the 17th inst. in relation to the matter of the purchase of land for the proposed site of the new fort at Fort Belknap, Idaho.

The matter of the purchase of land for the proposed site of the new fort at Fort Belknap, Idaho, is being considered by the War Department. The land is situated in the State of Idaho, and is owned by the State of Idaho. The War Department is considering the purchase of the land for the proposed site of the new fort at Fort Belknap, Idaho.

The War Department is considering the purchase of the land for the proposed site of the new fort at Fort Belknap, Idaho. The land is situated in the State of Idaho, and is owned by the State of Idaho. The War Department is considering the purchase of the land for the proposed site of the new fort at Fort Belknap, Idaho.

The War Department is considering the purchase of the land for the proposed site of the new fort at Fort Belknap, Idaho. The land is situated in the State of Idaho, and is owned by the State of Idaho. The War Department is considering the purchase of the land for the proposed site of the new fort at Fort Belknap, Idaho.

MAINTENANCE:

Little has been done. Ray has tried to replant a few plants around the front of our administration building. Joe, in spite of heavy winds, has been able to keep the road open although it is a little narrow in spots. Little work has been done on the buildings. It was necessary to move nearly all of our picnic shades.

NEW CONSTRUCTION:

The comfort stations are getting the finishing touches and we hope to put them in operation for Play Day even if we have to close them afterwards. Arrangements have been made with the City of Alamogordo to borrow a small pump for this purpose, we also wish to make some tests while Gene is still here to check them with us.

The floor for one of our septic tanks is poured and the forms are built for the sides and top. We hope to finish this work early next month.

Four carloads of pipe have been received for the new waterline and many of the valves etc.

Work is progressing nicely on our road stabilization and extension of our blacktop. Material for the sub-grade is being hauled at present and we hope to make headway on this project now that we have started.

INCREASE OR DECREASE IN TRAVEL:

A gain of 1974 over March of last year helps even though it was a low month in 1951. This March is as stated earlier, the largest March in our history. Considering snows, winds, dust and rain and all the varied weather that goes to make New Mexico the LAND OF UNCHANGING I feel we were very fortunate to even hold our own.

VISITORS:

|---------------|--------------------------------|
| John Davis | Gen Supt, SW N, Region III |
| Art Gilmore | Asst. Adm. Officer, Region III |
| Jack Deihl | Engineering Dept. Region III |
| James Jenkins | " " " " Region III |

Mrs. Jenkins and son were in for a hurried visit on one of

Jim's trips down.

CLOSING:

We will make every attempt to keep up with current duties and crowd in all the extras for Play Day. We are somewhat disturbed over the fact that Easter Sunday this year follows Play Day. This will of course mean that our Easter visitors will find a messy area because it is just impossible to clean up after the Seven thousand we have on Play Day in time to have the area all spick and span for Easter Sunrise.

UNITED STATES

DEPARTMENT OF THE INTERIOR

Our Comfort stations should be finished next month even if we cannot put them into full operation. The sewer job should be finished and our ~~h/h~~ road job well on its way toward completion. All these better be finished because we will certainly have our hands full with the visitor count we expect.

REPLY:

TO: General Superintendent

FROM: Superintendent, Hospital

SUBJECT: Monthly Operating Report, Hospital, ~~Superintendent~~ *John Will Paris*, Superintendent.

REMARKS:

During April we had about the weather this month. The entire month was very cold with high winds and 5 inches of snow on March 11. The heaviest snowstorm was on March 11 with a fall of 17 inches on March 12, 14, and 15. Precipitation totaled 15 inches for the month. The high winds made it hard to measure precipitation.

The rain gauge over the area was measured on March 1 for the Bureau of Geologic Survey.

ADMINISTRATIVE

General Superintendent John H. Paris and Assistant Administrative Officer Eugene Wilcox visited the area on March 18 and went over classified and unclassified problems.

REMARKS:

Work planned was done this month. The kitchen in the Spiller residence was placed. 2 radiators in the office. 2 large directional road signs, and two smaller signs for the proposed installation. A new sign was set out and installed at the Park Center. The grinding machine was overhauled and cleaned up. A large sign was put in the kitchen of the Spiller residence. All but 25 feet of the main line lines around the well pump house were covered. The rest will have to wait until the beds are changed. The water lines were installed on the outside of the Superintendent's residence over the driveway to the pump house.

ROADS AND TRAILS

Work done was planned between Wilcox and Superintendent Paris and in the road near the Spiller residence. Another 2 miles of the Spiller Center road was cleared. The 1 mile between the Spiller Center is now being cleared and is open to traffic but is very soft and muddy. It opened on March 14 after being closed since Nov. 5. The road is still closed with 5 feet of snow but is usable very few of the time.

NATIONAL PARK SERVICE

Wupatki National Monument

Flagstaff, Arizona

March 26, 1952

Memorandum

To: General Superintendent

From: Superintendent, Wupatki

Subject: Monthly Narrative Report, Wupatki and Sunset Crater National Monuments.

Weather:

Nothing good can be said about the weather this month. The entire month has been cold with high winds and 5 inches of snow on March 11. The maximum temperature was 63 degrees on March 26 with a minimum of 17 degrees on March 12, 14, & 23. Precipitation totaled .25 inches for the month. The high winds made it hard to measure precipitation.

The rain gauges over the area were measured on March 1 for the Museum of Northern Arizona.

Inspections:

General Superintendent John M. Davis and Assistant Administrative Office Arthur Gilmore visited the area on March 19 and went over fiscal and administrative problems.

Maintenance:

More painting was done this month, the kitchen in the trailer residence was painted, 2 cabinets in the office, 2 large directional road signs, and two warning signs for the propane installation. A new sign was cut out and installed at the Earth Cracks. The drinking fountain was overhauled and cleaned out. A larger sink was put in the kitchen at the trailer residence. All but 20 feet of the chain link fence around the bulk propane tank was erected. The rest will have to wait until the tanks are changed. Two valve boxes were installed on the outside of the Superintendent's residence over the valves for the panel ray heaters.

Roads and Trails:

More clay was hauled between Heiser and Wupatki Ruin and on the road near the Doney mountain. Another 5 miles of the Sunset Crater Road was bladed. The 4 mile entrance road to Sunset Crater is now being bladed and is open to traffic but is very soft and muddy. It opened on March 26 after being closed since Dec. 5. The loop road is still closed with 5 feet of snow but is melting very fast at this time.

Sept. 29 Monday

1777. 1778. 1779.

General Superintendent

[Faint, illegible handwriting]

10-10-68

1900

The above information was obtained from a review of the files of the Department of Defense, Office of the Inspector General, Washington, D.C., dated April 1968.

Sincerely,
[Signature]

The first chapter of the book is devoted to the history of the book and the book itself. It is a very interesting and informative chapter, which gives a good overview of the book and its development over time. The second chapter is devoted to the book's structure and content. It is a very detailed and comprehensive chapter, which gives a good overview of the book's structure and content. The third chapter is devoted to the book's style and language. It is a very detailed and comprehensive chapter, which gives a good overview of the book's style and language. The fourth chapter is devoted to the book's impact and influence. It is a very detailed and comprehensive chapter, which gives a good overview of the book's impact and influence. The fifth chapter is devoted to the book's future and prospects. It is a very detailed and comprehensive chapter, which gives a good overview of the book's future and prospects.

resubmitted

General Thompson visited the area on 10-11-57 and 12-11-57 (see page 10) and 12-11-57 (see page 10).

[illegible]

collected from the

There are two main types of ...
The first type is ...
The second type is ...

Interpretive Services:

At Wupatki 119 people in 45 parties were contacted for an average time of 20 minutes per party.

The multiplex display stand was painted and new cloth placed on the panels. Three of the large 30 by 40 inch panels have been covered with pictures and have taken their place in our small office-museum. As more pictures are obtained we plan on setting up more panels.

Travel:

For the fifth month in a row travel has fallen behind last year. The bad weather kept our travel to a total of 101 cars and 249 people. There were six days during the month with no travel at all.

Public Health:

Water samples were taken at Heiser and Wupatki Ruin and found to be free of any germs.

Spring Flow:

NAME Bates H. Wilson
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.
TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REMARKS: Travel dropped considerably under that for the same period last year.
 72 compared with 210. Poor weather conditions accounted for this decrease.

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
 "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
 "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
 "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICE TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

TITLE Superintendent

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
 "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
 "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
 "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.
 TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

Please read them carefully.

NAME Glen T. Bean
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE
SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.
TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

NAME

TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR MIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REMARKS: Area closed by snow since Dec. 5, 1952.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE
SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.

"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

(List No. 1.)

AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

24 April 1952

Memorandum

To: General Superintendent

From: Superintendent Aztec Ruins

Subject: Report 1ml, Superintendent's Monthly Narrative

Weather: Quite fine open weather with intermittent rain showers to care for the Spring flowers and grass.

MAINTENANCE: The great expense of roof covering on the great kiva has demanded some attention in its repair, as have some of the other ruins' roofs after March's stormy weather. Ruins drains and gutters have also received considerable working over.

INSPECTIONS: Ken Saunders and Carl Alleman were in April 8th. Messrs. Famsdell and Neilson from the Washington Office with Mr. Barton and Castellum visited April 5th. On the 16th Tom Moran visited regarding the proposed rearrangement of the ruins sidewalks.

PUBLICITY: On Sunday April 20, Aztec Ruins received favorable comment over radio station KUNP, thru a radio interview of a visitor from New Jersey.

INTERPRETIVE SERVICE: There were 1184 visitors in 259 parties who visited the museum and of these 732 were conducted thru the ruins in 130 parties.

INCREASE IN TRAVEL: A 9% increase in travel is indicated for April this year, above the same month last year, with 1184 visitors in 365 cars from 36 states, D.C., Canada, England and Germany.

REMARKABLE OBSERVATION: Rather an unusual observation was made of the Purple Warbler (*Dendroica coronata*) who has not visited the Monument for several years. This year they were with a group of Audubon's Warblers (*Dendroica auduboni*). The Great Horned Owl (*Bubo virginianus*) was observed hunting on the Monument about noon one day.

Ranger Service: Ranger Maxey enjoyed the excellent in-service training session at Region Three Headquarters.

Irving E. Townsend
Superintendent

AZTEC

UNITED STATES DEPARTMENT OF AGRICULTURE
BUREAU OF PLANT INDUSTRY

May 1911

TO THE SECRETARY OF AGRICULTURE

WASHINGTON, D. C.

FROM THE DIRECTOR OF THE BUREAU OF PLANT INDUSTRY

SUBJECT: Report on the results of the investigation of the
pests of the cotton plant in the State of Texas.

The following report was prepared by the Director of the Bureau of Plant Industry, in accordance with the instructions of the Secretary of Agriculture, dated May 1, 1911.

The report is divided into two parts, the first of which contains a general description of the cotton plant and its uses, and the second of which contains a description of the pests of the cotton plant in the State of Texas.

The first part of the report is devoted to a description of the cotton plant and its uses. It is divided into two sections, the first of which describes the cotton plant and its uses in the State of Texas, and the second of which describes the cotton plant and its uses in other parts of the United States.

The second part of the report is devoted to a description of the pests of the cotton plant in the State of Texas. It is divided into two sections, the first of which describes the pests of the cotton plant in the State of Texas, and the second of which describes the pests of the cotton plant in other parts of the United States.

The first section of the second part of the report is devoted to a description of the pests of the cotton plant in the State of Texas. It is divided into two sections, the first of which describes the pests of the cotton plant in the State of Texas, and the second of which describes the pests of the cotton plant in other parts of the United States.

The second section of the second part of the report is devoted to a description of the pests of the cotton plant in other parts of the United States. It is divided into two sections, the first of which describes the pests of the cotton plant in other parts of the United States, and the second of which describes the pests of the cotton plant in other parts of the United States.

The report is divided into two parts, the first of which contains a general description of the cotton plant and its uses, and the second of which contains a description of the pests of the cotton plant in the State of Texas.

Very respectfully,
Director of the Bureau of Plant Industry

April 23, 1954

Memorandum

To: General Superintendent
From: Superintendent, Chandler
Subject: Narrative Report for April, 1954

Weather

The first part of the month was warm with a maximum temperature of 75 degrees in the 7th. This was followed by cool weather during which the temperature dropped to 51 degrees in the 10th. A light snow occurred on the 11th.

Rains totaling .87 of an inch were recorded during the latter part of the month but gave the vegetation a good start and several of our wild flowers were beginning to bloom.

Special Activities

We were pleased to have the trainees for the 34th Airborne Infantry in training course visit Chandler on April 6 following a visit to Los Alamos. Mr. Cornell discussed the weather and the Superintendent outlined some of the administrative problems that are peculiar to this area, particularly those that have been introduced by the Atomic Energy Commission project at Los Alamos. The group was then conducted on a tour of the mine and very much enjoyed the development of the mine.

Instructions

Mr. Carter and Mr. Smith inspected the parking area excavation project on the 11th. They were very pleased with the current alignment and for the gravel case in preparation for the oiling and seal coat.

While Mr. Carter accompanied by Mr. W. H. Long, Chief, Maintenance Division of the Military Division, on a tour of the 34th Airborne Infantry on April 12. It was Mr. Long's first visit to the Southwest and we were pleased that he was able to visit Chandler.

1891-1892

...

...

...

...

Maintenance

The new 100 gallon electric water heater was installed in the Lodge kitchen and it certainly is an improvement over the two small, obsolete, gas heaters that have been in use. It has a capacity of 7,500 watts for the heating, also built in and should furnish plenty of hot water for the kitchen use.

A copper tubing tender was procured and a number of improvements were made in connections to various gas appliances in the Lodge kitchen.

The intake for the water system was inspected and cleaned. It was found to be in good condition.

The brakes on the Chevrolet sedan were relined and it was put in generally good condition.

New Construction

The expansion of the parking area was nearly completed and it will be ready for oiling and in a few days. The work was facilitated by hiring a front end loader from Lower Ill. Bros. Co. for one day and finally getting a loader from the state highway department for nearly a week with which to load gravel for the base course.

Approach Road

The state highway department sent a heavy grader to work on the approach road. The ditches were cleaned out and gravel was worked back to the center of the road. The rains toward the end of the month helped to compact the loose material and the road was in generally good condition.

Interpretive Service

A total of 1577 visitors were conducted on 111 tours of the ruins as compared with 109 tours and 1212 visitors for April 1951.

A trail side information station was erected at Sarcophagi Cave. It contains a reconstruction drawing of the Cave and a description of its probable uses.

A talk on early and modern pottery of the Southwest was given to the Los Angeles Archaeological Society on April 11 by ranger Jack Farney. He also showed a short film on pottery making by the Indians.

Travel

Travel took a decided upswing during April with a total of 3,425 visitors as compared with 1,500 for the same period last year. On Sunday April 27 there were 704 visitors, which is the largest number for a single day to be recorded in April. A very high percentage of the visitors were sightseers and hikers and only 137% of the total took the rams tours.

Visitors

Visitors to Bandelier during April included the following:

- March 30, Assistant Director Military Police
Finance officer Keith Harrison
Personnel officer Edmund H. Small
Training officer Frankowski
Interior Department Personnel officer Ray Anderson and wife
Chief Ranger, Alton W. Patton
Southwestern Comments Naturalist Dale King
Mrs. John Davis and Ann.
- March 31 Mr. and Mrs. Emil Hansen, parents of Mrs. Hummel and is secretary to George Albright.
Mr. and Mrs. J. T. Turner, National Park Service collaborator who is collecting specimens of insects.
- April 14 Mr. and Mrs. Bert de Fosse, ranger, Yellowstone NP.
Capt. Griffin, Rocky Mountain NP.
Wayne Bates, Fire Guard, Rocky Mountain NP.
Miss Keener, Bureau of Reclamation, Estes Park, Colo.
- April 21 Adolph Leitzl, Aurenburg, Germany
Iva Marie Strostzin, Dusseldorf, Germany
Socahel Anoulian Kordja, Teheran, Iran
Maslafa Afshari Kordja, Teheran, Iran
- April 26 A. F. Brown de Koningstein, Department of State, Washington, D. C.
Dr. C. Schaepe, Berlin, Germany
Robert Bentley, Providence, England
Mr. and Mrs. Theo Kolosch and St. Vincent, Brussels, Belgium

Ranger Service

S. J. Thomas entered on duty as full time ranger on April 1 and will serve on same until May 14 when he will start working as a temporary ranger.

Wildfire Protection

Supervisory ranger Leele made a fire inspection of the lodge buildings prior to opening them for the season. All of the fire extinguishers were checked and no fire hazards were discovered other than a small accumulation of pine needles on some of the roofs.

Accidents

Maintenanceman Tony Valencia broke two bones in his right wrist on Friday, April 25. He was scuffling with some other people and fell on a stone floor. He has been bucked off of horses, fallen from ladders, and fallen down a cliff with no ill effects but this time he broke two bones just by falling off of a chair.

Personnel

Clark James Shirley resigned effective March 29 for personal reasons. He expects to operate his father-in-law's business at Flagstaff Arizona. It was with regret that we saw the Shirleys leave. Jim did a fine job here and his family was a welcome addition to the ranger group.

Supervisory ranger Leele attended the Region Three Personnel Instruction course at Santa Fe from March 31 to April 11. He reported that it was a very fine meeting and that he received a lot of valuable information from it.

Summary of Results

The first experiment was a test of the hypothesis that the rate of growth of a plant is proportional to the amount of light it receives. The results of this experiment are shown in the following table:

TABLE I

Rate of growth of a plant under different conditions of light. The results of this experiment are shown in the following table:

TABLE II

Rate of growth of a plant under different conditions of light. The results of this experiment are shown in the following table:

Carlin Mountain NATIONAL MONUMENT

Carlin New Mexico,

April 25h 1952, 19.....

Memorandum

To; The General Superintendent
Southwestern National Monuments,
National Park Service,
Santa Fe New Mexico,

From Homer J. Farr. Acting Superintendent

Subject; Monthly Narrative Report,

Visitors: There were approximately seven hundred fifty visitors to the old Volcano during April. making a total of five thousand seven hundred for the travel year to date and Twenty two thousand two hundred for the fiscal year to date,

Weather: Has been lovely throughout the month, with about two inches of precipitation, The ground now is almost wet down twelve inches this will bring grass and other vegetation nicely, This is high and we are still having snow instead of rain,

Flora and Fauna, This is in splendid condition and we have I believe a few more deer than most seasons, and they appear to have wintered well, our flora is off to a good start and we surely hope to have our early spring display of wildflowers, anemones are now showing their heads even thru the snow,

Roads and Trails, Some difficulty was had the roads were in pretty bad shape but we are coming along nicely now, the trails will be working this May The five new markers have been erected pointing out five of the principal points or in crest and the road sign at the junction of old Highway 64 has been repainted and erected, The Large sign inside the Park will be repainted within the next two weeks we hope,

Special visitors,

None,

This Superintendent made a trip to Santa Fe the first of this month and had a very very enjoyable visit with most all of the good Park folk in the Office,

Information Pamphlets about two hundred fifty information pamphlets have been handed out and mailed during the month,

Very Respectfully

CANYON DE CHELLY NATIONAL MONUMENT
CHINLE, ARIZONA

April 26, 1952

Memorandum

To: General Superintendent

From: Superintendent, Canyon de Chelly

Subject: Monthly Narrative Report for April, 1952

Visitor Travel: April travel more than doubled that for the same period last year. 681 people in 112 cars. This was due apparently to a late Easter holiday and warmer weather which permitted many large groups to take advantage of the occasion. Included in these travel figure were 67 overnight campers. Guide and contact work amounted to 46 hours and 35 minutes.

Weather: High-low temperatures ranged from 80 to 25. Total precipitation recorded at monument headquarters was .57 of an inch. Moisture, however, was much heavier over the upper regions of the monument where it rained and snowed much of the month.

Roads: In spite of repeated rain storms over the reservation all approach roads, except through Saw Mill, are in good condition. The Saw Mill road leading through the monument is still impassible due to mud and snow conditions. Parts of the monument roads are in good shape, however, because of heavy rains in the upper regions, and continued heavy wood hauling by Navajos, much work remains to be done in that section.

Signs: A new large, attractive informational sign, with wording according to regulations, was made and installed at the monument headquarters area. This was one of the major accomplishments of the month. This replaces the old one that was originally placed in the parking area which obstructed the office and was the source of many bumped fenders.

The warning sign located on the road leading into the canyon was removed, painted, relettered and replaced in a more conspicuous location.

Local Activities: An Easter Sunday egg hunt, co-sponsored by the Chinle Recreation Club and Park Service employees was provided for 250 school children at one of our campground areas. Although, this is not a regular established yearly activity, we are making every effort to encourage this annual event.

UNITED STATES DEPARTMENT OF AGRICULTURE
BUREAU OF PLANT INDUSTRY
WASHINGTON, D. C.

CHINLE, ARIZONA

Con't. from page 1-

Maintenance: Our emergency 3 KW electric power plant was completely overhauled--new parts installed where necessary and it is now in excellent condition. The fuel oil storage tank and exposed lines were given a protective weather paint.

Exhibits: A wayside exhibit is being installed at the Spider Rock Overlook. It is the type that the SWNM adapted from the Mesa Verde original. Due to the shallow soil in that area a pyramidal cement post was poured to support the easel. A small sign will be attached with the wording--SPIDER ROCK LEGEND.

Soil and Moisture: 3,000 pounds of assorted grass seed was delivered to the Santa Fe freight depot in Gallup, by the seller. This was picked up and brought out to the monument for storage. This will be used in the canyons and upper de Chelly water-shed as soon as conditions permit.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

April 26, 1952

Memorandum

To: General Superintendent, SWNM
From: Superintendent, Casa Grande
Subject: Monthly Narrative Report for April, 1952

General: With the cotton prices of the last few years still fresh in their minds, the cotton farmers of Pinal County have set about this farming business with thousands of dollars in their eye. More land than at anytime has been cleared, leveled, planted, and replanted. Some strong winds during the first part of the month may force some of the early plantings to be done over, but all in all it seems to be "the year" in cotton farming so far as can be determined from present conditions.

Usually there is a decline in our travel from March to April, but this year with the Easter vacation coming during April, the travel was higher for April than for March. It was particularly noted in as much as the monument was short one man during the Easter vacation week; Archeologist Jameson was attending the Personnel Instruction Course in Santa Fe. It meant that one person was on duty alone on four of the busy week days.

Weather: The first real hot weather of the year came this month with some of the daily maximums climbing up into the high 90's. The wild grasses and most of the wild flowers went to seed during the hot spell and only a few of the annuals are still in bloom. There was one especially noteworthy dust storm which was so thick that five cars piled up on the highway running along our northern boundary; as an afterthought there was one good rain storm, which came on a Sunday as is the usual thing so far this year, and which was of particular help in finding the leaks in some of the roofs.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COCHISE, ARIZONA

April 24, 1924

Memorandum

To: Special Agent in Charge, Tucson

From: Superintendent, Casa Grande National Monument

Subject: Monthly Inventory Report for April, 1924

General: With the advent of spring at the Casa Grande, the weather is becoming more pleasant and the vegetation is beginning to grow. The birds are also beginning to sing and the insects are becoming more numerous. The general appearance of the monument is very pleasing and the work of the staff is being well done.

Vegetation: The vegetation is beginning to grow and the weather is becoming more pleasant. The general appearance of the monument is very pleasing and the work of the staff is being well done.

Animals: The animals are beginning to come out of their holes and the weather is becoming more pleasant. The general appearance of the monument is very pleasing and the work of the staff is being well done.

| Item | Quantity | Value |
|--------------------|----------|----------|
| High station wagon | 1 | \$100.00 |
| Low station wagon | 1 | \$50.00 |
| High station wagon | 1 | \$100.00 |
| Low station wagon | 1 | \$50.00 |
| Total | 4 | \$300.00 |

Visitors: The travel continued to be heavy this month. We had the best April travel in the past ten years. The Easter vacation was the one big sustaining item of the month's travel. We had visitors from all of the states, Alaska, Great Britain, Australia, Canada, South Africa, France, and Mexico. The comparison with last year's travel is as follows:

| | <u>1952</u> | <u>1951</u> |
|--------------------------|-------------|-------------|
| Visitors during April | 5,282 | 4,088 |
| Increase | 1,194 | |
| Visitors for Travel Year | 36,334 | 28,579 |
| Increase | 7,755 | |
| Servicemen in April | 28 | 22 |

(This month's travel shows an increase of over 25% for the same month last year.)

Interpretive Service: During the month there were 216 tours through the ruins, lasting on an average of 58.0 minutes; a total of 2,885 visitors were in these conducted tours. There were another 2,397 visitors who came to picnic or did not have the time for the guided tour; of these, at least 1,678 did visit the museum. This made a total of 5,282 know visitors to our area for the month of April.

Visitors of Note and Special Groups:

- March 26 -- 30 Indian teenage students from Sacaton, Arizona.
- March 29 -- Ranger Robert S. Leding, Organ Pipe Cactus National Monument.
- March 30 -- 15 members of the Casa Grande Outing Club, Casa Grande, Arizona.
- April 6 -- 6 Senior Boy Scouts and their leader, Sierra Madre, California.
- April 10 -- Ranger and Mrs. Bert de Freeze, Yellowstone National Park, Wyoming.
- April 14 -- Ranger and Mrs. Robert S. Leding and family, Organ Pipe Cactus National Monument; Archeologist A. H. White, Montezuma Castle National Monument.

April 15 -- General Superintendent and Mrs. John M. Davis, and Mrs. T. Moran, Santa Fe, New Mexico.

Ranger and Mrs. Jasper Crawford, Bryce Canyon National Park, Utah.

April 23 -- Four members of the Order of St. Francis from San Xavier Mission, Arizona.

Administration and Protection: The University of Arizona's archeological site of Adamsville was given its monthly inspection and the signs at the area were found to be in need of repair so that they were taken down for that purpose and will be replaced as soon as is possible. Otherwise the site was in good condition with no new evidence of pot hunting being apparent.

There were eleven requests for information which were handled promptly.

The water system extension seems to be closer, again, to a reality since the Arizona Utility Company has extended its line to the intersection of Seventh Street and Florence Avenue. All the confusion concerning the status of the easement across the Moore land seems to have been settled with the discovery that his neighbor owns part of one of the acres that the pipeline is to cross; however, the easement has been drawn up and is waiting the signatures of the parties concerned which will be accomplished as soon as the deed for the land has been processed.

The past year has been an unusual year in the amount and the extent of the precipitation. Consistently, there has been slow soaking rains which have caused extensive erosion to the protective cover of the walls in compound "A". Large areas of the chicken wire have become exposed, and the cover has been removed down to the original wall material. We hope that by the next monthly report to have some pictures showing the wear and tear on the small walls.

Maintenance: Our Maintenance man was busy repairing the stucco plaster on the buildings. The trails were patched where necessary and are in good shape. The coolers were installed on the Administration Building, an advance forecast of the coming weather. The mistletoe control work continued in the vicinity of the headquarters.

Personnel: Archeologist Jameson was absent from the monument from March 29 to April 14 while attending the Personnel Instruction Course in Santa Fe. His return to our area was via a slight detour of Mesa Verde National Park and Chiricahua National Monument; he delivered a ton and a half dump truck from Mesa Verde to Chiricahua.

... has been
... ..

1964-1965

Page 11 - The name of the ship is not known.

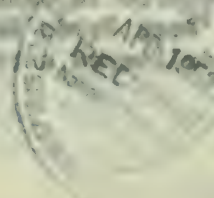

[illegible]

Refused again when interviewed with subject on same date.

The water system extension work to be completed, namely, to a
width along the water utility property has ordered the line to the
intersection of Avenue Street and Avenue Street. All the water
supplying the water to the water system the water line work to
be done will be completed as soon as the line has been
completed.

APR 10 1964

UNITED STATES

DEPARTMENT OF THE INTERIOR

Wildflowers and Cactus Blossoms: Most of our annual blooms have passed. A few of the mallow are lingering in the depression and there are some monkey flowers blooming. The creosote bushes are covered, literally, with their yellow blossoms and bees; this has given the area quite a bit of color. The first of the ocotillo blossoms are coming out. The only cactus blooming so far is the hedgehog cactus which has had blossoms for the past three weeks.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Chaco Canyon National Monument
Bloomfield, New Mexico

April 25, 1952

Memorandum

To: General Superintendent

From: Superintendent, Chaco Canyon

Subject: Report of activities at Chaco Canyon National Monument
during the month of April, 1952.

Weather Severe dust storms and rain have highlighted this month's weather. On April 8 and again on April 10 dust storms reduced visibility to a few yards. Since April 19 we have received .71 of an inch of moisture. Water ran in the Chaco Arroyo to a point about two miles above the bridge. The maximum temperature was 77° on April 7 and the minimum was 13° on April 8.

Administration A telephone message for one of our workmen, Frank Valine, advised him of the death of a son by drowning in Idaho. Ranger Elmore took Mr. Valine to his home upon receipt of the message.

Information has been obtained in Gallup and Durango for quarters rental rates.

Considerable time has been spent compiling information needed for Master Plan revisions.

Gordon Vivian and Roland Richert left with the Mobile Unit crew for Wupatki on April 16.

A trip was made to Aztec and Farmington to circulate invitations to bid on two gas burning ranges.

Visitors Four bus loads of children from the Crownpoint Indian School elected to have their school picnic at Chaco. They came on four different days. All the children were guided through Bonito and all had a meal including fried bread on the picnic ground. It is only recently that all the Navajo children are willing to forget the "Cindees" long enough to make trips through the ruins.

There were 57 cars and busses which brought ⁴⁷260 visitors. Thirty-six parties were guided through the ruins and there were 297 visitors in 45 groups in the museum. Eight people camped over night.

New Construction and Rehabilitation Final connections and painting newly installed fixtures completed the work under the rehabilitation contract at the Superintendent's residence. New light fixtures were installed in all rooms and some wall outlets provided. The fireplace in the living room was cleaned out and made usable again.

Water lines for fire hydrants at the new residences have been installed and fire hose and fittings have been purchased. Hose boxes are still to be made.

The water supply line at Residence No. 6 had to be lowered about 18 inches to allow for grading to be done there and a new union was installed in this line.

Roads and Trails Two Navajos were put to work on Roads and Trails on April 2. However these men left with the stabilization crew when it moved to Wupatki. The road on the north side of the canyon was bladed. Small culverts buried by floods above Chetro Kettle were removed and replaced by a 42 inch culvert salvaged from an abandoned road.

All signs near the office were oiled as were the entrance signs on the north and south approach roads.

A hole about the size of a football was discovered at the edge of the south approach to the bridge. Investigation disclosed a cavity half as large as a pick-up which extended part way under the water drop beside the road. All the holes were backfilled and the stones in the water drop re-set in cement.

Some of the oiled gravel on land was spread on the road at the foot of the steep hill on the north approach road.

Maintenance The motor for the pump at Well No. 1 was given several man-hours of attention without our being able to keep it running. It was finally taken to Farmington where it was restored to running order.

The line to the office phone was hooked up again after having been out of order for several weeks.

Two oil dispenser tanks were cleaned out and repaired.

The roof over the museum-office was given an application of asbestos roof coating.

Equipment A Ford pick-up truck transferred from Region was received on March 3.

Two S & A fire extinguishers were received from Region for use in the new quarters.

The following information was obtained from the records of the
 Federal Bureau of Investigation, Washington, D. C., on the subject

The above information was obtained from a review of the records of the Federal Bureau of Investigation, Department of Justice, and the records of the Federal Bureau of Investigation, Department of Justice, and the records of the Federal Bureau of Investigation, Department of Justice.

1. The first step in the process of identifying a problem is to define the problem. This involves identifying the symptoms of the problem and determining the scope of the problem. Once the problem has been defined, the next step is to identify the causes of the problem. This involves identifying the factors that are contributing to the problem and determining the underlying causes. Once the causes have been identified, the next step is to develop a plan of action. This involves identifying the steps that need to be taken to solve the problem and determining the resources that will be needed to implement the plan. Finally, the last step in the process is to implement the plan and monitor the results. This involves putting the plan into action and tracking the progress of the solution. Once the problem has been solved, the final step is to evaluate the results and determine if the solution was effective. This involves comparing the results of the solution to the original problem and determining if the problem has been solved. If the problem has not been solved, the process may need to be repeated.

Soil and Moisture Control Planting rooted willows along the arroyo was finished from the east boundary to the west boundary with 15,000 plants set out. This was followed with the planting of willow cuttings and 15,900 of these were planted between where the telephone line crosses the arroyo and a point south of Wijiji Ruin.

A trip was made to Gallup to receive a shipment of 500 pounds of Western Wheatgrass seed.

Protection and Patrol Three stray mules and three burros were driven off the monument but this month has seen comparatively little difficulty with trespass livestock.

Work has been started on some "No Admittance Without Ranger" signs to be used in the ruins.

On April 2 a herd of Edward Sargent's sheep was moved across the monument from the south gate to the east gate as provided by special use permit.

Seismograph crews have worked along the north approach road and drilled one test hole just outside the monument fence.

The following ruins were inspected during the month: Penasco Blanco, Old and New Pueblo Alto and the ruin north of these, Casa Rinconada and the BC sites nearby, Casa Chiquita, and Kin Yaah. At Kin Yaah there were some signs of what appeared to be fairly recent pot hunting.

On April 15 cattle belonging to Mark Elkins were driven across Driveway No. 3 as provided by special use permit.

Interpretation The museum case showing a cross section of a trash mound was opened and cleaned.

Nature Notes Blue birds, so numerous the last half of March, were all gone by April 1.

N. P. S Visitors and Inspections

- April 6 Keith Neilson and Lee Ramsdell from the Director's Office and Merritt Barton and Luis Castellum from the Regional Office.
- April 7 Carl Alleman to lay out grading and drainage plans at the new headquarters area.
Kenneth Saunders to check rehabilitation work and work at new quarters.
- April 16 Thomas Moran to check roads and trails maintenance work done and needed.

Newsworthy Visitors On April 12 Platt Cline, Editor of the Arizona Daily Sun in Flagstaff and Meredith Guillet, now superintendent at Walnut Canyon brought a group of four Hopi Indians. The party had visited Mesa Verde and Aztec and were on their way back home. The Hopis believe that their ancestors built all the dwellings in the places visited and they found evidence to support this belief. They were able to identify some of the petroglyphs on the canyon walls and reported that some of the artifacts in the Mobile Unit collection were identical with equipment used in one of the Hopi's ceremonies today.

Unusual On April 13 two officers in a police car were here looking for officers in a missing car and on April 14 another pair of officers came looking for the ones here the day before. The officers originally sought were the ones finally found dead in their burned car east of Grants.

Homer F. Hastings
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

April 25, 1952

Memorandum

To: General Superintendent, Southwestern National Monuments
From: Superintendent, Chiricahua
Subject: Superintendent's Monthly Narrative Report for April

Weather: Weather this month has been generally favorable, although we have had more than the average amount of rainfall in our April showers. These showers, with the record rainfall in March, have made the pasture land to the west of the monument green for the first spring in the eight that I have been here. One usually waits until after the August rains to see green grass.

Inspections: Engineer George Smith made two trips to this area in connection with the surfacing of the Bonita Canyon road, and is here at present getting the hauling of the gravel started.

General Superintendent Davis spent most of the day, April 18, on a general inspection of the monument.

Compliments: No complaints this month, but one complimentary letter from a couple who got confused and let night overtake them at the Heart of Rocks. This couple, Dr. Stevenson, president of San Gabriel College, Santa Ana, California, and Mrs. Stevenson, also a Doctor, paid the monument a three day visit. On the first day they started out on the trails for a walk of a mile or two, but wound up at the Heart of Rocks where night overtook them and they spent the night. They arrived at Headquarters very tired and hungry about noon the following day, having eaten nothing since 9 o'clock the previous day. We gave them a quart of milk, some food, and took them back to their car at Nassai Point. The complimentary letter and their attitude was appreciated as we felt many people somehow would have blamed the Park Service for the situation.

This is the first time on record that anyone has stayed over night on the trails.

Maintenance: Contract has been let for crushing gravel for the Bonita Canyon road. Contractor Gilbert has been working about three weeks and has the base course crushed, and is working on the fine material. We hope to have the trucking of the gravel started next week.

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The process of urbanization is the movement of people from rural areas to urban areas. This is a result of the fact that urban areas offer more opportunities for employment and education than rural areas do. The process of urbanization has led to the growth of large cities and the decline of small towns and villages. This has had a significant impact on the way of life in the United States. The majority of the population now lives in urban areas, which have a different culture and way of life than rural areas. This has led to the development of a new urban culture, which is different from the rural culture. The process of urbanization has also led to the development of a new urban economy, which is different from the rural economy. The urban economy is based on manufacturing and services, while the rural economy is based on agriculture. The process of urbanization has led to the development of a new urban society, which is different from the rural society. The urban society is more diverse and more complex than the rural society. The process of urbanization has led to the development of a new urban way of life, which is different from the rural way of life. The urban way of life is more fast-paced and more stressful than the rural way of life. The process of urbanization has led to the development of a new urban identity, which is different from the rural identity. The urban identity is more individualistic and more materialistic than the rural identity. The process of urbanization has led to the development of a new urban culture, which is different from the rural culture. The urban culture is more modern and more sophisticated than the rural culture. The process of urbanization has led to the development of a new urban way of life, which is different from the rural way of life. The urban way of life is more fast-paced and more stressful than the rural way of life. The process of urbanization has led to the development of a new urban identity, which is different from the rural identity. The urban culture is more modern and more sophisticated than the rural culture.

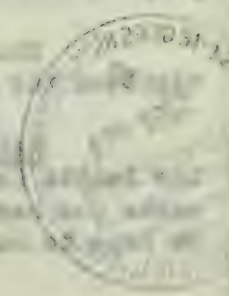

How all persons visiting the building at New Mexico entered.

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United States regarding the activities of the Committee for the Liberation of the People of the East (CLPE) in the United States.

[illegible]

THE SECRETARY OF THE ARMY

1. The first of these is the fact that the Government has been unable to secure the necessary funds to carry out its policy of maintaining the value of the pound at its pre-war level. This has been due to a variety of factors, including the fact that the Government has been unable to secure the necessary foreign exchange to finance its policy.

Approaches to Monument: All approach roads have been in fair condition, except the one over the mountains from Rodeo. This road was closed the first part of the month and is in very poor condition at the present, because of rain and snow in the higher mountains.

Interpretive Service: 1,752 visitors in 462 parties were contacted in the museum. Due to the Superintendent being alone most of the month, no conducted trips were made, although some opportunities were passed up with school groups and boy scouts.

The Massai Point Natural History Trail was put into limited use two days ago when mimeographed guide sheets were received. So far 14 visitors have made use of this self-guiding tour.

Increase in Travel: 1,978 visitors were counted at Chiricahua this period. We think the other 22 which would have made it 2,000, got by without being counted. Anyway, this compares with 1,403 for April of last year and shows an increase of 41%. Travel year to date is 9,351 as compared with 8,068 for this time last year, or an increase of 16%.

Campground and other visitor use still continues to show a big increase over last year.

Ranger Service: Ranger Henson worked here three days and the spent two weeks at the Personnel Instruction Course in Santa Fe. We are glad to have another man on the job after being shorthanded for four months.

Visitors: A number of visitors worthy of mention came to this area during the month. Among them were the following:

Dr. Stevenson, president of San Gabriel College, Santa Ana, California, and Mrs. Stevenson, also a Doctor. They were taking kodachrome pictures and collecting material for lectures. They spent three days on the monument and were mentioned above under compliments.

Howard Taylor, owner of the Silver Spur Guest Ranch, and three friends spent several days vacation from New York.

A Bowie school group of ten and A Bisbee school group of forty each paid the monument a one day visit. Also, a boy scout group of 12 from Bisbee spent three days on the campground.

Doctor and Mrs. Turner, bug collectors, spent two days on the campground and checked our butterfly and moth collection. Dr. Turner informed us that we have a very rare moth in our collection, Megathymus ursis.

Dr. Enlows, geology professor at the University of Tulsa, his assistant, Professor Walham, and a student, Mike Waller, spent several days at the monument making geological studies of the area. This work has been carried on for about ten years by Doctor Enlows or since he was a temporary ranger here in 1941 and '42. The student, Mike Waller is making a study of the lake bed deposits for his Masters degree thesis. It is his third trip here. Both studies threaten to contradict our past conceptions. A preliminary report was left by Dr. Enlows.

...the first of the world but in very small numbers in the
...the first of the world but in very small numbers in the

1. The first part of the document is a letter from the President of the United States to the Congress, dated January 3, 1862. It is a very long letter, and it contains a great deal of information about the state of the country at that time. It is a very important document, and it is one of the most interesting documents in the collection.

IT IS THE POLICY OF THE BUREAU OF THE CENSUS TO MAKE THE RESULTS OF THE CENSUS AVAILABLE TO THE PUBLIC IN THE MOST COMPLETE AND ACCURATE MANNER POSSIBLE. THE RESULTS OF THE CENSUS ARE MADE AVAILABLE TO THE PUBLIC IN THE FORM OF PUBLICATIONS, MAPS, AND STATISTICAL ABSTRACTS. THE BUREAU OF THE CENSUS IS A FEDERAL AGENCY OF THE DEPARTMENT OF COMMERCE, AND ITS WORK IS FINANCED BY THE UNITED STATES GOVERNMENT.

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The process of urbanization is the movement of people from rural areas to urban areas. This movement is caused by a number of factors, including the search for better living conditions, the desire for education, and the need for employment. The process of urbanization has led to the growth of large cities and the decline of small towns. This has had a significant impact on the economy and society as a whole.

The following information was obtained from the records of the
U.S. Army Medical Department at Fort Belvoir, St. Louis,
Missouri, dated May 19, 1968.

A copy of the report of the medical examination of the subject
has been forwarded to the local health officer at St. Louis,
Missouri, dated May 19, 1968.

It is noted that the subject has been advised by the local health
officer to seek medical attention if he develops any symptoms
of illness.

A copy of this report will be furnished to the local health
officer at St. Louis, Missouri.

Among National Park Service visitors were:

Bennett T. Gale - Carlsbad Cavern National Park; Steve Leding - Organ Pipe Cactus National Monument; Art White - Montezuma Castle National Monument; Sid Jameson - Casa Grande National Monument and R. H. Viklund - Tonto National Monument. All but Mr. Viklund were more or less on official business and made their visits very brief.

Mrs. John Davis and Mrs. Tom Moran accompanied General Superintendent Davis on his last visit to Chiricahua.

El Morro National Monument
El Morro, New Mexico
April 26, 1957

Memorandum

To: General Superintendent
From: Superintendent, El Morro
Subject: Monthly Narrative Report

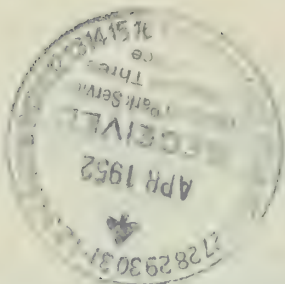

There were 320 visitors this month to El Morro. This is just a wee bit better than a year ago. 233 of these visitors took a trip around the Rock in 56 parties, 37 in 14 parties went over the top of the Rock, and 47 of these people listened to an orientation talk in 11 parties.

The warmest this month was 70 degrees and the coolest was 10 degrees Fahrenheit. There was .92 of an inch of moisture. Again, during the past thirty days, the moisture has often occurred on wet-ends which has cut down visitor travel.

The approach roads have been either wet and sticky or dry and rough most of the month. The Monument roads have been in good shape as the County Grader has been over them.

The Ranger cabin suddenly began to leak as though there was no roof. With all the moisture we have had this spring, the water was just pouring in. We had to wait for a warm day to put the new roof on. The warm day came, and the man started to work, but not for long. It was found that an improper type of flue had been installed, probably during war years when it was impossible to secure the right materials, and the wood around the flues was all charred. It is a wonder that the cabin hadn't gone up in smoke long ago. A quick trip was made to town, while the weather held, to secure the approved by the underwriter. Of course, none were in stock, but we prevailed upon the man to make up two that night and have them ready first thing in the morning. Cal Clason was on hand at 8:30 the next morning to pick them up. The roof was put on that day -- and not a day too soon.

We borrowed a pair of climbers from the Forest Service and put lightning arresters on all our poles.

SECRET

The furnace was not drawing properly, so we cleaned it out. While we were at it and as long as we were already sooty, we took down the pipe and cleaned that. There was only one thing left to clear, the chimney, so that was cleaned too. Needless to say, the furnace functions properly now. We got out a large amount of soot in spite of the fact that we had been using a commercial product which presumably kept the pipes and chimney soot free.

One of the light plants broke down just after the technician left. The next trip out was taken by a substitute as he was taking annual leave. On the next trip out, he was so swamped with work that we hesitated to mention our troubles to him. Therefore, the other day, we had a regular light plant mechanic repair it.

The warm weather gave us an opportunity to get on the road and begin cutting the steps which had been set out. On this job, Cal and Alden Lambson put in some good, hard, fast labor. The cut as such (finished the job) as the fellows who put it in the first time did in a whole summer!

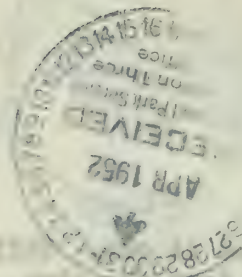

Although regularly chlorinated, our water has been declared unsafe. Therefore, a visit was made to the State Health Officer in Gallup where the matter was discussed and arrangements worked out to clean up the matter.

The RMA engineers were out, at the same time Carl Allen, Willard Bradley and W. Miller were, in order to determine where the poles are to be set. We may get electricity after all.

The pickup refused to function again this month. After working on it for an hour or so, we called for help from the Davis Brothers Repair Shop in Ramah. One of the brothers came out and repaired the truck. For the 24 mile round trip he charged 10¢ per mile. I'll bet that that is as cheap as any other isolated area can get a service call!

About 2:00 a.m. on April 17, we were awakened with our younger boy, Sandy, severely choking. After sitting up with him about an hour, we decided to rush him to the hospital in Gallup. He was in bad shape, but after a couple of days in the hospital with shots of penicillin and others every few minutes, he is back home again with few ill effects except a sore posterior where they stuck the needles in.

Cal and I went to Fire School at McCaffrey and took with us Marion Lambson and Dale Bond, 10 hours for the summer. Met many old friends and learned a good deal about fire fighting. On the trip, the tire rack broke and we lost tire, tube and wheel. We went to the motor company which had

The following are the names of the persons who have been identified as having been in contact with the subject of this investigation, and who have been identified as having been in contact with the subject of this investigation, and who have been identified as having been in contact with the subject of this investigation.

said us the rack and poured out our tale of woe, so the garage gave us a new (to us) tire, tube and wheel. Also, at the fire school, we managed to hornswoggle some one out of five tickets for our WPA fire tool box here at El Morro. Up until now, we had no tickets at all.

National Park Service visitors included:- Willard Bradley, Carl Coleman, J. Miller, Les Arberger and Matt DeJage.

Thank you very much.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

April 25, 1952

Memorandum

To: General Superintendent

From: Superintendent, Great Sand Dunes

Subject: Superintendent's Narrative Report for April, 1952

Weather Conditions

Spring arrived at the Great Sand Dunes this month and travel picked up accordingly with a 23% increase over April of last year. This increase occurred in spite of two very stormy Sundays. Out-of-state travel has increased greatly also.

Moisture conditions improved with 1.46 inches of precipitation being recorded from a storm on April 20 and 21. The maximum temperature recorded was 66 on April 7 and the minimum was 19 on April 9.

Special Activities

I attended the two day conference of irrigation specialists and engineers held at Adams State College in celebration of the centennial of the establishment of the first irrigation ditch in Colorado still in use.

General Publicity

A two page article on the Great Sand Dunes by Richard Pearl appeared in the spring issue of the Colorado Wonderland magazine.

Maintenance and Rehabilitation

Preparations for the travel season took a great deal of time. Water was turned into the picnic area water system and the checking station comfort stations. Mosca Spring again required quite a bit of tinkering in order to get the proper flow of water. The comfort stations at the checking station were opened up for the public. Several loads of gravel were placed around two of the comfort stations at the Lower Mosca Creek Picnic Area to prevent further blowing of the sand from the bases of the buildings.

Picnic area cleanup almost assumed summer proportions as pionickers took advantage of the spring weather.

For: General Administration
From: Administration, Great East House
Subject: Administration's Review Report for 1944

General Review

During 1944, the Great East House has made a great deal of progress in its work. The Administration has been able to carry out its plan for the year, and the results have been very satisfactory. The work has been done in a very efficient manner, and the results have been very good.

The Administration has been able to carry out its plan for the year, and the results have been very satisfactory. The work has been done in a very efficient manner, and the results have been very good.

General Review

The Administration has been able to carry out its plan for the year, and the results have been very satisfactory. The work has been done in a very efficient manner, and the results have been very good.

General Review

A copy of this report is being sent to the Great East House by Special Agent. It is the review of the Administration's work for 1944.

Administration and Evaluation

The Administration for the Great East House has been very successful in its work. It has been able to carry out its plan for the year, and the results have been very satisfactory. The work has been done in a very efficient manner, and the results have been very good.

The Administration has been able to carry out its plan for the year, and the results have been very satisfactory. The work has been done in a very efficient manner, and the results have been very good.

17 loads of gravel and rock were hauled into the Lower Parking Area on Mosca Creek. These were placed in the southwest corner to expand the usable area to its original size as laid out by Mr. Diehl in 1949.

The entrance road was graded twice during the month and is in fair shape.

All of the old signs on the area including the entrance sign and the 9 new signs constructed last month were painted during the month. The new signs will not be put up until I have an opportunity to bring out some cedar posts. The pole fence around Mosca Spring was also given the linseed oil-burnt umber treatment.

Considerable preparatory work on the rehabilitation of the patio walls was done and this project is in shape for completion early in May.

Approach Road

The approach road was in terrible shape most of the month. The county bladed it this week following the snow, however, and it is in fair shape now.

Interpretive Service

The mimeographed leaflets for the Montville Nature Trail were received this week. I placed the numbered markers this month but still must finish the register stand, directional signs, and do some trail work. The trail is in limited operation, however.

Increase in Travel

April travel increased 23% over last year with 878 visitors to the area. This is the first increase we have had since September but I expect increased travel in May to erase the deficit for the travel year. The poor approach road is still the big factor in keeping travel down.

Visitors

District Game Warden Earl Downer of the State Game and Fish Commission made one visit bringing bird technicians to investigate the possibilities of planting turkeys in this vicinity. The conclusion reached was that this would be marginal country for turkeys and that planting would not be wise.

Boy Scout troops from Hooper and Mosca made trips here in April. Other school groups included the Outing Club from Adams State College, the seniors from Blanca High School, and a geology field trip of 15 students from Wichita University in Kansas.

It is to be noted that the original plan of the building was to have a central hall with rooms on either side. The plan was changed in 1880, and the building was completed in 1885.

The building was completed in 1885, and the original plan was to have a central hall with rooms on either side.

Protection

Trespass horses again came down from the Upper Medano and I spent a half day removing them.

Two different drivers disregarded our warning sign and I had to extricate them from the sand just north of Sawmill Creek.

General

I cannot help but comment on Mr. Wirth's presentation of National Park Service Problems before the Committee on Interior and Insular Affairs of the House of Representatives. Reading of the discussion without the slides is in itself an inspiration and the full presentation could not fail to impress the committee with the scope and magnitude of our responsibilities and problems.

(SIGNED)

Glen T. Bean
Superintendent

SECRET

Transmit this message to the following addressees:
1. The President of the United States

2. The Secretary of State
3. The Director of Central Intelligence

NATIONAL PARK SERVICE

Gran Quivira National Monument
Gran Quivira, New Mexico

April 25, 1952

Memorandum

To: General Superintendent
From: Superintendent, Gran Quivira
Subject: Monthly Narrative Report for April 1952

Weather. This has been a relatively pleasant month. Maximum temperatures have averaged about 75 degrees and the minimum average about 35 degrees. While no unusually heavy rains have fallen in the monument this month the surrounding country has received more moisture this April than that received in the preceding five years. A total of 1 inch of rain was recorded at headquarters proper.

Local. The farmers in the vicinity, those that are left, feel that this year may be the one in which to make a comeback. Moisture now extends to a depth of 11 inches in the soil and preparations are being made to sow pinto beans and sunflowers. Moderate summer moisture will almost insure a good crop this fall.

Inspections. Messrs. John Davis and Arthur Gilmore on March 11.
Mr. Bob Flettenburg on March 15.
Naturalists Natt Dodge and Les Arnberger on March 17.
Naturalist Dale S. King and Historian Roger W. Young, on April 23.

Visitors. District Supervisor Moneghan and Rangers R.O. Jones and Eucl A. Nave of the U.S. Forest Service on March 28.

Personnel. The employment of Doyle B. Chaney, Laborer, was terminated as of April 23.

The Superintendent returned to the area on April 10 after several weeks of sick leave.

Approach Roads. Construction of 5 miles of macadam road on Highway 10 just North of Mountainair was begun the first of the month. With the completion of this project, Highway 10 will be paved from Menzano to within 15 miles of the monument.

San Carlos National Monument
San Carlos, Arizona

April 11, 1962

Memorandum

To :

Chief, San Carlos

From :

San Carlos, Arizona

Subject :

San Carlos National Monument

Background. This area has a relatively small area of approximately 100 acres and is located in the San Carlos National Monument. It is situated in the San Carlos National Monument and is situated in the San Carlos National Monument. It is situated in the San Carlos National Monument and is situated in the San Carlos National Monument.

Location. The location is in the San Carlos National Monument. It is situated in the San Carlos National Monument and is situated in the San Carlos National Monument. It is situated in the San Carlos National Monument and is situated in the San Carlos National Monument.

Ownership. The area is owned by the San Carlos National Monument.

San Carlos, Arizona

History. The area has a long history and is situated in the San Carlos National Monument. It is situated in the San Carlos National Monument and is situated in the San Carlos National Monument.

San Carlos, Arizona

Significance. The area is significant and is situated in the San Carlos National Monument. It is situated in the San Carlos National Monument and is situated in the San Carlos National Monument.

Recommendation. The area should be included in the San Carlos National Monument. It is situated in the San Carlos National Monument and is situated in the San Carlos National Monument.

Conclusion. The area is significant and is situated in the San Carlos National Monument. It is situated in the San Carlos National Monument and is situated in the San Carlos National Monument.

References. The area is significant and is situated in the San Carlos National Monument. It is situated in the San Carlos National Monument and is situated in the San Carlos National Monument.

UNITED STATES

DEPARTMENT OF THE INTERIOR

Both Approach roads from Mountainair and Carrizozo were in fair condition most of the month. The Torrance County grader has been working the Mountainair road for the past week eliminating some of the corrugations and ruts.

Maintenance. All monument informational signs were repainted this month and the two roadside directional signs replaced. New tarpaper roofing was applied to the sump and minor roofing repairs made to the pump house.

Two days were spent improving and leveling the monument road, and an additional two days expended on weed control in and around the missions.

Reptilia. The first rattlesnake of the season was observed on Easter Sunday, presumably out for Sunrise service. Number 32 was observed this morning. If this pace continues we shall have 576 sight records to catalog in our fact files before the season ends.

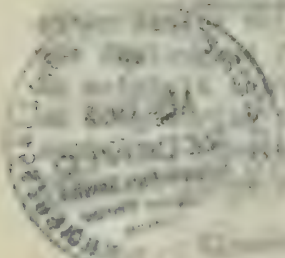

Travel. Travel to the area during March and April was considerably less than that of a year ago. 104 visitors in 39 cars came in during March and 233 persons in 85 cars visited this month. The visitor count for this period is an estimated one, taken from registrations.

Interpretive Services. No guide service was provided the visitor during the Superintendent's absence in March. Presumably the monument visitor used the self guiding trail pamphlet for his interpretation.

A total of 85 persons in 20 parties were provided guide service through the ruins during April for an average of 44 minutes per party. The exhibit room was visited by 130 persons and 148 visitors used the self guide pamphlet for their tour.

While no overnight campers are recorded, the picnic area over the weekends has received heavy usage.

Ray B. Ringenbach

NATIONAL PARK SERVICE

Montezuma Castle National Monument
Camp Verde, Arizona

April 25, 1952

Memorandum

To: General Superintendent
From: Superintendent, Montezuma Castle
Subject: Monthly Narrative Report, April 1952

Weather: For the most part it has been good. Days have averaged in the low 80's, and nights are beginning to get warmer. Showers falling intermittently throughout the month totalled 1.14 inches of precipitation.

Special Activities: Arthur White spent March 31 to April 11, at Santa Fe attending the Personnel Training Session. He then went to Mesa Verde to help drive trucks to Chiricahua. Because of the bus strike, I made a trip to Phoenix April 15 to return him to the monument.

I spent part of March 30, with Messrs. Dodge and Aramberger reviewing the interpretive program for the area.

April 14 was spent in company with Messrs. J. Miller and Alleman going over trail construction and discussing proposed monument improvements.

Travel: After a slow March, travel is again on the increase. Easter Vacation week was, as it always is, especially heavy. Many family and school groups, mostly from California, visited the area during this period. 3,354 people in 1,000 cars were counted and the Castle and 1,320 people in 400 cars visited the Well. This totals 4,674 people to the area and is a nine per cent increase over the number counted for the corresponding month of last year.

Interpretation: Interpretation was given priority over all other duties this month. During Easter week, WAE Maintenance man Koller was furloughed for interpretive activities. It was possible therefore to maintain contact at both the museum and model and to have a ranger on duty during the noon hour and until six p.m. Most interpretive contacts, however, were made at the model, and several formal talks given to large school groups.

Almost all visitors, after receiving information on the Castle, climbed through Castle "A", along the Sycamore Trail. There is little

1. The first step in the process is to identify the problem. This involves gathering information about the situation and the people involved.

1. The first of these is the fact that the majority of the population of the United States is of European descent. This is a fact which has been recognized by the government and the courts. The government has taken steps to protect the rights of the minority groups, and the courts have ruled in favor of the minority groups. The fact that the majority of the population is of European descent is a fact which has been recognized by the government and the courts. The government has taken steps to protect the rights of the minority groups, and the courts have ruled in favor of the minority groups.

I agree with the above, with the exception of the last sentence, which is not correct.

April 14 was spent in company with Mrs. J. A. Tilton and
Miss M. A. Tilton and their family at the Tiltons' home.

1. The first group, which is the largest, is the group of people who are not interested in the subject of the study. This group is the most difficult to reach, and it is the one that the researcher must try to reach. The second group is the group of people who are interested in the subject of the study, but who are not willing to participate in the study. This group is also difficult to reach, and it is the one that the researcher must try to reach. The third group is the group of people who are interested in the subject of the study, and who are willing to participate in the study. This group is the easiest to reach, and it is the one that the researcher must try to reach.

The following is a list of the names of the persons who have been appointed to the various committees of the Board of Education, for the year 1900-1901:

Amount all withdrawn, after providing for the balance of the fund, to the General Fund, \$100,000.00.

Page 2:

doubt that Castle "A" tends to pacify those who would like to climb through Montezuma Castle and spares us many unfavorable comments because the Castle is closed. We must, therefore, in the future, give Castle "A" due consideration in the interpretive program for this area.

The Well museum, with the exception of Easter Sunday, was closed until April 16, when White returned to duty. However, several trips were made to the area for the purpose of checking trail pamphlets, etc.

Regional approval was received for publication of a very well written paper entitled "The Back Room of the National Park Service" by Llyd Pierson. This paper will appear in a near future edition of the "Saguaro Land Bulletin", official publication of the Desert Botanical Garden near Tempe.

Through correspondence with the Smithsonian Institute, Pierson was able to get eighteen bound volumes of the "Annual Report of the Bureau of American Ethnology" for our library. These reports cover the period from 1880 to 1912, and would be a welcome addition to any library.

The interpretive section of the Master Plan Outline for this area which was prepared by your office was reviewed and travel statistics etc. inserted.

General Publicity: A large photo and write up concerning Montezuma Castle appeared in the Sunday, March 30, edition of the Los Angeles Examiner. The punch line, "While guided tours are no longer conducted through the ancient cliff dwelling, Montezuma Castle still remains popular with northern Arizona visitors", made this article most timely for it appeared just before the Easter rush.

A picture of Montezuma Well with remarks as to its never failing supply of water appeared in the April number of the "Arizona Farmer".

Maintenance and General Work: Despite heavy travel, we were able to attend to a few odd jobs. Signs were given a coat of linseed oil and touched up. The garage doors were stained and the interior of the pit toilets in the Castle campground painted.

Further repairs were made to the boundary fence, damaged by floods of last winter, in an effort to eliminate trespass stock.

Visitors: On March 29, Mr & Mrs. Steve Leding and Sydney Jameson from Organ Pipe and Casa Grande respectively.

On March 31, 14 Forestry Students from Colorado A. & M.

Page 3:

On April 7, 17 honor students from Hoover High School, Los Angeles.

On April 7, 67 Glendale High School students from Glendale, California.

On April 8, 30 students from Reedley College near Fresno, California. This group stayed all night in the campground.

On April 13, about 100 radio-hams from Arizona and California held a picnic at Montezuma Well. About one-half of this group spent the night in the campground there.

Roads & Trails: The new section of trail connecting the model location with older trails was given the first coat of bitumuls. This will be followed within the next couple of weeks with a second coat, and we expect a very fine section of trail when we have completed the job.

After noting the tremendous use Castle "A" got during peak travel this month and after talking with Miller and Alleman, it was decided to remove all of the stone steps in this area. These steps which were installed in the early thirties did not meet present day safety standards. Also, by removing them, we have eliminated access to several narrow, dangerous trails along the ledges above the ruins. These steps will be replaced by safe footpaths and by a couple of short ladders for access to the second floor of the ruin.

The guardrail at Montezuma Well was completed and painted the first part of the month.

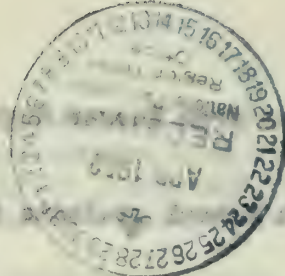

Accidents: One of the Forestry Students from Colorado A. & M. fell from a ledge above the Sycamore Trail and broke his ankle. Since this was not reported at the time of occurrence, the exact spot of the accident is not known. However, it is felt that he was off the trail and climbing about the ledges.

Observations: The return of warm weather plus April showers have caused wildflowers to bloom profusely this month. Mallow and Bladder pod are especially abundant. The Sycamores and Mesquites are also rapidly turning green.

Warm weather has also caused the snakes to appear. Two rattlesnakes, a bull snake and many garter snakes have been observed.

May 5, 1952

Memorandum

To: General Superintendent
From: Superintendent, Navajo
Subject: Narrative Report for April 1952

Travel: During April 1952, there were only 73 persons traveling in 25 autos compared with 111 persons in 30 autos, April a year ago.

Weather: Nice weather prevailed this month for a change with a high of 70 degrees and a low of 26 degrees. 1.03 inches of precipitation was recorded.

Roads: Most of the approach roads to the area were in good condition, having been graded recently. Our own road needs attention but our road grader had to be taken to Tuba City for repairs and is not yet available for use. It is hoped that by May 15 our roads will be up to par.

Interpretation & Visitation: There were 41 persons in 13 guided parties who took the $3\frac{1}{2}$ hour trip to Betatakin ruin. 9 persons made the $7\frac{1}{2}$ hour horse trip to Keet Seel ruin and 37 visitors in 18 parties took the easy trip via Sandal Trail to the Betatakin overlook.

Maps of Keet Seel ruin were received from the Regional Office and are to be used in conjunction with the guide pamphlet for that site.

General: A flagstone walkway was laid between the superintendent's residence and the clothes line and weather station. More cleanup in the tool shed was accomplished and additional tool racks built and put in use. The floor of the museum-contact station was painted and we hope to have a few items on display soon.

Two loads of wood were hauled and cut for campground use, and new linoleum was installed on the drainboards and work areas in the superintendent's residence.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL BUREAU OF SURVEY

There seems to be a few more blades of grass this year than last but our range lands look none too good even with this slight improvement. I feel I am looking at our range land with a jaundiced eye, especially since I have just returned from a 3 weeks visit to the Black Hills areas.

Enclosure

To: General Superintendent

From: Superintendent

John A. Aubuchon
Superintendent

Subject: Monthly Report May 11, 1902

Report

Earlier stages of summer was reached this month with most of the weather being rainy in the 10's and 20's. Highs have been in the 40's and 50's and lows in the 20's and 30's. A heavy rain fell on the 10th and 11th and was followed by a heavy rain on the 12th and 13th.

Special Activities

Supervisory Inspector Miller attended the National Training Course held at the Hotel Elgin, Chicago, Illinois, from April 11 to April 13.

The Superintendent and Inspector Williams attended the 1st conference held at the Hotel Elgin, Chicago, Illinois, from April 11 to April 13. The 1st conference was held at the Hotel Elgin, Chicago, Illinois, from April 11 to April 13. The 1st conference was held at the Hotel Elgin, Chicago, Illinois, from April 11 to April 13.

Inspection

Inspection of the range lands was made by the Superintendent and Inspector Williams on April 11 and 12.

General Superintendent Miller attended the National Training Course held at the Hotel Elgin, Chicago, Illinois, from April 11 to April 13.

Inspection of the range lands was made by the Superintendent and Inspector Williams on April 11 and 12.

Inspection

Inspection of the range lands was made by the Superintendent and Inspector Williams on April 11 and 12.

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Organ Pipe Cactus National Monument
Ajo, Arizona

April 26, 1952

Memorandum

To: General Superintendent
From: Superintendent
Subject: Monthly Narrative Report, lmi for April 1952

Weather

A brief glimpse of summer was received this month with most day time temperatures ranging in the 80's and low 90's. Nights have been cool with the low falling to 44°. Forty four hundredths of an inch of rain was received during the two storms.

Special Activities

Supervisory Ranger Leding attended the Personnel Training Course held in the Region Three Office March 31 to April 11.

The Superintendent and Ranger Williams attended the law enforcement school held in Ajo April 8 to 11 by the Pima County Sheriff's Dep't. and the FBI. All law enforcement agencies in the area were represented and much closer cooperation will be realized in the future.

Inspections

Regional Naturalist Dodge accompanied by Naturalist Arnberger visited the area.

General Superintendent Davis accompanied by Mrs. Davis and Mrs. Tom Moran inspected the area April 16.

Landscape Architects Miller and Alleman visited the area April 12 and 13 inspecting the campground work and advising on Master Plan development.

Construction

Work is progressing well on the new campground. The cross drives have been graded out and the rock picked from them. Some blasting will be necessary before the access road may be completed.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
Organized to protect and preserve
the natural resources of the United States

April 27, 1933

Special Agent in Charge

To: General Superintendent

From: Superintendent

Subject: Security Measures Report, for the year 1932

Summary

During the year of 1932, the National Park Service has been very busy in its efforts to protect and preserve the natural resources of the United States. The following is a summary of the work done during the year 1932.

General Information

The National Park Service has been very busy in its efforts to protect and preserve the natural resources of the United States. The following is a summary of the work done during the year 1932.

The Superintendent and his staff have been very busy in their efforts to protect and preserve the natural resources of the United States. The following is a summary of the work done during the year 1932.

Recommendations

It is recommended that the National Park Service should continue its efforts to protect and preserve the natural resources of the United States.

The Superintendent and his staff have been very busy in their efforts to protect and preserve the natural resources of the United States. The following is a summary of the work done during the year 1932.

The Superintendent and his staff have been very busy in their efforts to protect and preserve the natural resources of the United States. The following is a summary of the work done during the year 1932.

Conclusion

There is no doubt that the National Park Service has been very busy in its efforts to protect and preserve the natural resources of the United States. The following is a summary of the work done during the year 1932.

Completion of the central gas system has been delayed pending delivery of the propane and the final connection of the residences to the delivery lines.

Interpretive Service

Aside from the outside activities interpretive work kept us all busy this month. Several conducted walks and slide shows were given organized groups during the Easter Holiday period. A group of 97 from Los Angeles State College spent two days in the area.

Research

Assistance was given several persons doing research in the area and some new records were realized for the monument.

Dr. R. C. Turner of Caldwell, Kansas returned some butterflies for the study collection and are preparing several more some of which may be new species.

Wm. C. Creighton of Colorado University made a study of the ants of Organ Pipe Cactus and prepared for us a check list of 29 species with three still to be determined. Specimens will be returned for the collection.

Dr. Kitty Parker, Dr. Phillips both of the University of Arizona, and Dr. Cottam of Utah University, and Elizabeth McClintock of San Francisco spent three days here on a study of the botany.

Dr. Lyman Benson was in checking the herbarium and securing information for the revision of DESERT TREES & SHRUBS.

Visitors

Recent Service and newsworthy visitors to the monument were:

- Sup't. Hastings and his wife, Chaco Canyon
- Ranger Al Henson and family, Chiricahua
- Ranger Richard Hartesveldt, Death Valley
- Ranger Paul and Mrs. Spangle, Walnut Canyon
- Ansel Adams and Nancy Tarhall, Yosemite (photographer and writer)

Police Protection

In cooperation with the Sheriff's Office and other agencies a drive to reduce accidents on the Sonoyta Highway was instigated. Road blocks were made four nights for an overall check of drivers and cars. As a result of these blocks 31 citations were issued for driving without license, 5 aliens were picked up, and numerous other citations were given for various other violations.

William R. Supernaugh
Superintendent

Abstract: *See page 100*

1. The first step in the process of identifying a problem is to define the problem. This involves identifying the symptoms of the problem and determining the scope of the problem. Once the problem has been defined, the next step is to identify the causes of the problem. This involves identifying the factors that are contributing to the problem and determining the underlying causes. Once the causes have been identified, the next step is to develop a plan of action. This involves identifying the steps that need to be taken to solve the problem and determining the resources that will be needed to implement the plan. Finally, the last step in the process is to implement the plan and monitor the results. This involves putting the plan into action and tracking the progress of the solution. Once the problem has been solved, the final step is to evaluate the results and determine if the solution was effective. This involves comparing the results of the solution to the original problem and determining if the problem has been solved. If the problem has not been solved, the process may need to be repeated.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

April 28, 1944

Memorandum

To: General Superintendent

From: Superintendent, Saguaro National Monument

Subject: Monthly Narrative Report, April 1944

General

Travel records continue to be broken at Saguaro National Monument. On Easter Sunday a total of 1,133 persons visited the area which set a new record daily high. Total travel for the month was approximately twice that of last April which was also a record breaking month.

Along with excellent visitation came copious precipitation. Weather Bureau records indicate this was the wettest April since 1941. An estimated 2.53 inches of rain fell over the Saguaro Forest during the month.

The brilliant wildflower display reached its peak in April and, at present, shows signs of diminishing. The Yucca has continued to bloom throughout the month with a few prickly pears and cholla also in flower. We should bring forth the other species of cholla, yucca, yarrow, and yucca.

Special Activities

Mr. and Mrs. Alfred Knopf visited Saguaro on April 2. Mr. Knopf, a staunch conservationist, described the Saguaro Forest as "prehistoric".

Mr. and Mrs. White of Jerome, Idaho and Mrs. Miller of St. Paul, Minn. visited the new residence site on April 11.

Inspector
The Forest Service completed the roadhouse construction job on April 1.

General Superintendent John W. Davis visited the site on April 17. He inspected the new residence and discussed the development of physical facilities at the new headquarters site.

[Illegible text block]

The superintendent was re-elected to membership in the Pine County Forestry and Conservation Advisory Council.

Boundary Changes

The revised boundary status report for 1940 was approved by Director Smith on April 12.

Maintenance

Three trail laborers were hired in April and maintenance was started on the back trail above Grass Creek. About 1.5 miles of trail were worked from back camp earlier in the month.

All pack and saddle stock were rounded up, given annual distemper shots, shod, and trimmed.

The road into the Ranger Station was bleached and graded in April.

Fire Construction

Incident No. 18 was completed on April 13. The Frontier Construction did an excellent job on the building. Several extras were provided by the company at no added cost to the government.

Passage of a "Point of Order" bill by congress heralded the beginning of construction on the water line at Aguero. Several contractors were contacted regarding rental of a trenching machine. We hope to have the line construction underway in a short time.

Approaches to Park Area

Mr. Bruce Ellis, Pine County Highway Engineer, reported that his office was figuring estimates for surfacing of the Spanish Trail approach road. Mr. Ellis said that present plans indicate construction will commence in early summer.

Cooperating Government Agencies

The metallic telephone line in the Lincoln Haller was returned to the U. S. Forest Service. District Forest Ranger Smith inspected the line on April 1. The Forest Service plans to sell the line to the highest bidder.

Acquisitions

Four good tables for our picnic area were acquired from the Federal Prison Camp, Tucson, Arizona.

(Continued from page 60)

Interpretive Services

A total of 4,335 visitors in 1,300 parties were afforded interpretive services at Headquarters. This amounted to a total of 507 hours for an average of 13 minutes per party.

Museum Activities

Supervisory Ranger Leale is starting work on an herbarium for Yagare. He collected some 30 specimens of plants in April.

The Jayman's Herbarium is progressing nicely. A number of specimens were prepared during the month.

Observations

April 5, First Peaches Blossoms at Headquarters.

" 10, Two Sila Tensters on Looproad.

" 13, Six tule deer on Looproad.

On April 20 it was noted that five healthy Yagare plants were blown over by high winds. Moist soil conditions are considered to be an attractive factor.

Increase in Travel

A total of 7,930 persons visited Yagare National Monument in April. This is an increase of 831 persons over last month and an increase of 3,375 visitors over the corresponding month one year ago.

Visitors

- Mar. 23, State Senator Thomas J. Leach, 1st District, New York City.
- Mar. 27, Wine merchants from W. Leach & Co., Tucson, Arizona.
- Apr. 3, R. Joe Marshall and seven members of ornithology class, University of Arizona.
- Apr. 3, Ruby Ross, former Yagare 113, Grand Canyon National Park.
- Apr. 3, Mr. and Mrs. Alfred W. T., New York, N.Y.
- Apr. 3, Mr. George E. Jones, U. S. Treasury Dept., Washington, D.C.
- Apr. 5, Herbert Anderson, seasonal naturalist at Yosemite National Park, Mariposa, California.
- Apr. 5, Dr. L. B. Holquist, professor of biology, St. Olaf College, Northfield, Minnesota.
- Apr. 11, Landscape architects J. Miller and Earl Allen, Union Square, Santa Fe, New Mexico.
- Apr. 11, Mr. Ansel Jones, Santa Springs, California.
- Apr. 13, Architect Kenneth Goodwin, Union Square, Santa Fe, N.M.
- Apr. 13, Mr. and Mrs. John Crutcher, Santa Springs, Calif., seasonal naturalist at Yosemite National Park.

Introduction
The purpose of this study is to investigate the effects of the proposed system on the performance of the system. The study is organized as follows: Chapter 1 introduces the system and the objectives of the study. Chapter 2 describes the system architecture and the components. Chapter 3 presents the experimental setup and the results. Chapter 4 discusses the conclusions and the future work.

System Architecture
The system architecture is shown in Figure 1. It consists of a client and a server. The client is responsible for the user interface and the data entry. The server is responsible for the data processing and the storage. The system is designed to be scalable and flexible.

Experimental Setup
The experimental setup is shown in Figure 2. It consists of a client and a server. The client is responsible for the user interface and the data entry. The server is responsible for the data processing and the storage. The system is designed to be scalable and flexible.

Results and Discussion
The results of the experiment are shown in Figure 3. The system is designed to be scalable and flexible. The results show that the system is able to handle a large number of users and data. The system is also able to handle a large number of transactions.

Conclusion
The system is designed to be scalable and flexible. The results show that the system is able to handle a large number of users and data. The system is also able to handle a large number of transactions. The system is designed to be scalable and flexible.

Mr. W. W. John W. Davis, Region Three, March 24, 1940.
Mr. W. W. Davis, Region Three, March 24, 1940.
Mr. W. W. Davis, Region Three, March 24, 1940.

Ranger Service

Supervisory Ranger Earl Steele attended the Region Three Fire Control Training Conference in Santa Fe from March 28 to 31.

Work Ranger Ben Henry attended the Personnel Instruction Course in Santa Fe from March 31 to April 11.

Forest Fire Control

Preparations were made for the coming fire season. A major portion of the telephone line in the district was repaired. General cleanup was performed at Manning Camp and trails were cleared of a number of down trees.

Moisture prospects for the coming fire season are good. The forested area is well drenched at present with only two months remaining until the summer rains start.

Personnel

Messrs. Robert Wade and Byron C. Johnson entered on duty as trail laborers April 7 and were terminated April 11.

Laborer Walter R. Alinas was terminated April 11.

Mr. John Sellards entered on duty as trail laborer April 14.

Mr. Clyde Union entered on duty as permanent laborer April 11.

Too Late to Classify

Mr. Bert Maxwell, former bird bander at Yosemite National Park, made a visit to the superintendent's camp and in search of recordings of various bird calls. Many conditions were noted for recording bird calls. Mr. Maxwell is now associated with the Audubon Society.

Tonto National Monument
Roosevelt, Arizona

April 26, 1952

Memorandum

To: General Superintendent, Southwestern National Monuments
From: Superintendent, Tonto National Monument
Subject: Narrative Report, Incl, Tonto, April 1952

Weather. Moderate, very pleasant, in the main, with a few hot days, a lot of cool days, and rain on the 11th, 20th & 21st, and night of the 24th, for a total of about 3 inches.

Travel. An all-time record for April was established, with 3613 visitors for the month. This was despite a rainy weekend, with the road impassable for two days. This compares with 2181 for April last year, and 2479 for last month this year. With 5 months of the travel year to go, we have had 17,146 visitors, within 1,511 of last travel year's total, which was 18,657. Can't miss another record now.

Inspections. Regional Naturalist Dodge and Naturalist Arnberger were in April 1 and 2, made a trip to the Upper Ruins, helped us identify a lot of plants, and got some Gila Monster pictures.

General Superintendent Davis, accompanied by Mrs. Davis and Mrs. Morah, were in on the 15th.

Newsworthy Visitors. Archaeologist and Mrs. Lloyd Pierson and son, of Montezuma Castle.

Herscel Nelson and Joe Albert, New York, with the Voice of America.

H. Lollesgard and G. I. Pitchard, of Lollesgard Specialty Company.

Assistant Supervisor Ben Nelson and Administrative Assistant Joe Lucero, of the Tonto National Forest, Phoenix office.

Jerry Finch, London, England, who is making a hiking tour of the country.

Personnel. Seasonal Ranger Robert Viklund was terminated c.o.b. April 21. Bud Brewer and John Henry Deel were hired as laborers starting April 21. Superintendent Sharp & Mrs. Sharp went to Compton, Cal., on leave, April 3 to 14.

THE NATIONAL BUREAU OF INVESTIGATION
WASHINGTON, D. C.

April 12, 1934

MEMORANDUM

TO : DIRECTOR, BUREAU OF INVESTIGATION

FROM : SAC, NEW YORK

SUBJECT: ALGER HISS; RUTH HISS; ALGER HISS, JR.

Reference is made to the report of Special Agent in Charge, New York, dated April 11, 1934, captioned as above.

It is noted that the above-named individuals are the subjects of a report of the New York Office dated April 11, 1934, captioned as above. The report of the New York Office is being referred to the Bureau for information.

The Bureau is advised that the above-named individuals are the subjects of a report of the New York Office dated April 11, 1934, captioned as above. The report of the New York Office is being referred to the Bureau for information.

The Bureau is advised that the above-named individuals are the subjects of a report of the New York Office dated April 11, 1934, captioned as above. The report of the New York Office is being referred to the Bureau for information.

The Bureau is advised that the above-named individuals are the subjects of a report of the New York Office dated April 11, 1934, captioned as above. The report of the New York Office is being referred to the Bureau for information.

Special Activities. Mr. Nelson and Mr. Alberts, who are with the Voice of America, recorded an interpretive talk on the Salado Indians, by Archaeologist Wenger, which they plan to broadcast in a few weeks. This was a fortunate opportunity, and I hope that it is broadcast according to plan.

Cooperative Agreements. Mr. Nelson and Mr. Lucero of the Tonto Forest discussed cooperation of IPS personnel at Tonto, as timekeepers or other overhead jobs, in the event of any big fires in this area this summer.

Wildlife. Two Gila Monsters and several rattlesnakes were sighted. One deer was seen in the canyon just above the superintendents quarters. Ranger Viklund and a party of visitors observed at a distance an animal which could not be identified, but resembled a coati mundi, and did not fit the description of similar sized animals usually seen here.

Flora. All sorts of flowers are blooming, not only profusely, but in larger size than usual, and many varieties are blooming for the first time in several years. The lupines, desert poppies, brittlebush, mariposa lilies, and mallow predominate, but at least a hundred others are in bloom along the cliff dwelling trail.

Scenery. Nearly dry last August, Roosevelt Lake is now at about 70% of capacity, but appears to be nearly full. This is a fine addition to the scenery, and has disposed of the comments on how low the lake is. It is also a fortunate circumstance for the 50-year celebration of the Bureau of Reclamation, which will be celebrated in this area by ceremonies at Roosevelt Dam on May 3.

General. Mr. Wenger in his capacity as Acting Chief of Maintenance, completely overhauled the power plant after it broke a hatful of valve springs. It is fortunate that our archaeologist is a good mechanic. Mr. Wenger & Ranger Viklund repainted, replaced and relettered nature trail signs and labels, and re-arranged the tool shed which we use for a warehouse.

The Dodge pickup had a front wheel alignment and motor tune-up.
The new herbarium cabinet finally arrived.

Construction Projects. The job of hauling road surfacing on the entrance road and utility area was finally completed on April 19. A good layer about 4 inches deep of gravel and clay material was put on

There are a number of agencies, and I hope that is a statement
by the United States Government, which they think is important in a way which
I am sure will be of great help to the people of the United States.

1. The first step in the process of the investigation is the identification of the problem. This is done by the investigator who is assigned to the case. The investigator will then gather information about the problem and the people involved. This information will be used to develop a plan of action.

[illegible]

1. The first of these is the fact that the majority of the population of the United States is now living in urban areas. This is a result of the process of urbanization, which has been going on since the beginning of the 20th century. The process of urbanization is the movement of people from rural areas to urban areas. This is a result of the fact that urban areas offer more opportunities for employment and education than rural areas do. The process of urbanization has led to the growth of large cities and the decline of small towns and villages. This has had a significant impact on the way of life in the United States. The majority of the population now lives in cities, and this has led to a number of changes in the way of life. For example, the majority of the population now lives in multi-story apartment buildings or houses, and this has led to a change in the way of life. The majority of the population now lives in cities, and this has led to a number of changes in the way of life. For example, the majority of the population now lives in multi-story apartment buildings or houses, and this has led to a change in the way of life.

Construction, Contd. the road. This was spread out, and bladed several times by State Highway Operator Albert Sanders, who has contributed considerable time, work, and professional assistance to the job. After the road is compacted by more travel, and rain, and it has been bladed a few more times, it will be ready for oiling. It is now ready for an engineer's estimate of oiling requirements and costs.

About 2 inches of rain fell on the weekend of April 19, 20, & 21, soaking the new surface to its full depth. To protect an investment of well over a thousand dollars in surfacing, the road was closed on April 20 and 21, and visitors were contacted at the gate. Trips to the gate had to be made with Ranger Viklund's jeep in 4-wheel drive due to the depth and stickiness of the material. This will, however, compact to a hard and stable surface after another rain or two.

Considerable progress was made on the water system after the two laborers were hired. Forms were removed from the tank, the top coated with asphalt roofing cement, and dirt filled around and on top of the tank with the aid of the bulldozer. Much of the 2½ inch pipeline was installed, part of it covered. The interior received the first coat of Inertol #49 Thick interior paint. Considerable pipeline remains to be installed.

Only snag so far encountered is the extreme unavailability of railroad rails for the cattle guard extension at the entrance. We plan to make the concrete frame or foundation for this, then get rails when we can. Meanwhile, the present guard, about 12 feet wide, will be a bottleneck at the Monument entrance.

Interpretation. With the termination of the seasonal ranger, and still considerable supervision to be required on the projects, interpretation will continue to get something less than its due, as it has all during the construction. This is due not so much to lack of willingness as to an old law of physics, which states:

"A body can occupy only one position in space at one time."

This is the same old law which has long hampered the National Park Service.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

April 25, 1952

Memorandum

To: General Superintendent, Southwestern National Monuments
From: Superintendent, Tumacacori
Subject: Superintendent's Monthly Narrative Report for April, 1952

Weather: Precipitation was very satisfying, with 1.02", which is well above the average of .46" for April in the past six years. Maximum temperature was 90 degrees on April 5th, minimum was 30 degrees on March 26. There were no extremes of temperature.

Southern Arizona range lands are in extremely good condition as result of bounteous rainfall of the winter and spring.

Visitor Travel: This month: 4,668 persons, in 1,330 motor vehicles.
Highest previous April* : 4,596 persons, in 1951.
Percent increase - - - - : 1.5
Last 12 months - - - - : 44,829 visitors.
Previous 12 months - - - : 36,145 visitors.
Percent increase - - - - : 24.

*Not highest April of record, but highest one of statistical value in computation of travel trends. Highest April was 4850 persons, in 1939, the month the museum building here was dedicated, at which time a huge, specially invited crowd appeared.

Visitors: Among those present were:

3/28/52 - Mrs. Raymond Broaf, of Coolidge, Arizona, wife of former Region Three Office attorney.

5/2/52 - Mr. and Mrs. Alfred A. Knopf. He is a member of the National Park Service Advisory Board, and head of the famous publishing house of his name.

4/5/52 - 26 students and teachers, Quarter Circle V. Bar Ranch, Tucson, Arizona.

4/6/52 -- A group of 45 members and friends of the Pimeria Alta Historical Society.

4/7/52 - George H. Jones, Assistant Budget Officer, Treasury Department (retired).

4/9/52 - Ansel Adams, famous photographer.

4/10/52 - Mrs. Bennett T. Gale, wife of Park Naturalist Gale, of Carlsbad Caverns National Park.

4/11/52 - Ranger and Mrs. Bert de Freese, Yellowstone National Park.

4/11/52 - Terah L. Smiley, tree ring specialist of the University of Arizona, with a group of six students.

4/14/52 - Ranger and Mrs. Jasper L. Crawford, Bryce Canyon

National Park.

4/19/52 - A Mr. Farrinier, of Department of Research, Forest Service, Washington, D. C.

Publicity: In addition to the customary excellent local press coverage on Tumacacori events, the monument received attentions of two photographers which will undoubtedly result in good pictorial publicity. Mr. Ansel Adams spent the greater part of a day taking pictures of the mission church. Photographer Ray Manley was in taking pictures of museum exhibits which are to be used in conjunction with a forthcoming National Geographic article on southern Arizona.

Inspections: March 25 - Regional Naturalist Matt W. Lodge, and Naturalist Leslie Arnberger, of Southwestern National Monument headquarters. While here they accommodated us with some up-to-date pictures of the mission. Taking pictures, that is.

Maintenance: Routine maintenance was kept current, and considerable watering, and weeding of objectionable Russian Thistles, was done. Re-building of the two picnic tables for our picnic area was completed. Patches of emulsified asphalt and gravel were applied to the mission trail. The patio garden fish pond was given its annual thorough cleaning out. The new entrance sign outside the museum door was sanded free of resin blisters and re-linseeded. The government washing machine broke down, and after one heck of a search replacement parts were found in Tucson and the thing re-habilitated. Considerable trouble occurred with the water system. Last month, when we replaced the worn out pump cylinder with a new one, apparently the improved efficiency was too much suction strain on some part of the lower wall of the well. Anyway, for a day or two the water system pumped a great deal of mud and sand through all the outlets, gumming up all the valves on the monument. By disconnecting the distribution lines and using a temporary short pipe to bypass the rest of the system, we managed to flush out the accumulation of muck, and after the water cleared up again came the task of cleaning out all valves, and replacing parts in some of them. Everything is working okay now.

Museum and Education: On ~~April~~ March 25 the superintendent gave an illustrated talk on "Snakes" to the Nogales Lions' Club.

On April 2 the superintendent was at the Calabazas District School, by request, and gave an illustrated talk on "Snakes" to the entire school.

On April 6 the superintendent gave an evening talk in the patio garden to the members of the Pimeria Alta Historical Society, on National Park Service history, purpose, function, and finally, its policy on stabilization of historic buildings.

Little additional, of other than strictly routine nature, was possible this month.

Personnel: On March 27 William L. Featherstone and his wife and two young sons arrived, for him to fill the permanent ranger post recently.

1945-1946 - 1st. Division of Department of Defense, Bureau of Military Information, Washington, D. C.

1947-1948 - 2nd. Division of Department of Defense, Bureau of Military Information, Washington, D. C.

1949-1950 - 3rd. Division of Department of Defense, Bureau of Military Information, Washington, D. C.

1951-1952 - 4th. Division of Department of Defense, Bureau of Military Information, Washington, D. C.

1953-1954 - 5th. Division of Department of Defense, Bureau of Military Information, Washington, D. C.

1955-1956 - 6th. Division of Department of Defense, Bureau of Military Information, Washington, D. C.

1957-1958 - 7th. Division of Department of Defense, Bureau of Military Information, Washington, D. C.

1959-1960 - 8th. Division of Department of Defense, Bureau of Military Information, Washington, D. C.

vacated by the transfer of ~~William~~ Albert G. Benson to Chiricahua National Monument. Bill was on duty a day, then departed to attend the personnel training school in Santa Fe. He came back filled with great enthusiasm about the school and what he had learned and the people he had met.

On April 21 Francisco Valdez Salcido was employed as a laborer to assist in stabilization work on the mission church.

Rehabilitation Work on Mission Church: On April 21 Maintenance Deubler and Laborer Salcido began the task of removing rotten old plaster from the west exterior of the mission church, and replacing it with new plaster. At this writing, the upper half of this long wall section has been stripped of the old plaster, covered with galvanized expanded metal lathe, and about half of this upper level has received the scratch coat of sand-cement-lime mortar.

Re-alignment of West Boundary Fence On April 17 contractors for the State Highway Department began digging trench for new wall footing. At this writing concrete has been poured in the trench for the footing. This is for the replacement of that portion of our west boundary wall which lies north of the present parking area. Widening of the Highway 89 Right-of-way requires pushing our west wall eastward by about as much as 60' in some places.

General: During the month the Monument Operation Prospectus portion of the Master Plan Development Outline was written up in draft form and submitted to Headquarters.

One of the most flattering comments of the month, (to a monument superintendent who has spent a good part of his official life with his fanny up and his head down, cleaning public rest rooms) was from a tourist who said "You have the cleanest rest rooms I've ever seen in a National Monument." And he is a Park Service enthusiast, too. No - I can't take the credit. It was somebody working for me who cleans the rest rooms now.

On April 6 the county historical society, "Pimeria Alta Historical Society", accepted our invitation to be guests of the National Park Service for a visit to Tumacacori National Monument. Fees were waived for this occasion, of course, and the group of 45 persons went with the superintendent on a special guided trip through the mission church and grounds. After the trip, the group went across the street from the museum where they had a Spanish dinner at the Alegria cafe. After dinner they returned to the museum building, and gathered in a circle by the brilliant light of the moon in the patio garden. Here, with the bubbling fish pond in the center of the circle, the superintendent was able to take advantage of a long-sought opportunity to acquaint many of the important people of the county with some of the history, scope, policy, and objectives of the National Park Service.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA

April 27, 1952

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tuzigoot National Monument

Subject: Report lml, April 1952

The following is a narrative report of activities in this area.

VISITORS (element)

2389 visitors came to this area, this month last year we had only 1892. These people were handled with a force reduced 50% of the force we had last year. A one man area every day of the month.

What they did: 2389 visitors came in 842 parties, 2004 went thru the museum in 697 parties, 2343 went to the ruin in 828 parties. 403 visitors registered in the NITH RANGER in 156 parties.

100% of our 8-12 and 1-5 o'clock visitors were contacted. (This perfect record was maintained only thru the help of; Ann Miller, age 9, who contacted visitors for two hours while the superintendent worked with her father and Carl Allen on trail location, my father age 75 and Ida, both of whom helped in the museum on the 23rd while I cut kitchen cabinets to accommodate the new sink.

The large number of entries in the NITH RANGER is in part due to the inability of a man alone on duty to "stagger" the noon hour and keep the museum open. There were 21 people waiting, at 12:45 on the 8th, to get into the museum.

These people spent more than \$250.00 for publications and post cards. This represents a sizable portion of time considering the \$4.10 amount of most of our Association sales.

National Park Service

Bill and Kathryn Wilson of Rainbow Lodge on the 29th.
Mr. Matt Dodge and Mr. Les Aruburger on the 29th.
Mr. Jerry Miller and Mr. Carl Allen on the 18th.
Bill Ballard of Hopatli National Monument to pick up some sherd boxes on the 21st.

Other Agency

Mr. Branscom, U.S.N.F.S. on the 29th.
Mr. and Mrs. E.J. DeCook of U.S.G.S. on the 31st.
Mr. and Mrs. Robert Shaw, Foreign Service, Caracas,
Mr. and Mrs. G.P. Carlisle, War Dept., on the 14th.

Reportworthy

Mr. Ansel Adams, photographer, April 19th.

INSPECTIONS

Messrs. Dodge and Arnberger voiced their approval of Mr. Alleman's trail plan for access to the roof of Room 14.

PLAN & Designs

Trail plan to the roof of Room 14 was received on the 29th.

Jerome C. Miller and Earl W. Alleman relocating the trail thru the ruin on the 15th.

IMPROVEMENTS & NEW CONSTRUCTION

Hinged door cabinets were constructed under the offflow sink. Five doors conceal two shelves in four compartments, the fifth compartment contains 30 shelves, letter-head size, for the easy-to-find storage of blank forms and stationery supplies. We were able to remove these and other items from the herbarium case and we now have the space for additional biology specimens.

A new sink and metal cabinet combination was installed in the kitchen on the 23rd. The wall above the sink was replastered by the superintendent on the 24th.

Mr. Riley Lee operating under Contract No. I-14-10-333-1 moved his rig in and set up on the well location March 17th. He reached a depth of 316 feet on the 27th. 153 feet were cased. Water level stands at 120', draw-down 24 feet, flow 1000 g.p.h. Mr. Lee cleaned up the area and moved out on the 29th. Samples were collected at each 10 feet of depth and will be analyzed at the Museum of Northern Arizona.

Mr. E.T. Mott arrived on the evening of the 22nd and started a preliminary survey on the 23rd. Gene has pitched right in and some important changes will soon be evident. We would have gotten a crew lined up and some ground work done for Gene if it hadn't been for the heavy travel and short-handedness.

RESEARCH AND OBSERVATIONS

Ranger Maxson picked up a dead COOT (*FULICA AMERICANA*) and had Mr. Wilton Cetherill identify and prepare it as a study skin (on his own time). The specimen is now in the herbarium case. (We don't have a better place to store zoology specimens).

We have an abundant growth of *Alfilaria* which I believe is *Erodium Cicutarium*.

The 10 transplanted Arizona Cypress trees seem to have taken hold and are doing well.

On the morning of April 22nd the museum windows rattled and the building vibrated at 10:55 A.M., which was about 25 minutes after the Atomic Bomb exploded in Nevada.

LIBRARY ACCESSION

Cumulative Index of Arizona Highway magazines 1925 to 1951 was donated to the monument library by the Southwestern Monuments Association. (I think)

A History of Phelps Dodge 1834-1950 by Robert Glass Cleland (Knopf 1952) was donated to the monument library by Mr. H.A. Clark, mine superintendent, Jerome, Arizona.

RANGER SERVICE

Goats had to be herded from the ruin on April 15th.

PERSONNEL

Temporary Ranger Harmon D. Maxson terminated on March 30th to accept Civil Service status with the National Forest Service. We are going to miss the services of Max at this area and we are sorry to lose him. There went a man who knows how to wear a uniform and how to represent the National Park Service. An unusually good personality for meeting people and getting a story across to them. Many of our recent improvements owe their existence to Max.

The first thing noticed on the morning of the 12th was
a very heavy fog, which was very thick and
did not allow us to see the water. The fog was
very thick and did not allow us to see the water.
The fog was very thick and did not allow us to see the water.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

April 26, 1952

Memorandum

To: General Superintendent

From: Superintendent, Walnut Canyon National Monument
Flagstaff, Arizona

Subject: Superintendents Narrative Report of Activities at Walnut
Canyon National Monument during the month of April, 1952

Weather Conditions

The month of April brought approximately one inch of rainfall and light snow. General conditions are the most favorable to dry farmers and stockmen in many years. The ground has retained a great deal of the moisture and the plants and grasses are thriving.

The Rio de Flag showed the greatest run-off in many years and one of our water meters is now in the middle of a lake.

Administration

Water and telephone use permits were prepared, fees collected, and submitted for signature. General administrative duties kept as current as possible.

Two days of annual leave were taken by the Superintendent. Ranger Spangle returned from annual leave on March 28.

Maintenance and Rehabilitation

The roofing of the utility building was completed and the trail from the rest rooms to the parking area re-built with the road-mix. The Island trail was cleaned of loose rock and small repairs made until the regular trail project got under way. Spangles residence was given a coat of paint on the outside woodwork and window frames. Roads both primary and secondary were worked. General cleanup of the camp ground and additional repair to camp tables was made.

Trail Construction Project

A laborer leadman and crew of four Navajo laborers were hired and work began on the trail project on April 21. Changes recommended by Landscape Architect Alleman and Engineer Miller are being made and the work is progressing nicely. Weather and a delay in getting road oil by the county will necessitate waiting until we can purchase road mix before we can do much more surfacing. The State has offered us some free of charge when they start mining again. Arrangements have been made for rental of Compressor and jackhammer with operators to do the drilling

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

April 24, 1967

Memorandum

To: Director, National Park Service

From: Superintendent, Grand Canyon National Monument,
Flagstaff, Arizona

Subject: Superintendent's Report of Activities at Grand
Canyon National Monument during the month of April, 1967

General Conditions

The month of April brought exceptionally low levels of water-
falls and light snow. General conditions are the same throughout the
park. The weather is very warm. The snow has melted and
most of the waterfalls are flowing and the plants are starting.

The fire is still about the same as last year. It is very
hot and the water is very hot. It is the same as last year.

Administration

The fire is still about the same as last year. It is very
hot and the water is very hot. It is the same as last year.

Trail Construction Project (Cont'd)

and cutting work necessary in widening parts of the trail and installing the guard rail. Some of the repair and flagging of stairways has been completed.

Travel

There were 1880 visitors to Walnut Canyon this month representing 43 states, the territories of D.C., Alaska, and Hawaii. Foreign countries represented were Canada, Germany, Australia, Switzerland, Holland, France, Denmark, Iraq, and Austria. Travel shows an increase of 111 visitors over last year for April. Our travel year to date shows a decrease of 1,270.

Interpretive Service

A tape recorded interview with Superintendent Guillet on Walnut Canyon was broadcast over Radio Station KCLS on Sunday, April 20. The talk dealt mostly with the story of the early pueblo peoples and the history of the Area. Emphasis was placed on the damage of vandalism and Pot hunting to prehistoric indians ruins. I also emphasized the contributions made by these early americans to our present civilization.

A total of 647 groups comprised of 1709 persons were contacted. with these we spent a total of 104½ hours was spent.

General

The Superintendent had the great pleasure and privilege of accompanying Editor Platt Oline and four of the old traditionalist Hopi clan chiefs on a tour of Mesa Verde, Aztec, Chaco Canyon, and Acoma.

Meredith M. Guillet
Superintendent

and certain work necessary in connection with the same will be done as soon as possible.

There were two visits to the office of the Director of the Bureau of Investigation, one on the morning of the 1st of March, and another on the morning of the 2nd of March. The Director of the Bureau of Investigation, J. Edgar Hoover, was present on both occasions. The Director of the Bureau of Investigation, J. Edgar Hoover, was present on both occasions.

WHITE MOUNTAIN

Box No. 231, Alamogordo, New Mexico

OFFICIAL CORRESPONDENCE:

April 27

12

To: General Superintendent, WPA.
From: Superintendent, WPA.
Subject: White Mounts Monthly Narrative - Report No. 1-1.

April Travel - 1952 Travel Year to Date

Visitors - 23,321; Cars - 5,403 Visitors - 20,021; Cars - 4,875

Grand Forest

Visitors - 2,844 Visitors - 2,826

GENERAL:

April, with its Play Day and Easter, this year exceeds any like April in the Mount's existence. Play Day itself drew several hundred over last year due to the imitable weather, but Easter Sunday was up for its loss. The weather was not bad but several heavy winds made those days disagreeable. Low for the month was 14 degrees on March 22nd, and high was recorded at 77 for April 7, 1952. The early morning of Play Day was rainy and threatening which undoubtedly had something to do with the drop in attendance; however, the day turned out to be perfect, and as the weather improved in just that ratio, our visitors increased. Easter likewise was good, as evidenced by over three thousand (3000) visitors for the day.

REMARKS:

John Diehl, Highway Engineer, Section VII, several times; John Davis, General Superintendent, WPA; Dale Vint, Naturalist, Section VII, accompanied by Messrs. Young, Chief, Public Use Branch, History Division, Washington, D. C.; Art Gilmore, Assistant Administrative Officer, White Forest Office. All of these say and have been very helpful, as were, undoubtedly,

THE SECRETARY OF THE ARMY
WASHINGTON, D. C.

TO THE SECRETARY OF THE ARMY

FROM THE SECRETARY OF THE ARMY

RE: [illegible]

[illegible]

[illegible]

[illegible]

Subject: Superintendent's Monthly Narrative -

we were glad to have these gentlemen go over our area and advise us as to their findings.

SPECIAL ACTIVITIES:

Play Day - and the White Sands Relays - a combined program, fortunately, made supervision comparatively easy even though they were held in different places. Easter Sunday, while not a special event, took place, with over 3,250 people visiting the area that day. It was special to that extent.

PUBLICITY:

Play Day - White Sands Relays - April a banner month - plane crashes, scout jambories - have all helped to give us plenty of publicity. Play Day was covered by the Voice of America this year, so I assume we can expect international publicity through this source alone.

COMPLAINTS:

No complaints were received in this office.

ROAD WORK:

At last our rest rooms are finished - Little adjustments have to be made but they are operating, and very successfully, even though they will require a lot of extra time that we do not have. All of the dirt has been hauled on the road and we start soon on the gravel. Heavy winds have made Joe's road-work even heavier than usual, on top of the extra work. Perhaps it would appear that the comfort stations and road work would come under new construction, but maintenance certainly jumps up in both instances, especially on our rest rooms. When our road stabilization is finished, it might ease some, but not much. We spent almost 250 dollars getting some of our cuts cleaned out last week, and today you can hardly tell where we even worked. Friday Joe had his roads in fine shape and winds on Sunday pit them out so on Monday morning ten or twelve hours work will be required to even get them partially back to normal - and so goes our maintenance.

NEW CONSTRUCTION:

The comfort stations finished - our septic tank is finished, and awaiting a tie in. Our road stabilization moving along well - our water system now cleared up - and believe it or not, electric lights for White Sands. The PWA is building a line out this way and the last word is that by May 15th we should be on 24 hour service.

Wupatki National Monument
Flagstaff, Arizona

April 27, 1952

Memorandum

To: General Superintendent

From: Superintendent, Wupatki

Subject: Monthly Narrative Report, Wupatki and Sunset Crater National Monuments.

Weather:

The weather this month has been fine with a feel of spring in the air and cool nights. The maximum was 82 degrees on April 6 with a minimum temperature of 32 on April 11. Precipitation totaled .72 inches with showers coming down at the time of this report.

Special Activities:

On April 8 I attended a meeting in Flagstaff on the subject of surplus property. Several other Federal Agencies were represented and the program went into detail on the working of the memorandums and lists we receive every month on excess property from the Federal Supply Service in San Francisco.

Maintenance and General Work:

The tank for white gas, the Sunset Crater water tank and one of the fuel oil tanks at Heiser were painted this month. Two warning signs were made for the bulk propane installation and one was erected on the fence. All of the signs, posts and the register box at the Citadel were repainted. The two dry toilets at Sunset Crater were painted inside and out. All of the trim on the metal sash windows at the Superintendent's house was repainted. A flamo cabinet was installed at the Maintenance man's house at Heiser. The tanks had previously set out in the open. The cabinet was also painted.

Roads and Trails:

The remaining 30 feet of the Wupatki Ruins trail was paved with oil and cinders. This completes the trail from the parking area to the ruin.

On April 2, after a little hard work shoveling the snow the loop road to Sunset Crater was plowed open. The 4 mile entrance road was bladed as well as about 6 miles of the loop road.

Warranted National Government
Washington, D.C.

April 17, 1912

Washington

Dear General Beauregard:

I am very glad to hear of your success.

I am sure that your efforts will be rewarded in the future.

Sincerely,
Wm. H. Taft

The following is a list of the names of the persons who have been elected to the office of the President of the United States. The names are listed in alphabetical order. The names are: William H. Taft, Woodrow Wilson, Theodore Roosevelt, and others.

Respectfully,
Wm. H. Taft

On April 17, 1912, a meeting of the National Government was held in Washington, D.C. The meeting was attended by the President, the Vice President, and other members of the Government. The meeting was held in the White House.

Very truly,
Wm. H. Taft

The following is a list of the names of the persons who have been elected to the office of the President of the United States. The names are listed in alphabetical order. The names are: William H. Taft, Woodrow Wilson, Theodore Roosevelt, and others.

Sincerely,
Wm. H. Taft

The following is a list of the names of the persons who have been elected to the office of the President of the United States. The names are listed in alphabetical order. The names are: William H. Taft, Woodrow Wilson, Theodore Roosevelt, and others.

Very truly,
Wm. H. Taft

1959
11V,
Interpretive Service:

At Wupatki 694 people in 208 parties were contacted for an average time of 15 minutes per party.

Sunset Crater is now open and the nature trail in use in that area.

Ruins Stabilization:

On April 17 the mobile unit from Chaco Canyon moved into Wupatki to spend the next several months in the area. Ruins Stabilization and excavation work will be carried on under the direction of Gordon Vivian and Roland Richert with a crew of trained Navajo's.

Travel:

For the first time in six months travel went over the same period a year ago. One of the deciding factors was the Easter holidays with California schools out for a week. Thirty cars were recorded in one day which is somewhat higher than we run during the summer months. At Wupatki 536 cars and 1082 people were recorded and at Sunset Crater 1070 cars and 2677 people were recorded.

Accidents:

On April 21 Maintenance man Joe Bean injured his shoulder when he slipped off the grader wheel while pouring gas into the gas tank.

Personnel:

Superintendent Brueck was on annual leave from April 20 to 24. Park Ranger William C. Bullard, Jr. was on sick leave April 16. Maintenance man Joe Bean took annual leave April 14 and 15 and sick leave April 16 to 18 and April 23 at noon to the 25 inc.

Local Items:

Some surplus food supplies are now on hand for the local Navajo's. The public health nurse and welfare worker visited Wupatki on April 23 and distributed part of the food and gave medical treatment to the Navajo's on hand.

Spring Flow: Wupatki - 1000 GPD This is 300 GPD over last year
Heiser - 1440 GPD This is 700 GPD less than last year.

Frederick R. Brueck
Superintendent

Please read them carefully.

NAME Peter J. Wilson
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REMARKS: A talk was given by Ranger Barney to the Los Alamos High School Social Society April 11, 1962. The talk was on western and early western history of the Southwest. It was very good, several people attended, slides on pottery from one of the pueblos were shown. A ten minute film on pottery making was shown. It was very good.

Please read them carefully.

NAME Home, X. Harting
TITLE Supt.

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.

"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.

"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICE TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

NAME Glenn Dean
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.
TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

Please read them carefully.

NAME JOHN O. COOK
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

ANS:

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE.
Please read them carefully.NAME: William J. Miller, Jr.
TITLE: Acting Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICE TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

REMARKS:

INSTRUCTIONS FOR FILLING OUT THIS FORM ON OTHER SIDE.
Please read them carefully.NAME E. R. Wenger
TITLE Archaeologist

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.

"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.

"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

Please read them carefully.

NAME Meredith M. Guillet
TITLE Superintendent

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE
SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

NAME *Ernest Davis*
TITLE *Interpretive*

THE PURPOSE OF THIS FORM IS TO SECURE AN ACCURATE RECORD OF INTERPRETIVE

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.

"ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.

"OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.

"CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATION RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. IN COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Arches National Monument
Moab, Utah

May 26, 1952

Memorandum

To: General Superintendent

From: Superintendent, Arches National Monument

Subject: Monthly Narrative Report for the month of May, 1952, Arches

WEATHER: Except for two days of heavy wind, which brought one nice rain, we have enjoyed very pleasant weather this month.

Travel: Our traffic counter was sent into the Utah State Highway Dept. for repairs and this month's travel count was taken from the register with a 25 % addition for non-registration. By this method we record 1905 visitors entering the area in 705 cars. An increase of 27% over the same period last year is noted.

INTERPRETATIVE SERVICES: Of the 1905 visitors who entered the area 1060 were contacted at the Wayside Exhibit and 271 at headquarters. Eleven guided tours were made with a total attendance of 144. Contact time amounted to 122 hours and 25 minutes. A conservative estimate on use of the Wayside Exhibit and Cove Nature Trail was 1060 visitors each. Ranger Worthington gave four illustrated lectures to 27 people at his residence and outside the area.

PUBLICITY: Both Arches and Natural Bridges came into the limelight this month through articles in three magazines, one outside newspaper, and one motion picture.

Three of the 26 colored pictures in Jack Breed's National Geographic article (Roaming the West's Fantastic Four Corners, June 1952) are of Owachomo and Sipapu bridges. Ford Times and Desert Magazine carry illustrated articles this month on "Moab & The Movies", which feature the filming of "Battle at Apache Pass", in Court House Wash. This picture, according to Time Magazine, April 28, topped the Variety Poll for Box Office-Take and is now running in fifth place this week. In addition to the expected and required credit in the courtesy line, we received a full screen of appreciation for cooperation in a very extravagant manner. The Salt Lake Tribune ran their annual illustrated weekend trip to Arches in their Sunday edition of two weeks ago.

FLORA: As a result of an abnormal amount of moisture this past winter and this spring the wild flower bloom is the heaviest ever experienced.

NPS VISITORS: Les Arnberger arrived May 23 and spent May 24 working out a finished draft for the printed leaflet on the Cove Nature Trail. From Arches he went to Natural Bridges with Superintendent Wilson. Ranger and Mrs Clyde Maxey, Aztec Ruins, sight seeing on leave.

NOTED VISITORS: Jack Breed enroute to Dinosaur National Monument where he plans to do an article for National Geographic.

NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

25 May 1952

Memorandum

To: General Superintendent

From: Superintendent Aztec Ruins

Subject: Report 1ml Superintendent's Monthly Narrative

WEATHER: Beautiful days generally, clear and sunshiny, with a few showers interspersed to keep the wild flowers at their best.

INSPECTIONS: May 1, Regional Officers, John Davis, J R Lassiter, F Balch, T Moran and C. Carter visited the area in regard to signs, trails and landscaping.

GENERAL PUBLICITY: The usual monthly travel report, schedule of ruins trips and entrance fees, appeared in the Durango, Colorado Newspapers and in those of Aztec, Farmington, Gallup, Albuquerque, Roswell and Clovis, New Mexico.

NEW CONSTRUCTION: Considerable time has been spent in obtaining labor and materials for new walks in the circuit of ruins walks. We now have materials and labor available at a cost of approximately \$200. which has resulted from shopping around, that otherwise would have cost by contract over 1 thousand dollars. District Highway Engr. T E McCarty has come to our aid with state equipment.

COOPERATING GOVERNMENT AGENCIES: New Mexico State Highway Department, San Juan Co. District Superintendent, S E Scott has most obligingly offered the use of road machinery in the construction of our new sidewalks.

MUSEUM ACTIVITIES AND EXHIBITS: We are currently in the process of changing some of the display signs and rearranging displays.

RESEARCH AND OBSERVATION: The unusual has occurred for Aztec! Altho we have observed sea gulls on nearby larger bodies of water we now can report an actual flight at about 50 feet elevation over the National Monument of 8 gulls. We were unable to identify specie. Another first record is that of the Black-throated gray warbler (*Dendrocia nigrescens*).

INTERPRETIVE SERVICE: There were 1619 visitors in 173 parties conducted thru the ruins and 2108 visitors in 265 parties shown the museum. There have been 11 school groups this May from surrounding towns in New Mexico, Colorado and Utah.

(

(

AZTEC RUINS
MONTHLY NARRATIVE
MAY 1952 - Contd.

INCREASE IN TRAVEL: There has been an approximate increase of 31% over May 1951, with 2108 visitors in 540 cars from 33 states, D.C. Alaska, Canada, England and Norway.

VISITORS: 4/27, W R Thorne and Family, Educational Specialist, USIS, Tohatchi, New Mexico.

4/28, Jim Wilson and Bob Skinner, both officers in the survival unit of the USAF, Ft Carson, Colorado. These two men climbed shiprock 4/27, and I believe they are the 4th group to have done so.

5/1, Mr. and Mrs. Harold Ratcliff Region Three.

5/4, Mr. and Mrs. Frank Casanova, District Ranger, USFS, Alpine, Arizona.

5/6, Professor and Mrs. Bertrand L. Hallward, Vice Chancellor, Nottingham University, Nottingham, England.

5/6, D S Nordstall, USFS, Asst. Regional Forester, Denver
Lee Kirby, USFS, Div. Recreation, Lands and Watershed management, Denver.

Howard Harlan, USFS, Div. Operations, Denver

Ed Wright, USFS, Forest Supervisor, Durango, Colorado.

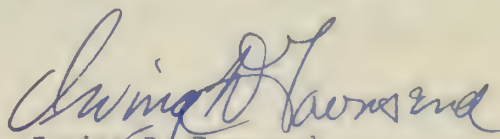

5/14, Mr. and Mrs. C L Back, Arizona Highway Patrol. Mr. Back was a former guide at Montezuma Castle Natl Monument.

5/20, Mr and Mrs. Hal Howard, radio station KGAK Gallup visited and transcribed a short talk by Ranger Maxey for use over their station, regarding Aztec Ruins and what the prospective visitor might expect to ^{see in} the Ruins.

Queen's

5/21, Mr and Mrs. G B B Hunter, Prof. Philosophy, University Kingston, Canada and Oxford, England.

It has been an interesting month with swarms of school children, numerous notable visitors and a considerable increase in the number of regular visitors to the area.

Irving D. Townsend
Superintendent

Davis

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
BANDELIER NATIONAL MONUMENT
SANTA FE, NEW MEXICO

May 28, 1952

Memorandum

To: General Superintendent

From: Superintendent, Bandelier

Subject: Monthly Narrative Report, May, 1952

Weather

The first part of May was warm and pleasant with temperatures reaching 87 degrees on the 5th. This was suddenly broken by a snow storm on the 17th. that did considerable damage to the trees and caused temperatures to drop to 30 degrees on the 22nd. and 23rd. The weather was generally unsettled for the remainder of the month with some thunder storm in the afternoons. A total of 2.15 inches of moisture was received.

Special Activities

A section of the approach road is now under construction in Ancho canyon and the Superintendent and Dr. Nusbaum with Fred Worman University of California, Shirley Bliss, Forester for the Atomic Energy Commission, and Mr. Windsor, BPR Engineer made an inspection for possible archeological sites that might be damaged. There is to be a shallow cut near only one possible site and it was not thought to do sufficient damage to warrant excavation prior to the construction of the road.

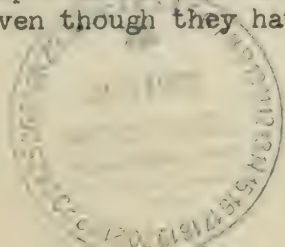

Inspections

General Superintendent Davis made an inspection of the area on the afternoon of the 22nd. and was here while the seal coat was being applied to the parking area.

Maintenance

Maintenanceman Valencia was on sick leave the entire month with a broken wrist but it is healing in good shape and he should return to duty in another two weeks.

Eleven fluorescent light fixtures were installed in the museum cases and the improvement was remarkable. The other cases are very dim by comparison even though they have twice the wattage.

Three additional picnic tables were constructed and set in place in the picnic area.

New Construction

The parking area expansion project was completed this month and now provides parking for approximately 90 cars. A new seal coat was applied to the entire parking area as well as to the new construction. The oiling was done by contract with the Lowdermilk Bros. Co. of Los Alamos, N. Mex.

Approaches to the Monument

Work was started on the construction of 1.7 miles of the approach road from the Los Alamos technical area 33 to the bottom of Ancho Canyon. The road is being built by the Atomic Energy Commission and is supervised by the Bureau of Public Roads. It will be a high standard paved road similar to that constructed last year to the west gate of Los Alamos.

Plans have been completed for the construction of a four lane highway from Totavi to the intersection of highway four and the Los Alamos highway in the Otowi section of the Monument. Mr. Tom Onstott and ranger Turney inspected the proposed right-of-way for evidence of archeological remains but none were found. Objection was raised to the elaborate traffic control system at the intersection of the two highways but it will probably have to be accepted.

Concessioners

Mrs. Evelyn C. Frey reported a total of 119 guests and 127 lodgings this month as compared with 70 guests and 77 lodgings a year ago.

Interpretive Service

There were 130 conducted tours of the ruins this month that were attended by 2022 visitors.

With no clerk on duty and with so many visitors coming to the area it was necessary for the two rangers and the superintendent to spend practically all of their time on visitor contact work. Other activities have had to be held in abeyance until some of the seasonal rangers report for duty around the first of June.

The Superintendent gave a talk on "National Park Service History" to the Professional Club of Los Alamos following a dinner at Frijoles Canyon Lodge on May 8.

Les Arnberger and Al Schroder visited the area on April 30 and gave valuable assistance in furthering the establishment of the nature trail. Mr. Arnberger helped with the identification of a number of plants and staked out tentative locations for information stations.

Museum Activities

Eleven fluorescent light fixtures were installed in the museum cases that made a considerable improvement. The fixtures were installed in the third room that contains the paintings by Pablita Velarde and they certainly bring out the colors of the paintings much better than the incandescent lighting. Fluorescent fixtures will be installed in the remaining cases next month.

Travel

With only four Sundays counted this month compared with five during last May the travel still exceeded that of a year ago. There were 5725 visitors compared with 5627 last year.

Sunday May 11 was the biggest day in the history of the Monument with 1132 visitors. The following Sunday was almost rained out so that most of the visitors came on only three week ends.

Visitors.

The following were visitors to Bandelier during May:

Los Alamos Shrine Club, 42 members, May 1
Santa Fe schools, 49 students, May 2
Ojo Calientes schools, 123 students May 2
Los Alamos Womens Club, 60 members, May 3
Santa Fe Indian School, 53 students, May 4
St. Catherines Indian School, 17 students, May 8
Professional Club, Los Alamos, 37 members, May 8
Vittorio Manunata, boy film star, Rome, Italy, May 9
St. Michaels high school, Santa Fe, 18 students, May 9
Florence Colorado high school, 33 students, May 9
Girl Scouts, Espanola, N. Mex. 34 members, May 10
Jack Dennison and his mother, California Department of Natural Resources, friend of former Director Drury, May 13
Los Alamos schools, 25 students, May 15
Ojo Caliente schools, 61 students, May 15
Allison-James school, 43 students, May 15
Espanola high school, 77 students, May 16
Leah Harvey junion high school, 39 students, May 20
Ringwood Oklahoma high school, 24 sutdents, May 20

St. Catherines school, 23 students, May 22
Santa Cruz schools, 40 students, May 22
Espanola schools, 22 students, May 22
Leah Harvey junior high school, 36 students, May 24
Los Alamos grade school, 30 students, May 27
Ford Kansas high school, 19 students, May 27

The League of Women Voters held a two day meeting at Frijoles Canyon Lodge on May 13 and 14 with 58 persons attending.

Ranger Service

Temporary ranger S. J. Thomas, Santa Fe, N. Mex. was on duty on weekends through out the month. Mr. Thomas has served for a number of years as a temporary ranger and gives valuable assistance on these pre-season weekends.

Fish Cultural Activities

Approximately 700 rainbow trout averaging about 10 inches in length were stocked in the Rito De los Frijoles on May 9th.

The fishing season opened on May 25 and a number of limit catches were reported from Frijoles.

Fire Control

A two day training meeting for fire control was held for all employees, including the concession employees, on May 6 and 7. Forester Ratcliff from the region three office was here for the second day of training and contributed a great deal to the discussions. We were also fortunate to have forester Larry Hamilton from the Santa Fe National Forest in attendance on both days. His presence helped to coordinate the methods of fire control of the Park and Forest Services.

Insect and Tree Diseases

The aerial spraying for the control of tent caterpillars was completed on May 21. 20 gallons of 25% DDT emulsion was mixed with 30 gallons of fuel oil for the spray. It is believed that a good job was accomplished although there was a light rain in the afternoon following the spraying in the early morning.

Fred W. Binnewies
Superintendent

Davis

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
CANYON DE CHELLY NATIONAL MONUMENT
CHINLE, ARIZONA

May 26, 1952

Memorandum

To: General Superintendent

From: Superintendent, Canyon de Chelly

Subject: Monthly Narrative Report for May, 1952

Visitor Travel: May travel was slightly over that for the same period last year. 355 people in 116 cars. This is surprising considering the frequent rain storms during the past 30 days. The current travel year to date shows an approximate gain of 21% over 1951. There were 62 overnight campers. Guide and contact service totaled 56 hours and 50 minutes.

Weather: Total precipitation recorded at monument headquarters was .90 of an inch for the month. Moisture was much more in the upper de Chelly water shed area where one station has recorded 21 inches since January 1 and as a result all of our retention dams are full. Past soil and moisture control work is now showing fine results. High-low temperatures ranged from 86 to 35. A moderate flow of water continues to exist in the canyon. We have had a moderate to heavy flow for the past 5 months and will probably continue for the next 30 days. Of course canyon travel by automobile is impossible.

Roads: All approach roads are in good condition. Two graders are working on the Saw Mill road and even that should be in good shape within the next 3 or 4 days. After much blading and hauling in of about 500 yards of surfacing materials the monument roads are also in good condition.

Signs: Six new informational and directional signs, all according to Park Service standards and regulations, were made and placed over the monument area. The making of more signs, to facilitate information to visitors, will be accomplished as time permits. Because of those already installed many favorable verbal comments have been received from the visiting public.

Exhibits: The wayside exhibit was completed and installed at the Spider-Rock overlook. This exhibit, complete with pictures and legend, helps materially in the interpretation of that area. Work will start soon on a similar one for the White House overlook.

Soil & Moisture Control: Work started May 19 on the construction of several masonry water control drops along the south rim of de Chelly canyon. This work will continue during the remainder of the current fiscal year.

CANYON DE CHELLY NATIONAL MONUMENT
CHINLE, ARIZONA.

Con't. from page 1.

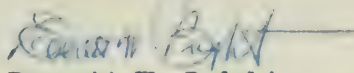

N.P.S. Visitor: Ranger Robert Zink, Mesa Verde N.P. on May 20.

Noteworthy Visitor: Henry Allanson Jr., from the Secretary of the Interior Office on May 21.

Administration: There were 21 requests by letters for information about the monument which were answered promptly.

Ranger Morris is taking a few days annual leave to visit relatives in Colorado.

Maintenance: To be prepared for a heavier volume of campers during the approaching summer months every effort has been made to place our three campground areas in readiness for these anticipated visitors, and periodic cleanups will be conducted throughout the year, or until winter months arrive.

CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

May 25, 1952

Memorandum

To: General Superintendent, SWNM

From: Superintendent, Casa Grande

Subject: Monthly Narrative Report for May, 1952.

General: The Casa Grande broke into print in a big way this month. The May 9th issue of the Plymouth Pilot-News (established in 1851), Plymouth, Indiana, ran one and a half page spread entitled "In the Old-New Southwest." The article had a few kind words for Organ Pipe Cactus National Monument, as well as the fine description of the Casa Grande. It was well written and quite correct as to detail, though we were summarized as follows (and we quote):

One may not go about these ruins without a guide--a safety measure against tourist vandals-- and these guides are expensive-- the charge is 25¢ per person.

On the local scene, Coolidge had Cotton Days which ran from the 12th to the 17th of this month. The purpose being the promotion of cotton, already the basis for the county's economy. Daily raffles were held giving away presents ranging from tire and tube sets to \$25.00 grocery certificates. There were street dances, although we heard that none of the cotton farmers did much dancing since the season is going to slow for them. And finally, a thriller of a soft ball game that Coolidge won from Eloy by a 2-to-1 score, close Cotton Days for 1952.

Weather: Summer officially began May 1st when the first 100° maximum was reached, and since that time, the weather has not relaxed for a day--if it can not make 100, then a modest 98 or 99 will do. Every windy day, even the easy breezes, had dust swirling right along as part of the wind storm. Water bags have become a standard decoration with all but the most hardy of travelers. It is hard to believe but the maximum of 59° on April 28 set a record for the low temperature for that date.

THE UNIVERSITY OF CHICAGO
DEPARTMENT OF THE HISTORY OF ARTS
AND ARCHITECTURE
OFFICE OF THE CURATOR
OF THE MUSEUM OF ARTS
AND ARCHITECTURE

CHICAGO, ILL.

1954

TO THE HONORABLE CHAIRMAN OF THE BOARD OF TRUSTEES

OF THE UNIVERSITY OF CHICAGO

AND TO THE HONORABLE CHAIRMAN OF THE BOARD OF TRUSTEES

OF THE UNIVERSITY OF CHICAGO
I have the honor to acknowledge the receipt of your letter of the 11th inst. and in reply to inform you that the same has been forwarded to the appropriate authorities for their consideration. I am sure that they will give it the attention it deserves.

Very respectfully,
The Curator

I am sure that the Board of Trustees will give the highest consideration to the proposal and will take such action as may be deemed appropriate. I am sure that the Board will be guided by the best interests of the University and the Museum.

I am, Sir, very truly,
Your obedient servant,
The Curator

| | <u>1952</u> | <u>1951</u> |
|--------------------------|-------------|-------------|
| High maximum temperature | 104° | 102° |
| Low maximum temperature | 59° | 68° |
| High minimum temperature | 63° | 63° |
| Low minimum temperature | 44° | 42° |
| Precipitation | 0.34 inch | 0.13 inch |

Visitors: The sudden rush of summer slowed down the number of visitors to the area this month, though it still shows an increase over the same month last year. There were visitors from 42 states and seven foreign countries (Canada, Norway, Great Britain, Belgium, France, Mexico, and Panama.)

| | <u>1952</u> | <u>1951</u> |
|--------------------------|-------------|-------------|
| Visitors during May | 3,103 | 2,703 |
| Increase | 400 | |
| Visitors for Travel Year | 39,437 | 31,282 |
| Increase | 8,155 | |
| Servicemen for May | 54 | 22 |

Interpretive Service: This month there were 3,103 visitors to our area. Of these visitors only 1,475 felt rugged enough to brave the heat and the insects for a tour through the ruins which lasted on an average of 52.3 minutes; there were 172 guided tours this month. About 80% of our other visitors, 1,303 of them, enjoyed the cool museum but were not up to the hot walk.

Visitors of Note and Special Groups:

- April 25 -- 17 Pima and Maricopa Indian boys of the Gila Crossing School base ball team, Gila Crossing, Arizona.
- April 26 -- 47 Students and their teachers from the 8th grade Tempe Grammar School, Tempe, Arizona.
- April 29 -- Mr. Rogers Young, Chief of Public Use Division, National
& Park Service, Washington, D.C.; and Mr. Dale S. King,
30 Naturalist, Southwestern National Monuments, Santa Fe,
New Mexico.
- May 7 -- Ranger and Mrs. William Featherstone, and family,
Tumacacori National Monument, Arizona.

60 members of the L.D.S. Church, Coolidge, Arizona

May 14 -- Superintendent and Mrs. J. W. Emmert, Glacier National Park, Montana, and Mrs. Emmert's sister, Mrs. Grover V. Caster.

The Adamsville Site: The personnel here on the monument have been keeping a rather close watch on the Adamsville site for years in the hopes that "pot robbing" could be prevented. During the past winter a local farmer has brought up the land adjacent to the Adamsville site and is building a cotton gin and shopping center there. It appears to us that the days of easy control over the site are rapidly coming to an end and that the posted signs will become some of the "relics" that the various raiders will carry away.

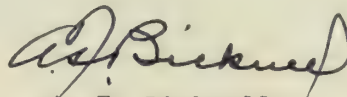

Administration and Protection: After four months of personal interviews, telephone calls, reams of correspondence, and patience the easement across the Moore and Moorhouse property has finally been completed and submitted; with great relief at this end.

There were 10 requests for information which were handled promptly; one of these requests was for information which would be of assistance in the formulating of a radio script, this request was from Mr. John Snow, News Editor for KTAR, Phoenix, Arizona.

Maintenance: Prior to his departure on annual leave, Mr. Mack, our maintenanceman, has been busy trying to get the area in good shape for the period of his absence. The drainage along the primary road was cleared and the shoulders of the road were built up. Weeds along the trails and in the ruins were cut down and raked up. The stoves were removed from the houses and buildings, cleaned, and stored for next winter, which at this point seems very far away. Several electric motors in the wood working shop were cleaned and put in good working order.

Personnel: It has always been of concern to those of us here what happens when a person has to talk loud and long for any length of time; we found the answer when Ranger Clancy's voiced failed and the doctor put him on a strict no talking treatment for a week. But Jim recovered most of his voice and was back to work after the week of silence.

Cactus Blossoms: Most of the blossoms are a thing of the past. The staghorn cholla and the cane cholla made a good showing which lasted a thin ten days. One saguaro made a good attempt at showing all our sterile saguaro that blossoms were possible when it raised a baker's dozen blossoms for display. (Last year none of the monument's saguaro bloomed.)

A. T. Bicknell
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Chaco Canyon National Monument
Bloomfield, New Mexico

May 25, 1952

Memorandum

To: General Superintendent

From: Superintendent, Chaco Canyon

Subject: Report of activities at Chaco Canyon National Monument during the month of May, 1952.

Weather Over an inch of rain this report month made the roads muddy and has left them very rough. A total of 1.06 inches of precipitation was received with traces of snow on April 28 and May 17. The maximum temperature was 84° on May 13 and the minimum was 28° on May 23.

Administration Considerable time has been spent on Master Plan work. The first draft submitted was considered too lengthy and revisions are being made.

Personnel Ranger Elmore's transfer to Yellowstone National Park has been approved and he expects to leave on May 28.

Visitors and Public Use There were 329 visitors who came in 84 cars. Forty-four groups with 259 people were guided through the ruins and there were 299 people in 59 groups in the museum. Forty people camped over night.

Maintenance and Improvements New glass was fitted into a back bedroom window in Residence No. 1. Faucets at the newly installed sink in this residence were faulty. These were removed and replaced.

The engine has been removed from Well No. 2 and efforts are being made to fit it with a larger pulley and adapt the mounting brackets so it can be used at Well No. 1.

The bearings went out of a front wheel on the dump truck and these were replaced.

Lightening burned out the telephone fuses on May 17 and after a week without telephone, new fuses were located.

Ruins Patrol Visits were made to Tsin Kletsin, Kin Klizhin, Kin Binioba, Shabikeschee Village, and Kin Yaah. On the road to Kin Yaah there was some very recent digging but apparently outside the protected area.

New Construction Work on the two new residences is completed except for installing stoves and refrigerators and propane regulators. The stoves have been received and we have been notified that one refrigerator is in Farmington.

Rough grading to specifications was done around the residences with a bulldozer. This work was finished with the motor patrol grader.

Underground electric cables were laid from the generator shelter to each residence and final connections are to be made.

Roller type window shades were installed in all windows except those in the bathrooms where Venetian blinds were used.

Clothesline supports have been installed at Residence No. 6 and the pipes have been cut for Residence No. 7.

Roads and Trails Weeds were removed from all the area inside Bonito and from the Great Kiva at Chettro Kettle.

The monument road was bladed from boundary to boundary and the rocks thrown out.

Soil and Moisture Control Low spots in Dike No. 15 were raised with a bulldozer and "thank-you-mom" dams were made in the spill area of the dike below the South Gap.

A run of water in the Chaco Wash revealed where improvements were needed in newly installed jetties and these were made.

Two washed out water gaps (drops) were repaired near Mungo Pavi Ruin and repairs were made on the sausage dam below the bridge.

Interpretation Ranger Elmore reviewed on the ground the plans for a self guiding trail at the Bc sites.

The horizontal museum cases were cleaned with a vacuum cleaner and the tops fitted with hinges to facilitate further cleaning.

Supplies and Equipment Fire lines were hooked up at each new residence. Fire hose and fittings have been purchased and hose shelters are to be made.

Publicity Mr. and Mrs. Hal Howard from radio station KGMH, Gallup visited the monument on May 16 and made a tape recording for use in directing tourists to the monument.

National Park Service Visitors Messrs. Davis, Lassiter, Miller, Moran, Carter, and Balch arrived on April 30 to spend two days walking out the routes of proposed roads. Most of the stakes were found along portions of the proposed north entrance road although it was staked out twelve years ago.

Dale King and Rogers W. Young arrived on May 8 for an overnight visit.

Mr. and Mrs. Winbourn, maintenance man, Arches brought a light plant from Casa Grande.

Tommy Onstott stayed over night on May 20. He brought our new stoves and reviewed boundary problems.

Superintendent and Mrs. Bright from Canyon de Chelly arrived on May 18.

Newsworthy Visitors Mr. Frank McNitt camped on the monument for a week and made detailed studies of several kivas. He is the editor of the Westwood, California, Village Newspaper.

Fred Wendorf and Edwin N. Ferdon Jr. stopped for a short visit on May 5. Later Mr. Ferdon returned with his family for an overnight camp. Both from the Museum of New Mexico, Santa Fe.

Sallie Brewer of the Regional Office and Mr. & Mrs. Per Guldbeck were here on May 11. Mr. Guldbeck was a former seasonal ranger at Mesa Verde National Park and now is with the Museum of International Folk Art, Santa Fe.

On April 26 Glen Evans and Carl Chelf from the State Museum at Austin, Texas.

Two foreign visitors this month - a Mr. Boilla from Hungary and a Mr. Valdburg from Germany.

Mr. and Mrs. Vincent Price of Beverly Hills, California visited us on the 13th of May.

Miss Mary A. Cooke of Lincolnshire, England, who is teaching in the States on an exchange fellowship for the Indian Service dropped in for a trip through the ruins on May 19.

NATIONAL PARK SERVICE
Chiricahua National Monument
Dos Cabezas, Arizona

May 28, 1952

Memorandum

To: General Superintendent
From: Superintendent, Chiricahua
Subject: Superintendent's Monthly Narrative Report

Weather: Practically no rain has fallen this month. This is to be expected as May averages the driest month of the year at Chiricahua.

Maintenance. Routine maintenance has been let slide for a while and all available help has been given to the special road oiling project. Gravel has been crushed and practically all of it spread on the road. It is thought that the gravel and road can be shaped up with the grader within the next two weeks and that oiling can start then. Engineer George Smith has spent most of the month here supervising the road work.

Approaches to Monument. All approach roads are in fairly good condition, although the dirt and gravel ones are rather dusty.

Interpretive Service. 1505 visitors were contacted in the museum in 398 parties. An estimated 200 people made use of the new Passai Point Nature Trail.

Research and Observation. A wild turkey gobbler was seen by Ranger and Mrs. Benson near the back of their residence. This is the first turkey observed on the monument in over a year.

Engineer George Smith reported seeing a coti mundi along the monument highway. This is the first one that has been reported on the monument although they have been seen a mile or two south of the boundary.

Increase in Travel. 1780 visitors came to Chiricahua this month compared with 1453 for May of last year or a gain of 22%. The travel year total is now 11131 which is 17% ahead of 1951 at this date.

Visitors. Mr. and Mrs. Weldon Peald paid Chiricahua a visit on May 23. Mr. Peald is a writer of outdoor, conservation, and natural history subjects, and was here gathering data for another article on Chiricahua. He has written several articles on this monument in the past.

Mr. and Mrs. Devereux Butcher stopped at Chiricahua while making their Arizona trip and stayed on our campground from May 12 to May 15. While here they made the Heart of Rocks and Echo Canyon hikes and went to the Heald home in Cave Creek to discuss National Park writings with Mr. Heald.

Forest Fire Protection. Mr. Don Boileau who has been working here as a road laborer for some time was transferred to the position of fire control aid and went to the Sugar Loaf Lookout on May 14. This is the latest date that we have let the lookout go unmanned, but felt we were fairly safe due to late spring rains and green vegetation. The Forest Service had a fire, started by lightning, south of the monument on May 26.

Miscellaneous. It is noted that last month's general SWNM report told of two superintendents having received compliments for having the cleanest rest rooms seen by certain tourists. Chiricahua has also received several such compliments, but we are not going to claim the championship until we hear from Superintendent Charlie Sharp of Tonto.

Clair V. Cooke

Clair V. Cooke
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
May 26, 1952

Memorandum

To: General Superintendent

From: Superintendent, El Morro

Subject: Monthly Narrative Report

This month, in spite of the gasoline strike and a severely cold and wet May, we had 375 visitors which is 35 per cent better than a year ago. These people came in 104 automobiles. 293 of them formed 64 parties around the Rock, 113 of these visitors received an orientation talk in 40 parties, and 90 persons went over the top of the Rock in 21 parties.

The coolest this month was 28 degrees and the warmest was 80 degrees Fahrenheit. There was .61 of an inch of moisture.

The approach roads were wet and slippery for part of the month. The Monument roads were not graded as the grader operator has been in the hospital. Four top ranking State Highway Engineers were in making a preliminary survey towards still more improvements on our approach roads. The new stretch, near Grants, should have been oiled during the last 30 days, though we have not been over it to see.

The technician came by and spent a good part of a morning putting one of our light plants back in shape. The man detects the troubles as quickly as if they were written down before him and it is a marvel to see him work -- he never makes a false move.

The water was reported unsafe last month, the first time since this superintendent has been here. As we have an open cistern with people above it and it may be heavily contaminated at any time, the State Health Officer recommended that the whole family take typhoid shots, which has been done. He advised us on making the water safer temporarily. We have had three reports since then, all satisfactory, and we are continuing to send in weekly water samples.

An interesting visitor was Mr. Ray Albright who claims the dubious distinction of having fallen off the Rock in 1928, breaking his shoulder and

other bones. He brought his wife by and showed all of us where he started, but as he was knocked unconscious, he didn't know just where he lit. At the time of the fall, he was taking a little time off from the construction of the transcontinental telephone lines which pass within a few hundred yards of the Monument.

The REA engineers came by setting the stakes for the pole sites, and set most of them EXACTLY where we had requested them.

Willard Bradley was out several days surveying the new road site. Cal Clawson and Alden Lambson helped him on the job. Carl Alleman was in for a few hours, on a quick trip, regarding the new road.

Cal Clawson entered on duty as Seasonal Ranger on May 15. Cal has done some mighty good work out here and we were happy to see him get the ranger appointment.

John Bryson, photographer for Life magazine, stopped by for a few hours and took a few pictures for his story on Coronado's trip.

Rogers Young, from the Washington Office, with Dale King enjoyed a trip around the Rock and over the top.

El Morro had a full page spread in the Madrid newspaper Arriba.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Gran Quivira National Monument,
Gran Quivira, New Mexico

May 25, 1952

Memorandum

To: General Superintendent

From: Superintendent, Gran Quivira

Subject: Monthly Narrative Report for May 1952

Weather. Some high wind was received this month but temperatures were pleasant with an average of 79 degrees maximum and 44 degrees minimum. One light rain amounting to .04 inches was received.

Special Activities. The Superintendent's section of the Development Outline was prepared in rough draft and submitted.

The Torrance County Singing Convention held it's annual meeting in the village of Gran Quivira on April 27. An estimated 100 persons attended most of whom visited the monument.

In the first of what is hoped will be an annual affair, former residents of Gran Quivira village and vicinity, the "Old Timers", met for picnicking and reminiscing at Gran Quivira's community hall and monument headquarters. This group gathered on May 18 and an estimated 60 persons were present. Many of them are presently living in California and Texas and while most arrived by automobile one family flew in in their small cabin plane. Disappointingly, no Piro Indians returned for the homecoming.

Mrs. Tom Charles of Alamogordo and the Alamogordo Chamber of Commerce sponsored an auto caravan to the monument on May 25. This group numbered 75 people who used monument facilities for picnicking and were provided with a conducted tour of the monument features by the Superintendent.

Visitors. Mr. Kenneth Fearse and Mr. Elbert H. Reid, U.S.F.S., Range Experimental Station, Tucson, Arizona.

Mr. and Mrs. Art Gilmore, Santa Fe.

28 members of the Geology class, School of Mines, Socorro.

Maintenance and Rehabilitation. New sink covering was installed in the residence kitchen and the bedroom, bath, and living room were cleaned and painted. The 33 rooms in the Indian house, the Kiva, and both missions were raked out and cleaned, and the mission area was sprayed with weed killer. Both monument vehicles were serviced and the residence water pump cleaned and serviced. Routine road and trail maintenance was carried on all month.

Publicity. Monthly travel figures were mailed to local newspapers.

Several articles publicizing the monument and the Alamogordo Chamber of Commerce Tour to the monument were published in the EL PASO TIMES and the ALBUQUERQUE JOURNAL.

Approach Roads. The main approach roads were in good condition most of the month.

Travel. With several large groups visiting this month travel exceeded that received for May of last year by 60 percent. 404 persons in 116 cars were recorded. Travel to date for 1952 exceeds 1951 travel by one percent.

Interpretive Services. Two groups were given brief talks in the museum during the month. Conducted trips were given to 282 persons in 49 parties for an average of 49 minutes per party. The self guiding trail was used by 122 persons in 36 parties. 344 persons were contacted and 336 of these visited the exhibit room.

Ray E. Ringenbach
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

GREAT SAND DUNES NATIONAL MONUMENT

Alamosa, Colorado

May 30, 1952

Memorandum

To: General Superintendent
From: Superintendent, Great Sand Dunes
Subject: Superintendent's Narrative Report for May, 1952

Weather Conditions

Showery cool weather with 8 days of high winds did not seem to deter visitors to the monument as visitation increased almost 38% over May of 1951. The maximum temperature recorded was 75 degrees on May 5 and 14 and the minimum was 28 degrees on May 19. The many showers brought a total of 1.07 inches of precipitation.

Special Activities

I attended the Alamosa County Chamber of Commerce meeting on May 5 at which the members of the Moffat-Hooper-Mosca Service League were special guests.

On May 12 I took Mr. E. F. Smith, District Water Commissioner, up Medano Creek to inspect the diversion and ditch which takes water from Medano Creek over the divide to Bruff Creek.

Inspections

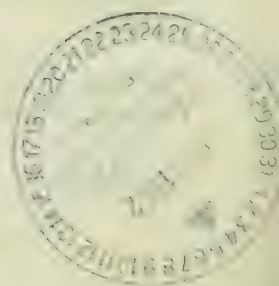

Naturalist Les Arnberger visited us on May 21 and 22. Les always helps us out in a great many ways--more than he probably realizes.

General Publicity

A news release I sent out on May 1 when Medano Creek started running past the picnic ground was given wide publicity by San Luis Valley, Pueblo, and Denver newspapers.

Maintenance and Rehabilitation

The project for rehabilitation of patio walls and residence

was completed with the erection of the rear patio wall and replacement of the hideous eyesore between the garage and office with a neat block wall 40 inches high. The corners of the office and garage which were exposed by the removal of the old wall were patched and stuccoed. Gates for these walls were built and hung. The holes in the walls of the utility porch were patched and plastered. Funds in this account are all expended.

The approved plans for the bulk propane system were not received until a couple of days ago. This project will be our number one priority job this month.

The exterior woodwork on the office and along the front of the house was given two coats of paint.

The entrance road was graded twice and has been in good shape until this week. Heavy travel and drier weather conditions have combined to put it into its usual rough condition. Six more loads of gravel were hauled into the Lower Parking Area.

Picnic area cleanup took a great deal of time because of the increased travel. Ten large school groups held picnics here during the month to add to the cleanup problem.

Approach Road

The approach road has been in fair shape except for a stretch of about a mile which has been covered with irrigation water for the last two weeks.

Interpretive Service

A great deal of time was spent during May talking to visitors. The day Les Arnberger was here, however, we didn't have a single car-- the next day we had two large school groups and a number of out-of-state cars. Sometime, you can't win.

Nothing further was done on the Nature Trail due to the press of other duties. The herbarium specimens were used several times, however.

Five talks were given to outside groups during the month. These talks were all given with the 16 mm. movies on Sunset Crater and Flowers of the Sonoran Desert from your office. These groups were the Alamosa Lions Club, the San Luis Valley Fireman's Association (also using the film on Fighting Grass and Brush Fires), ~~Alamosa~~ ^{Cottonwood} Rotary Club, Alamosa Kiwanis Club, and the Alamosa County Farm Bureau for a total of 221 people.

Research and Observation

Vegetation has been about two weeks early in its growth this spring and nine new species have already been collected for the herbarium.

Increase in Travel

The May travel of 1488 persons was about 38% greater than that of May of 1951. This leaves us only 9 visitors short for the travel year in spite of the great drop in travel during the winter. This increase came in spite of the stretch of approach road covered with irrigation water from adjoining fields. A great many people have turned back during the last week because of this.

Visitors

School groups holding all-day picnics at the monument during May were Carmel School, Hooper High School, Woodland Park High School, Ft. Garland High School, Walsenburg Junior High School Vocational Students, 4-H Clubs of Del Norte, St. Mary's Letterman's Club of Walsenburg, and the San Luis Institute of Arts and Crafts. The Canon City Geology Club also held an all-day picnic here.

The Forest Recreation Students of Colorado A. & M. were here on their annual field trip. I spent about three hours with them discussing monument problems etc.

Bert Baker, Big Game Technician for the Colorado State Game and Fish Department was here on May 20 making an inspection of the vegetative conditions.

Personnel

Mr. Robert E. King of Alamosa entered on duty as seasonal ranger on May 28. Bob, whose father was the last postmaster at Montville on Mosca Creek on the monument, was hastily recruited when Silver R. Jaramillo had to suddenly decline the position when he accepted a winter job requiring him to report on July 1. Bob has been initiated in typical National Park Service style--he was graduated magna cum laude on May 27 from Adams State College and was cleaning Great Sand Dunes restrooms on May 28.

Mrs. Bean and I are the proud parents of a 5 lb. 8 oz. baby girl born on May 21. Christened Laurie Ruth, she is already called "Sandy" by our fascetious friends.

Glen T. Bean
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Montezuma Castle National Monument
Camp Verde, Arizona

May 25, 1952

Memorandum

To: General Superintendent

From: Superintendent, Montezuma Castle

Subject: Monthly Narrative Report, May 1952

Weather: For the most part, it has been excellent. Days have been warm and dry, but not too hot. Heavy winds occurred a few days the latter part of the month.

Travel: Travel remained steady throughout the month. 2,731 people in 840 cars visited the Castle, and 1,536 people in 541 cars went to the Well. This makes a total of 4,267 visitors to the area and is an increase over last May. Many large organized picnics at the Well caused travel figures for that area to show a definite increase.

Interpretation: The museum at the Castle was kept open from 8:00 a.m. to 5:00 p.m. daily except on Sundays when it was attended until 6:00 p.m. In addition to seeing the museum, about 1200 people received interpretive service at the Model, and almost all visitors to the area walked the Sycamore Trail.

An article entitled "The Bak Room of the National Park Service" written by Lloyd Pierson appeared in the May edition of the Saguaro Land Bulletin.

Official Visitors: On April 25, Mr. Glen Haynes and wife arrived for the purpose of taking official pictures of the area.

On May 4, Messrs Dale King and Rogers Young visited the monument for the purpose of studying the interpretive setup for the area. Theirs was a most satisfactory visit, and some good ideas for improving interpretive service were advanced.

Carl Alleman stopped by on May 16 to lay out the new spur trail to the outlet of Montezuma Well.

Roads and Trails: The paved entrance road at the Castle was patched and all drainage ditches cleaned. The campground road was graded and the shoulders raked to improve its appearance. The entrance road at the Well was also graded this month.

The new sections of trail at the Castle were given a second

Page 2:

coat of bitumuls. These trails are now considered complete.

On the 13th. work was resumed on the Montezuma Well Loop Trail. The section up the hill from the parking area was widened to uniform width and given a coat of bitumuls. Work is now progressing on the spur from the Loop Trail to the Well outlet.

Maintenance and General Work: The outside woodwork to Residences No. One and Two was given a coat of linseed oil. The small paint shed was stained on the outside.

A new switch and meter box were installed at the Well to separate electrical power used for pumping water from quarters operation.

The irrigation ditch which serves the Well residence was cleaned and placed in service.

Observations: Birds are again very plentiful at both the Castle and the Well. Bullock's Orioles, Black Phoebes and many others are especially abundant. Of local interest was a pair of House Finches who raised successfully a brood of five in a cholla next to the Well museum.

Art White writes in his report the following: "Flowers of The Southwest Desert and Flowers of the Southwest Mesas have proved extremely efficient and valuable as aids in identifying the many flowers at the Well this month."

Local Items: Montezuma Castle was well represented in the annual Verde Valley Follies held this month in Cottonwood. Camp Verde featured a musical program entitled "From the Castle of Montezuma" with the cast in Indian Costume. Bee Cook was in the chorus and Tee presented a couple of authentic Indian dances accompanied by the drums and chants of John Jr. and Art. White. Art taught Tee the dances and also furnished the costume.

Following their successful show at Cottonwood, the boys were asked to present their program at the Verde Valley Pioneers picnic and to the disabled veterans at Fort Whipple in Prescott.

Lloyd Pierson was elected Secretary and Treasurer of the Camp Verde Lions Club.

Harvey Koller was called to Minnesota during the month because of the death of his brother. Following his return, Koller was entered on duty as seasonal ranger effective May 18.

John O. Cook
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Navajo National Monument
Tonalea, Arizona

May 25, 1952

Memorandum

To: General Superintendent
From: Superintendent, Navajo
Subject: Monthly Narrative Report for May 1952

Travel: We have had more visitors to the area this May than any previously recorded May. The previous May high was 102 people in 1950. Our visitation for this month was 138 people in 42 cars. The average number of persons per car was unusually high for this area, being nearly 3.3.

Weather: This has been a typical May with nice clear days prevailing. A few days of high wind and a light snow fall on the 16th were not considered unusual but just unpleasant. The low for the month was 29degrees, the high 80 degrees and a total precipitation of .24 of an inch was recorded.

Roads: The approach roads are in better than average condition. Some work has been done with the grader and a crew of men are hauling fill for the road and cutting drainage ditches to divert the water runoff. The previously hauled fill has been washed away due to the lack of proper drainage. We know we are not going to take care of all the runoff but at least we hope to improve the situation.

Two truck loads of wood chips were hauled and placed on the sandiest stretches of the road. Most of the directional road signs and area signs have been repainted.

Museum Activities: We have begun work on the museum exhibit with additions being made as they are completed. With a minimum amount of space we have planned a prehistoric Pueblo Indian crafts display, a modern Navajo ethnological group, and a Rainbow Bridge exhibit with photographs and charts.

Navajo National Monument
Tonalea, Arizona

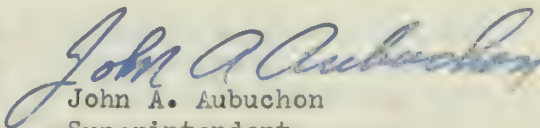

General: One generator was hauled to Tuba City for repair. The gasoline pump was dismantled and cleaned. One broken part of the gasoline pump had to be welded before the unit could be placed in use again.

A new radio antenna was made and placed in position to be used when the radio is moved to the area office.

Special Visitors: Mr. and Mrs. R. P. Kratz, of Los Angeles. The Kratz' are the parents of Mrs. Louis G. Kirk, wife of Ranger Kirk, newly stationed at Organ Pipe Cactus National Monument.

Mr. F. J. McCavitt, U.S.G.S., was a visitor to the area on official business. He wished to establish the identity of a big ruin appearing on one of the contact prints the U.S.G.S. is using to map a portion of the country north of here. No identification was possible. This is a "new" ruin or there is a discrepancy in the U.S.G.S. survey and the survey made when locating Keet Seel. We have been promised copies of their contact prints with the ruins spotted on them. The U.S.G.S. men use a helicopter and have discovered several ruins that have never been reported before.

Personnel: Mr. Hubert Laughter entered on duty as Seasonal Ranger May 20th. One of his first jobs involved giving a local Navajo family a Park Service pep talk re: keeping the area clean. It resulted in the entire family graciously turning out to pick up tin cans along 3 miles of our entrance road.

John A. Aubuchon
Superintendent

Organ Pipe Cactus National Monument
Ajo, Arizona

May 25, 1952

Memorandum

To: General Superintendent
From: Superintendent
Subject: Monthly Narrative Report, 1ml for May 1952

Weather

As summer approaches days have been gradually warmer. High for the month was 102° on the 12th, with a low of 45° on April 29. No rain fell during this period and the desert is drying very rapidly.

General

With the decrease in travel more time is now being spent on maintenance and construction projects.

Inspections

Landscape Architect Alleman was here on May 14 for inspecting and rendering assistance in the campground work.

Construction

The bulk gas system was completed this month with all residences tied into the system.

The campground work is progressing very well and all drives are now cleared and ready for rock removal and final grading and graveling. We were able to contract for drilling and blasting on the rocky sections of the approach road so we will soon be able to complete grading on this section.

Work on the Soil and Moisture program was started with controls being graded. Seeding will start this week and will be completed during the coming month.

Research

With the coming of warm weather research was again started on our reptile studies.

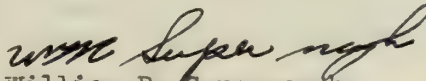

Several insects were collected and mounted for the study collections.

Another interesting record was established this month. Some time back a very interesting rock was collected by the Superintendent and a visiting professor from Texas Western College offered to identify it. His report shows it to be Elpidite, which is unique since the only other known deposit is in Greenland.

Personnel

Supervisory Ranger Robert S. Leding was transferred and promoted to Administrative Aid, Grand Canyon National Park, and left May 1.

This vacancy was filled by the arrival of W. Dean McClanahan from Petrified Forest on May 14.

William R. Supernauth
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

May 25, 1952

Memorandum

To: General Superintendent

From: Superintendent, Saguaro National Monument

Subject: Monthly Narrative Report, May 1952

General

Variable weather prevailed for the month of May at Saguaro. During the early part of the month the day time temperatures were high but moderated to cool during the latter part of the month. On May 5 and again on May 17, lightning storms of light intensity occurred over the Rincon Mountains. These unseasonable storms may be indicative of an early fire season in Southern Arizona. Substantial travel increases over the month of May 1951 seem to indicate that a greater number of people will be visiting the Southwest than in former years.

A new travel record for a single day was established on May 18, 1952, when 1,820 persons visited Saguaro National Monument.

The display of flowers on various species of cacti was outstanding throughout the month, culminating with the finest display of blossoms on the Palo Verdes since 1941. The first Saguaro blossoms made their appearance on May 8, and they should be plentiful by the first week in June.

A great deal of interest in the large Saguaro at Madrona Ranger Station was evidenced by the fact that 79 persons made the trek to Madrona during the month.

Special Activities

Messrs. Rogers W. Young and Dale King, April 26, made an inspection of interpretive devices and media.

George Smith, Highway Engineer, discussing plans for the new headquarters road on May 17.

Devereaux Butcher, May 15, getting data and taking pictures for a future article on Saguaro National Monument to be published in the National Parks Magazine.

. Messrs. Harvey Cornell and Charles Carter, inspect loop road through the Cactus Forest relative to reduction of vertical grades at several points.

Status of Private Lands

A check for payment on the Chamber of Commerce well property was received and presented to Mr. Ed Goyette of the Tucson Chamber of Commerce. This completes all phases of the acquisition of the important private lands in Saguaro National Monument.

Maintenance

The trail crew repaired that portion of the Cow-Head Saddle Trail between the experimental plot and the summit. This was a much needed improvement as the trail was almost impassable in places. That portion of the Manning Camp- Madrona Trail for a distance of $2\frac{1}{2}$ miles above Grass Shack was also repaired.

Many dead trees were removed from the patrol loop trail and various spurs out from Manning Camp.

The entire telephone line (grounded circuit) was smashed to the ground on account of dead trees falling across it, and had to be repaired completely. All phones are in working order at this writing.

New Construction

Construction of the water system was started on April 29. Some 8,000 feet of pipe line trench was dug to a depth of three feet at a cost of \$.051 per foot. All of the pipe has been installed except a 20 foot section to connect with the existing system at the present headquarters. The storage tank was buried and man-hole constructed at the southwest corner of the proposed new utility area. Installation of the tank was impeded by the tough digging encountered in the caliche formation.

The walls for the pump house were erected on May 17. We plan to build the roof over it after the pump and various connections have been installed.

Back-filling of excavated materials from the pipeline trench is being accomplished by hand labor; which is both expensive and slow. To accomplish this work with a bulldozer or other mechanical equipment would entail destruction of a tremendous amount of vegetation.

Approaches to Park Area

Both Houghton Road and the Spanish Trail were bladed during the month and are in good condition. Road signs were placed on the Spanish Trail Road leading from Broadway to the Monument, thus encouraging more traffic over the new road.

Interpretive Services

A total of 3,490 visitors in 990 parties were afforded interpretive service at headquarters. This amounted to a total of 211 hours for an average of 12 minutes per party.

Museum Activities

Fifty plant specimens were collected and pressed for the herbarium collection by District Ranger Steele in the vicinity of Madrona Ranger Station. Identification of these plants was accomplished by C.L. Fouts of Ajo, Arizona. We expect to mount these specimens during the winter months.

Observations

Two adult Javelines were observed at Station #21 on the loop Road on May 15. Devereaux Butcher of the National Parks Association stalked these animals for some distance and obtained several photos of them.

Several Gila Monsters were observed by visitors at various points along the Loop Road during the month. Mr. Butcher also obtained pictures of one of these reptiles.

An American Badger (*Taxidea* spp.) , killed on the road outside the monument, was taken to Dr. Broadbooks at the Univ. of Arizona to be made into a study skin. Dr. Broadbooks commented that it was the finest specimen he had been able to secure.

An influx of Soldier Beetles (*Tegrodera erosa*) was noted throughout the cactus forest during the month. They are apparently feeding on the petals of various flowers, but no extensive damage has been noted.

Increase In Travel

A total of 6,899 persons visited Saguaro National Monument in May. This is a decrease of 1,031 visitors from last month but an increase of 3,454 persons over the corresponding month one year ago.

Travel increases are the result of a growing interest on the part of Tucson residents.

Publicity

The Arizona Daily Star of May 17 carried an account of the Palo Verde Festival, culminating with a trip through the Cactus Forest in Saguaro National Monument.

The area received some excellent publicity in the May 22 edition of the Arizona Daily Star (copy attached) concerning the final payment on the purchase of the Chamber of Commerce Well property and the consummation of acquiring the principal private lands in the monument.

Accessions

A Model 60 Schramm Tractor-Crawler Unit was delivered to Saguaro on May 23. Supervision of unloading and servicing was conducted by a representative of the Neil B. McGinnis Equipment of Phoenix. The crawler was put to work immediately backfilling the water line trench.

Visitors

- Apr. 26- Messrs. Rogers W. Young and Dale King, National Park Service.
- " 30- Gilbert Wenger and wife, Tonto National Monument
- " 30- William Featherstone and family, Tumacacori Nat. Mon.

- " 16- Harvey Cornell and Charles Carter, Region Three Office.
- " 16- George Smith, Highway Engineer, Region Three Office.

Ranger Service

Ranger Zerbey attempted to attend the Indian Service Fire Conference at Point of Pines, but was thwarted by King Mud and had to spend a night on the road. The conference was cancelled on account of poor road conditions and inclement weather.

District Ranger Earl Steele spent the entire month supervising the fire protection program in the Rincons.

Forest Fire Control

Willis Carter entered on duty as Fire Control Aid May 7, 1952.

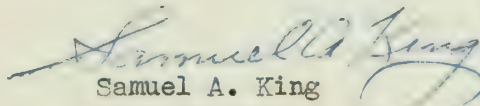

The various fire tool caches were supplied and made ready for the ensuing fire season.

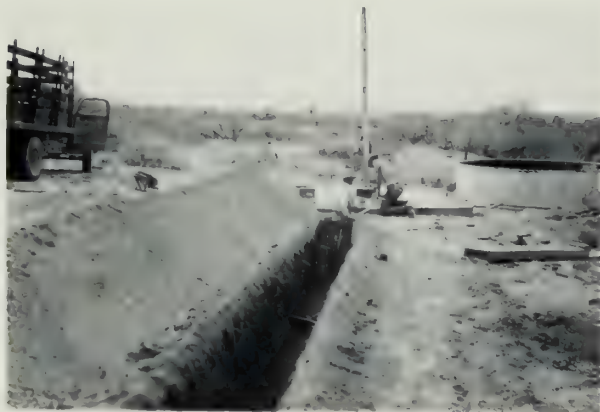

Regular patrols were started on May 11 and fire weather data compiled beginning on the same date.

Both UHF radio sets developed trouble in the transmitters and were sent to the shop for repairs. Both are now back in operation and work extremely well. Weather information from the lookout on Mt. Bigelow was relayed through headquarters while the sets were being repaired.

Personnel

More difficulty has been experienced this year in securing competent laborers than in previous years. After a thorough screening by personal interview and apprising the prospective employee of the contingencies, they accept the position, only to resign in a few days.

Palo Verde Festival Highlights Listed

A tour over the Old Spanish Trail, through the palo verde covered foothills to the Saguaro national monument, will highlight next Sunday's concluding program of the 1952 Palo Verde Festival, according to Mrs. W. A. Jackson, who was instrumental in founding the event in 1935.

Those wishing to make the tour should congregate at the parking lot east of the university auditorium, from whence the cavalcade will depart at 4 p.m., Sunday, May 18.

There will be a stop at the home of Muriel Strode Lieberman to see 35 oils done by Mrs. Lieberman's sister, Joan Cromwell.

From there the group will proceed to the monument, where a custodian will identify desert

flora, now at the height of its spring blooming period.

A full afternoon program is also contemplated at the state museum on the university campus, according to Mrs. Jackson. It includes:

A talk by a museum attendant at 2:45 p.m.

A discussion of Indian lore at 3 p.m. by Evelyn Bentley.

Reading of poems by the Rimers club members by Beulah Wadsworth at 3:15 p.m.

A visit to the library at 3:30 p.m. to see the Kress collection.

A student recital, scheduled for 4 p.m. at the university auditorium.

Hostesses for the tour, besides Mrs. Jackson, are Mrs. M. H. Starkweather, Mrs. Katherine Sutherland, Mrs. Edward Hayden and Mrs. M. L. Reid, all members of the Desert Garden club.

News Section

The Arizona

PL 111

NO. 143

TUCSON, ARIZONA, THURSDAY

Saguaro National Monument Is Sure Thing Now

S. Buys up Property To Assure Permanent Recreation Area

Government purchase of land in Saguaro National Monument which will assure permanency of future development of the area, has been completed, it was announced yesterday.

Sam King, monument superintendent, has received federal funds in payment for the land. King presented the Tucson chamber of commerce with a check for \$2,900 in payment for 10 acres one mile west of the monument, which has the best cactus in the area. This land was leased by the chamber back in 1925 to further development of the monument and the cactus forest. The purchase was designed as the chamber's contribution to the cause.

Lands Secured

After 14 years of effort on the part of the chamber's Saguaro monument committee, other lands owned by private interests within the monument have been secured. Money for the purchase was provided by Congress through efforts of the Arizona congressional delegation. Plans to purchase the lands were initiated by the chamber of commerce about four years ago.

King explained that grazing in the portion of the monument in the Rincon mountains will continue through the life of present owners of lease. But government will now be able to develop the cactus forest area. King said that negotiations are under way to exchange state lands that section for other national lands and may be completed within the present fiscal year, or not later than Jan. 1.

Contains Well

The chamber of commerce purchased property containing the water well in 1938 for \$1,200. This was done to assure adequate water for the monument area. Anticipating purchase of this property by the government, King said that 100 feet of pipe have already been laid into the monument area, and that the pump will be installed soon. With adequate water assured, a new residence has been built in the area, and another will be built next year.

The chamber has also arranged to satisfy claims of cattlemen for improvements they placed on land within the monument which the government has now purchased. The money received for the Baker and will be used for this purpose. E. Goyette, manager of the chamber, said yesterday.

Paradise of Blooms

Saguaro Monument, located just west of Tucson at the foot of the Rincon mountains, contains the largest stand of spectacular Saguaro cactus forest in this area. It is a paradise of desert bloom at its season of the year and is attracting thousands of visitors.

Last Sunday, King said, more than 1,800 people visited the monument by actual count. Already this year 47,000 people have been in the area, and the number is expected to reach 60,000 by the end of the season Sept. 30. Last year the number was 40,000.

With all of the 61,000 acres of the monument in complete possession of the government, King said, the National Monument Service can develop the area, protect adequately the cactus forest and can provide recreational facilities. King envisions a road through the monument to the top of the Rincons, where a picnic area can be developed sometime in the future.

Cites Hard Work

"The consummation of land purchase for the monuments," King stated, "indicates what can be done through community effort. The chamber committee has labored diligently and has brought together the various people and interests in cooperation to make the Saguaro Monument a reality in Tucson."

The Saguaro Monument committee of the chamber of commerce was activated in 1938. At that time the monument officially presented the chamber with the problem of securing all the land within the monument in order to protect the

Discussing plans for the Saguaro National Monument are, left to right, C. Edgar Goyette, Tucson chamber of commerce manager, George Chambers, Tucson Newspapers, Inc., business manager, and Sam King, Saguaro monument superintendent. King yesterday presented the chamber of commerce with a \$2,900 check in payment for additional land in the monument area. (Photo by Levitz)

Judge Tullar Gets Injunction Case as Move Ousts Garrett

Participants in the county attorney's injunction law suit against two Tucson defense attorneys declined yesterday to comment on the case, but two actions were taken by the defendants.

Edward W. Scruggs and Edgar Rucker, defense attorneys for F. B. (Red) Chitwood, announced that they had retained James E. Morrison to represent them at the Monday afternoon hearing on the injunction complaint.

Then Dunseath filed in superior court an affidavit signed by Chitwood disqualifying Judge Lee and a court order be issued for Garrett. Under superior court rules of procedure, the case goes into Judge Robert S. Tullar's vision No. 3.

Hearing Set Monday

Judge Garrett previously had set 1:30 p.m. Monday as the time for a hearing on the matter, and had signed a temporary restraining order prohibiting Scruggs, Rucker and Chitwood from making any use of transcripts of Chitwood's testimony before the grand jury.

Filed Friday afternoon, the

cactus forest and especially the new tender growth which was being retarded by grazing.

The Committee

The committee comprises a representative group of citizens, with all interests concerned in the problem having place on the roster.

The committee includes George Chambers, chairman, Dr. J. Bryon McCormick representing the university, J. Homer Boyd, J. J. G. Dowd, Dale Nichols, Walter Lovejoy Sr., John McLeod Jr., and Gordon Packard, representing interested cattlemen, Homer Bundy, Max Kanger, C. E. Goyette and Sam King. The late Mayor E. T. Johnston was also a member of the committee.

of Fred Wilson, Arizona's attorney general, with gamblers and slot machine operators. Morrison denied Wilson was implicated.

Scruggs declined comment yesterday, pointing out that he is a defendant represented by another attorney. Dunseath likewise declined to comment on the case.

Morrison would say only that it was his duty, as county attorney, to protect innocent persons as well as to prosecute criminals.

Judge Tullar was not in court when the case was transferred to his division and attaches could not say whether the original hearing time will be observed.

'DOC STORK' DIES

ARRON O., May 21 — (P) — Dr. Homer G. Long, who delivered an estimated 1,500 babies in the 57 years he practiced at nearby Copley, died last night. In his recent illness he was attended by a doctor and a nurse whom he brought into the world.

Testimony Read

Scruggs had read in open court portions of Chitwood's testimony, in which a grand jury attorney asked questions firing the name

GRADUATION

Sunset Crater National Monument

Flagstaff, Arizona

May 25, 1952

Memorandum

To: General Superintendent
From: Ranger-in-charge, Sunset Crater
Subject: Monthly Narrative Report, May 1952

Weather Most of the month has been very favorable as the increase in travel has shown. Several days were cloudy with a few light showers.

Special Activities On May 12 this Ranger went on duty and the Monument was officially opened for the season. This report covers the period between May 12 and May 25.

Maintenance Most of the time this month has been spent getting the area ready for the expected rush after Memorial Day. Extensive cleanup, painting and making new signs were the main items.

Maintenance Man Joe Bean arrived to blade the entrance road on May 22.

Interpretive Service A total of 344 visitors in 116 parties were contacted.

The Lava Flow Trail continues to be a popular feature of the area with 677 people in 375 parties using it.

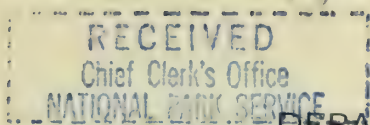

With the cool and pleasant weather 200 visitors in 91 parties struggled to the top of the Crater.

Increase in travel In spite of the area being closed by snow for almost four months this winter the travel shows a slight increase over last year. The travel for the month of May increased 56% over May of last year.

1952 JUN 2 AM 8:28

NATIONAL PARK SERVICE

Tonto National Monument
Roosevelt, Arizona

May 26, 1952

Memorandum

To: The General Superintendent, Southwestern National Monuments

From: Superintendent, Tonto National Monument

Subject: Narrative Report, lml, Tonto, May 1952

Weather. Slightly windy and rainy the first of the month, but mostly warm days with the latter part of the month becoming hot. A total of 1.3" of rain for the month.

Travel. The greatest travel increase for any one month of the past years was noted during this travel month. With a total visitation of 2860 this month, this represents a 104% gain over May 1951. Twice during the month, on Sunday's, the travel surpassed 400 per day. This rivals our busy February travel. Travel for the year passed the previous yearly high on May 13th and we have passed 20,000 this travel month.

Inspections. Archeologist Gordon Vivian, Region III inspected and photographed the ruins to determine what further stabilization is necessary due to the heavy travel wear on April 27th. Over 400 visitors visited Tonto that day and first hand observations could be observed as to the problems faced at the ruins.

Mr. Rogers Young, Historical Division, National Park Service, Washington Office, and Naturalist Dale King, Region III spent one day studying the interpretive program in action and future needs of this phase of contact. May 1,

Assistant Regional Director Cornell, Landscape Architect Carter from Region III, viewed the progress of the water and road projects on May 12.

Messrs. Schmerber and Trigg, Arizona State Health Dept, and U.S. Health Dept respectively, visited Tonto and inspected the pit toilets.

Visitors. Archeologist Gordon Vivian, Region III

Mr. Rogers Young, History Division, NPS Washington and Naturalist Dale King, Region III.

Mr. Jack Finnison, Dept. of Natural Resources, State of California. Assistant Regional Director Cornell and Landscape Architect Carter from Region III.

Forestry Class of 18, Montana State College, and District Forest Ranger Ames.

Messrs. Schmerber & Trigg, Arizona & U.S. Health Depts.

Dr. and Mrs. E.L. Edmondson, Arizona State College, Tempe, Arizona.

Mr. & Mrs. Deveraux Butcher, National Parks Association, Washington D.C.

Personnel. Truck Driver Paul Buss, terminated May 2nd.
Bulldozer operator Joseph McCarty terminated May 23.

Construction Projects. The entrance road project was nearly completed as far as primary build-up is concerned. Drainage ditches were formed, and a general clean up of the brush and debris completed. The road should be oiled in the near future while it is still in fine shape.

The interior of the 10,000 gallon storage tank was painted and the remainder of the 1 1/2" line buried and covered. The line was tested and found to be holding with no leaks. State Maintenance man Sanders formed a large portion of the ditch with his ripper and grader thus saving much time and expense for the Monument. The reservoir site was cleaned of debris.

General. The tent house quarters was removed to the new utility area and the old site was thoroughly cleaned and now offers a much better appearance along the entrance road.

The Superintendent on his day off, helped a motorist patch his gas tank which was badly torn by a rock on the Apache Trail. Plastic wood and a rag was used to block the leak and held until the motorist could drive to Globe for repairs.

With the approach of the fire season, fire caution signs and posters were placed along the road, on the ruins trail and around the museum-office.

Public Relations: Archeologist Wenger called upon Dr. Emil Maury and E.B. Sayles, Department of Anthropology, University of Arizona. Mr. Wenger was shown the "Clovis-fluted" points found in association with the mammoth remains near Peco, Arizona. The seriousness of the "pot-hunting" activities in the southwest was also discussed.

Mr. Wenger also called upon Mr. Odd Halseth, Archeologist at Pueblo Grande, Phoenix during the month. Both agreed that an extensive educational attempt should be made to inform the public the value of un-disturbed Indian sites as a means of amateur control, as long as no active force is in operation against such activity.

Mr. Silas Johnson and Art Barr visited Tonto and photographed both the ruins and the museum interior in color, as part of a promotional film being made of Gila County, Arizona by the Globe-Miami Chamber of Commerce to advertise the many interesting highlights of this region.

Floral Displays. The rains at the beginning of the month brought out many flowers. The most colorful array of Palo Verdes for years is now taking place. The cane, teddy bear cholla and some Saguero's are in bloom and offer much color to the area.

Compliment. One written compliment was received during the month. "Our visit to the Tonto Monument was certainly a pleasant one and we feel most grateful to you and the others who have preserved for us these wonderful relics of the past."

Interpretation. The visit of Rogers Young from the History Division, and Naturalist Dale King on May 1st was certainly welcomed by the Superintendent and Archeologist. The problems of interpretation at Tonto and of preserving the ruins were discussed.

The increased visitation to Tonto has resulted in a need for new methods of interpretation in order to preserve the ruins. The heavy travel through the ruins has, and in the near future will continue to wear at a faster rate than can be satisfactorily handled without loss of the ruins under the present system. Mr. Young voiced his opinions as to the success of the interpreted ~~method~~ in the east where large numbers of people visit the areas. The type of interpretation needed, and the need for personal contact was also stressed. There is no question that the personal contact is our best means of interpretation and protection.

The signs of the time indicate that a serious problem is developing at Tonto by increased visitation and too-few personnel. The Superintendent or Archeologist are on alone, four days of the week, for normally nine months of the year. On one of these days when either is in the ruin, there is no one at the museum to contact those who wish an explanation, but for many reasons can not climb to the ruin. It is impossible for the Superintendent or Archeologist to come down to the museum after each trip as often there is no break in those coming to the ruin.

Routine Administrative and maintenance work is being done chiefly through contributed time after hours in the evening by the Superintendent and Archeologist as this is the only available time. The seriousness of this problem was felt this May when we experienced a 104% gain in travel over last May. There appears to be no slow season in the summer here, as is experienced by the northern areas in the winter time.

Charles C. Sharp
Charles C. Sharp
Superintendent

D-111-12

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

May 25, 1952

Memorandum

To: General Superintendent, Southwestern National Monuments

From: Superintendent, Tumacacori

Subject: Superintendent's Monthly Narrative Report for May, 1952

Weather: The month was a little cooler than average for May. Maximum temperature of 98 degrees was on May 12, Minimum of 36 degrees on April 29. Rainfall was .08", which is a little below the May average of .11" for the past seven years.

Visitor Travel: This month: 2,524 persons, in 737 motor vehicles.
Highest previous May - - : 2,761 persons, in 1951.
Percent decrease - - - - : 8.6
Last 12 months - - - - : 44,592 visitors.
Previous 12 months - - - : 37,250 visitors.
Percent increase - - - - : 16.5

Highway widening and reconstruction past the monument entrance, and the fact that for the last 10 days such activity has involved destruction of part of our parking area walls and curbs, have made the approach to the parking area and museum rather uninviting in appearance. This undoubtedly has some responsibility for the drop in travel as compared to May of 1951.

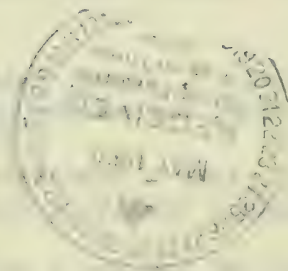

Visitors: Among those present were:
4/29/52 - 19 school children and teachers from the Frank Reed School, Nogales, Arizona.
4/30/52 - Howard M. Stewart, Ray, Arizona, former N. P. S. Engineer in the San Francisco office.
5/10/52 - Colonel and Mrs. Randle B. Truett. He is Chief, National Memorials and Historic Sites Division, National Capitol Parks.
5/15/52 - A group of six school teachers from Nogales, Sonora.
5/20/52 - 19 Girl Scouts and leaders from Troop 7, Coolidge, Arizona.

Official Visits: 4/27/52 - Rogers W. Young, Chief, Public Use Branch, History Division, and Dale S. King, Naturalist, Southwestern National Monuments.

5/14 and 5/15, 1952 - Assistant Regional Director Harvey Cornell, and Park Landscape Architect Charles Carter.

Museum and Education: On April 30 and May 1 the superintendent addressed the two sections of the Nogales High School biology class on the subject "Desert Plants and their Adaptation to their Environment."

Draft of the Interpretive Section of the Master Plan Development

Outline was prepared and submitted during the month.

During the month we received, from Dr. K. F. Parker, Curator of the University Herbarium, University of Arizona, identifications on over 200 pressed plant specimens which were collected here by former Ranger Albert G. Benson. When opportunity arises, we will undertake the preparation of these specimens on mounted cards, and will have a functional herbarium.

Rehabilitation Work on Mission Church: The task of removing rotten original plaster from west exterior of the mission church, and replacing it with modern plaster, was continued by Maintenance man Deubler. Laborer Salcido, assisting him, was terminated May 7 for lack of funds. For a week before his winter seasonal employment ended, Ranger Broyles assisted Deubler. Since then Ranger Featherstone has had time to give some help.

We don't stop a project like this for lack of money in the stabilization account, so Deubler has continued on the work, with building maintenance funds taking care of it. At this writing, all of the west exterior of the church has received its galvanized metal lath and scratch coat, and the finish plaster coat is about 3/4 done.

Maintenance: Maintenance work this month has been scarcely above the janitorial level, for reasons given in the last paragraph. Considerable watering of garden and grounds plantings has been necessary, and some weeding. Some 3/4" galvanized water pipe was put under the new west boundary wall, so that when the new parking area is completed we will have facilities for watering the planted island between parking area and highway.

Re-alignment of West Boundary Fence: Contractors for the State Highway Department, widening and improving 9.6 miles of U.S. Highway 89, are making considerable changes in our west boundary, pushing our west boundary eastward up to 60 feet, narrowing and lengthening our parking area. The new west boundary wall, of hollow concrete blocks, has been built, and plastering will be well underway next week. Old west boundary wall north of the parking area has been torn out, part of the north wall of the parking area has been removed, all of the south wall of the parking area has been removed, and part of the curb adjacent to the existing planting island between the parking area and highway has been removed.

It should be mentioned here that we are enjoying the finest type of cooperation from highway department engineers Mills and Morgan, who are supervising the parking area and boundary changes; this same fine cooperation is coming from the sub-contractors who are doing the actual construction.

Personnel: May 7 - last duty date of Laborer Francisco Valdez Salcido.

May 10 - last duty date of Seasonal Ranger Rothwell P. Broyles. It was with real regret that we said good-bye to Rod and Phyllis Broyles, and their cherubic young offspring "Pablito". They are mighty fine folks.

Personal: Apparently we have unwittingly been conducting an in-service training program for park naturalists at Tumacacori. Our youngest son, Bruce Jackson, has shown such interest and accuracy in making bird observations that, after exhaustive checking for reliability, our non-salaried monument ornithologist, Betty Jackson, is accepting many of his observations for official entry into the Tumacacori Observation files. Bruce, though unofficially, is now the third generation of this family in Park Service work!

General: The monument seems to be ticking along all right, although we regret the fact that time has not allowed progress in the interpretive program which we had hoped for. Multiplex displays in the lobby have remained uncompleted, and overdue revision of the nature trail leaflet has had to be deferred.

Earl Jackson

NATIONAL PARK SERVICE
TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA

May 26, 1952

Memorandum

To: General Superintendent, Southwestern National Monuments
From: Superintendent, Tuzigoot National Monument
Subject: Report lml, May 1952

The following is a narrative report of activities in
this area.

VISITORS

1848 visitors came to this area, as opposed to only
1565 during May of last year. These people were handled with a two
man force during the month.

What they did: 1848 visitors came in 669 parties -
1631 went through the museum in 581 parties - 1764 went to the ruin
in 651 parties - 182 visitors registered in the NITE RANGER in 71
parties.

100% of our 8-12 and 1-5 o'clock visitors were con-
tacted.

4 visitors wore uniforms of the Armed Forces.

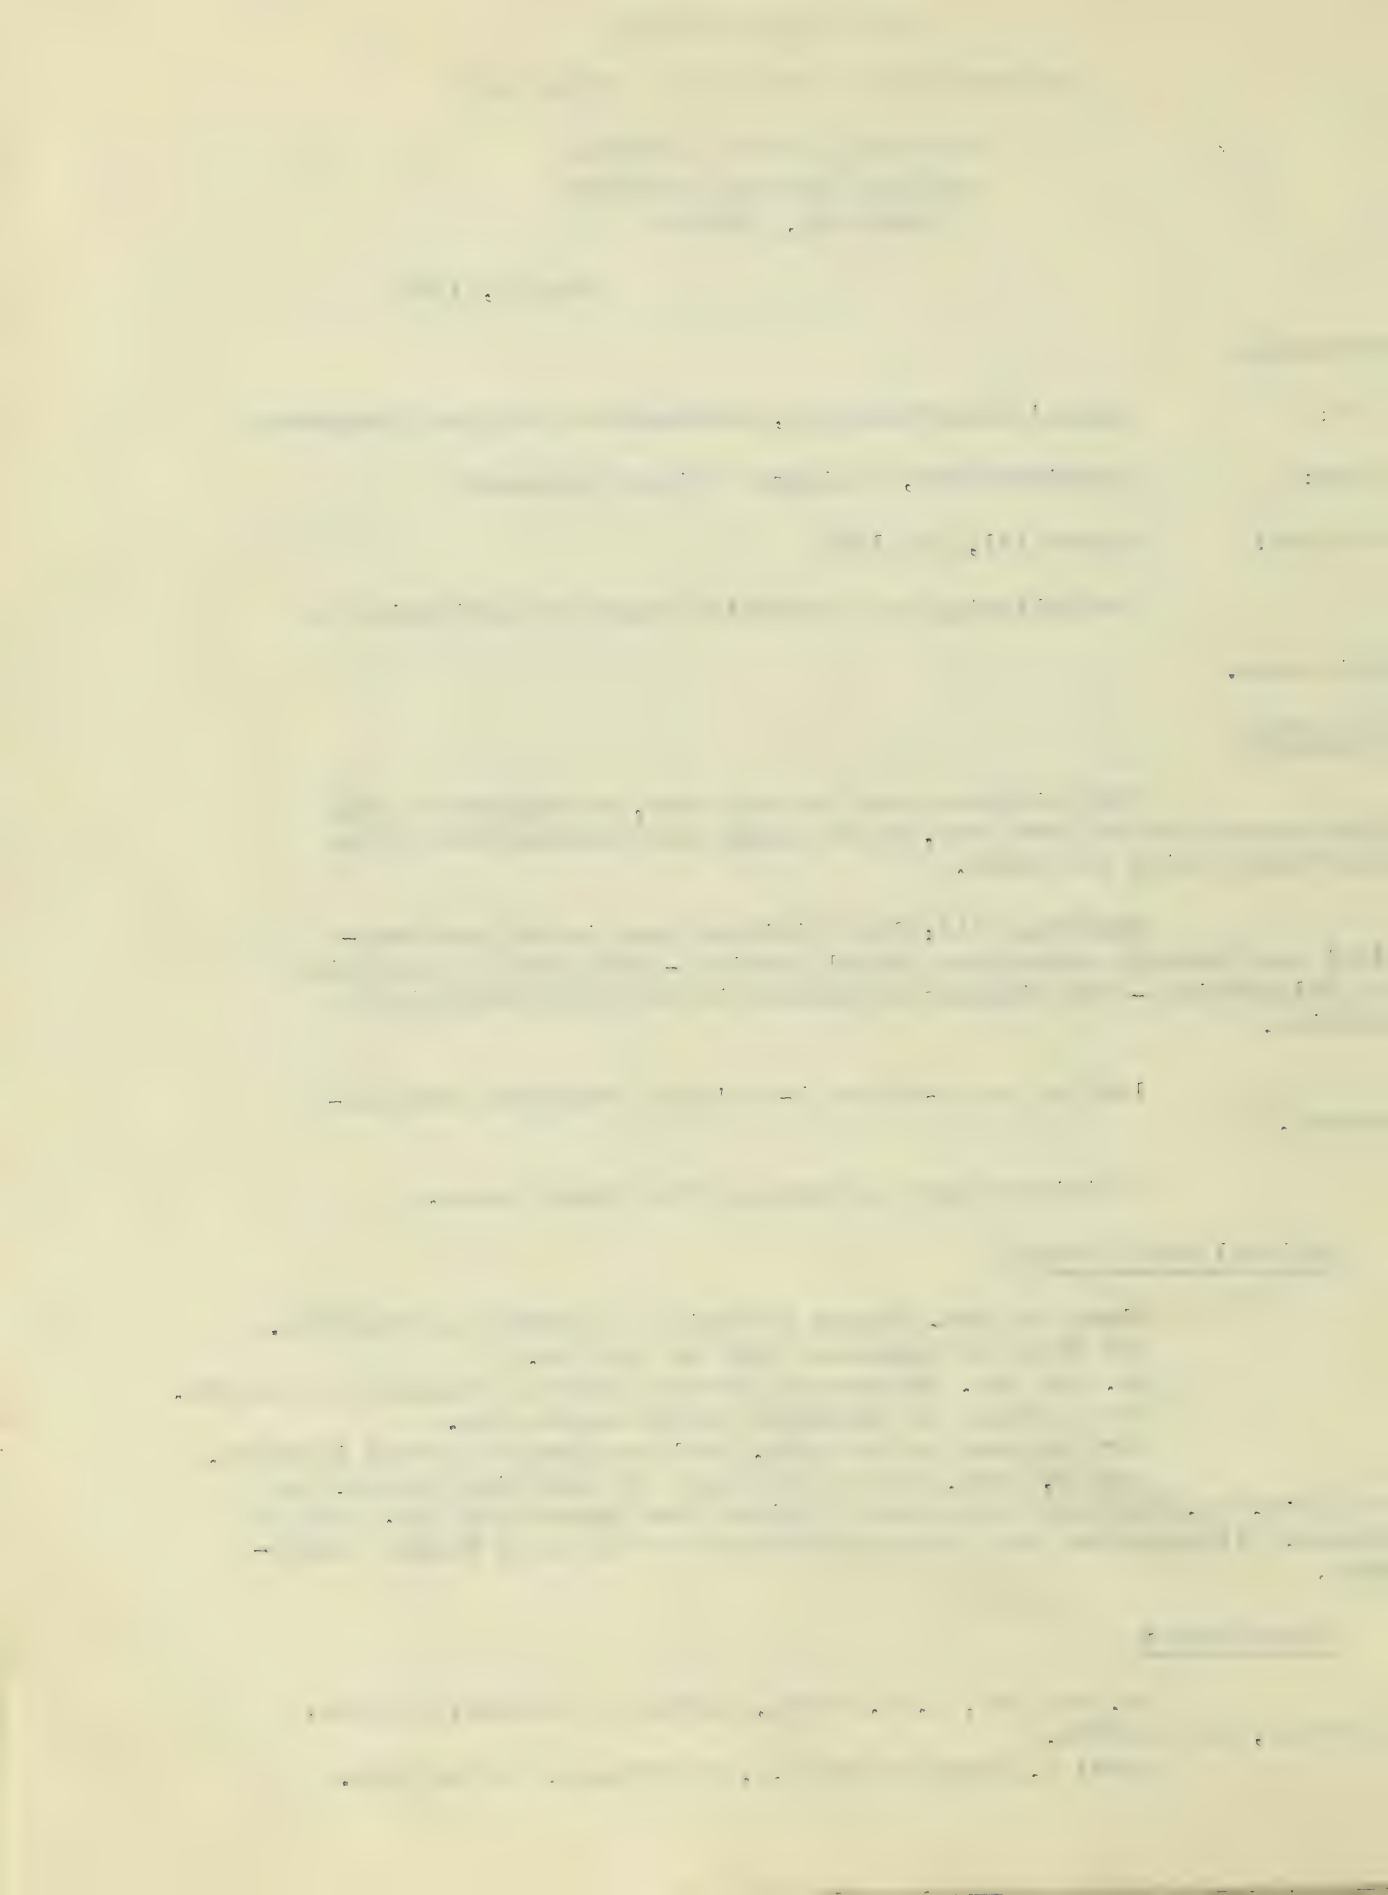

National Park Service

Glenn and Mrs. Haynes of Region III office on the 25th.
Art White of Montezuma Well on the 7th.
Mr. and Mrs. Winbourn of Arches National Monument on the 7th.
The Piersons of Montezuma Castle on the 8th.
Carl Alleman on the 16th. Carl reviewed the trail location.

John N. Barr, Temporary Ranger at Petrified Forest, on
the 24th. Mr. Barr and his parents invited Tour Leader and Mrs. Peck to
dinner. All concerned had an enjoyable time at the local female dispen-
sary.

Other Agency

Mr. and Mrs. R. N. Brown, Bureau of Customs, Nogales,
Arizona, on the 27th.
Mabel T. Horne of the V.A. at Whipple, on the 14th.

Reportworthy

Bill and Kathryn Wilson of Rainbow Lodge on the 8th.

Organised Groups

Baptist Orphanage for Navajo Children - group of 36 on the 25th.

ROADS AND TRAILS MAINTENANCE

The county blade smoothed the entrance road on the 30th. At our request the operator widened the parking area six feet to alleviate the traffic jam when visitors choose assorted angles to park their cars.

All ten roadside directional signs were given a spring renovation. Because of the faded "Old Colony" stain used (obtained from General Service) nearly all of these signs required repainting.

A new sign was routed and installed at the road fork to the Superintendent's Residence. This sign reads: "DO NOT ENTER HERE". This sign was erected to help us offer better service to the visitor. By driving up that road visitors often got to the ruin before they came into the museum which meant they had no trail guide pamphlet.

NEW CONSTRUCTIONWater Supply System

Masonry was started on the pumphouse on the 27th of April. The pipe in the well hole and the pump were installed on the 12th of May. The intake valve is set at the 168 foot level. The pipeline and power line hookups were completed on the 13th and operation of the new system started on the 15th.

The water has an excellent taste and good thirst quenching qualities. It lathers well.

Tuzigoot Trail

The installation of the new staircase into Room 14 was completed on the 23rd. Pipe railings and guard rail around the hatchway are also complete.

The opening through the wall and the excavation for the concrete steps are complete. The doorway needs some reinforcing steel consealed in the masonry. The wood forms for concrete steps are now being set up in the excavation south of the room.

The trail to Stake 14 is being elevated to grade.

Mr. Mott has been a great help in getting this work lined out and has contributed much hard work himself. We may all be proud of the finished product he has turned out on the water supply system.

MAINTENANCE AND REHABILITATION

The master switch in the storeroom was completely re-vamped and new fuse-switches were inserted in place of the obsolete and worn out switches. Work was done by the electrician who contracted the water system electrical hookup.

RESEARCH AND OBSERVATION

Messrs. Keith A Dixon and James Bifford of the University of Arizona doing research for a thesis on Hidden House, Sycamore Canyon. Some artifacts from Hidden House are interspersed with artifacts from Tuzigoot and stored or displayed here.

ACCESSIONS

Indianx tamales presented to the museum by Mr. Harmon D. Maxson.

PERSONNEL

The superintendent was off duty from 3 PM on the 9th until 12:30 AM on the 12th. My absence was caused by the death of my father.

Mr. Fred R. Peck hired on the 4th as Tour Leader. He has a BA in Anthro from the U. of New Mexico, a years grad work at the U. of Arizona, in addition to three seasons work at Mesa Verde National Park on Don Watson's force.

JW Brewer

J.W. Brewer, Jr.,
Superintendent

The well rig on location at the north-east corner of the museum. The 6" hole was drilled to a depth of 313' and cased to 153 feet. Water rises to the 120 foot level. The draw-down is 24 feet to the 144 foot level at which the water supply is more than 1000 gallons per hour.

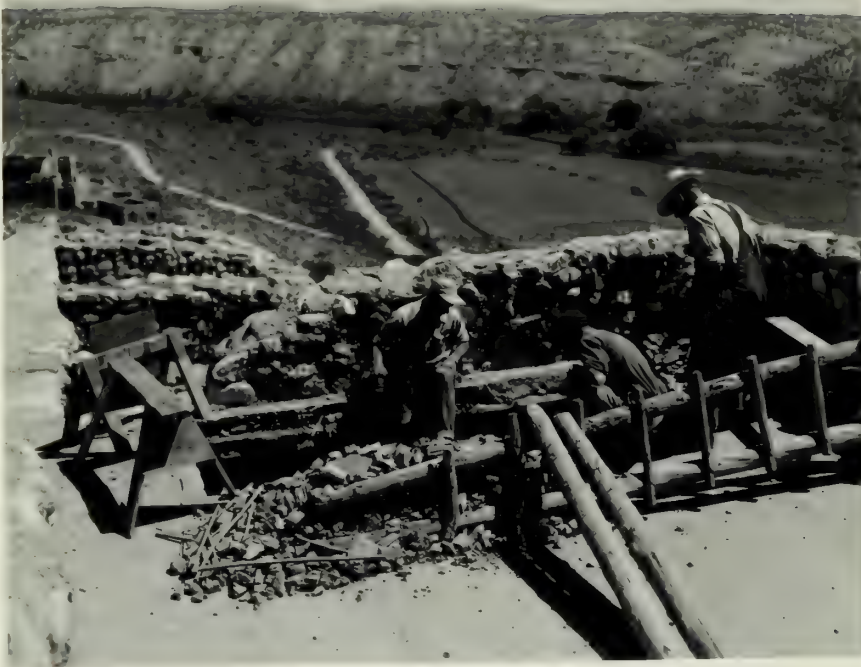

The tank and pump were installed on the 16th. The tank has a capacity of 1000 gallons and is pneumatically controlled. The pump is a JACUZZI 2 horsepower parallel pipe injector jet type.

The cobble masonry was selected to match the masonry of the retaining wall which the pumphouse adjoins.

The water supply pipe and the electric power lines trench on the east side of the museum. Both lines come thru the retaining wall into the trench 30 inches below ground level, both lines enter the storage room directly below the master switch. A $1\frac{1}{2}$ " Tee was installed in the water line at this point in the storage room to provide for a later fire hydrant and hose.

Opening the hatchway thru the roof of Room 14. The hazardous ladder will be replaced by a flight of standard tread-and-riser wood steps.

Doorway opened into Room 14 at floor level. The new trail will go upward on concrete steps in a switchback arrangement concealed by the walls in the foreground.

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Walnut Canyon National Monument
Flagstaff, Arizona

May 31, 1932

Memorandum

To: General Superintendent

From: Superintendent, Walnut Canyon

Subject: Superintendent's Monthly Narrative Report of Activities at
Walnut Canyon National Monument during the month of May, 1932

Weather Conditions

Weather during the month has been about normal with a total of .07 inches of moisture. Conditions are better than they have been in years with the ground retaining its moisture. As a result, flower displays are the best in many years.

Administration

Project completion reports for rehabilitation projects have been prepared and submitted as well as revision of the Master plan. The Annual report to the Director was also prepared and submitted.

Maintenance

General maintenance of facilities has been accomplished and wood has been hauled and cut for the picnic area. All picnic tables now have been repaired and painted and general cleanup of the area accomplished.

Roads and Trails

The trail improvement project (R-7) is progressing nicely with the new section west of the Saddle completed and in use. A cable line and hoist was installed that allowed the hauling of all materials including fill and surfacing material to the working location. Standards for the Pipe have been installed but the firm to whom the purchase order was issued to do the pipe-bending has backed out and new arrangements are being made to get this work done. Several flights of steps on the trail have been rebuilt and capped with flagstone making uniform treads and risers where possible. We were able to get black road mix from the State Highway Department without cost and are using this for surfacing material. Due to the past winters damage to county roads we were unable to purchase the red.

Travel

If the strike of oil workers had any effect on our travel here it was not apparent as we had an increase of 668 visitors over May of 1951. Although a slight decrease is still shown in travel year to date figures if travel keeps up at the present rate we should begin to show an increase by August.

N. P. S. Visitors

Carl AllemanMay 17
Naturalist Dale King.....May 6
Rogers Young, Acting Chief of the Public use branch, History
Division,.....May 6
District Ranger and Mrs Martinek of
Mount Ranier Nat. Park.....May 12
Mrs Wm. Branch, Petrified Forest.....May 24
Ranger and Mrs Don Black, Grand Canyon..May 19
Leslie P. Amberger and Family.....May 3

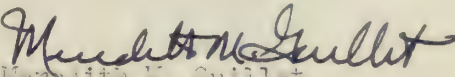

Visitors

Dr. and Mrs. Thomas B. Noble Jr. of Indianapolis, Indiana
Mr. and Mrs. Devereux Butcher of the National Parks Association
Former rangers Bob Euler, Harmon Maxon, Fred Peck, Irwin Vannell
and Wm. Beaver.

Interpretation

Naturalist Dale King and Mr. Rogers W. Young, Acting Chief of the Public Use Branch, History division spent the morning of May 6 observing interpretive methods used at Walnut Canyon. They also made an inspection of interpretive devices and the Island trail. Reversal of the self-guiding tour was discussed and improvements suggested for the revision of the guide leaflet.

During the past period 103 hours were spent in contacting 780 groups comprising 2,265 visitors.

Meredith M. Guillet
Superintendent

WHITE SANDS NATIONAL MONUMENT

May 28, 1952, 19

All work is progressing satisfactory. The pipe line is progressing very satisfactory. The foundations for the water tower have been laid, the ditch digging is moving right along, and the pipe laying crew nearly

doubled the expectations of the Johns-Manville representative for a new crew. The gravel on our road is holding up quite well. A little corrugation is occurring. It is hoped that we can get some blacktop on this before long.

We were able to set off a small parking space adjacent to the Concession building, which will reduce materially traffic hazards in crossing the highway, and at the same time accommodating more cars in our parking area.

INCREASE OR DECREASE IN TRAVEL:

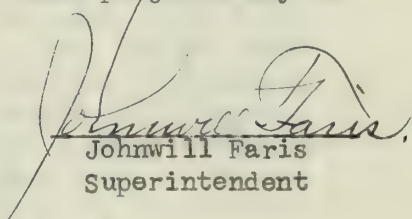

The increase in our travel is getting us well started on the 200,000 mark for the travel year 1951-1952, a figure beyond the fondest expectations of Tom Charles, Frank Pinkley, and some of the men who worked with White Sands during its early years. This increase has been in spite of several days of heavy winds.

PANGER SERVICE:

Both temporaries will start next week on our regular summer tour of duty. Rollo Buck and Elvin Jordan are serving with us as temporaries. Both men are with the City schools. Mr. Jordan was with us last year and Mr. Buck will serve in lieu of George Hall, who is taking some specialized work in connection with his school activities.

CLOSING:

This office is making every effort to assist in every way possible on the projects in progress, and much of our regular maintenance work is being put off and even neglected in order that these projects may be expedited.

Johnwill Faris
Superintendent

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
Wupatki National Monument
Flagstaff, Arizona

May 26, 1952

Memorandum

To: General Superintendent
From: Superintendent, Wupatki
Subject: Monthly Narrative Report, Wupatki National Monument

Weather:

The Weather has been just right this month. It has been a dry month with no precipitation recorded. Maximum temperature was 91 degrees on May 13 with a minimum of 37 degrees on May 17.

Inspections:

Mr. Rogers W. Young, Acting Chief, Public Use Branch of the History Division, Washington office and Naturalist Dale King from the Region III office visited Sunset Crater on May 6 and Wupatki on May 7. The interpretation problems of both areas was discussed and reviewed.

Maintenance and General Work:

With more visitors to contact maintenance work will take a back seat from now until fall. The weather station, one large road sign and 3 of our 50 gallon barrels were painted. More letters were cut-out for new signs. One of the Onan light plants had to be taken to town for repairs. Ranger Bullard spent a day and a half burning weeds with a new weed burner we have just purchased. It is hoped this program will continue as time permits and knock down some of the bad growths of weeds around the residences, trails and along the roads.

Roads and Trails:

The Wupatki entrance road was bladed as well as the 4 mile entrance road to Sunset Crater. More clay was hauled on the section between the Earth Cracks and Highway 89.

Interpretive Services:

At Wupatki, 761 people in 250 parties were contacted for an average time of 15 minutes per party.

Ranger Bullard has spent some time this month working on the photo file, library records, observation records and has collected a few flower specimens.

Ruins Stabilization:

The stabilization work under Archeologist Roland Richert is progressing nicely. To date all modern roofs have been removed, capping work done and much debris removed from a section of rooms on the east side of the ruin.

Travel:

Travel showed a nice increase for the month despite the fact that travel along Highway 66 seemed to slacken up as a result of the gas strike in the east. We had 396 cars with 1076 people which was an increase of 103 cars and 324 people over May last year. On May 23, 24 cars visited the monument which was the highest for any one day this month.

Fire Protection:

Ranger Bullard attended the training session on actual fire suppression held at Happy Jack Camp by the Coconino National Forest on May 6.

Fire extinguishers were checked and refilled this month. Forest fire tools were taken up to Sunset Crater the first of the month for use in that area.

Public Health:

Water samples were taken and all were reported as safe for public use. Ranger Bullard has kept a check on the two dry toilets at Heiser and has sprayed with fly spray as needed.

Local Items:

On May 15, the public health nurse and dentist from Tuba City visited Wupatki and treated the local Navajo's. Thirty-five pounds of dried eggs and milk and 8 gallon cans of honey was distributed.

Spring Flow: Wupatki - 480 gallons per day. 120 GPD over last year
Heiser - 1350 GPD. This is 830 GPD under last year.

Frederick R. Brueck

Frederick R. Brueck
Superintendent

U.S. Department of the Interior
National Park Service

To Our Guests at White Sands National Monument:

In the interests of national defense, visitors to White Sands National Monument will sometimes find themselves detained at headquarters for varying periods of time or compelled to come in to headquarters from out in the Sands area. This monument adjoins the White Sands Proving Ground and when rocket tests are scheduled, public safety requires that visitors be concentrated at headquarters.

The Army notifies the monument superintendent when tests are scheduled, in time for us to gather in those who are out in the Sands and to hold visitors at headquarters. Often there are delays in firing the rockets beyond the scheduled time which the Army has announced to us and consequently we must detain our visitors until we receive the "all clear" signal.

We trust that you will accept such delays with patience. It was first proposed to the National Park Service that the White Sands National Monument be closed to the public entirely; we were able to keep it open only by agreeing to the procedure outlined above.

We hope that, even if you are subjected to delay, you will still have an enjoyable visit with us. Most certainly we will do everything within our power to make your stay a pleasant experience.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

June 29, 1952

Memorandum

To: General Superintendent

From: Superintendent, Arches National Monument

Subject: Monthly Narrative Report for the month of June, 1952, Arches National Monument.

GENERAL: The constant stream of visitors seeking information at Headquarters has made it impossible to accomplish, on time, the end-of-the-year office work, hence the lateness of this report and others. I have my eye on a well hidden cave in the Fiery Furnace, as an office.

WEATHER: Except for one rain, which fell on June 3, this has been a very dry month. Heavy winds have been a daily occurrence and although the maximum temperature rose to 104 degrees, the average for the month has been on the cool side.

TRAVEL: This month's travel count of 3939 visitors arriving in 1292 cars, gives us a record for any single report period and shows an increase of 41 % over the same period last year. Our picnic areas were used by 619 campers. Forty-one states and five foreign countries were represented.

INTERPRETIVE SERVICE: At the Wayside Exhibit 3236 visitors were contacted by Rangers Worthington & Williams. Ranger Williams being stationed at the Wayside Exhibit in the trailer house has increased our contacts tremendously. The new Headquarters sign is responsible for a great increase in contacts at this point. The 654 visitors who stopped at Headquarters certainly interrupted a lot of office work. While the Rangers were not on duty at the Wayside Exhibit 667 people signed the register and used the Exhibit as an Unattended Interpretive Device. Each of the 3236 visitors contacted at the Wayside Exhibit were informed of the Cove Nature Trail and we estimate that this number used it. Ranger Worthington, while on a weeks leave, gave 6 illustrated lectures to large groups in Salt Lake City and Yellowstone Nat'l. Park.

PERSONNEL: Howard Williams entered on duty as Seasonal Ranger May 27. He is stationed at the Wayside Exhibit in the trailer house and this arrangement not only saves operation cost on our pickup, but also has increased our contacts to an all time record.

10-11-68

UNITED STATES
DEPARTMENT OF THE INTERIOR

WFS VISITORS & INSPECTIONS: General Superintendent Davis arrived June 26 and spent the 27th. in the area going over various problems. While here he called Mr. George W. Leathan, District Manager, Utah Power and Light Company, concerning the possibility of running a power line to Arches from their line in Moab. Mr. Leathan will be in Moab July 1 & 2 and we hope some satisfactory agreement can be worked out at that time.

ROADS: Inspite of the dry windy weather our roads are in fair condition. Maintenance man Winbourn spent six days at Natural Bridges with the dump truck and loader, shaling the Headquarters Approach road.

DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE
AZTEC RUINS NATIONAL MONUMENT
AZTEC, NEW MEXICO

25 June 1952

Memorandum

To: General Superintendent

From: Superintendent Aztec Ruins

Subject: Report 1ml Superintendent's Monthly Narrative

WEATHER: Generally clear and hot with one rain storm near the first of the month that left us with a half inch of rain.

SPECIAL ACTIVITIES: Because of numerous complaints on road conditions on the part of visitors to this area that had traveled the route from Chinle, Arizona and Canyon de Chelly over the Lukachukai Mts., we made a quick trip on our day off to determine for ourselves the road conditions. We believe the road should not be recommended to the average visitor.

NEW CONSTRUCTION: We have had sidewalk forms laid for some three weeks while awaiting equipment and materials to complete the job of new walks in the ruins area.

Interpretive Service: There were 3,013 visitors conducted thru the ruins in 280 parties, while 3,885 visitors in 464 parties were shown the museum. There have been 7 educational groups from Colorado, Utah, Iowa and Oklahoma who have visited this month.

INCREASE IN TRAVEL: We have had 3,885 visitors in 1181 cars from 43 states, Wash. D.C., Brit. West Indies, Canada, England, France, Germany, Mexico, Sweden, Switzerland and Venezuela. This is an approximate increase of 17% over June last year.

Visitors: NPS visitors have included, D F Carswell, Grand Canyon; George Baker and Family, Mesa Verde; Los Arnerger Region Three; Tom Varela Region Three; Wm Roosa and Z. Bradley, Mesa Verde.

Dr. and Mrs. S A Bulany Hunter, Prof. International Relations Georgetown Univ. Wash. D.C. and 11 members of the German Consular Service, Bonn, Germany.

June 29, 1952

Memorandum

To: General Superintendent

From: Superintendent, Bandelier

Subject: Monthly Narrative Report, June 1952

Weather

The weather during most of June has been hot, windy, and dry with temperatures in the 90s during the day but dropping to the 40s at night. The high temperature was 97 on the 14th and the low was 41 on the 4th and 42 degrees on the 22nd and 25th.

The only rain of any consequence occurred on the 3rd and a total of .63 inches of moisture was received for the month.

The dry weather caused the approach road to be exceedingly dusty and the usual visitor complaints were received concerning it.

Special Activities

An intensive in-service training course for seasonal employees, including concession employees, was held from June 12 to June 18. A four hour session was held each day except Saturday and Sunday and good use was made of material that Supervisory Ranger Keefe brought back from the Region Three Personnel training meeting.

A "Show Me Day" was held in cooperation with the Santa Fe Chamber of Commerce on June 3. Twenty three people attended the tour which included not only Bandelier but Taos and other points of interest along the northern Rio Grande valley. While at Bandelier the group was taken on a tour of the ruins and an inspection of the Lodge and camping facilities. The Superintendent gave them a talk on National Park Service policies, objectives, and general information concerning Bandelier. It is planned to make this an annual event and an effort will be made to have more people participate next year.

Inspections

Charles Carter and Jerry Miller inspected the parking area enlargement project on May 28 and offered a few suggestions for the finishing touches.

Les Arnberger and his mother were here informally on June 8 and he was able to observe the problems of handling the biggest number of visitors for a single day in the history of the Monument. He was particularly interested in the use of the camp and picnicking area.

Maintenance

Maintenance Man Valencia returned to duty on the 16th and although he was unable to perform much physical work he supervised the rehabilitation and maintenance work for the balance of the month.

New roofs were installed on cabins 15 and 16 and the headquarters and campground comfort stations.

Eight additional cement picnic tables were constructed and installed in the campground which makes a total of 28 to date.

The systematic use of trash bags simplified the cleanup work necessary in the campground.

Approaches to the Monument

Approximately one mile of the 1.7 miles of the approach road now under construction by the Atomic Energy Commission was constructed to sub grade. There was some interference with traffic during the last week in June due to the necessity of making a cut on a steep slope above the present road. The BPR engineer in charge has assured us that this will not last very long since he intends to route traffic over the new road as soon as possible.

The approach road became very dusty and rough due to the dry weather. General operator Wendland was on duty at Chiracahua after the 15th and no maintenance could be performed on the road.

Concessioners

The concessioner reported generally better business this month than for June of last year. There were 190 lodgings as compared with 265 last year.

Some verbal complaints were received concerning service in the dining room and two discussions were held with the sub-concessioner to make the necessary improvements.

Interpretive Service

A total of 3766 visitors were conducted on 166 tours of the ruins this month. Six informal talks were given in the museum lobby to 139 people.

Museum Activities

The balance of the fluorescent light fixtures for the museum cases were ordered but delivery was delayed due to an insufficient number being in stock at the Westinghouse Supply Co.

The Attorney and his counsel were both internally in
June 5 and he was able to observe the progress of building the
largest number of houses for a single day in the history of the
Government. He was particularly interested in the way the work
was organized.

General Remarks

Throughout the program the Government continued to keep on the line and
efforts to get things in better shape were continued. The
reconstruction and reconstruction work for the balance of the month.

The work was organized on a basis of 12 and 14
departments and organized better than before.

The following items were points which were mentioned and
included in the program: a total of 10 to 15 days.

The program was of great help in the program
and necessary in the program.

Program for the Future

The program was of the 12 and 14 days of the program.
The work was organized on a basis of 12 and 14 days of the program.

Travel

Travel again set new records for the most visitors on a single day and for the month. 1216 persons on June 8 is an all time record for one day and 19,748 visitors exceeded the previous high of 9354 set in August 1950. It is interesting to note that the number of visitors this month nearly equalled the number for the entire travel year in 1938.

Visitors

Visitors to Bandelier this month included:

Dr. and Mrs. Wisenberg, Public Health Service, Hot Springs, Ark. Three men from Italy who are on the "Voice of America" and who are on a three months tour of the United States under the auspices of the State Department.

Honorable John Miles, former governor of New Mexico

Ranger Service

Supervisory Ranger Keefe was transferred to the position of Assistant Chief Ranger, Lake Mead effective the last of June and his position was filled by the transfer of Foy Young from Carlsbad Caverns. We wish Joe the best of luck in his new assignment and welcome Foy and his family to the Bandelier staff.

Two temporary rangers were entered on duty this month. They were: Glenn Wilson, Albuquerque, New Mexico, Frank Flettenberg, Albion, Mich.

Fish Cultural Activities

Some of the rainbow trout that were stocked in the Rito de los Frijoles early in May have worked their way upstream approximately five miles. It is unusual for rainbows to scatter that far and particularly upstream. A screen across the stream below the camping ground may have influenced their decision.

Forest Fire Control

Martin Abeyta who served as fire lookout during May resigned May 29 to join the Marines. The position was filled on June 7 by Pat Cordero from Cochiti pueblo.

The fire danger was in the high bracket during most of the month but no fires occurred. Information on the fire danger was given to visitors on ruins tours, in the campground, and at evening lectures.

Personnel

The clerical position that was vacant for two and one half months was filled by the appointment of Robert H. Viklund, Flagstaff, Arizona. Mr. Viklund has had a variety of experience in several of the National Monuments in Arizona and we welcome him to the Bandelier staff.

CANYON DE CHELLY NATIONAL MONUMENT
CHINLE, ARIZONA

June 24, 1952

Memorandum

To: General Superintendent
From: Superintendent, Canyon de Chelly
Subject: Monthly Narrative Report for June 1952

Visitor Travel: Our travel tends to increase over the same period last year. 864 people in 265 cars. There were 268 overnight campers. Guide and contact service totaled 136 hours.

Weather: Total precipitation recorded at the monument headquarters was .61 of an inch for the month. High - low temperatures ranged from 95 to 42. The Chinle area has a green color which is much more attractive than the dry brown color of the past two seasons.

Roads: All approach roads are in good condition. Visitors are coming in and leaving from all directions, except Lukachukai Pass which is reported in poor condition.

Soil & Moisture: Grass seeding and construction of retaining dams proceeded rapidly throughout the month. The Navajos are well pleased with the present results and are anxious that this project continue.

Special Groups: 16 members of Boy Scout Troop No. 16 from Snow Flake, Arizona camped overnight, May 30. 7 from Good Shepard Mission, Ft. Defiance, Arizona camped overnight, May 31. 52 members of Boy Scout Troop No. 22 from Pueblo, Colorado visited the area on June 17.

NPS Visitors: Jack Wade, Chief Ranger, Harry Lander, Chief Clerk and Ruth Ferrel, Clerk from Mesa Verde National Park on June 1. Paul Balch and Harold Marsh of the Region III Office June 17 to 20.

Maintenance: The public rest room was repainted and new sanitary facilities installed. The 1000 gallon oil storage tank was given a protective coat of paint. Due to the abundant moisture weeds are coming up where heretofore we thought growth was impossible. Much time is spent in keeping these cleared away. Heavy use of the camp grounds requires a great deal of time and effort spent to keep them clean.

CALVIN H. KELLEY, JR.
CHIEF, ARIZONA

June 24, 1953

Memorandum

To: General Administration

From: Special Agent, Bureau of Prisons

Subject: Monthly Statistical Report for June 1953

Visiting Prisoners: One special agent in uniform was present at the prison. The report for the month of June 1953 shows that the number of visiting prisoners was 1,000.

Prisoners: Total population of the prison was 1,000. The number of prisoners who were released during the month of June 1953 was 100. The number of prisoners who were sentenced during the month of June 1953 was 100.

Prisoners: All prisoners were in good health. The number of prisoners who were released during the month of June 1953 was 100. The number of prisoners who were sentenced during the month of June 1953 was 100.

Prisoners: The number of prisoners who were released during the month of June 1953 was 100. The number of prisoners who were sentenced during the month of June 1953 was 100.

Special Agent: The number of special agents who were released during the month of June 1953 was 100. The number of special agents who were sentenced during the month of June 1953 was 100.

Prisoners: The number of prisoners who were released during the month of June 1953 was 100. The number of prisoners who were sentenced during the month of June 1953 was 100.

Chinle, Arizona

Con't. from page 1.

Administration: A trip was made to Gallup, New Mexico on June 12 to receive delivery of our new 4 wheel drive Jeep Pickup. It is equipped with winch and power takeoff. Now for the first time in the history of Canyon de Chelly inspection tours can be made of the canyons at ease. It is hoped that the hours spent shoveling can be spent doing more useful chores.

12 requests for information about the monument were received and answered.

Ranger Morris returned from annual leave on June 17.

Capulin Mountain NATIONAL MONUMENT

Capulin New Mexico,

June 27,

52

Memorandum

To; The General Superintendent
Southwestern National Monuments,
National Park Service
Santa Fe New Mexico,

From; Homer J. Farr, Acting Superintendent

Subject; Monthly Narrative Report

Visitors; There have been approximately four thousand five hundred Visitors during the month, making a total of eleven thousand ~~four~~ four hundred for the travel year to date and twenty seven thousand nine hundred for the fiscal year to date,

Weather; No precipitation this month, nothing but dry high winds, This month has probably set a record for continued heat, we have had as high as 92 on three different days, this surely is a record for Capulin, No cloudy days this month, If moisture does not come in quantities with a few days, fire guards will be in order, already a large forest fire has been going for seven days about forty miles west of Capulin,

Flora and Fauna;

We did not have a great display of wildflowers as we sometimes do, the dry winds came along and cooked them, Grasses and other vegetation are doing fairly well, Our porcupines, Bob cats and Deer are doing nicely, Our squirrels and rabbits and other small animals are waiting for what bids fair to be a good beyota (acorns), crop,

Roads and Trails;

Our roads have been very hard to maintain this month, account of the dry wids, whipping the cinders and ashes and making washbaord out of the road, but it has been kept in fair shape all the time, We went over the rim trail one time and cleared the rock, it is now in good condition, Most all of the culvert heads and lower drainage ditches have been cleaned and ready for those good rains we hope to get this coming month,

Special Visitors; None,

Information pamphlets; Thirty booklets have been mailed and three thousand five hundred have been handed out,

NATIONAL PARK SERVICE
CASA GRANDE NATIONAL MONUMENT
COOLIDGE, ARIZONA

June 25, 1952

Memorandum

To: General Superintendent, SWNM

From: Superintendent, Casa Grande

Subject: Monthly Narrative Report for June, 1952.

General: Our visitation has slowed down to a trickle, summer, alas, is here at last. Just as the animals entered the proverbial ark so do the visitors arrive at Casa Grande, two by two's; just as one tour to the ruins is completed with a family group, the next group arrives. Even with the slow down, the annual visitation still has exceeded last year's total 40,404 which was the all time high here at Casa Grande. So if we have the same visitation of the remainder of the year as we had for the same months last year, we will have had a bumper crop, estimated at well over 48,000.

Our "night blooming Cereus" gave us quite a regal display. On June 11, three of the plants bloomed; one had a very weak single blossom; another had five very lovely blossoms; and the last had a crowded nine blossoms. This was the best display in the past few years.

Weather: Typical summer weather -- very hot days and warm nights.

| | <u>1952</u> | <u>1951</u> |
|--------------------------|-------------|-------------|
| High Maximum Temperature | 113° | 116° |
| Low Maximum Temperature | 92° | 94° |
| High Minimum Temperature | 72° | 70° |
| Low Minimum Temperature | 57° | 46° |
| Total Precipitation | 0.18 inch | 0.00 inch |

Visitors: With the summer weather our daily travel slowed down as is usual for this time of year. There were 363 more visitors this year than for the same month last year. We had visitors from 44 of the 48 states (Delaware, New Hampshire, South Dakota, and Vermont were the states not represented) and from the following countries:

[illegible]

1. The first of these is the fact that the Commission has not yet received any information from the Government of the United States regarding the activities of the Committee for the Liberation of the People of the East (CLPE) in the United States. The Commission is therefore unable to determine whether the CLPE is a legitimate organization or a front organization for the Soviet Union.

England, Belgium, Canada, Mexico, Nicaragua, Israel and Pakistan.

| | <u>1952</u> | <u>1951</u> |
|--------------------------|-------------|-------------|
| Visitors during June | 2,996 | 2,633 |
| Increase | 363 | |
| Visitors for Travel Year | 42,433 | 33,915 |
| Increase | 8,518 | |
| Service in June | 39 | 38 |

Interpretive Service: During the month there was a total of 2,996 visitors to our area. Of these, 1,425 in 185 guided trips visited the Casa Grande; the average length of a tour was 46.3 minutes. Because it was hot many of our visitors were content to spend their time looking through the museum and drinking our cold water; we had a total of 2,682 museum visitors.

Visitors of Note and Special Groups:

June 21 -- The Ambassador from Pakistan, Mohammed Ali, and his party.

June 22 -- 25 members of the Methodist Church, Coolidge, Arizona

Administration and Protection: This month there were nine requests for information which were promptly answered.

The Adamsville site was given its usual inspection and everything appeared to be about the same as ever, no new pot holes anyway.

The water system extension which has been making some progress seems to have hit a snag; the Armco Drainage and Metal Products, Inc., which had a contract to supply some of the necessary part has informed us that because of the Steel Strike they are unable to make delivery on the parts. Three fittings ordered from the Crane Company which were to be delivered by the fifteenth, we suppose, are being held up for the same reason. All materials for the pipeline are here, except the two orders just mentioned. Since we have a purchase order made out to Arizona Concrete Pipe Company, we assume that they have received the contract for the laying of the pipe.

So that we won't be stuck later, we began the inventory this past week. If all goes well we should have it ready to submit by the next report.

| 1931 | 1932 | |
|--------|--------|-------------------------------|
| 2,525 | 2,500 | Visitors to the United States |
| 22,215 | 22,215 | Visitors to the United States |
| 22 | 22 | Services in the |

International Service: During the month there was a total of 2,500 visitors to our work. Of these, 1,122 to the United States visited the local service; the average length of a tour was 22.2 minutes. However, it was not many of our visitors who came to spend their time looking through the museum and listening our radio work; we had a total of 2,500 unknown visitors.

Visitors of Local and Special Groups:

June 21 -- The Ambassador from Belgium, Alexander Ait, and his party.
June 22 -- 22 members of the Methodist Church, Louisville, Arkansas

Religious and Educational: This month there were nine requests for information which were promptly answered.

The International also was given the usual inspection and every-thing appeared to be about the same as ever, no new hot ideas expected.

The water system situation which has been making some progress since we have hit a snag; the House Committee and Local Committee, Inc., which had a contract to supply some of the necessary parts for the water system of the local service they are unable to make delivery on the parts. These parties ordered from the House Committee which was to be delivered by the first week, we suppose, are being held up for the same reason. All materials for the building are here, except the two orders just mentioned. Since we have a purchase order with us for the House Committee the Company, we cannot find any more material for the building of the pipe.

It is that we want to check labor, we began the following day last week. It all goes well we should have it ready to install by the next report.

Personnel: Maintenance man Mack is on vacation and his regular chores have been taken over by the various members of the staff. During his absence, it has been necessary to repair one of the coolers on the Administration Building. We hope that the Macks are having a good time (last we heard they were in Yosemite National Park) and we are trying to save some of our hot weather for their return.

Chaco Canyon National Monument
Bloomfield, New Mexico

June 25, 1952

Memorandum

To: General Superintendent

From: Superintendent, Chaco Canyon

Subject: Report of activities at Chaco Canyon National Monument during the month of June, 1952.

Weather Rains the first week in June turned the roads to mud and eliminated visitor travel for a few days. The roads have remained rough and have discouraged some travelers from reaching the monument.

Administration Further revisions were made in the Master Plan as requested and it was re-submitted.

On June 8 Supt. and Mrs. Hastings completed moving into new Residence No. 6 and Ranger and Mrs. Jack Williams moved into Residence No. 1.

Personnel Ranger and Mrs. Elmore left for Yellowstone National Park on May 28 where Mr. Elmore will assume duties as a naturalist. The van due to move their household goods did not arrive until June 7. All their household goods could not be loaded at this time and about 1200 pounds was delivered to Farmington on June 11 for delayed shipment.

Jack Williams entered on duty as Temporary Ranger on June 3.

On June 22 Arthur H. White reported for duty as ranger and is getting settled in new residence No. 7.

Travel May 30 brought a heavy travel day and totals for the month are 527 which is 125 above the count for June, 1951. Sunday travel has been slower than usual with no visitors on Sunday, June 16. The 527 visitors came in 165 cars. Fifty-seven trips were made through the ruins and 34 visitors were contacted in the museum in 77 groups.

Maintenance Pumping water from Well No. 1 for the new residences has taken a lot of time. The engine frequently will not start and requires a lot of nursing.

A faulty stop-and-waste valve was returned to Albuquerque for replacement and was returned to the line.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

THE UNIVERSITY OF CHICAGO PRESS

Roads and Trails The entrance road was bladed from boundary to boundary and the loose rocks thrown out.

Weeds were hoed from in and around Pueblo Bonito several times.

A wash-out on the north approach road was repaired and two culverts on this road were anchored to a rock.

Soil and Moisture Control Four hundred and fifty pounds of Western Wheat Grass was used to seed the twenty-six diversion dikes in the canyon and any barren areas near them. The seed was spread with hand powered seeders and covered with a drag pulled with the tractor.

Three reels of cable for use in S&M work were received from Carlsbad Caverns. The cable was unrolled and the empty reels taken to Farmington for return to Carlsbad.

New Construction An electrician completed installing switches and fuse boxes and hooking them up with underground cables. Final connections were also made with circuit breakers in the houses. Installation of stoves and refrigerators completed work to be accomplished by the contractor.

Flora and Fauna This month has brought lots of weeds and worms. Russian thistles and Amaranthus (Red Root) are abundant and a smooth-skinned, horned caterpillar believed to be of the tomato worm group is common. The caterpillars have been seen feeding on nearly all kinds of broad leaved plants.

All of a patch of puncture vine growing west of Pueblo Bonito was hoed. This is the only place where puncture vine has been seen growing in the canyon.

Equipment Trash burners were made for each of the two new residences.

Two S & A fire extinguishers were delivered by Leslie P. Arnberger.

A check up at Well No. 1 revealed that the pump was putting out only four gallons per minute instead of the twelve gallons at which it is rated. Discharge at the storage tank 4700 feet away is considerably less.

Chevrolet stake truck I-14709 was left at Aztec Ruins for examination by prospective buyers.

The Allis-Chalmers tractor was hauled to Aztec on Chevrolet stake truck I-31784 where both were left for repairs.

...and ... The ... was ...

... were ... in ...

... in ...

... and ...

... of ...

... in ...

Protection An inventory of all fire fighting equipment was submitted.

Patrol trips were made to Pueblo Pintado, Kin Klazhin, and Kin Biniola. Everything was in good order except at Pueblo Pintado where there had been a little digging in the refuse mound and in one room in recent weeks.

Insects The Elmores caught a triatoma in their place on May 27 and some more have been caught in Residence No. 1 since that date.

National Park Service Visitors

June 19 Glen Haynes, photographer, was here to take pictures of the new residences.

Newsworthy Visitors

June 3 Dr. T. M. Smiley and Bryant Bannister to obtain tree ring specimens.

June 11 Sarah Morris, daughter of Earl H. Morris

June 20 Dr. Robert Lister and a party of students from the University of Colorado stayed three nights.

June 20 Fred B. Eiseman, Jr. stayed three nights and visited Pueblo Pintado, Kin Klazhin, and Kin Biniola.

Chiricahua National Monument
Dos Cabezas, Arizona

June 25, 1952

Memorandum

To: General Superintendent

From: Superintendent, Chiricahua

Subject: Superintendent's Monthly Narrative Report

Weather. Weather has been fair and warm except on June 2 when we had 2.09 inches of rain. This, with the good rains in March and April has produced the only green spring season that I have seen in eight years at Chiricahua.

Maintenance. Work on the surfacing of the monument road has continued at a slowed down pace while we are waiting for the oiling contractor to arrive. One truck driver is working at present placing gravel on the thin spots. Two men are working at present cleaning off rocks that get mixed in with the gravel in connection with the grading. Due to Operator Marble having some minor operations on his feet he has been on leave except for light jobs where he could stay off of his feet. Operator Wendland arrived June 15, from Mandatier, and has been grading the gravel preparatory to oiling.

Approaches to Monument. All approach roads are in reasonably good condition, but three of the four approaches are still just dirt roads.

Interpretive Service. 2567 visitors in 606 parties were contacted in the museum this month. Three conducted trips with a total of 88 visitors consumed 4½ hours time. A 30 minute talk was made at Massai Point to a group of 56 Sunday School visitors.

Ranger Hanson completed and placed a stand at Massai Point for the nature trail self guiding leaflets. This was placed last Sunday forenoon and observations in the afternoon showed the following results. Over 100 registered. Of three parties, a total of 19 visitors, who were observed registering, two made the trip in the wrong direction, picked up the self guiding leaflet and registered after they had been over the trail. The third party, after the superintendent had given them an explanation of the trail and pointed out stake No. 1, stored the guide in a pocket and walked blissfully by all of the stakes. It seems we have things to learn about interpreting the public.

Examination of the
the following, which

Museum Activities and Exhibits. Ranger Henson has added several plants to our collection and keeps busy, when opportunity arises, bringing our herbarium filing up to date.

Increase in Travel. 3048 visitors came to Chiricahua this June. This exceeds any travel month on record for Chiricahua by 681 and is 75% ahead of the 1737 who came in June, 1951 and 26% ahead of last travel year to date.

Ranger Service. We placed a boy, Oscar Lyons, on the Sugar Loaf Lookout, June 12 and transferred Don Boileau from the lookout to the temporary ranger position. This delay in filling the positions made us two weeks late in securing a temporary ranger.

Forest Fire Protection. Our lookout reported a small fire on the adjoining National Forest. Vegetation remains in a green to curing state, which is an improvement on other Junes. The wet spring seems to have slowed tree deaths down to normal.

June 24, 1952

Memorandum

To: General Superintendent

From: Superintendent, El Morro

Subject: Monthly Narrative Report

Despite the fact that we had one wet spell on a week-end, there were 752 visitors to this area this month (406 a year ago!), and these people came in 231 automobiles. 565 of them took a trip around the Rock in 126 parties; 165 of these persons went over the top of the Rock in 48 parties and 255 of these visitors listened to an orientation talk in 76 parties.

The warmest this month was 90 degrees and the coolest was 37 degrees Fahrenheit. There was 1.11 inches of moisture as compared to absolutely nothing a year ago.

The technician contacted us, but the light plants were in good working order.

The approach roads have been in fair shape most of the month except for the wet spells. The long bridge on the Gallup road suddenly got some deep waves in it and is to be replaced in the immediate future. One road man is reputed to have said that a strong wind would blow it over. Going over it is somewhat like riding a roller coaster.

Mr. Diehl has been busy on the Monument road project. A bulldozer cleared the new parking area and the road. Some men have been setting the curbing and others putting down gravel. Something like 10 trucks are hauling the gravel. It is good to see the road take shape.

In common with all this section of the country, we have had a plague of worms or caterpillars. Fortunately, so far, they have only eaten plants, not trees, and seem to be particular about which plants they eat. We sent some in to Santa Fe for identification.

The water samples, sent in each week, continue to be reported satisfactory.

DEPARTMENT OF THE INTERIOR

Geological Survey

Washington, D. C.

June 1, 1934

We are about persuaded that REA is really coming. This spring, Carl Alleman and J. Miller carefully selected the route of the line. Although it was not on a direct line for the REA, they agreed to it, agreed not to cut our trees, and set the turn poles almost exactly where we had requested them. Later, this month, after the new entrance road had been rerouted, the REA, at our request, rerouted some of the line and changed some of the pole sites. The cooperative attitude of their engineers has been appreciated.

In preparation for the REA the residence needed considerable wiring, as did the ranger cabin and the generator house (which will be a storage room). This was all done. In addition, lead covered cable was put underground from the generator house to the office in order to get some of the more unsightly wires where they could not be seen.

Paul Balch and family were in on a busman's holiday, and Carl Alleman and Tom Moran paid us a quick visit. Ed Ladd, seasonal of several years back, was by for a few hours. Harmon Maxson, ranger with us at Chaco, and his new bride paid us a visit.

We had more visitors than ever before for June. Lets hope that we can say the same for July this year!

Irving McNeil, Jr.
Superintendent

NATIONAL PARK SERVICE

Gran Quivira National Monument,
Gran Quivira, New Mexico

June 25, 1952

Memorandum

To: General Superintendent

From: Superintendent, Gran Quivira

Subject: Monthly Narrative Report for June

Weather. The drouth that has been with us for so long eased again this month as 2.27 inches of rain drenched monument and surrounding land. As a result of the moisture the last few months rangelands have lost their dry barren appearance, and this part of the mesa has taken on an almost fertile look. Temperatures have been pleasant with several days reaching a high of 93 degrees, and the nights cooling off to 55 degrees.

Special Activities. The Forestry Section and Interpretation Section of the Master Plan Development Outlines were reviewed by this office.

A one day trip into White Sands National Monument for trail building material was made on the 16th by Janitor Kite.

Public Health. Water samples, taken from the residence cisterns, were submitted to the State laboratory for bacteriological analysis.

Personnel. Mr. Doyle B. Chaney was employed as laborer during the month.

Roads and Trails. An additional 600 feet of asphalt trail were completed from the parking area to the mission. Five barrels of bitumuls were transferred from White Sands to finish this work and the trail is now complete. This job required the services of the Superintendent and two other laborers.

Minor repairs were made to the entrance road and two culverts were cleaned and repaired.

Research and Observation. The staghorn cholla, *Opuntia arbuscula*, is in full flower in the area, and the narrowleaf sunflowers and blue asters virtually cover the slopes of the hill to the mission.

Re: Grand Canyon National Park. The Grand Canyon National Park is a great place to visit and it is a great place to live. The Grand Canyon National Park is a great place to visit and it is a great place to live. The Grand Canyon National Park is a great place to visit and it is a great place to live.

Our Great Horned Owl, permanent resident, had twins again this year and nested in the viga holes in the ruins. Both young left the nest early in the month.

Maintenance. Minor stabilization and cleanup were accomplished on San Buenaventura and San Ysidro Missions following the heavy rains. A small shelf in the sanctuary of the little church was repaired and partially restored.

In an effort to preserve the only authentic piece of timber in the mission, a triangular tin canopy was installed over the fireplace in the Padre's quarters of the monastery.

Visitors. Assistant Professor J.A. Enman, Washington and Jefferson College, Pa., Professor Enman is interested in excavating Pueblo Pardo, Indian village lying 3 miles south of the monument.

Regional Forester Carlson briefly on the 16th to deliver some fire equipment.

Approach Roads. Roads into the monument were dusty and rough late in the month, but received some work by the State Highway Department following the early monthly rains.

Signs. A letter of request for improvement of State signs in the monument vicinity was prepared and forwarded to the local Tourist Bureau.

Travel. A 13 percent increase in visitation was recorded for the month. Out of State cars are on the increase and this should be a record high travel season.

Interpretation. A total of 199 persons in 50 parties were conducted through the ruins by the Superintendent for an average of 40 minutes per party. Visitor contacts numbered 204 and 273 of these visited the exhibit room. The self guide trail was used by 115 persons.

Ray E. Ringenbach
Superintendent

A good deal of the month's work was done in the ruins of the mission.

Interpretation and Stabilization

The project for interpretation of the ruins was completed as far as the preliminary work was concerned. The project was submitted to the National Park Service for approval.

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE
GREAT SAND DUNES NATIONAL MONUMENT

Alamosa, Colorado

June 25, 1952

Memorandum

To: General Superintendent

From: Superintendent, Great Sand Dunes

Subject: Superintendent's Narrative Report for June, 1952

Weather Conditions

Unusually windy weather for June did not seem to affect travel as visitors increased 60% over June of 1950. Very dry conditions prevail now as a result of the drying winds but San Luis Valley farmers have plenty of irrigation water available this year.

Precipitation totaled 0.22 inches, the maximum temperature was 86 degrees on June 9th and 14th, and the minimum was 41 degrees on June 1st and 2nd.

General Publicity

Arthur H. Carhart of Denver, a free-lance writer and author of conservation books, spent June 8 at the Great Sand Dunes gathering material and taking pictures for an article in one of the popular magazines.

Otto Roach, nationally-known photographer and also of Denver, was here on June 4 to take new pictures for his book of Rocky Mountain photographs. Mr. Roach demonstrated that good pictures are not always secured easily by carrying an 8x10 view camera with tripod and a 40 lb. box of equipment over the top of the highest dune to a location on the west exposure. This took him 6 hours.

A good shot of the Great Sand Dunes appeared in the June 8 Empire section of the Denver Post.

Maintenance and Rehabilitation

The project for installation of the bulk propane system was completed as far as our exhausted funds would permit. Completion reports were submitted on this project and the rehabilitation of patio walls and

NATIONAL PARK SERVICE

residence completed at the end of May.

The interior walls in the office were painted and the floor was given one coat of enamel.

The entrance road was graded once a week and is in fair condition.

Approach Road

A mile section of the approach road just east of Mosca has been under water the greater part of the month. Alamosa County road men worked on it almost all last week but water came in again on Saturday night so it looks as if visitors will have this hazard for some time to come. Many people undoubtedly turn around at this point.

Interpretive Service

The great increase in visitation this June required us to spend the greater part of our time in meeting visitors. Very little work on the Montville Nature Trail was possible but we hope this next week to do enough to put it into operation.

Southwestern Monuments Association Sales

Compilation of our quarterly sales report this morning revealed that our SWMA sales of books and slides have increased from \$6.45 in 1950 to \$166.92 in 1951 and to \$376.59 in 1952. Since we do not make special efforts to sell books other than to make them readily available and since the traveling public was spending less money per capita in Colorado this past year, we cannot help but feel that this increase in sales is partially a reflection of our increased interpretive activity.

Research and Observation

D. A. Sutton of the University of Colorado was here two days last week working on the chipmunks of Colorado. He believes that in addition to *Eutamias minimus caryi* (type locality is Medano Ranch adjacent to the monument) that we also have *Eutamias minimus operarius* (separated from *E. minimus caryi* by altitudinal differences and with intergradation within the monument) and *Eutamias quadrivittatus quadrivittatus*. Mr. Sutton will furnish us with a copy of his paper when it is printed this winter.

46 new species of plants were collected this month. Flowering plants did very well before the drying winds started and I could have collected more if I had had time for trips away from headquarters - as it was I did most of the collecting on my days off.

Bureau of Reclamation employees were here twice to measure Medano Creek just below the George White property. This information

... ..

has been recorded in the fact files.

Increase in Travel

Visitation this June increased 60% from 2094 people in June of 1951 to 3353 people during this month. This 3353 is considerably greater than the 2782 in June of 1949 which was the highest June on record. The increase was proportionately distributed between Colorado and out-of-state visitors.

Visitors

The St. Peter's Lutheran School of Monte Vista held their school picnic at the Great Sand Dunes. A University of Illinois group of 32 were here on a field trip on June 20.

Bert Baker, Big Game Technician, and Bethel Cochrane, Warden, both of the Colorado State Game and Fish Department, visited here during June.

Ranger Service

First aid to ailing autos and assistance to stuck motorists took more time this month than at any time I can remember. We have never kept a record of time spent in this way. However, Bob and I can remember at least 7 cars we helped to get out of the sand in one place or another -- always in a location they shouldn't have been in an automobile.

1. The first part of the paper is devoted to a review of the literature on the topic of the paper.

Montezuma Castle National Monument
Camp Verde, Arizona

June 25, 1952

Memorandum

To: General Superintendent
From: Superintendent, Montezuma Castle
Subject: Monthly Narrative Report, June 1952

Weather: It has been rather hot and dry, with frequent high winds occurring the later part of the month. Maximum temperature of 105 degrees was observed on June 17. Nights, however, remain cool, averaging in the mid 50s.

Special Activities: I spent most of June 10 with Mr. Carlson of the Regional Office checking Sycamore and Cottonwood trees within the area. Mr. Carlson has recommended a DDT insecticide formula to be applied in the spring of 1953 for control of the lace-wing infestation. He has also recommended extensive pruning for both Sycamores and Cottonwoods.

Mr. Gene Mott and I made an inspection on June 24 of government owned buildings at both Montezuma Castle and Well. Special attention was given to the propane systems.

Travel: This has been a record month for travel. 7,192 visitors were counted which surpasses by 417 the previous record established in August of last year. This figure when broken down shows 5,394 people in 1,541 cars to the Castle and 1,798 people in 510 cars to the Well.

Interpretation: Interpretive service at the Castle was maintained from 8:00 a.m. to 6:00 p.m., and through the noon hour. Most contacts were made at the model both in manner of informal visiting and by short talks to larger organized groups. The Sycamore trail was again used quite extensively, and the museum was visited by almost all visitors.

The Well museum was open about 100 hours during the month, and was visited by some 700 people.

Publicity: The May issue of Santa Fe magazine showed a large picture of Montezuma Castle which was accompanied by appropriate remarks as to the significance of the area and how it could be reached from Flagstaff.

June 15, 1962

Memorandum

To: General Eisenhower

From: Special Agent, Defense Force

Subject: Security Service Report, June 1962

Summary: It has been determined that the following information is being furnished to the public in the form of a report. The information is being furnished to the public in the form of a report. The information is being furnished to the public in the form of a report.

General Eisenhower: I have read of the fact that the following information is being furnished to the public in the form of a report. The information is being furnished to the public in the form of a report. The information is being furnished to the public in the form of a report.

It has been determined that the following information is being furnished to the public in the form of a report. The information is being furnished to the public in the form of a report. The information is being furnished to the public in the form of a report.

Summary: This has been a recent month for the following information. The information is being furnished to the public in the form of a report. The information is being furnished to the public in the form of a report. The information is being furnished to the public in the form of a report.

Summary: The following information is being furnished to the public in the form of a report. The information is being furnished to the public in the form of a report. The information is being furnished to the public in the form of a report.

Page 2:

Visitors: On June 2, Prof. Deaver and 12 students representing the Field Biology class of Arizona State College at Flagstaff were given special attention at both the Castle and the Well.

On June 14, Chuck Abbott and Esther Henderson, photographers for Arizona Highways, stopped by. It is understood they are preparing a story on Camp Verde and vicinity.

On June 16, W. W. Lane, State Land Commissioner, visited the area.

Roads and Trails: Work progressed normally on the spur from the Loop Trail to the outlet of Montezuma Well. Upon completion next month this section will make a delightful part of the Well nature trail.

Maintenance and General Work: Pierson and White spent two days at Tuzigoot removing a part of the old water line which use to serve that area before installation of the new well. It is planned to use this line to pipe water to the campground at the Well.

Public Health: Water samples collected during the month continued to show negative for bacteria. Apparently installation last winter of a hypo-chlorinator has eliminated the problem caused by unfavorable water samples.

Personnel: An informal picnic which included the Tuzigoot gang was held June 20 in the campground for Art White who left the following day for Chaco Canyon. Art was with us for over two years, and needless to say we are all sorry to see him leave and wish him luck.

Lloyd Pierson was appointed June 22 to fill the Archeologist position for the area and Myron D. Sutton from Carlsbad has been selected to fill the Ranger position. Myron reported for duty June 22 and has been assigned the Well area. We welcome him to our organization.

JOHN C. COOK

John C. Cook
...

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

June 28, 1952

Memorandum

To: General Superintendent

From: Superintendent, Arches National Monument

Subject: Monthly Narrative Report for the month of June 1952, for Natural Bridges National Monument.

GENERAL: The monument was officially opened for the summer season on May 21 and John Wiley Redd ~~ENTERED~~ on duty the same day as Laborer Foreman to work the road and trails and clean up the trash of seven months accumulation. Lyman Redd entered on duty June 19 as Laborer to help on Roads & Trails. He will be terminated June 30.

WEATHER: One heavy rain fell on June 4 & 5, but the remainder of the month has been warm and dry with high winds.

TRAVEL: A total of 557 people visited the area in 247 cars. A decrease of 12 % is noted from the same period last year. From October 26, 1951 through May 25, 1952, 177 people signed the register while the area was officially closed.

INTERPRETIVE: Of the 557 people who visited the area 503 were contacted at Headquarters and 189 used the Kachina Bridge Trail. Four contacts were made at Wiley Redd's residence in Blanding. The picnic ground was used by 67 campers in 21 parties.

PUBLICITY: Three of the 26 colored pictures in Jack Breed's article, National Geographic, June 1952, are of Owachomo and Sipapu bridges.

ROADS: Merle Winbourn, Arches Maintenance man, left for Natural Bridges on June 24 with the dump truck and loader, to shale the Headquarters approach road. Sufficient culvert was obtained to extend all culverts and side drainage ditches were shot. A compressor was rented for the drilling and a bulldozer for the stockpiling of shale. This work should improve the road a great deal by the lessening of three steep grades, elimination of slickrock humps, and control of side drainage.

SIGNS: Three new road signs were made and placed; one at the 10-mile point below the Bears Ears and two on the Hole-In-The-Rock Trail road. Five more road signs will be made when time permits, using the same color scheme and lettering we have used at Arches. The weathered and misspelled warning signs on the Kachina Bridge Trail were replaced. One sign on the Sipapu Bridge Trail was replaced.

Navajo National Monument
Tonaless, Arizona

SUMMARY OF MONTHLY NARRATIVE REPORT FOR JUNE 1952

Travel: 152 persons visit area. 129 less than in 1951.

Weather: Cool and windy. 1.08 inches of moisture

Museum: Visitors show much interest in modern Navajo culture.
Donations by SWMA. Prehistoric ladder obtained from
local ruin after difficult hike

Roads and Trails: Work continues on road and trail maintenance.
Approach roads in good shape

Rehabilitation Projects: Shed repair completed. Bulk propane
system nearly complete. Leak in tank.

General: Repair of both hogans. Radio moved to office. Shower
for visitor use installed. Trailer remodeled. Other
small jobs accomplished.

Special Visitors: Mr. and Mrs. John V. Hansen, Washington, D.C.
Ass't Supt. John Lewis, Bryce Canyon. Chief Ranger and
Mrs. Jack Wade, Clerk Ruth Ferril, Chief Clerk Harry
Linder, all of Mesa Verde. Archeologist Lloyd Pierson,
Montezuma Castle. Bill Wilson and new Rainbow Lodge
Concessioner Halloway. Misses Mae and Evelyn Sharp,
sisters of Supt. Sharp of Tonto.

Local: Auto accident causes death of Navajo child and shocks
visitors. Navajo medicine man commits suicide.

Navajo National Monument
Tonaless, Arizona

June 28, 1952

Memorandum

To: General Superintendent

From: Superintendent, Navajo

Subject: Monthly Narrative Report for June, 1952

Travel and Interpretation: The visitation to this area for the month of June totaled 152 persons traveling in 51 autos. There have been 129 less visitors this travel year to date, than last year.

There were 33 conducted tours to the ruins with an attendance of 109 people.

Weather: The month has been cool and very windy. Temperatures ranged from a high of 92° to a low of 43° with 1.09 inches of moisture recorded.

Museum: The visitors have shown a surprising amount of interest in the small museum which we are still in the process of installing. There is nothing startling or new on display but we are receiving comments, suggestions and numerous questions concerning the exhibits. It is becoming more and more evident that although this is an archeological area the visitors are equally interested in the present day Navajo Indian culture.

SNMA donated a Navajo "baby" for the cradleboard and cutout letters for exhibit identification.

A prehistoric Pueblo ladder was obtained for the museum from Lost Ruin near the head of Nakai Canyon. This ladder has only two rungs remaining but obvious evidence of the others. A group of four persons, including myself, got the ladder to area headquarters after an all day hike and climb. Part of the trip was made by using the old hand and toe trail with the additional safety of a good nylon rope.

Tomb, Alaska

June 20, 1952

Memorandum

To: General Information
From: Information, Alaska

Subject: Monthly Narrative Report for June, 1952

Travel and Information: The visitation to the area for the month of June totaled 15 persons. There have been 152 total visitors to the area since June 1, 1951. There were 23 combined visits to the area since June 1, 1951.

Remarks: The month has been cool and very dry. The weather has been a high of 72° to a low of 42° with 1.5 inches of moisture recorded.

Incidents: The visitor has been a very small amount of interest in the area which we are still in the process of installing. There is no other activity at the site and we are receiving no other reports and no other information concerning the activities. It is recommended that the visitor be kept advised of the progress of the visitor's activities. The visitor has been "seen" for the first time and about 100 feet for the first time.

A preliminary report has been received for the month from the site near the head of the lake. This report has been received from the site near the head of the lake. A group of four persons, including myself, and the visitor to the site have been after all the time and effort. The visitor has been made by using the old trail and the trail with the visitor's safety of a good type.

Roads and Trails: Work continued on drainage ditches, grading and filling, removing rocks along the entrance road. All directional road and trail signs were repainted. Sandal Trail was cleaned and repaired and the sandal shaped directional markers were painted. Work continues on the Betatakin and Keet Seel trails.

The major approach roads are reported to be in good condition but the recent high winds will cause a lot of sand drift.

Rehabilitation Projects: We are happy to report that the shed repair project has been completed with the cement plastering of the outside walls.

The bulk propane gas system is completed except for moving the hot water heater in the superintendent's residence. A replacement tank with the Underwriter Seal of Approval was installed and developed a leak in the safety valve coupling after about one weeks service. The unapproved tank had been in service for over 8 months with no defects noted during that time. The Northern Arizona Gas Service Company has been notified of the leak. Fencing is completed around the installation.

General: The area radio has been moved to the office and a horizontal antenna put into use.

One load of top soil and one of fertilizer was hauled and spread on the "back yard" at the superintendent's residence. Grass was planted but at the present time the results look very meager.

The roof on the ranger hogan was chipped and a new coat of cement applied. Side rails of logs are being installed to allow a covering of dirt to be applied and held in place on the hogan roof. The visitor hogan, presently being used by our laborers, had to have the doorway supports replaced as they had rotted and caved in.

A stand was made to accommodate two 55 gallon barrels that will hold water heated by the sun and provide a crude but satisfactory shower for our laborers and visitors. Floored with flagstone and sheltered by canvas it is a popular spot after the hot, dusty trip to Keet Seel or a days work on the roads.

A small three wheeled trailer was remodeled for hauling our jack hammer with its accessories. This trailer can be pulled with the jeep or by man power.

A new fill pipe was installed on the gasoline storage tank. The weather station was painted. A 3' X 5' cement slab was poured outside the kitchen door of the superintendent's house. One load of sand was hauled from Cameron. One trip to Flagstaff was made about the first of June for supplies. Altogether it has been a very busy and productive month.

UNITED STATES
DEPARTMENT OF THE INTERIOR
NATIONAL PARK SERVICE

Special Visitors: Mr. and Mrs. John V. Hansen of Washington, D.C. accompanied by Assistant Superintendent John G. Lewis of Bryce Canyon and Dick Clark of the Utah Parks Company, visited Navajo June 19, 20, and 21.

Chief Ranger and Mrs. Jack Wade, Ruth Ferril, Clerk, and Chief Clerk Harry Linder, all of Mesa Verde, were visitors over the Memorial Day weekend.

Archeologist Lloyd Pierson and family from Montezuma Castle were here June 11.

Dill Wilson and Mr. Halloway and sons on June 1st. Mr. H. has leased Rainbow Lodge and the Wilsons are moving to Clarkdale, Arizona, where they hope all their MPS friends will visit them.

Misses Mae and Evelyn Sharp, sisters of Superintendent Sharp of Tonto were here on June 25, 26, and 27.

Local: An auto accident occurred near Marsh Pass on June 17 in which a Navajo Indian child was killed. Some tourists reported this to us along with the fact that they were deeply shocked that the other occupants of the car, including the child's mother, hurriedly left the scene of the accident, leaving the child's body lying in the wreckage. This is shocking but their fear of the dead makes it understandable.

A Navajo Mountain medicine man committed suicide recently. This is the fourth Navajo suicide in this area during the two years we have been here.

John A. Aubuchon
John A. Aubuchon
Superintendent

Special Visitor: Mr. and Mrs. John A. Hansen of Washington, D.C. accompanied by Assistant U.S. Representative John D. Lewis of Idaho (Carson and John Lewis of the "New Deal" movement, visited Nevada June 12, 1935, and 13.

Chief Senator and Mrs. Jack Lewis, Frank Lewis, Harry Lewis, and other Nevada family, all of whom Lewis, were visitors over the Nevada City weekend.

Mr. and Mrs. Lloyd Peterson and family from Henderson, Nevada were here June 11.

Mr. Wilson and Mr. Williams and sons on June 12, 1935.

Mr. Lewis, Mr. and Mrs. Williams and the Williams are working in Nevada, Idaho, where they have all their Nevada friends with their families.

Misses Lee and Lucile Smith, sisters of Representative John A. Lewis were here on June 12, 1935, and 13.

Local: A Nevada accident occurred near Carson June 12 or 13. It is stated a Nevada family was killed. 3 or 4 persons reported that as they were along with the dead that they were badly shocked that the other occupants of the car, including the wife's mother, suddenly left the scene of the accident, leaving the wife's body lying in the wreckage. This is shocking and their fear of the dead saves it. It is stated that a Nevada family was killed and the wife's mother was killed. This is the family which is now here during the summer years we have been here.

John A. Lewis
U.S. Representative

June 25, 1952

Memorandum

To: General Superintendent

From: Superintendent

Subject: Monthly Narrative Report, 1ml for June 1952

Weather

June has been very pleasant for this section, with only a few hot days. High for the period was 107° on June 17 and 19 and a low of 50° on June 3.

All records were broken by getting 0.05 inches of rain on June 2. This was the first rain ever recorded for the month of June.

Special Activities

Several days were spent with the new personnel on training sessions for their work on this area.

June 17 was spent in Phoenix for supplies and visits were made to the Desert Botanical Garden and Arizona Highway Department.

Donald Coates of the Ground Waters Division, Geological Survey, spent three days on study of water supply in wells within the area.

Publicity

Someone sent a copy of "The Plymouth-Pilot News" from Plymouth, Indiana, which contained a feature article on the Southwest with quite a lot of it devoted to the monument.

Construction

Soil and Moisture work is being completed this week. All checks and diversions will be seeded and work finished.

The campground work was carried on during the month

Very truly yours,
John F. Kennedy

Man soll nicht im Saft sein, man soll die Saftigkeit sein.

but was held up some until we were able to contract for drilling and blasting so we could complete grading.

Research

Collaborator Paul Ezell spent five days on the area making further study on the archeological research.

Assistance was given William Woodin of Tucson in collecting reptiles just north of the monument for the new Zoological Exhibit in Tucson Mountain Park.

Observation shows that six or seven Bighorn Sheep, two Antelope, and several Deer are watering regularly at the Bates Well Charco. This shows the value of water development where it is in areas available to all wildlife.

Accidents

Our good record of injuries was marred this month when James Carlos, a laborer, got his finger caught under a rock while rolling it onto a bucket loader. While to took a few stitches to close it, no lost time occurred as he returned to the job and made up lost time.

An automobile accident occurred on the highway. No one was hurt other than bruises. Cause of the accident was alcohol and speed.

Personnel

Louis G. Kirk transferred from Death Valley Nat'l. Monu. June 1 to fill the position left open by Ranger Steel's promotion and transfer.

Francis Brown was hired June 24 to fill the laborer position.

It is a satisfaction to again have a full staff and as soon as all are broken in everything will be going good.

On the second of January the second trial was held. The evidence was the same as in the first trial, but the jury was not allowed to hear the testimony of the witness who had been called by the defense in the first trial. The jury returned a verdict of guilty on the first count of the indictment, but acquitted the defendant on the second count. The court then sentenced the defendant to the state prison for a term of five years.

Journal of Management Education 33(10)

June 25, 1952

MEMORANDUM

To: General Superintendent

From: Superintendent, Saguaro National Monument

Subject: Monthly Narrative Report, June 1952

General

Warm to hot weather prevailed during the month of June, with the maximum temperature reaching a high of 107 degrees. Fire weather was moderate throughout the report period but did reach a 77% High reading on June 1. A thunder storm occurred over the Rincons on June 2, accompanied by heavy rains amounting to 1.10 inches of precipitation. This rain soaked the entire area with the result that all creeks are running again. We are still pumping water from Chiminea Creek at Madrona Ranger Station.

Surfacing of the Spanish Trail Approach Road was initiated on June 16 by the Pima County Highway Department. We congratulate Pima County for accomplishing this much needed improvement as it is the main artery leading to Saguaro National Monument. Substantial travel increases will no doubt be reflected during the coming months as a result of this improvement.

The display of Saguaro blossoms was less spectacular than in former years and the flowering period was shorter.

Special Activities

Regional Director Tillotson and Miss Zimmerman on May 31, inspecting the new residence and Madrona Ranger Station.

Status of Private Lands

Messrs. Paul Cutter and Harold Tysk were here on June 5 from the Bureau of Land Management, Albuquerque, New Mexico. They reported that lands selected by the State of Arizona near Yuma, had not been released by the Bureau of Reclamation as they had previously agreed. If the withdrawal cannot be rescinded, it will mean that another two years may transpire before the exchange can be consummated between the State and the Bureau of Land Management, as other available lands will have to be selected.

New Construction

The water system is complete with the exception of one or two minor details. The pump house was completed and pump installed, also the necessary electrical switches were placed and connected. We anticipate that the power company will install the power poles and wire to energize our line within the next week or ten days.

The cesspool at the new residence was installed by the American Sulger Sanitation Company.

Repairs were accomplished on the corral at Manning Camp and a new gate constructed. An insect proof cooler box for food storage was constructed and placed at Manning cabin.

Approaches to Park Area

The Pima County Highway Department started applying surface materials on the Spanish Trail Approach Road on June 16. In view of the fact that they have a large crew on the job, together with plenty of rolling stock, it would appear that the project should be completed in about two weeks. There is little doubt but what this surfaced highway leading to the monument, will be conducive to ever increasing travel to this area.

Interpretive Services

A total of 1,387 visitors in 410 parties were afforded interpretive service at headquarters. This amounted to a total of 98 hours for an average of 14 minutes per party.

Observations

Six javelinas were observed by Fire Control Aid Carter on May 26, between Reff Rock and Mica Mountain Secondary Lookouts. This is the highest elevation (over 8,000 feet) at which these animals have ever been observed on the monument.

Two Elf Owls were observed at dusk (7:45 P. M.) on June 16, perching on the telephone line at headquarters.

A single turkey gobbler was observed at Spud Rock Lookout on June 17 by Fire Control Aid De Haven.

Travel

A total of 3,306 persons visited Saguaro National Monument during June. This is a decrease of 3,593 visitors from last month but an increase of 128 visitors over the corresponding month of 1951.

It was an oral agreement between the two parties that the company would not be allowed to sell its shares to the public without the approval of the board of directors. The company was to be a private company and the shares were to be sold only to the board of directors.

Tonto National Monument
Roosevelt, Arizona

June 28, 1952

Memorandum

To: General Superintendent, Southwestern National Monuments
From: Superintendent, Tonto
Subject: Narrative Report, lml, June 1952

Weather. Hot early in the month, up to 106 degrees. Cooled off to middle nineties during last two weeks, with strong winds. More comfortable, but winds make high fire danger. Last rain was 1/2 inch on June 2.

Travel. The winter heavy travel season is past, and the summer heavy travel season has followed the spring heavy travel season. This month, 2142 visitors came in. This is almost double the number for last December, nearly equals last January, and is a 62% increase over June 1951.

Visitors. Mr. Ed Stefan of Lollesgard Specialty co., and son. Mae and Evelyn Sharp, sisters of superintendent Sharp.

State Senator Wm. A. Sullivan, Globe, and Mr. Irving C. Lavers, of the Arizona State Highway Department. Archaeologist Renger conducted Senator Sullivan and Mr. Lavers on a "show-me" tour of the cliff dwelling and the Monument facilities in general, including the new entrance road, and gave them some excellent information on volume of travel, number of cars using the Apache Trail, and related information. Senator Sullivan stated that they were trying to get money to improve the Apache Trail & Payson highway, from Globe to Payson, as soon as possible. Mr. Lavers expressed surprise at the number of cars using the Apache Trail.

Approach Roads. Oiling is nearly complete on another 7 miles of the Apache Trail between Roosevelt and Globe. This will make an oiled surface on over half the distance to town.

Interpretation. Many parties were contacted at the Museum and sent to the cliff dwelling unescorted, but about half of each day contact is made at the cliff dwelling, and the museum left unattended. Visitors have averaged from 50 or 60 per day on week days, coming in at such intervals as to take up most of the time on either museum or ruins contact, and coming in quite early in the morning.

DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
Flagstaff, Arizona

Personnel. Laborers Brewer and Deel were terminated May 29. WAE Guide Cosnar was on duty about 12 days during the month, while Archaeologist Wenger was on leave, during period June 4 to 30.

Construction Projects. All projects were carried out to where roads and utilities are in workable condition. The entrance road remains to be oiled before that project is complete. About 370 feet of 2½ inch pipe from Crane Co. of Phoenix was delivered on June 24, and that will have to be installed, spring development done, and a leak in the storage tank repaired before the water system development project will be complete. The road should be oiled as soon as possible, the other work may be better accomplished after cool weather starts next fall.

Fire Danger. Fire danger here and in adjacent Forest Service lands has been in "extreme" for a good part of every day, due to dry weather and high winds. Annual brome on the Monument is a foot high, very thick, about 3 times usual hazard. A fire in similar growth on the San Carlos reservation jumped U.S. 70 last week and burned 2,500 acres.

General. The pickup was left at the T & M Garage, Miami, for body and fender work, as per recent correspondence. The dump truck was taken to Globe for the 5,000 mile check and other work.

This month the superintendent has run Tonto like the household of a widow with eleven kids, taking care of the most desperate needs and letting the rest go. It was necessary for compelling personal reasons for the archaeologist to be gone most of the month on leave. In this connection it should be stated that there is no longer any month when it would be administratively desirable for either of the permanent staff to be away. A backlog of maintenance, office work, research, file and nature note work, and personal work has accumulated, and unless the travel decreases or the staff is augmented, I do not expect to catch up. This perhaps makes for a happier, fuller, more useful life, and gives the employee the feeling of trying to do all he can, but it does not meet deadlines.

Happy Fiscal Year !

Charles C. Sharp
Charles C. Sharp
Superintendent

Personal. Information given and lost were furnished May 22, 1942. The
Government has not yet decided if they should be made, with appropriate
changes in the law, under the new law.

Consent to the proposed. All projects were carried out in the hands
and carried out in the hands of the Government. The Government is now
able to carry out the project in the hands of the Government. The Government

UNITED STATES
DEPARTMENT OF THE INTERIOR

NATIONAL PARK SERVICE

Tumacacori National Monument
Tumacacori, Arizona

June 26, 1952

Memorandum

To: General Superintendent, Southwestern National Monuments
From: Acting Superintendent, Tumacacori
Subject: Superintendent's Monthly Narrative Report for June, 1952.

Weather: Practically all of our month's rainfall came in one day, June 2, and then it was over six times the average June precipitation! Days have been hot; only three failed to reach 90 degrees. Nights have been comfortable in the 50's and 60's.

Visitor Travel: With 2,205 persons visiting the monument, we continued the downward trend in travel for the second straight month and the third time this year. With other areas showing record increases we can only account for this poor showing by blaming the 9-mile-long detour which passes the monument and the road construction debris which most of the time all but conceals the approaches to our parking area. Sundays are fairly heavy with family groups coming from Tucson or Phoenix.

June 1952: 2,205 persons in 571 cars and 1 bus.

June 1951: 3,021 persons

Percent decrease - 27%

Last 12 months - - - - - 43,776

Previous 12 months - - - 38,279

Percent increase - - - - 14.3%

Visitors: Among those present were:

5/30/52 - 25 Girl Scouts from Casa Grande, Arizona

5/31/52 - Regional Director and Mrs. Tillotson, their son, daughter-in-law and grand-daughter and Miss Alvina Zimmerman.

6/18/52 - Ranger and Mrs. Louis G. Kirk of Organ Pipe Cactus National Monument, and their two boys.

There were no official visitors this month.

Interpretation and Education: A long-nosed snake (*Rhinocheilus lecontei*) was added to the reptile collection. It was found dead, the last two-thirds still in a hole, his head turned expectantly upward. Although only six feet from the entrance walk, no visitor had noticed it, until Maintenanceman Deubler called our attention to it.

Enclosure

Very truly yours,

John D. Dyer, Director

Pottery fragments which had been sent for study to Dr. John M. Goggin, University of Florida, were returned without comment. These represent collections made at Tumacacori over a period of years.

A photographer from the Tucson Daily Star paid us a visit and took a number of photographs to be used in an article on Tumacacori which will be published shortly in that paper.

While visiting Tucson and vicinity, Sallie Brewer spent about an hour and a half looking at the repair work on San Xavier mission in company with Father Celestine Chinn. She was impressed with the attention given to reproducing faithfully the details of construction even to bringing in laborers from Mexico to make a certain type of brick used in the original building.

Rehabilitation Work on Mission Church: Plastering of the west wall of the church is all but finished. Only a small portion near the roof awaits the time when the ranger can be spared to help our maintenanceman. This stabilization job now protects the adobe wall which was threatened by the disintegration of the old plaster.

Maintenance: Much weed-pulling and tidying of the paths and service road was done during the month. Trails from headquarters to the two residences were asphalted and some patching done on the trail to the church. Weeds which had grown up in the mortuary and cemetery were removed.

While the superintendent was away, the drainboards in his house were linseeded and sanded. Other repairs on doors and windows were also made.

Parking Area Construction: Work nears completion on the highway-widening project as it affects our parking area. Sidewalks are now in, complete with grooving to imitate adobe bricks. A fine match was made in coloring the concrete to look like the weathered mission red of those bricks already in place. Curbs are finished and, at this writing, the pier at the end of the south wall is built and ready for plastering. This week should see the removal of the equipment and vehicles that have been obstructing our parking area for the last month.

Personnel: Superintendent Jackson began his annual leave on June 2 and will return around the 12th of July. He and his family made the long journey to Connecticut to visit relatives.

During his absence, Mrs. Sallie Brewer came down from the Regional Office to assist in guiding duties and to study our pottery collection. Her experience and knowledge of this area have been of great value to the acting superintendent.

DEPARTMENT OF THE INTERIOR

Fiscal: Notice to discontinue collecting tax on complimentary admissions was received on June 7. Accordingly all unused complimentary tickets were returned to the Regional Director.

General: It's getting so one bolt is not enough on the front door. After the 5 p.m. closing one day, a visitor with a strong determination to see the mission burst in pulling the bolt from its moorings. He said he thought the door was sticking a little and shoved a little harder.

Sallie Brewer observes:

The pair of barn swallows who first appeared at Tumacacori last year, and built a nest in the south arcade of the museum building, have returned for the construction of their 1952 home. Visitors have gotten a good deal of pleasure from watching the nest-building; and the swallows have given us a fine chance to point out living examples of some of the qualities which went into the construction of the mission church at Tumacacori. Both the church builders and the swallows worked chiefly with adobe; both had plans which would not be approved by modern architects for the material used; both were successful. The swallows have built a six-inch platform of mud at a right angle to the vertical face of a viga -- with no support or brace except the bond they were able to get between the adobe and finished wood. The church builders constructed, of mud, a dome and an arch with a 12-foot span. The nest looks sturdy. The mission church took over 70 years of neglect and exposure on the adobe dome and arch, without either one cracking. Technically, neither the mud platform or the mud dome would be advisable; but the builders of both belonged to those who either don't know something can't be done--or refuse to admit that time and care won't accomplish the desired end. It's always inspiring and comforting to see that kind of faith get the job done.

William L. Featherstone
William L. Featherstone
Acting Superintendent

1. The first of these is the fact that the
country's resources are not being used to their
full potential. This is due to a number of factors,
including the lack of a clear policy and the
inefficient use of resources.

2. The second factor is the lack of a clear
policy. This is due to the fact that the
country's resources are not being used to their
full potential. This is due to a number of factors,
including the lack of a clear policy and the
inefficient use of resources.

3. The third factor is the inefficient use of
resources. This is due to the fact that the
country's resources are not being used to their
full potential. This is due to a number of factors,
including the lack of a clear policy and the
inefficient use of resources.

4. The fourth factor is the lack of a clear
policy. This is due to the fact that the
country's resources are not being used to their
full potential. This is due to a number of factors,
including the lack of a clear policy and the
inefficient use of resources.

5. The fifth factor is the inefficient use of
resources. This is due to the fact that the
country's resources are not being used to their
full potential. This is due to a number of factors,
including the lack of a clear policy and the
inefficient use of resources.

6. The sixth factor is the lack of a clear
policy. This is due to the fact that the
country's resources are not being used to their
full potential. This is due to a number of factors,
including the lack of a clear policy and the
inefficient use of resources.

7. The seventh factor is the inefficient use of
resources. This is due to the fact that the
country's resources are not being used to their
full potential. This is due to a number of factors,
including the lack of a clear policy and the
inefficient use of resources.

8. The eighth factor is the lack of a clear
policy. This is due to the fact that the
country's resources are not being used to their
full potential. This is due to a number of factors,
including the lack of a clear policy and the
inefficient use of resources.

9. The ninth factor is the inefficient use of
resources. This is due to the fact that the
country's resources are not being used to their
full potential. This is due to a number of factors,
including the lack of a clear policy and the
inefficient use of resources.

10. The tenth factor is the lack of a clear
policy. This is due to the fact that the
country's resources are not being used to their
full potential. This is due to a number of factors,
including the lack of a clear policy and the
inefficient use of resources.

11. The eleventh factor is the inefficient use of
resources. This is due to the fact that the
country's resources are not being used to their
full potential. This is due to a number of factors,
including the lack of a clear policy and the
inefficient use of resources.

NATIONAL PARK SERVICE

TUZIGOOT NATIONAL MONUMENT
CLARKDALE, ARIZONA

26 June, 1952

Memorandum

To: General Superintendent, Southwestern National Monuments
From: Superintendent, Tuzigoot National Monument
Subject: Report 1ml June, 1952

There follows a narrative report of activities in this area.

VISITORS

3374 visitors entered this area in 1083 cars. Of this number 2 were in uniform of the armed forces.

2999 visitors in 939 parties went thru the museum.

2957 visitors in 931 parties went thru the ruin.

382 visitors in 152 cars entered the early-late-or noon and signed the out-door register where trail guide pamphlets and two-fold leaflets were available.

100% of our 8-12, 1-5 visitors were contacted by a two man force during the month.

The average figure for this month of 100 visitors per day is unusual for this time of year.

National Park Service Visitors

Mr. Gordon W. Robertson and son, of the Lands Division Office, Washington, D.C. on the 26th.

Arthur White, Ranger, Montezuma Well, on the 26th.

Lloyd Pierson, Ranger, Montezuma Castle on the 26th.

Temporary Ranger and Mrs. Walters of Walnut Canyon on the 5th.

Mr. Carlson, Region Three Forester on the 9th.

Gordon, G. E. Thompson, U. S. on the 1933.
Gordon, G. E. Thompson, U. S. on the 1933.
Gordon, G. E. Thompson, U. S. on the 1933.
Gordon, G. E. Thompson, U. S. on the 1933.

THE END

Dr. Gordon E. Thompson, U. S. on the 1933.

Other Agency

Mr. Carr, Forest Ranger at Beaver Creek, and family on the 1st.

Mr. and Mrs. Clarence Bruce, Bureau of Standards, Washington, D.C. on the 12th.

Reportworthy

Mr. and Mrs. Bill Rice of the Southwest Museum on the 31st.
Maurice Smith, exchange student from Hamilton, New Zealand on the 31st.

Organized Groups

Adult Education in Geology, Indio, California - group of 16 on the 14th.

Troop No. 44, B.S.A., Pasadena, California - group of 35 on the 21st.

Troop No. 115, G.S.A., Chandler, Arizona - group of 6 on the 23rd.

ROADS AND TRAILS MAINTENANCE

Loose stones in the flagstone walk were rescedmented on the 26th of June.

During the month, sections of the old water line were retrieved and reused to carry water to the top of the ruin for the trail construction work. Rangers Pierson and White removed some sections for use as a water supply line to the campground at Montezuma Well.

IMPROVEMENTS

Marginal Cleanup

Around 1 O'clock P.M. on the 9th, as Superintendent Brewer was discussing a fire hose rack for the rear of the museum with Region Three Forester Carlson, one of the workmen came in from the ruin with a report of fire at Mrs. Mae Vaseur's residence at the foot of Tuzigoot hill. The superintendent dispatched the pickup and three workmen with shovels to the scene of the blaze, while he and Mr. Carlson went directly on foot. One structure was totally destroyed.

The cluster of depressing "buildings" at this settlement is a definite eyesore to Tuzigoot visitors and while we sympathize with Mrs. Vaseur we cannot help feeling that its "one down, seven to go!"

1911

1. The first of these is the fact that the Chinese have been able to maintain a high level of production and export of goods, despite the fact that they have been subjected to a severe economic blockade since the outbreak of the Korean War. This has been achieved by the Chinese through a combination of factors, including the use of a highly efficient system of rationing and the implementation of a policy of self-reliance.

1. The first group - the "Young Men's Christian Association" (YMCA) - was founded in 1844 in New York City. It was the first of many similar organizations that were established throughout the United States and around the world. The YMCA's primary focus was on providing physical education and sports to young men, but it also offered social and moral guidance.

NEW CONSTRUCTION

Completion reports for the new water supply system were submitted on June 1st. Construction progress photographs supplemented the report.

The light pole removal and cable laying proceeded on the 11, 12, and 13th to the edge of the monument.

Blacktop has been applied to the landings between the steps to Room 14 and on all of the trail where elevation had been changed on the west side of Tusigoot. Work is now progressing on blacktopping from the south end of the trail at Guide Stake # 14.

Dangerous narrow steps at the rear of the residence were widened to a safe dimension at the time the concrete was being replaced over the water and electric lines.

WEATHER

Windy and dusty.

RESEARCH AND OBSERVATIONS

The Arizona State Dept. of Health, Phoenix, analyzed a sample of our water collected June 11, 1952, source, the new well. Their findings are:

1. 5 tubes of 10 ml. portions are run on each sample. Positive 10 ml. portions are reported as positive tubes.
2. Standard Agar Plate Counts (SAPC) 35 degrees C. Lab No. 21907, tubes positive, None.

The Says Phoebes raised another family in the louvre on the east side of the museum.

PERSONNEL

Laborers H. Sullivan and A. Taylor were terminated on the 6th.

Laborers Uribe and Macias were terminated on the 9th.

Mr. Mott departed on the 24th.

OTHER

Bill and Kathryn Wilson retired and moved to Clerkdale on the 6th. It seems like old times to be neighbors of B. and K. again.

Overheard in the museum - "I thot Jerome was a holy city."

1. The first part of the paper is devoted to the study of the properties of the function $f(x)$ defined by the equation

$$f(x) = \int_0^x \frac{1}{1+t^2} dt.$$

It is shown that the function $f(x)$ is increasing and concave down on the interval $(-\infty, \infty)$.

2. In the second part of the paper, we consider the function $g(x)$ defined by the equation

$$g(x) = \int_0^x \frac{1}{1+t^4} dt.$$

It is shown that the function $g(x)$ is increasing and concave down on the interval $(-\infty, \infty)$.

3. In the third part of the paper, we consider the function $h(x)$ defined by the equation

$$h(x) = \int_0^x \frac{1}{1+t^6} dt.$$

It is shown that the function $h(x)$ is increasing and concave down on the interval $(-\infty, \infty)$.

4. In the fourth part of the paper, we consider the function $k(x)$ defined by the equation

$$k(x) = \int_0^x \frac{1}{1+t^8} dt.$$

It is shown that the function $k(x)$ is increasing and concave down on the interval $(-\infty, \infty)$.

5. In the fifth part of the paper, we consider the function $l(x)$ defined by the equation

Interior view of the pumphouse showing pump location, tank, water and electric lines, convenience outlet and illumination.

Exterior view of the south wall of the completed pump house. The flat one-piece roof is removable for eventual repairs to the pump and jet lines.

Visitors are now using the new steps thru the enlarged hatchway. In the past the small hatchway and the pine pole ladder permitted only the slim and agile to enter this room, access is now easy.

NATIONAL PARK SERVICE
Walnut Canyon National Monument
Flagstaff, Arizona

June 15, 1952

Memorandum

To: General Superintendent
From: Superintendent, Walnut Canyon National Monument
Subject: Superintendents Monthly Report of Activities
at Walnut Canyon National Monument during the
month of June, 1952

Weather Conditions

Weather during the month has been about normal with only .04 inches of moisture. Although plantlife is flourishing better than in years, it is becoming extremely dry. The fire danger in the forests is extreme and the Forest Service has closed most of Coconino National Forest to travel.

Administration

All of the work connected with the close of the fiscal year in addition to rent surveys and other administrative duties has taken considerable time. Pressure of extremely heavy travel plus the trail construction projects don't allow as much time as we need.

The Monument's one and only typewriter was taken in for repair, and I haven't yet mastered the small portable on which this report is being written.

Maintenance

The two inch water meter was installed in the transite water line. The balance of the bitumast trail around the parking area which did not hold up under the rigors of last winters heavy snow and cold weather was torn up and replaced with road mix. The storage shed was straightened up, floors waxed in the museum and all general maintenance work accomplished.

Roads and Trails

The trail construction project has been moving along nicely with only a few minor set-backs. The pipe guard-rail

Very truly yours,
The Small Business Administration

Has been installed and painted. The "fat man's misery" section of the trail was widened to permit easier descent and the stairways have been repaired and recapped. The project is now about 95% complete. Besides the work being done on the main descent to the saddle, we have repaired and constructed other stairways on the west and south side of the Island and cleaned the trail all of the way around.

Travel

Travel reached a new high for June with 5161 visitors compared with 4472 for June of 1951. We are now only 100 visitors behind last travel year to date so in spite of the poor road conditions experienced in the winter and late spring, our next travel report will show an increase all the way around.

Interpretation

Seasonal Ranger Stanley H. Walters reported for duty on May 31, and our staggered shift was put in effect that day. We now have a man on duty from 7:00 A.M. to 7:00 P.M. An accurate check of visitors arriving before 8:00 A.M. was kept and out of the 5,161 visitors there were 20 groups totalling 131 visitors, or between 2% and 3% of our total travel.

There were 1,416 groups totalling 4,692 people contacted. A total of 193 hours was spent in contact time.

N.P.S. Visitors

- 1. Ranger Pearson and family, Montezuma Castle
- Sture Carlson and wife, Regional office,
- Mr. and Mrs. Kenneth Saunders, Regional Office
- Leroy Brown and family, Washington Office
- Mr. and Mrs. Eugene Hott, General Foreman, BLM.
- Cecil K. Hanner and family, Grand Canyon.
- Former Custodian Joseph Toulouse and family

Story of the Month

A group of local people brought out some visiting friends and one of them inquired of Ranger Walters why the name Walnut Canyon? Before he could answer, the local woman answered "Oh that was because these people lived in the canyon walls and they were nuts for doing so." When explaining the Hopi Katchinas to one woman and telling her how the Hopis believed that the Katchinas were spirits that came down from the San Francisco peaks to stay with the Hopi until they returned after the Hivan in July, she asked "Where do they go then?" Mr. Walters replied that the Hopi believed they went back to the peaks for the winter. She said "My goodness, it must get awfully cold up there. How in the world do they survive?"

THE UNIVERSITY OF CHICAGO
CHICAGO, ILLINOIS

[illegible]

Fire Protection

The Annual Report of Forest fire and building fire equipment report was prepared and submitted. All fire fighting equipment was checked and put in shape. Fire tools, ladders, were taken to the Mount rim drive and the telephone installed and connected.

The dryness of the area has necessitated the closing of large areas of Coconino National Forest which had been averaging two fires (man caused) daily. We have closed the Island trail to smoking.

General

An impacted wisdom tooth necessitated the taking of several days of sick leave by Park ranger Sparks.

Seasonal Ranger Stanley E. Walters is the proud father of a six and a half pound baby girl born at 5:00 P.M. on June 25. The baby was not expected for another month and came as a surprise to everyone including the father.

WHITE SANDS

Box 231, Alamogordo, New Mexico

June 24, 1952

MEMORANDUM

To: General Superintendent, SWNM
From: Superintendent, WSNM
Subject: Superintendents Monthly Narrative - Report No. 1ml.

June Travel - 1952 Travel Year to Date
Visitors - 25,104 Cars - 5,765 Visitors - 121,284 Cars - 29,402

Armed Forces

Visitors - 4,058 Visitors - 15,583

GENERAL:

June leads all like months by several thousand, which assists materially in our travel year gain. These gains are in spite of some high winds and hot days. The heat certainly shows up in our midday traffic which means, of course, that our early and late traffic is increasing materially.

Low temperature for the month was 51 degrees on June 4th, and a high of 103 was recorded on the 12th and 20th of June.

SPECIAL ACTIVITIES:

School groups, special busses, etc., all add to the monthly totals. Two large farm bureau groups had evening picnics in addition to several large armed forces gatherings.

PUBLICITY:

This period of the year we get a lot of publicity on our 4th of July program of fire works. Copies of the program are sent to all parts of the Southwest. Last year a group drove over 500 miles just for the fireworks. The Governor has again agreed to be on hand and the Holloman Air Force Base Band will provide band music.

FOR THE, INFORMATION, FOR THE

THE, THE

REMARKS

General Superintendent, THE

Superintendent, THE

Superintendent, THE

THE, THE

THE, THE

REMARKS

THE, THE

REMARKS

There have all the time been by several hundred, which would
materially in our general work. These have been in the way of
some high winds and low tide. The best results have been in the
middle of the month, of course, but we only had this
traffic is increasing steadily.
Low temperatures for the month was 14 degrees on the 10th, and
a high of 103 was recorded on the 12th and 13th of June.

REMARKS

Several groups, several groups, etc., all due to the weather conditions.
Two large fire engine groups had working parties in addition to several
large crews for the fire engine.

REMARKS

This period of the year we get a lot of business in the way of
large groups of the work. Some of the groups are sent to all
parts of the northwest. Last year a group went down the river
for the fire engine. The weather has again proved to be an asset and
the following the large band with several bands.

MAINTENANCE:

Our good rain allowed us to get our stretch of gravel in nice shape but it was only a day or so before it was dry, dusty, and rough. A contract has been let for the oiling of the road so one of our major problems with roads for years will be solved.

Our pipeline is virtually all in and partly backfilled. Not a single leak was found in the test flow and between seven and eight miles of pipe was laid. This, I think, speaks mighty well of Engineer Willard Bradley and his crew.

We have been experiencing considerable difficulty in getting some one with the proper equipment for erecting our steel tower for the water tank. We have promises of a steel man next week. We are still very pleased with our area rest rooms. Even in heavy use periods the toilets do not use excessive water and they are staying reasonably clean, considering the use they are getting.

INCREASE OR DECREASE IN TRAVEL:

Our fiscal year travel has exceeded the 200,000 mark, a record looked forward to for a long time. If present trends continue, we will pass this mark by a comfortable margin, for our travel year.

VISITORS:

Willard Bradley, Region Three

Abbie Rowe, Secretary's Office, Washington, D. C.

Tom Whitcroft and Party, Asst. Supt., Carlsbad Caverns National Park

Harold Marsh, Region Three

Tom Moran, Region Three

RANGER SERVICE:

Our Ranger service is in full swing and both seasonal men - Bosco Jordan and Rolla Buck are with us. Chittum and Davis get a little relief from the checking station but we never seem to be able to catch up.

GENERAL:

It may be darkest just before the dawn and we certainly hope the dawn is approaching in regard to H₂O. We are hauling four and five loads every day and with everything using our hauled water, it is all we can do to even haul enough to keep going. On these hot days many gallons go into car radiators, but there is not a thing we can do. It will likely be a month before we get tied into the regular system. My goodness, with no water to haul, no electric system to maintain, what will we do with all of our time?? So saying the toilets need cleaning - a picnic area shade has been torn down - a visitor's car is stalled on the loop, and a group from a college in N. C. want a talk on White Sands. Maybe I need not worry after all about what we shall do with all our spare time - - -

John Will Faris
John Will Faris
Superintendent

**Wupatki National Monument
Flagstaff, Arizona**

June 26, 1952

Memorandum

To: General Superintendent

From: Superintendent, Wupatki

Subject: Monthly Narrative Report, Wupatki and Sunset Crater National Monuments.

Weather:

The weather has been very mild this month with the maximum showing only 99 degrees on June 18 & 19. Minimum of 51 degrees was recorded on June 3. As usual it was dry in June with only .15 inches of precipitation. High winds have been common the past week which is drying everything up quite rapidly.

The rain gauges for the Museum of Northern Arizona were checked and the readings sent in on June 1.

General Publicity:

The July issue of Arizona Highways carried a short picture story on Sunset Crater with photographs by Ansel Adams.

Maintenance and General Work:

On June 15 the roof of the cesspool used at the trailer residence at Heiser caved in. The old boards were only 1" material and it was replaced with heavier planks that should last for some time.

Around June 20 someone ran into our small double sign on Highway 89 and broke it off. A new post was obtained and the sign repainted and repaired and set back in place.

More letters were cut out for new signs for Sunset Crater. A little time was spent on weed burning at Heiser.

The approved propane tank was received and exchanged so we were able to finish the chain link fence around the installation, hang the gate and string 3 strands of barb wire around the top of the fence.

Special National Committee
Washington, D.C.

June 15, 1941

Dear Sir:

Re: General Investigation

Enclosed for the Committee are two copies of a report

dated June 14, 1941, by the Special National Committee on the subject of the investigation of the activities of the German Government in the United States.

Sincerely,
[Signature]

The enclosed report contains information which is being furnished to you for your information. It is being furnished to you in confidence and it is requested that you do not discuss its contents with any other person. The report is being furnished to you for your information and it is requested that you do not discuss its contents with any other person.

The report is being furnished to you for your information and it is requested that you do not discuss its contents with any other person.

Very truly yours,
[Signature]

The Special National Committee on the subject of the investigation of the activities of the German Government in the United States.

The report is being furnished to you for your information and it is requested that you do not discuss its contents with any other person.

Roads and Trails:

Due to extremely dry conditions with no rain to speak of for two months the loop road near Sunset Crater is getting some rather bad holes in the cinders. It was necessary to post both ends of the road with "Poor Road" signs to cut the travel down a little and let visitors know the road was a little rough.

The bad places are being patched and so far the road is still open and about the same. The grader was run over the bad washboard section around the crater and to highway 89 which improved conditions and cut down complaints from visitors on the road.

We can say for sure that if we hadn't covered the 4 miles we did last fall the road would have been closed by now.

The trail to the crater rim at Sunset Crater was marked with posts painted white on the top portion. This is a big improvement and tends to keep people on a designated trail rather than roaming all over the place. Also an addition of about 4 steps and a landing were added to the bottom of the long flight of steps on the nature trail. The bottom beforehand had some bad holes in the lava and this has been corrected. The steps were also stained.

Interpretive Services:

At Wupatki, 1455 people in 466 parties were contacted for an average time of 14 minutes per party.

At Sunset Crater 1450 people in 481 parties took the Lava Flow nature trail and 389 people made the climb to the top of the crater.

Ruins Stabilization:

Work on the ruins continues at a fast pace with a lot more capping done and some excavation. Mr. Thomas Mathews arrived and entered on duty June 20. He will complete the excavation of the east side that has been partially excavated to date.

Travel:

Travel broke all records for the month of June with Wupatki recording 683 cars and 2003 people which was 128 cars and 360 people over last June.

Sunset Crater totaled 1760 cars with 4452 people which was an increase of 627 cars and 823 people over last June.

We are well on the way for new travel year records for both areas with Wupatki 895 people ahead to date and Sunset Crater 1229 ahead.

The two children, the beautiful girl and the boy, were
the only ones who had been left behind in the house when
the others had gone. They were sitting on the floor, looking
at each other with a look of surprise and joy. They had
never seen each other before, and now they were together.

The girl was looking at the boy with a look of surprise
and joy. She had never seen him before, and now he was
sitting next to her. She was looking at him with a look of
surprise and joy. She had never seen him before, and now he
was sitting next to her.

The boy was looking at the girl with a look of surprise
and joy. He had never seen her before, and now she was
sitting next to him. He was looking at her with a look of
surprise and joy. He had never seen her before, and now she
was sitting next to him.

The girl was looking at the boy with a look of surprise
and joy. She had never seen him before, and now he was
sitting next to her. She was looking at him with a look of
surprise and joy. She had never seen him before, and now he
was sitting next to her.

The boy was looking at the girl with a look of surprise
and joy. He had never seen her before, and now she was
sitting next to him. He was looking at her with a look of
surprise and joy. He had never seen her before, and now she
was sitting next to him.

Josephine's Story

At about 1880 Josephine was a young girl who was
living in a small house in a small town. She was a very
beautiful girl, and she was very kind. She was very
popular with the other girls in the town. She was very
kind to everyone, and she was very helpful.

Josephine's Story

Josephine was a very beautiful girl, and she was very

Visitors:

5/27 Gordon W. Robertson, Water Resource Branch, N.P.S. Wn. D.C.
5/31 Jimmie Brewer, Superintendent, Tuzigoot National Monument
5/31 Ray Martinez, Clerk-accountant, Grand Canyon Nat'l Park
6/3 Jim Cole, Biologist, Region II office, N.P.S. Omaha, Neb.
6/15 Lawrence Scheier, Mechanic, Grand Canyon National Park
6/17 Clifford Flynn, Sanitation Dept. Grand Canyon, Nat'l Park
5/31 Carl Walker, Chief Clerk, Grand Canyon National Park
6/22 Dr. & Mrs. Harold S. Colton, Museum of Northern Arizona
6/22 Miss Kathryn Bartlett, Museum of Northern Arizona
6/24 LeRoy Brown, Concession Div. N.P.S. Washington D.C.

Personnel:

Mr. Robert H. Viklund who has been employed as Seasonal Park Ranger at Sunset Crater for the past several years left on June 10 to received a permanent clerk position at Bandelier National Monument.

Mr. Dale Slocum entered on duty as Seasonal Park Ranger on June 13 at Sunset Crater to replace Mr. Viklund.

Maintenanceman Joe Bean was on annual leave May 28 & 29 and June 2 & 3. He was on sick leave June 18, 23 and 25.

Park Ranger William C. Bullard Jr. took annual leave May 29.

Local Items:

Surplus food in the form of dried milk, eggs and honey was distributed to the local Navajo's on June 22.

Spring Flow:

Wupatki - 180 GPD This is 60 GPD less then last year. Both
Heiser - 1200 GPD springs are under last year even with the
good wet winter.

Frederick R. Brueck

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
 "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
 "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
 "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.
 TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICE TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

NAME Fred W. Binnewies
TITLE Superintendent

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
 "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
 "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
 "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.
 TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

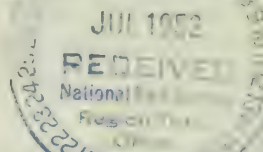

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

 NAME J. H. ...
 TITLE Supt.

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
 "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
 "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
 "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

NAME Clair Cook
TITLE Superintendent

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
 "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
 "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
 "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATION OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
 "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
 "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
 "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).

TITLE Supt.

SERVICES FURNISHED VISITORS ON A UNIFORM BASIS FOR ALL N.P.S. AREAS.

EXPLANATION OF TERMS USED

"INTERPRETIVE" PERSONNEL ARE NATURALISTS OR RANGER NATURALISTS, HISTORIANS, AND HISTORICAL AIDES.
 "ADMINISTRATIVE" ARE SUPERINTENDENTS, ASST. SUPERINTENDENTS, ETC., CALLED ON TO ASSIST WITH INTERPRETATION.
 "OTHER" ARE RANGERS, CLERICAL PERSONNEL, AND THE LIKE WHO MAY BE CALLED IN TO HELP INTERPRET THE AREA.
 "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.

TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITORS USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICES, TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

 "CONTACT" IS A CONNECTION, INTERPRETIVE IN CHARACTER, BETWEEN A PERSON AND A NATIONAL PARK SERVICE EMPLOYEE OR A PARK INTERPRETIVE DEVICE, EXCLUSIVE OF RADIO, BOOK, PAMPHLETS, AND THE LIKE.

CONDUCTED TRIPS: CARAVAN OR HIKING TRIPS CONDUCTED BY N.P.S. PERSONNEL FOR GENERAL FIELD ACTIVITIES.
 TRIPS SPECIFIC TO RUINS AND HISTORICAL HOUSES SHOULD BE REPORTED ON LINE 3. BE SPECIFIC UNDER OTHER TRIPS AS TO TYPE OF CONDUCTED TRIP SUCH AS BOAT, SKI, OR OTHER ORGANIZED ACTIVITY.

TALKS: REGULARLY SCHEDULED TALKS WITHIN SERVICE AREAS PRESENTED EITHER BY SERVICE PERSONNEL OR BY OUTSIDE SPEAKERS UNDER SERVICE SPONSORSHIP. NOT TO INCLUDE ANY TALKS MADE AS PART OF A CONDUCTED TRIP OR OTHER INTERPRETIVE DEVICE.

ATTENDED INTERPRETIVE STATIONS: ACTUAL COUNT OF PERSONS USING THE STATION (LIBRARY, CONTACT STATION, EXHIBIT ROOMS, STUDY COLLECTIONS, ETC.), COUNT BEING MADE BY SERVICE PERSONNEL IN ATTENDANCE. CHECKING STATIONS OR OFFICES DISPENSING INFORMATION RATHER THAN INTERPRETIVE SERVICE SHOULD NOT BE CONSIDERED AS ATTENDED INTERPRETIVE STATIONS.

INFORMATION IS FACTUAL MATTER RELATIVE TO PHYSICAL DEVELOPMENTS, PHYSICAL FACILITIES, GEOGRAPHIC LOCATIONS, RULES AND REGULATIONS OF THE AREA, AND THE UTILIZATION OF THESE FACILITIES BY THE PUBLIC. IT INCLUDES DATA ON ROUTES AND ROADS, HOTEL ACCOMMODATIONS, BUS AND TRAIN SCHEDULES, AND SIMILAR MATTERS OUTSIDE OF THE AREA REGARDING WHICH VISITORS INQUIRE.

INTERPRETATION IS AN ACCURATE EXPLANATION OF THE MANIFESTATIONS OF NATURAL HISTORY AND HUMAN HISTORY FOUND WITHIN THE AREA.

UNATTENDED INTERPRETIVE DEVICES: UNDER THIS HEADING SHOULD BE ESTIMATED AS ACCURATELY AS POSSIBLE ALL VISITOR USING EXHIBITS-IN-PLACE, ORIENTATION STATIONS, AND OVERLOOKS, WAYSIDE SHELTERS HOUSING INTERPRETIVE DEVICE TRAILSIDE EXHIBITS, SELF-GUIDING NATURE TRAILS AND AUTO CARAVAN ROUTES, AND THE LIKE AT WHICH SERVICE PERSONNEL IS NOT ON DUTY. HISTORICAL AREAS WILL FIND IN MANY CASES THAT THIS SECTION OF THE FORM DOES NOT APPLY.

INTERPRETIVE ACTIVITIES OUTSIDE THE AREA: THIS INCLUDES ALL INTERPRETIVE ACTIVITIES PERFORMED OR PROVIDED BY SERVICE PERSONNEL OUTSIDE THE AREA.

INSTRUCTIONS FOR FILLING IN THE FORM

(FILL IN ONLY THOSE BLOCKS THAT APPLY)

COLUMN 1 RECORDS THE NUMBER OF TRIPS CONDUCTED DURING THE MONTH, THE NUMBER OF TALKS MADE, AND THE NUMBER OF INTERPRETIVE STATIONS AND DEVICES OPEN TO THE PUBLIC. THE NUMBER OF DAYS THE STATIONS AND DEVICES WERE AVAILABLE MAY BE INDICATED UNDER "REMARKS".

COLUMN 2 INDICATES THE TOTAL ATTENDANCE OF VISITORS AT EACH CLASS OF TRIP, TALK, STATION, OR DEVICE. PLEASE TOTAL EACH COLUMN IN EACH BLOCK. SPACE FOR A TOTAL OF ALL INTERPRETIVE CONTACTS IS PROVIDED.

COLUMN 3 SHOWS THE AVERAGE AMOUNT OF TIME OF EACH CLASS OF SERVICE, OR THE AVERAGE TIME SPENT BY VISITORS IN USING EACH INTERPRETIVE DEVICE. SOME STUDY OF VISITOR HABITS MUST BE MADE WITH PERIODIC CHECKING AT OCCASIONAL INTERVALS.

INTERPRETIVE ACTIVITIES OUTSIDE OF THE AREA ARE INCLUDED ON THIS FORM AS A MATTER OF RECORD ONLY. THEY SHOULD NOT BE INCLUDED IN THE TOTALS. GIVE TYPE OF ACTIVITY; SUCH AS TALK, BROADCAST, EXHIBIT, ETC.; DATE; ATTENDANCE; AND OTHER DATA NECESSARY TO DESCRIBE THE ACTIVITY.

TOTALS: TOTAL ATTENDANCE SHOWS THE ACTUAL NUMBER OF VISITORS WHO TOOK ADVANTAGE OF THE VARIOUS INTERPRETIVE SERVICES OFFERED. SINCE EACH VISITOR MAY USE SEVERAL DIFFERENT INTERPRETIVE DEVICES, THIS ATTENDANCE MAY RECORD A TOTAL CONSIDERABLY IN EXCESS OF THE VISITORS REGISTERED IN THE AREA DURING THE SAME PERIOD. FOR COMPARISON, THE TOTAL NUMBER OF VISITORS TO THE AREA DURING THE MONTH SHOULD BE SHOWN.

GOVERNMENT PUBLICATIONS: (FOR HISTORICAL AREAS) INDICATE BY NAME OR NUMBER THE COPIES SOLD AND ON HAND.

THIS REPORT DUE: FROM ALL NATIONAL PARK SERVICE AREAS PROVIDING INTERPRETIVE SERVICES. RETAIN ORIGINAL IN AREA FILES. IN AREAS EMPLOYING NATURALIST THIS REPORT TO BE ATTACHED TO HIS MONTHLY NARRATIVE REPORTS. IN OTHER AREAS IT SHOULD BE PRESENTED AS A SEPARATE REPORT WITH COPIES FOR COORDINATING SUPERINTENDENT, REGIONAL DIRECTOR AND DIRECTOR FORWARDED THROUGH ADMINISTRATIVE CHANNELS. DATE DUE EACH MONTH IN ACCORDANCE ADMINISTRATIVE MANUAL, VOL. 15, CHAPTER 8 (REPORT 8M3) AND 9 (REPORT 9M3).
